

Q11 Is there any additional feedback you would like to add?

Answered: 2,709 Skipped: 3,318

Fall Planning Survey 2020

#	RESPONSES	DATE
1	While I understand there are risks involved in having our children return to face to face, I do believe that if schools practice social distancing and spacing and educate our children/remind them to wash hands, a return to normal school hours would help. This is especially true for full time working parents like myself. We had a tough time keeping up on supporting our children in online learning PLUS working as first line responders ourselves. Thank you! :)	7/10/2020 3:58 PM
2	As a parent AND teacher I believe that it's unacceptable and irrational to expect ANYONE in the schools to "social distance" and wear masks, especially my son who is entering Kindergarten and myself with a significant respiratory health concern. I also strongly agree that my children need to be in school as much as possible, with no "social distance" restrictions for their mental health. If there will options for students will their be options for their parents who are also teachers?	7/10/2020 3:52 PM
3	No	7/10/2020 3:49 PM
4	No	7/10/2020 3:48 PM
5	Based on current research surrounding wearing of masks as an effective form of protection for not only others but also for oneself, it would be in best of interest of all present onsite for learning that masks be mandatory, not recommended.	7/10/2020 3:45 PM
6	I would support mandatory mask requirements.	7/10/2020 3:38 PM
7	As a teacher in the district, I feel like I've been left out of the conversation. I will respond to our union's request for feedback, but there are many of my colleagues that are not in the union and have not been solicited in the matter. I am sad that our district is taking so long to work to get decisions in place. There are districts larger than ours in the state that had stakeholder input in May and June and have already published intentions for 3 different ways of opening, depending on the state's directives. Delaying opening until after Labor Day is an option to consider. I am anxious about sending my children to school, but I honestly have no other option if schools are physically open since I will be at school every time the doors open. I would like to seriously consider students attending part-time or in shifts to reduce classroom capacity. Wearing masks is necessary. Six-foot distancing in classes of 25-29 (many of FMS's rooms are different in size) is unrealistic. The answer is not easy, and I know a vocal part of our parent community are "threatening" to withdraw their students if any restrictions are in place, and if D51 acquiesces, that would place our families even more at risk, a decision that frightens me for the good of our community and a detriment to the authority structure of our schools. I hope that there are options that keep our educators' families safe and do not tax us with double duties but rather relieve the work. Students must have access to technology to complete work, and student outcomes/work load must be renegotiated in order to better reflect the changes in learning environments. Thank you for your hard work, and I trust all voices will be taken into account.	7/10/2020 3:38 PM
8	Wccc welding program and his sign language class and arts, Mostly all senior classes , non remote would be best	7/10/2020 3:35 PM
9	I have serious concerns with many of projected models of reopening that adhere to current health department standards. While I do acknowledge and appreciate all of the hard work that the district is doing to combat these challenges, my concerns are not directly related to the virus, but rather the mental and social ramifications of requiring some of the more prescriptive measures such as social distancing when dealing with peer interactions at a young age. As you are well aware, humans are social creatures, and when considering the level of emotional involvement that my children have with their peer group, preventing their face to face interaction and depriving them of some of the fundamental components of development such as general social cues, interpretation of body language, and facial clues may be lost without direct contact or may be hidden behind a mask. These psychological challenges must be clearly on your minds as well as ours and I sincerely hope there are middle ground solutions that will address these hurdles. Thank you.	7/10/2020 3:35 PM
10	If the children had to do remote learning again the system needs to be modify and corrected to be one for the benefit of the children. The system applied for this year did not score their progress correctly and communications of assignments completed by students were not delivered. Any questions about I wrote my name is [REDACTED] and my number is [REDACTED]	7/10/2020 3:33 PM
11	No	7/10/2020 3:26 PM

Fall Planning Survey 2020

12	My opinion doesn't matter as much as those of public health experts. I hope you don't prioritize parents' opinions above those who actually know about this virus and its dangers. Please plan based on actual facts and expertise of epidemiologists and other public health experts.	7/10/2020 3:20 PM
13	If the additional learning hands on classes At wccc and the career center are not offered there is no reason for my Child to do face to face learning with the district. He can use goal academy as Their Remote learning system works correctly.	7/10/2020 3:17 PM
14	I would just like to add that our experience with online learning didn't have so much to do with the job that our teachers were doing as it had to do with my children and our dynamics at home. I feel that our schools did a wonderful job, under the circumstances, of delivering the content and being available to the students.	7/10/2020 3:15 PM
15	My child would like to attend hybrid and still be allowed to graduate with her class and was told that as of the time she asked, that was not an option.	7/10/2020 3:08 PM
16	While I feel D51 did the best they could with remote learning under the circumstances, there was a lot of variances between what different teachers were doing. Some were very involved, and some really didn't put any effort at all to be available to the kids. Especially at the middle school level. I am really hoping considering our extremely low numbers in Mesa county, that the kids will get to return with a high degree of normalcy.	7/10/2020 2:58 PM
17	I think that hybrid learning would be the best, as the student could get help with what they need help with and then could also stay safe with less interaction with all kinds of students but have some social life	7/10/2020 2:57 PM
18	Real books need to be put back into the classroom	7/10/2020 2:44 PM
19	We can not risk infecting his 90 yr old grandmother.	7/10/2020 2:43 PM
20	If we move over to an online that there would be more of an online schedule. The kids are still needing to have a teacher teach the class. Example: Mon and Weds periods 1-4 with set times. Tues and Thurs the remaining classes The student logs into zoom they have the teacher teaching the class just like in the classroom. Maybe the teachers still have access to their classrooms so they have the tools needed to teach. We did ok this spring but just handing out assignment with random meeting was not ideal. The kids need the teacher instructions. Meeting could be recorded so kids could log in at a different time if scheduled time doesn't work.	7/10/2020 2:38 PM
21	No	7/10/2020 2:31 PM
22	My kids need to be in school face to face to properly learn. Distance learning is hurting them	7/10/2020 2:31 PM
23	I was very impressed with our Lincoln Orchard Mesa Elementary Leopards!!!! The teachers, Mr. Foster, Mrs. Fowler, Lynn! I could go on and on how amazing they brought it all together with very short time. I am the Vice President of our PTA Board. I truly believe it is in the best interest for all children (especially mine), need to physically be back to in person teaching. I believe it is significantly important for all aspects, but very important for their psychological well being. I [REDACTED] which causes me to have a severe compromised immune system, and is not good for me to get sick. With that being said I believe in the school system, and my children's resilient immune systems to fight off whatever there is. Our kiddos need to go back to school, PLEASE make it happen!!	7/10/2020 2:30 PM
24	I don't know what I'd do , being a single mother with no help locally, if she couldn't go back to school in the fall.	7/10/2020 2:23 PM
25	No.	7/10/2020 2:21 PM
26	I feel it is impairative that the children return to school. They need socialization and direction from teachers.	7/10/2020 2:18 PM
27	No	7/10/2020 2:17 PM
28	My kids are more hands on learning and need socializing, I understand the situation as to be what it is but remote learning put them both in a depressed state and we are still recovering. Having friends and teachers to see helps their day to day moving forward. The teachers did great in the remote learning to the best they could but I know my youngest struggled to understand the work even with asking questions in emails.	7/10/2020 2:12 PM
29	Not at this time	7/10/2020 2:12 PM

