

1

Power up the Chromebook

Press the power button in the upper right corner, or some Chromebooks will have the power button on the side of the device.

2

The Chromebook should automatically search for available Networks, in which case simply choose your (home) Wi-Fi & enter your password

3

But...if it doesn't auto-search, **click the Quick Settings Panel at the bottom right of your screen**

4

Click on 'Not connected'

5

Select your (home) Wi-Fi Network

6

Enter your (home) Wi-Fi Password
Click Connect, and...
Wah-Lah, you should be connected!

Join Wi-Fi network

SSID

NETGEAR70

Security

PSK (WPA or RSN)

Password

Allow other users of this device to use this network

Cancel Connect

Take Note!

If it doesn't look like it's connected and just spins, click the back button and the login prompt should come up. Also, after shutting down, you may need to reconnect the Wi-Fi.
