**2022-2023 General Fund Expenditure Summary**

## PERA On-Behalf Fund

The State of Colorado will provide annual direct payments to Colorado PERA (Public Employees' Retirement Association) in the amount of \$225 million, demonstrating their commitment to the long-term viability of PERA. The payment is to continue until PERA's unfunded liability is eliminated.

In addition, during the 2022 legislative session lawmakers passed a bill that will provide funds to make up for a \$225 million payment that was missed in July 2020. The payment was skipped due to poor state economic conditions during the pandemic.

These payments, made on-behalf of PERA covered employers, are allocated based on the proportionate amount of annual payroll to the School Division Trust Fund, State Division Trust Fund, Judicial Division Trust Fund, and Denver Public Schools Division Trust Fund. GAAP (Generally Accepted Accounting Principles) require each entity to report its proportionate share of the on-behalf payments as both a revenue and expenditure. Because these offsetting entries have no financial impact on district operations, we have chosen to record them in a new stand-alone sub fund to the General Fund.

Colorado PERA does not provide the calculations of each district's proportionate share of on-behalf payments until after year-end. As such, budgeted amounts represent a conservative estimate based on prior years' data.

# Colorado Preschool Program

Colorado preschool programs were established in January 1989, according to C.R.S. 22-28-104. "The purposes of the program are:

- To serve four-year- and five-year-old children who lack overall learning readiness due to significant family risk factors, who are in need of language development, or who are receiving services from the state department of human services pursuant to article 5 of title 26, C.R.S., as neglected or dependent children and who would benefit from participation in the state preschool program;
- To determine the school districts in which participation in the state preschool program would be beneficial;
- To establish criteria to be followed by school districts in establishing district preschool programs; and
- To encourage parents to participate with their children in district preschool programs." (C.R.S. 22-28-104 [1])

The 2001 legislature established SB 01-123 concerning the required expenditure for the school district's preschool and full day kindergarten programs. Guidelines for establishing this fund include:

- For fiscal year 2001-2002 and every year thereafter.
- The district shall budget an amount equal to the district's PPOR (per pupil operating revenue) multiplied by the district's preschool FTE (October count).
- Such budgeted amount shall be allocated to the "Preschool and Kindergarten Program Fund." (SB 01-123)

Beginning in 2014-15, the Colorado Preschool Program was approved for expansion by the Colorado General Assembly. Additional slots for ECARE (Early Childhood At-Risk Enhancement) became available to allow the existing program to serve a greater number of CPP eligible preschool and kindergarten children. As a result of this legislation, District 51 applied for and received additional slots through ECARE.

In 2019, House Bill 19-1262 was passed providing funding for full-day kindergarten beginning in the 2019-20 school year. As a result, all current ECARE slots were converted to slots for preschool programs.

Fiscal year 2022-23 budget is based on 292.5 FTE.

# Juniper Ridge Community School

Juniper Ridge Community School is a multi-cultural K-8 charter school using an arts and nature-based curriculum rooted in the Waldorf tradition.

A great body of research suggests the Waldorf approach of using art, nature, and a unique understanding of child development helps all children—regardless of aptitude or socio-economic status--reach remarkable academic and personal success. Waldorf-inspired graduates love to learn and continue to seek knowledge far beyond the last day of school, becoming highly valuable employees and community members.

Traditional Waldorf schools are tuition-based and often inaccessible to all but a small tier of students. JRCS believes this outstanding educational model should be available to all children, regardless of finances, which is at the heart of the creation of this outstanding school.

The revenue for the 2022-23 school year is based on 404 FTE.

Per pupil revenue  $\$9,043.23 \times 404 \text{ FTE} = \$3,653,465$

# Mesa Valley Community School

In 2007, a group of families and community members in the Grand Valley began exploring the idea of blending homeschooling with public schooling, keeping the best of each and making a hybrid more robust than either alone.

After negotiating a contract with School District #51, Mesa Valley Vision—Home and Community Program opened its doors for the first time. The 2008-09 school year was the first of six great years of operation for MVV. Families liked the opportunities MVV provided, and the school did very well, getting excellent performance ratings.

In 2013, it became clear that the structure of MVV as a contract school would be impossible to maintain and the difficult decision was made to close the doors of MVV at the end of the 2013-14 school year.

However, many people were not willing to let this great idea die. Too many students had benefited from being able to pursue a personalized learning plan supported by District and private resources. A group of people worked hard to create a new school which would fill the gap that MVV was leaving behind. This school would also be built on the solid principles of personalized education in a variety of environments.

In early 2014, an application for Mesa Valley Community School to become a District #51 charter school was submitted for approval and the new school opened its doors for the 2014-15 school year.

The revenue for the 2022-23 school year is based on 260 FTE.

Per pupil revenue  $\$9,043.23 \times 260 \text{ FTE} = \$2,351,240$

# Physical Activities

This fund accounts for most of the revenue and expenditures associated with athletic programs in the four high schools. Actual costs for student athletics and activities are split between two different funds. The General Fund covers salaries and benefits for coaches, activity sponsors, and athletic directors, as well as such indirect costs as maintaining athletic fields, utilities for athletic facilities, and supplies. Revenue from gate receipts and student participation fees are reported in the Physical Activities Fund. District 51 believes that student participation in athletic and activity programs is essential for a well-rounded education. In order to allow as many students as possible to participate, fees need to be kept within reasonable limits. Therefore, District 51 chooses to fund a part of the costs associated with these activities.