Fall Planning Survey 2020

30	Thank you all for everything that you do! It is an extremely frustrating and uncertain time we live in. You have all been great at communicating and we appreciate it!	7/10/2020 2:06 PM
31	It's hard for me to understand how you would not require students to wear masks. What is the rationale for this decision. It needs to be articulated clearly and loudly.	7/10/2020 2:04 PM
32	I cannot express enough how important it is that schools reopen for a normal year in my and many others opinion. I am disappointed in general with D51 school district as a whole and would appreciate a drastic improvement in pretty much every aspect of your district.	7/10/2020 2:02 PM
33	No	7/10/2020 1:58 PM
34	I think there should definitely be A LOT of sanitizing in the schools, I mean hourly. AND to have kids wash their hands hourly	7/10/2020 1:58 PM
35	I would like to add that given our extremely low number of cases in the valley, there shouldn't even be any discussion of doing anything BUT going back to in person/in seat learning. Before Coronavirus, our valley was in the midst of a crisis with teenage suicides. We CANNOT stop LIVING! Let our kids go back to school! And for the love of God, don't make them wear a mask!	7/10/2020 1:54 PM
36	Masks should absolutely NOT be required to enter the school buildings. I have been in healthcare for many, many years and full-heartedly believe this.	7/10/2020 1:53 PM
37	I would hope that the Daily Sentinel would be part of a positive community around whatever D51 decides to do. In the past they haven't done a good job of that. It's an untenable position - damned if they do, damned if they don't. The community needs to come together and be supportive. The GJ Sentinel needs to be on board.	7/10/2020 1:51 PM
38	I am extremely worried about the virus, I know that my children would be fine and recover but myself and my husband are at risk, also grandparents are at risk.	7/10/2020 1:51 PM
39	I feel that making masks optional is a very difficult position to put a child into and an inappropriate burden to place on teachers. The school system has a duty to be a safe haven for ALL children and allowing unmasked children/staff/faculty does not encourage that environment in this case. It's a shame for children and for teachers to be sent onto the front lines without proper protection. I would also appreciate a great detail more information about policies and procedures in place to make an informed decision about the safety of the back-to-school plan. Clearly the success or failure of opening up our county depends upon the success or failure of the school reopening, communication is key to succeeding together as a community!	7/10/2020 1:49 PM
40	My 5th grader lost the last 1/4 of the School year. I am hoping she will catch up in Middle School, but worried about it. I work full time and cannot stay home with her. My 9th grader is in the STEM Program so he did much better, but my kids really want to go back to School and I really want them to as they do much better in a Structured School setting. My kids both got way behind in assignments and we ended up having to do some serious crunching at the end of the school year to save their grades. My 5th grader ended up getting "N's" which I was not happy about it so I am really hoping that she gets to enjoy a good middle School experience because 5th grade was a Wash!	7/10/2020 1:45 PM
41	We will send our child to school if we believe the school will to everything to maintain a healthy environment including social distancing.	7/10/2020 1:43 PM

44	Why is the question of reduced meals on this survey!??!!	7/10/2020 1:22 PM
45	I do not want masks to be mandatory. It's shown that COVID is not as harmful to kids, so please let's get them back to normal	7/10/2020 1:22 PM
46	Children should be allowed to go back to school without masks or social distancing.	7/10/2020 1:19 PM
47	We appreciate you and everything you are doing during this trying time	7/10/2020 1:14 PM
48	My husband and I are both teachers, he has two schools, so we will have 4 school's exposure. We appreciate when meetings can be via Meets, and efforts to reduce cross exposure to just	7/10/2020 1:13 PM

Fall Planning Survey 2020

one class. I am also wondering if students might be able to be grouped by parents/families caution level, so one or two families not talking precautions don't put the rest at risk that do care. We have issues with insufficient internet connectivity should online be necessary.

49	If one case could shut down a whole class or school for two weeks- how are you not requiring masks as that is the main path for transition.	7/10/2020 1:11 PM
50	I am really hoping that if students return to classrooms in the fall that there will be a mandatory mask policy. I am apprehensive to send my student into a building where every precaution is not in place and mask wearing has been proven to be more effective than not wearing one. I am concerned for our city if the infection rate skyrockets after heading back to school. The spread through schools will effect not only the students and the staff, it will also effect every family member of our students and staff and then eventually the rest of the community.	7/10/2020 1:08 PM
51	My children can not handle remote learning. One of them doesn't understand it & the other needs way more help than remote learning can give.	7/10/2020 1:08 PM
52	my child will not get the COVID vaccine, wear a mask, or socially distance. Let kids be kids, and keep the politics out of learning. It is our choice as parents to get vaccinations. Also I want my kids actual grades from we were doing remote learning, not just "n" in every subject.	7/10/2020 1:07 PM
53	Our teens would mostly benefit from face to face learning. The home base approach will not give them the education that is given at the school. I am not a teacher and teachers know exactly how to teach, explore and explain subject matter. My kids are missing social interaction with students and their teachers. Of course, I want my kids safe but I also don't want them wearing masks throughout the day. I want them safe and also getting a good education.	7/10/2020 1:06 PM
54	Will students & teachers have temperatures taken each morning?	7/10/2020 1:03 PM
55	masks MUST be required for in person learning. You cannot risk the lives of children and teachers! Especially after xutting teacher salaries this coming school year	7/10/2020 12:57 PM
56	Our children need each other. They need to be In school. Too many mental health issues not having there friends around. Sports around.	7/10/2020 12:54 PM
57	If 100% remote, would only like google classroom once a day at this young age, not twice. That was too much last Spring.	7/10/2020 12:54 PM
58	If masks will be required to return to school for in person learning my children will not return in person and we will request remote learning	7/10/2020 12:54 PM
59	I am worried about sending my child back to face to face school when masks are not required. I am also concerned that them returning and then having to go back to remote due to an increase in cases.	7/10/2020 12:52 PM
60	It is definitely not safe as numbers rise to risk the lives of teachers and students to please a political message... set back the start of the school year and keep kids safe! If we open Aug 10 and go face to face by LaborDay we could see multiples sick! I think it in insensitive to the well being of families health and safety to open early and in person. It is simply not worth the risk of lives... please consider working to enhance on line abc keep our community healthy. Thank you	7/10/2020 12:44 PM
61	Thank you for all your hard work!	7/10/2020 12:43 PM
62	Please do not rush this.	7/10/2020 12:40 PM
63	I thought the online learning was provided with good intentions and care, but the reality of taking my child to work with me (as her safest child care option) and then returning home and having online school to do together after a full day of work was exhausting and unrealistic. The curriculum provided was fine but in reality making it work was very hard.	7/10/2020 12:37 PM
64	In-person learning can not be replaced by or compared to remote learning for elementary and middle school students. Direct, physically engaged learning is crucial for children's brain development and social-relational well being. Proper, in person learning should remain available for everyone.	7/10/2020 12:35 PM
65	I think it would crazy to put 1600 students back in a high school. I hope we are seriously considering a hybrid model. I am not sure how I would feel about sending my son's into that environment until there is a vaccine. Schools have always been a great place for all sorts of germs to spread (the common cold, the Nora virus, strep...the list goes on and will at some point include Covid).	7/10/2020 12:33 PM

Fall Planning Survey 2020

66	In person schooling is very important to the mental health of the children of the community.	7/10/2020 12:27 PM
67	Having optional masks is worthless. Masks should be required. That's how our hospitals run things. If particular students or families are unwilling to wear masks, then an online option can be made available to them. If in-person is the model, then masks must be mandatory.	7/10/2020 12:25 PM
68	How will CDC guidelines be implemented in D51?	7/10/2020 12:24 PM
69	N/a	7/10/2020 12:24 PM
70	The sooner we get back to normal the better, by keeping everything shut down, we are just dragging it out longer.	7/10/2020 12:21 PM
71	I am in full support of 100% face-to-face learning. I think that the district and the teachers did the best they could with online learning in the spring, but I thinking learning suffered tremendously.	7/10/2020 12:19 PM
72	I would love 100% in person, but also see value in a hybrid. If some students are doing at home and some in class, those who might be sick/symptomatic could switch to online for a period of time so that they don't get behind.	7/10/2020 12:18 PM
73	I would like to see masks as a requirement because science shows that is the most effective way to slow/stop the spread - if we prevent people from spreading their droplets! I know it isn't realistic for the younger kids, but we could try our best. I also am a professor at CMU and we are doing hybrid. I had MANY challenges last spring as a FT single parent with three kids in D51, trying to navigate my own rush to online format for my nursing classes, plus having to help my three kids figure out their online learning. I just don't think it was really effective, though I do think the teachers did the best they could with the given circumstances. I would be open to hybrid, but prefer face-to-face unless we spike, then I would prefer to stop sending my kids if risk became too great. There is still too much we don't know about the long-term effects of COVID to risk the health of our kids and our teachers.	7/10/2020 12:17 PM
74	I thought rimrock did a good job with remote learning. I feel that we can now safely have our children in face to face learning	7/10/2020 12:16 PM
75	No	7/10/2020 12:15 PM
76	I just read the update from Diane Sirko. I'm baffled as to why masks would not be required in school, at least for upper elementary, middle and high schools. This is a simple way to slow the spread. Kids won't always adhere to physical distancing, but may be more willing to wear a mask especially if it's required and everyone is doing so. I strongly oppose face to face contact in schools without masks being worn. Not imposing this mandate is foolish on the school district's part.	7/10/2020 12:14 PM
77	I think different grades on different days combined with remote learning and eating outside or in classrooms would be helpful.	7/10/2020 12:13 PM
78	It will be hard not to send my child back if in-person classes are offered - I'd rather not, but I may have to. If in-person is being offered, please make masks MANDATORY, not optional.	7/10/2020 12:13 PM
79	We appreciate everyone that is working so hard to make changes to keep kids as safe as possible.	7/10/2020 12:12 PM
80	No	7/10/2020 12:11 PM
81	My daughter has stated that if masks are required or online schooling is the only option, she will drop out.	7/10/2020 12:09 PM
82	Many parents who work in health care, like myself, don't have the time to do remote learning with their children. Especially if they only have 2 hours of time with the parent before bedtime. It's not feasible for most working parents to have remote learning.	7/10/2020 12:06 PM
83	My children didn't do well at all with remote learning at all. Took the teachers to long to get back to them with answers to questions and over all it wasn't right for my children. I'm afraid that if they had to do remote learning again my kids would fail in their learning.	7/10/2020 11:55 AM
84	My children both did not do well with the 100% remote learning. For special education student it was a fight to have her sit in front of a computer and I have to take time out to do it with her as she is unable to read at the moment. My older student is now in counselling and felt very	7/10/2020 11:50 AM

Fall Planning Survey 2020

overwhelmed by the changes and struggled as well when doing 100% online learning. If we need to continue to do online learning I would love to see some type of hybrid learning and more support for students with special education needs.