**Total Expenditure = \$786,000**

## Governmental Designated Purpose Grants

The Governmental Designated Purpose Grants Fund accounts for revenues from federal, state, and local grants where expenditures are restricted to the specified purpose in the grant agreement. The district limited the number of state grants it accepted prior to 1999 because of limitations in revenue growth proscribed in an amendment to the state constitution. Voters approved the revenue limitations be lifted in a November 1999 election.

**Total Expenditure = \$65,501,718**  
**Per Pupil Expenditure = \$3,221.99**

# Bond Redemption

The Bond Redemption Fund is required by state law to provide revenue for repayment of bonded indebtedness which has been approved by the voters. Property taxes are levied each year in an amount sufficient to cover only the required principal and interest payments. These are long term obligations of the school district and by law, monies in this fund cannot be used for any purpose other than to retire voter approved debt.

Colorado Revised Statutes, Section 22-42-104, provides a maximum bonded indebtedness of "twenty percent of the latest valuation for assessment of the taxable property in such district, as certified by the assessor to the board of county commissioners."

This Bond Redemption Fund Budget Summary accounts for the property taxes received and the payment of principal and interest on the district's 1996 General Obligation Bonds, 2004 General Obligation Bonds, and 2018 General Obligation Bonds.

Approved by the voters in November 1996, the 1996 General Obligation Bonds were approved to build two new elementary schools and one middle school, as well as to extend current building capacities.

The 2004 General Obligation Bonds were approved by the voters in November 2004. These bonds were approved to build two elementary schools and an 8/9 school, replace a middle school and an alternative school, and provide maintenance and upgrades to existing sites.

Approved by the voters in November 2017, the 2018 General Obligation Bonds were passed for priority 1 maintenance projects, the replacement of Orchard Mesa Middle School, technology upgrades, a gym at Dual Immersion Academy, an auxiliary gym at Palisade High School, and security features at schools across the district.

In November 2021 voters approved the 2022 General Obligation Bonds for a new Grand Junction High School and the remodel of some existing buildings on the site.

# Capital Projects

Capital Projects Fund is funded by monies allocated pursuant to the provisions of section 22-54-105(2) CRS transferred from the General Fund. Such revenues may be supplemented by gifts, grants and donations. Per student amount to be transferred is determined each fiscal year. The amount is dependent upon state funding received by the state. Funding is then distributed to the general fund, capital projects and insurance funds.

According to CRS 22-45-103 (l)(c), expenditures from the fund shall be limited to long range capital outlay expenditures and shall be made only for the following purposes:

- Any acquisition of land, improvements, construction of structures or additions to existing structures, and acquisition of equipment and furnishings;
- Alterations and improvements to existing structures;
- Acquisition of a school vehicle, or other equipment;
- Any installment purchase agreements or lease agreements with an option to purchase for a period not to exceed twenty years and any lease agreement without the option to purchase;
  - Any software licensing agreement;
  - Acquisition of computer equipment.

Expenditures from the fund shall be authorized by a resolution adopted by the Board of Education at any regular or special meeting of the Board. The resolution shall specifically set forth the purpose of the expenditure; the estimated total cost of the project; the location of the structure to be constructed, added to, altered, or repaired; a description of any school buses or equipment to be purchased and where such equipment will be installed.

The budget is structured to provide authorization for expenditure of all possible funds which may be available. This includes possible balances that remain from previous projects, estimated carryover funds from the preceding year, and new revenue for the budget year. Any balance remaining upon completion of any authorized project may be encumbered for future projects which are authorized as provided in C.R.S., Section 22-45-103(c).

**Total Expenditure = \$6,351,724**

**Per Pupil Expenditure = \$312.44**

## Medical Insurance

On November 11, 2003, the Board of Education approved the option to move to self-funding for employees' medical coverage. This health benefit plan for employees became effective January 1, 2004.

Self-funded plans are health plans developed and managed by the school district. The district uses a third-party administrator to support the plan. Under the self-insured arrangement, the district chooses to retain the risk rather than pass it on to an insurance company or Health Management Organization (HMO). Both the employee and employer may make monetary contributions to fund the plan, as with a traditional health insurance program.

In order to insure against catastrophic losses, the district purchases "stop loss" insurance.

# Insurance

Colorado Revised Statutes, Section 22-45-103, allows school districts to maintain a fund created solely for the management of risk related activities. The Insurance Fund is funded by a transfer from the General Fund. Activities for this fund include:

- Pure self-insurance needs for property, liability, and workers compensation
- Aggregate contributions for organized and licensed pool participation
- Accumulation of funds to meet future self-insurance needs
- Insurance premiums paid to commercial insurance firms
- Staff wellness programs
- School safety and security

Coverage for property and liability is through membership in the Colorado School Districts Self Insurance Pool. Participation in pools and associations help keep costs to the district as low as possible.