85	Unless there is an overwhelming health risk to the community, we would support a return to 100% face to face in person learning. Risk mitigation factors like wearing masks wouldn't bother us if they're deemed necessary.	7/10/2020 11:48 AM
86	Masks should not be required period.	7/10/2020 11:36 AM
87	Our kids did good with remote learning but there's nothing like face-to-face learning and the social interaction with their peers, they really missed it. I hope it can happen for them this fall , they're really looking forward to going back to school!	7/10/2020 11:02 AM
88	Go to 4 days	7/10/2020 10:59 AM
89	Given the circumstances last year, I thought [REDACTED] teacher did the best she could to get learning platforms out to parents. She also scheduled meetings so kids could see each other and talk in effort to keep some relationships in tact. We are hopeful that in person schooling will occur. Our current numbers are not promising at this point.	7/10/2020 10:54 AM
90	no	7/10/2020 10:53 AM
91	I understand that the end of the year was crisis learning for some, but I feel that students still needed to be learning and reviewing material for the last quarter needed to be changed the longer we were in quarantine. My middle school student did learn new material, but elementary students just did review. I hope if there is continued online learning that expectations will be for teachers to figure out how to teach new material and record their lessons so they are available to students when they need them. While a teachers concern for the students well-being has heartfelt sincerity and is necessary, there needs to be more of a focus on teaching so that students who are ready to learn can move forward and not be held behind.	7/10/2020 10:41 AM
92	Get these kids back to school!	7/10/2020 10:29 AM
93	If your not going to Providing in school learning full time taxpaying dollars shouldn't go to fund you any longer . If we will be teaching our children at home that is called home school we will no longer need your schools .	7/10/2020 10:17 AM
94	Kids need 100% face to face learning and interaction with other children. Politics don't belong in the school district.	7/10/2020 10:17 AM
95	Yes. Please do not do remote learning again. Parents and children both cannot do it. Parents have to work and cannot afford to send their children to daycare (which would not be any safer). Parents of small children cannot supervise their children's school work while trying to work. Furthermore, every parent I have spoken with, including myself, feel their children learned nothing from remote learning and were actually suffering both academically and socially by not being in a classroom setting. I have spoken to many parents who have also stated if this happens they will pull their children from the school district and homeschool as homeschooling would actually be more beneficial then distance learning. I 100% agree!	7/10/2020 10:16 AM
96	We should keep in mind that remote learning is different for everyone and we need to pay the special education teachers accordingly. So much more is being required of most of the special education people than regular teachers.	7/10/2020 10:05 AM
97	Please reopen the schools this fall. The risk that our children will lack necessary forward movement in their education is much higher than that of them contracting COVID-19. Also I am a working single mom and I do not have the necessary time to homeschool my son; if I did, I would homeschool him. Him being in school is invaluable to his future!	7/10/2020 9:54 AM
98	No	7/10/2020 9:49 AM
99	There is a virus, but it is comparable to a seasonal flu. The "crisis" is a political scam, and we need to stop playing that game.	7/10/2020 9:45 AM
100	I'd like to continue with the Juniper Ridge Community School curriculum, however, I'd like a remote learning option. If that's not possible, parents need to know ASAP so they can plan for the coming school year. Teachers need more support and training to produce a remote learning curriculum. I don't feel it's right to expect teachers to risk their health and their family's health	7/10/2020 9:39 AM

Fall Planning Survey 2020

with in-person learning. We're probably only talking a year that we can't do in-person school. I believe our kids will bounce back just fine.

101	I hope the school district listens to the health professionals and not the political establishment.	7/10/2020 9:31 AM
102	Although children and young adults seem to be relatively safe from severe symptoms of this virus, from a community health standpoint I can not in good conscience send my child back into a school building (or almost any building) without a vaccine and feel safe. I worry about the health and safety of teachers, staff, and those with vulnerable conditions. Numbers of cases are increasing rapidly and greatly among family members. I know we worry about the social/emotional health of our kids. But, what happens to that element when their teachers and family members get sick (and worse) all because we hastily sent them back to a knowingly unsafe environment? Our budgets have been slashed. There is absolutely no way we have the funds to do this safely.	7/10/2020 9:30 AM
103	I just want the kids and staff to be safe. If it is not safe, it is not worth putting the entire community at risk. It will be massively impactful to have the kids at home if communal gatherings cannot be safe for everyone, but we would rather deal with that stress/inconvenience/difficulty working than have more people die. We support teachers/staff and just want them to be safe.	7/10/2020 9:18 AM
104	I have one student that has migraines, anxiety and depression because of remote learning he was not able to do that by end. He was and is still struggling to look at a computer. He is getting better but still not well. It is his senior year and he has to do more than 50% hands on interactive classes he has to be in class for. My other student did well but socially he suffered. I could see it effected him and a lot of kids are going to have bigger problems with depression anxiety and other mental issues. Think this needs to be treated like colds, flu ect and kid stays or goes home if sick. Set up remote learning for kids that want to do that with school that does that. There will be kids, parents and teachers that are at risk that need that to expand. Those teachers know how and are set up for it.	7/10/2020 9:15 AM
105	The most important consideration in the decision to send my children back to school is whether I feel the health of the ADULTS in the school is being properly safeguarded.	7/10/2020 9:10 AM
106	Please review the excellent document by Children's hospital Colorado that has a tiered approach to reopening based on CDC and APA recommendations. It is a great practical and more appropriate /achievable plan for schools. As a physician in the community, following the science is a priority for my children and my patients.	7/10/2020 9:09 AM
107	Because of my health issues I am honestly afraid to send my child to school but would for her emotional needs to be able to be around other children as she is a only child and needs in person social interactions with her friends. I would just pray that District 51 strictly abides by all social distancing guidelines set forth by the cdc.	7/10/2020 8:55 AM
108	I believe my kids would learn better with 100% face to face schooling. With that being said though, I refuse to send my children to school if they will be required to wear a mask, have shots/ vaccines I don't agree with, or get in trouble for not "social distancing".	7/10/2020 8:53 AM
109	None	7/10/2020 8:43 AM
110	I am more than happy to work with a hybrid learning experience if that protected and or served teachers better.	7/10/2020 8:37 AM
111	I will not be sending my kids to public school if masks are required as well as the flu shot & or the "new" Covid vaccine they come out with. If any of those things are required I will be looking into homeschooling my kids. Thank you!	7/10/2020 8:35 AM
112	I cannot afford to stay home and home school my 4th grader. It was very tough to do that for the last month of school when we did it earlier this year. These kids need to be in school and I do not know what that looks like. I will support your decisions regarding school opening up in the fall. I know if may be a hard decision I am praying for the best solution. [REDACTED]	7/10/2020 8:33 AM
113	Let the kids come back they need the socializing as well as face to face!	7/10/2020 8:32 AM
114	It is highly suggested to have multiple plans, what is your plan if things change mid implementation? What are you doing for compensatory education, 6 month regression is all but to be expected despite the obligation to provide FAPE	7/10/2020 8:29 AM
115	my child will not recieve the COVID vaccine, wear a mask, or be forced to stay 6 feet apart from	7/10/2020 8:27 AM

Fall Planning Survey 2020

	his friends. Let children be children	
116	My done had a form of Dyslexia And needs extra help with reading and writing. So I'll still need that extra help for him.	7/10/2020 8:21 AM
117	Do not make the children wear face masks, this will likely be the make or break for our decision on this year's educational methods.	7/10/2020 8:19 AM
118	the kids need to be in school learning and taught by teachers because some of us parents are not good at some subjects	7/10/2020 8:12 AM
119	It's extremely important to restart normal face to face education in D51. The heath risk is much better understood than in the spring and manageable. Remote learning is all but completely ineffective for a large majority of students. Remote learning disadvantages lower income students. We as a community now have experience with remote learning and I have not heard any positive feedback. If we restart normally and the problem is NOT manageable, we can shutdown exactly as we did in the spring and at that time pursue remote learning. If we do not restart normally, we may lose an entire year of effective education.	7/10/2020 7:26 AM
120	My children need to be in school to learn the online schooling did not work for them and was very hard on me	7/10/2020 6:00 AM
121	I thought the remote learning got off to a slow start but became an effective tool I have health conditions that would probably kill me if I caught Covid so I worry about the full classrooms and how easily it can be passed along	7/10/2020 5:48 AM
122	I would just like to say thank you for all D51 did for our students during remote learning. It was short notice and you did everything you could under the circumstances to ensure our students could stay connected and learning. Our teacher even sent out projects, left on our doorsteps, to help keep them active. Should we have to do remote again, I feel confident that most needs will be met with direction and resouces.	7/10/2020 2:30 AM
123	I feel everyone is put at risk. Children DO NOT take universal precautions seriously. It's only a matter of time before Covid-19 shows up in the school district With no proven treatment I will not jeopardize my child's health	7/10/2020 12:40 AM
124	Please let them back. I don't know how to teach 6 kids. I'll buy soooo many school supplies and colorox wipes.	7/10/2020 12:09 AM
125	Our preference is to have our daughter return to school with 100% normality. There have been some states and counties mandating masks for school attendance. As a physician and mother, I would like to say that I feel extremely uncomfortable with the idea of having my child forced to wear a mask (which is essentially ineffective) in order to attend school in person. The wearing of masks should be optional and if this were mandated, I would likely choose to have my child learn via remote learning although I feel this is an inferior mode of learning for many students and I would like for my daughter to be able to see her friends and learn with her peers. COVID cases in this county have remained at a low rate (with no deaths as of this date), no more than the seasonal flu. And since our county has a variance, we should take the opportunity to set an example as one in which children are allowed to maintain some sense of normalcy. Children should be allowed to be children – they should play together, gather in groups, interact with one another. That being said, social distancing simply could not work in schools – firstly, it would be hard to enforce and secondly, that it would be detrimental for their well-being as it is essentially forced isolation in a child's mind. We should instead utilize common sense practices - if your child is sick, they should stay at home or be sent home. Additionally, masks are unlikely to be effective in children, who would absolutely be wearing them improperly, touching them throughout the day, playing with them, etc. And experience has shown that children do not transmit the virus at the same rate as adults do. Other practices, like utilizing plexiglass and enforcing social distancing, have no place in a healthy learning environment as it would make the children feel as though they were in jail. I hope that you will take into consideration the feelings of parents as you decide on your plans for the upcoming school year. These are our children – we are passionate about them being about to go to school and have a happy, healthy learning experience as is the right of any American child.	7/9/2020 11:34 PM
126	No.	7/9/2020 10:43 PM
127	While we would prefer for our daughters to attend school in person, we understand there may be a need to continue the distance learning model for the purpose of public health and safety. The in person model works well in that the students need the social interaction with their peers.	7/9/2020 10:30 PM

Fall Planning Survey 2020

129	We would like to go back to school like normal no masks and no changing the way we learn .	7/9/2020 10:22 PM
130	I would like to see the children go back to a normal school setting. No masks, no in room lunches. Normal school.	7/9/2020 10:08 PM
131	i lost 4 members of my family do to covic19 im afraid to send my kids to school if there is a way they can learn from home i will feel more save for them and me thank you	7/9/2020 9:37 PM
132	A hybrid model will make it difficult for two working parents to transport children.	7/9/2020 9:36 PM
133	It was nice she wasn't bullied for the last part of school though.	7/9/2020 9:34 PM
134	If marching band is cancelled then all sports should be cancelled as well.	7/9/2020 9:26 PM
135	Since we have a wide age difference in our children our only concern would be if the older ones had school days when the younger ones don't or vice versa. Because our oldest son helps by watching the young ones while we are at work. So if he was not available to watch the young ones we would have to find a daycare provider.	7/9/2020 9:26 PM
136	My daughter has dislexic has struggles with online learning but she does it and I'm lookin into R-5 for my son	7/9/2020 9:18 PM
137	District 51 is not like New York. Please apply precautions appropriate for our area not the same as more populated areas	7/9/2020 8:52 PM
138	no	7/9/2020 8:28 PM
139	I hope to see a requirement for masks during transitions (in line, etc) and optional for in the classroom. Children should change rooms as little as possible.	7/9/2020 8:26 PM
140	I think the benefit of face to face school outweighs the risk. I feel very strongly, as a registered nurse, that precautions of masks and washing hands truly are the best prevention. The emotional and social aspect as well as instruction, can not be duplicated in a remote environment for a large population of children. They are our future, and I feel this aspect alone should weigh heavier on the pro list than the con. With this being said, I understand that some parents are not comfortable with face to face education, I respect their decision and hope that maybe the classroom can be available for the entire day to help replicate a "traditional" school day for those not able to attend. My child will have to either be at school or a day care. If she is able to go to a day care, I, as well as others I have heard, struggle to find a reason that kids can go to summer camps/daycare but would not be able to be at a school. McConnell math and science center seems to have a great process in place currently, might be helpful. Thank you	7/9/2020 7:54 PM
141	We would love for our student to be in school 100%; however, if health officials do not advise this based on current conditions, we support whatever environment that continues our child's education safely (hybrid or remote). We believe that it is imperative to keep students and staff safe and healthy while promoting an effective education.	7/9/2020 7:46 PM
142	Student Willing to wear a mask during school hours.	7/9/2020 7:33 PM
143	The remote learning was an unpleasant experience. Each class/teacher had a different format with different timelines. This made it very difficult to keep everything straight. There were ongoing problems with seeing assignments posted on time and assignments being uploaded. You cannot see whether or not an assignment was successfully uploaded, and if schoology said the assignment was missing, it might be because the teacher didn't grade it or the assignment wasn't actually uploaded. This was very frustrating as a parent not knowing what to believe. Schoology may seem intuitive to teachers, but I had a very difficult time navigating it and there's no way you can expect children to manage the responsibility on their own. I attend CMU and had to deal with remote learning, and their platforms are way better. Schoology is just so clunky and everything is so spread out and difficult to figure out what to do or where to go. I am very computer literate and frankly, it is a nice thought, but schoology is a complete disaster for a remote learning platform. Everything our children have endured has been painful. Both parents work full-time, plus I go to school. We do not have the time for senseless busy work. If remote learning has to be a thing, you need to develop it as a home school curriculum, so our kids will have time for another healthy outlet, and not be frustrated with volumes of busy work. I greatly appreciate our teachers, but even they would acknowledge that school is basically a 5	7/9/2020 7:07 PM

Fall Planning Survey 2020

hr/day babysitter with about 3 hours of actual learning. So make it 3 hours of ACTUAL learning, or whatever the actual amount is. Hopefully it doesn't come to that. Our kids need to be in a structured environment with competent adults who can help them. Not every kid has a stay-at-home parent with the time or inclination to help. I would like to see D51 step up and reject the misinformed and accept the situation for what it is. Facts are no longer facts, and arbitrary measures for "health" are not going to improve the situation. As leaders, we should come together as one big team and objectively evaluate what the parameters are, and what makes sense. Our kids are healthy. I don't want my child wearing a mask all day. If you have them "safe" and "healthy", along with the rest of our community, I think we need something real. I can't express enough how much I reject everything government has done. Cold and flu season will be here before we know it, and you need to have a plan for being able to not kick kids out of school for 2-3 weeks when they get sick. Not letting people be exposed over the summer was a terrible mistake by our government, and now, it may all blow up again by the holidays. Network with home school parents so our kids can have an option besides the two you've presented. I would pay, so I'm sure others would as well. No "new normal". Let's get back to normal.

144	Good job trying to wrangle this covid thing	7/9/2020 7:06 PM
145	As a full time working parent it is very hard to juggle working full time meeting deadlines and teaching children. Maybe sure they listen to their meetings and complete assignments and help while working. So we could still enjoy evening time together. Not far for my kid to be on a electronic device or watching tv while while I work to pay the bills.	7/9/2020 6:32 PM
146	Covid-19 is continuing to spread at a similar rate as when it first began or even faster. Although remote learning is difficult, especially for mentally challenged children, the danger of them bringing the disease to their parents or grandparents, resulting in their death is too great. It is socially irresponsible to expose anyone to this deadly virus that can kill anyone of any age but is most dangerous to people of middle and older ages. Exposing the children risks their families health.	7/9/2020 6:31 PM
147	Everyone is doing a great job with transparency during this challenging time. Thank you for your efforts. Let the crabby parent comments roll off, they don't understand the stressors at work here or the incredible dedication D51 staff has towards making the best decisions for all.	7/9/2020 6:27 PM
148	As a parent I would not be able to keep a job and have the kids do any type of remote learning	7/9/2020 6:24 PM
149	I am not confident that remote learning is going to be worth the hassle... it makes me want to explore homeschooling options... which are nearly impossible for people who still have to work... like me. Very concerned about this situation.	7/9/2020 5:48 PM
150	Please focus on what is best for the education of the children. Consistency is arguably more important than trying for one learning model and then switching to another model halfway through a semester.	7/9/2020 5:44 PM
151	Would remote learning be an option for pre-k?	7/9/2020 5:42 PM
152	No	7/9/2020 5:14 PM
153	I would like to continue online learning via d51 so I do not have to opt for an out of county/state online program	7/9/2020 4:40 PM

155	Thanks for requesting feedback from families!	7/9/2020 3:59 PM
156	We will not attend in school if masks are required because of asthma and difficulty breathing already. I am hoping that there are no crazy guidelines to follow but I understand if there are.	7/9/2020 3:58 PM
157	I don't think it's going to be safe to send kids back I have a child with celiac disease and asthma I will not send him if it's not safe	7/9/2020 3:54 PM
158	There is a low risk of covid in our area and we should all go back to school full time at full capacity. We cannot let the fear of what might happen continue to hurt our children's education. The lack of education and decreased test scores IS happening and will continue to happen if school do not have face to face instruction.	7/9/2020 3:53 PM
159	I am considering sending my child if schools are open, however, if the district sees a significant	7/9/2020 3:44 PM

Fall Planning Survey 2020

increase in cases, esp. in the school setting, I would most likely remove my child from the classroom and expect some other type of learning available.

160	Given the most current model of this pandemic re-emergence, and the nature of what a public school is in the germ world, I believe it would be most advantageous to be completely remote learning. I also believe with having more preparation time it could be a great experience, the only thing I would add is more help available for individuals.	7/9/2020 3:41 PM
161	none	7/9/2020 3:34 PM
162	Am volunteering to go clean,disinfect the class room every night if needed. We are donating lysol,clorox wipes hand sanitizer and whatever our teacher needs. The kids need to back to school	7/9/2020 3:22 PM
163	The online curriculum was a complete joke last year. The teachers told the kids on day one that their grades could not get any worse (kids checked out and were giving no real work) When the going gets tough, the tough get going, they don't coast to the finish line. I am tired of un-teaching my kids what public school systems and its socialist teachers are pushing on the kids. The public school system is failing our children, teachers need to quit whining and get to work. Any teacher that shares sexual orientation or political opinions should be fired. Half of high school grads need remedial classes in college. Get back to teaching . Thank you.	7/9/2020 3:19 PM
164	I would like the online learning if there was more teacher involvement in the learning process. More google meetings with live teachers would be great	7/9/2020 3:16 PM
165	Kids can wear masks if necessary	7/9/2020 3:16 PM
166	Fear doesn't effect everyone equally. If people want to send their kids, have them fill out a waiver And provide in-person learning with teachers who are also willing to sign and attend. If people are uncomfortable with in-person learning for their kids, provide distance learning with teachers who are also uncomfortable with in-person learning.	7/9/2020 3:13 PM
167	I wish I could home school my children, unfortunately this is not the best option for my family at the moment. BUT depending on decisions. I may consider altering our life to make SURE my children are educated in a way I agree with.	7/9/2020 2:51 PM
168	I understand this is a tough spot for education officials, but given the information about covid to this point and doesn't seem to be infecting or spreading among school age children I see absolutely no reason there shouldn't be face to face instruction. The remote learning....was a joke! I understand there was short notice for preparation, but really it was not well put together for either of my children	7/9/2020 2:34 PM
169	Fridays off would be great!	7/9/2020 2:33 PM
170	I believe everyone or at least a very high percentage of folks are going to get the virus but with the statistical rate of success, why are we treating this so differently than some of the other ailments we ALL encounter on a daily basis? I've seen some teacher concerns about going into a classroom and some have even mentioned possible lawsuits against the district. Why is teaching any different than some/most of the occupations that parents have in terms of being near other people?? It's time we get back to normal. We need to consider the mental well-being of school age children and what the isolation is doing to their emotional growth. (or lack thereof)	7/9/2020 2:26 PM
171	My son was incredibly bored and finished his work quickly during the remote learning time. I am a single mother and I had to work full time and was not available to instruct him other than having a recap with him once I was home. Since he is in middle school I do not believe to need child care however, the fact that he is home all day and not able to go anywhere we found he spent way too much time on his play station. I would like to avoid this if possible	7/9/2020 2:09 PM
172	Please listen to the parents of this valley as well as the pediatric specialists that are speaking, and not the political influences trying to push a narrative that will be detrimental to our children. All of my children will start new schools this year, with new grades and the building of the new Fruita schools. To add remote learning to this would be difficulty on top of difficulty. We worked hard this past Spring with the remote learning, but it was very difficult, especially with 4 different grades, and living in a remote area where internet connection can be spotty sometimes. PLEASE, again, use common sense over politics. Thank you.	7/9/2020 2:07 PM
173	Valley school staff are amazing. His counselors at Fruita and Valley seem to really care about him and are truly cheering him on to succeed.	7/9/2020 2:01 PM

Fall Planning Survey 2020

175	I would love nothing more than to have my child in school full time. That being said I would rather feel confident that she can do so safely. If you should choose 100% online I hope the teachers will have a lot of facetime with the kids individually and in groups. I think that is extremely important. Good luck!	7/9/2020 1:51 PM
176	No masks, no remote learning at all. Regular school. Children are not at risk and are not carriers	7/9/2020 1:34 PM
177	I would support a hybrid program	7/9/2020 1:28 PM
178	No	7/9/2020 1:06 PM
179	I think the D51 teachers are all great!!!	7/9/2020 1:03 PM
180	I am very concerned about sending my son back to school. Last year was a mess. Unfortunately we were just leaving for spring break when COVID happened, so my son was in vacation mode, and his cooperation was horrible. It was clear that his teacher was not prepared to conduct home schooling and it felt like she wasn't interested in doing so. I will not send my son back if I don't feel safe. I'm hoping we have a plan for this. And AUGUST 10TH IS TOO EARLIER TO GO BACK TO SCHOOL! ITS STILL SUMMER	7/9/2020 12:45 PM
181	Masks are unhealthy unless one has fragile, underlying health issues. If we return face to face in any measure, masks should not be required. Additionally, we cannot teach effectively while social distancing. If this is all still required, we should not resume school face to face.	7/9/2020 12:44 PM
182	The teachers are doing a great job trying to make the online schooling interesting and fun, but my student doesn't learn as well online. She has a really hard time learning this way and I am afraid that she will fall behind if online schooling continues for another year. It would be worth the risk for many students. I trust the schools will take safety very serious.	7/9/2020 12:31 PM
183	On question number 4 I could not choose one answer. I think this was because of a technology issue. The answer I wanted to choose was satisfactory/fair.	7/9/2020 11:59 AM
184	N/A	7/9/2020 11:44 AM
185	I want what the teachers think is best!! I will do my best to support whatever that is!! <3 And hope that we all can stay safe and healthy through this craziness!!	7/9/2020 11:41 AM

188	None	7/9/2020 11:32 AM
189	While online learning WAS easier for the student, it was also easy to get distracted and there wasn't a feeling of absolute obligation to do the school work because it was online. I feel if 100% inschool would not work then a hybrid would work because it would bring in the obligation for students to actually do their work	7/9/2020 11:31 AM
190	Many children are being raised by elderly grandparents so the decisions made will and can dramatically effect our health and their educational abilities. Please take this into consideration when implementing your plans! Safety of the whole family is paramount .	7/9/2020 11:29 AM
191	My biggest concern is for the safety of my children, as well as the teachers and staff of their schools.	7/9/2020 10:54 AM
192	Our kids NEED to be back in school! They need to be back with their friends and to learn with their teachers AT their schools. Online learning is NOT learning... for most children. Being STUCK at home is NOT healthy and my child has not done well and is suffering because of this. PLEASE OPEN THE SCHOOLS BACK UP and Make them as normal as possible!!!! ... Thank you!	7/9/2020 10:46 AM
193	I think the district did an outstanding job in implementing the remote learning but my child did miss her teachers and staff	7/9/2020 10:40 AM

Fall Planning Survey 2020

194	Please start in school face to face learning. We are ruining people's lives here. This generation is going to be so far behind it is not fair to them! Our kids need education I can not stress that enough.	7/9/2020 10:40 AM
195	No, you're doing a great job, given the circumstances!	7/9/2020 10:35 AM
196	My child had hard time understanding how to navigate remote site and I work full time away from home. Would be nice if some classes were available in evening like college offers for parents who have to work.	7/9/2020 10:31 AM
197	No	7/9/2020 10:29 AM
198	My children will not attend if masks have to be worn	7/9/2020 10:27 AM
199	I am mostly concerned to send my children back to school because of the politics that will be taught. Curriculum should not have teachers opinions on politics or health advice.	7/9/2020 10:24 AM
200	Yes. I am, among MANY others at a point of refusal to put my children in school with masks that are harmful to their health! Osha guidelines CLEARLY state thats masks do NOT help anyone. D51 should not pander to falsified death numbers in relation to a political virus! Asking us to mask our kids is under and borderline abusive. Our children will have more infections that ate lung related by far if you make them wear them. 99% of cv19 does not affect children at all. The numbers are clear. The W.H.O 4 weeks ago announced the asymptomatic spread is "very rare". Make it to where no one is penalized for staying home with any given symptom of a cold or infection. Even have a check station at first period and ask students if they feel well. But I believe you will have a large shortage of kids who need face to face that will not return if you force masks. These kids played all summer together. Mesa County does NOT have a good reason to force this compliancy. Stand up for truth and education! Show the world how we can open normally and have no issues. Make a mask voluntary if at all necessary.	7/9/2020 10:10 AM
201	I have an A+ student and a student that struggles in school both of them had a very poor experience with remote learning.	7/9/2020 10:08 AM
202	The children need to be in school!!!	7/9/2020 10:06 AM
203	I am highly skeptical of safe in-person learning. I think it likely that teachers will get sick quickly and then have to be quarantined and be unable to do their work at all. Not to mention the massive spreading event that children meeting all together and then going to their homes. Children are likely to fair better with this illness but would be a primary spread vector. There is far too much interaction and too many students to beleive that extra cleaning will be effective.	7/9/2020 10:01 AM
204	No	7/9/2020 9:59 AM
205	If remote learning is a part of the 2020-2021 school year, I certainly hope that there is a much higher quality/standard of education present then previously.	7/9/2020 9:52 AM
206	I am undecided on what will be best for my kiddos, especially since I do not know what the in person might look like.	7/9/2020 9:49 AM
207	I think it should also be a priority for school district 51 to also base decisions on how these changes will effect our teachers if they are required to perform extra work above their normal professional requirements. Our priority is always to protect our children first but we also need to keep our professional educators in mind when making decisions.	7/9/2020 9:29 AM
208	My kids are really looking forward to being able to go back to school they miss their friends and teachers	7/9/2020 9:17 AM
209	Kids need physical activity and options for a music program. PE and music are essential to stimulate growth. This new Gender Ideology should not be address in schools with out parents consent. Consent from the parents about any form of sexual orientation should be notified before presenting it to children. They are not of the age to consent to any of this. My child will not be attending sexual education, the education will be provided in the house hold.	7/9/2020 9:03 AM
210	Stay Safe,Vigilante,Wear your mask and 6 ft. Distance follow CDC guidelines	7/9/2020 9:00 AM
211	No	7/9/2020 8:56 AM
212	I'm really sorry that you have all been put in this position. I had planned on ending my retirement and returning to work by applying to substitute for your district. I am retired military with over 9 years of teaching experience, I had planned on beginning to substitute, and	7/9/2020 8:53 AM

Fall Planning Survey 2020

discussing with the administration which degree to add to the others, in order to begin the road to becoming a guidance counselor. My wife, many years of experience working as a special needs para-educator, is also considering joining the team. What better way to give back than to help our children? I still plan on this path, however I cannot support the opening of any school until we as a county have control of the virus. Have we already forgotten about the November stomach bug? We, D51, actually shut down twice in the 2019-2020 school year. We were absolutely overwhelmed by a stomach bug. What do you think will happen here? I want to join your team, and be part of the solution. We have many more years here until our youngest graduates, and I am a grandfather now. I have met with and talked with the staff over the past few years at Rimrock Elementary Fruita Middle Fruita 8/9 And our 2nd child graduated from Fruita Monument in the 2019 hail storm graduation. I want to be more involved, but until our public health department, and the local general public takes our rising numbers more seriously, I cannot support sending any of my children to an in-person class, and I cannot become the infection vector for my family by volunteering to substitute or teach. I am still willing to help. I have extensive experience in curriculum development, to include both didactic, laboratory and online education. I have taught all 3, developed all 3, and I have extensive experience teaching. 3 years teaching in the Navy submarine force, and I finished my career with 5 years of teaching and curriculum development in San Antonio for the DoD Biomedical Equipment Repair Program. After retirement I took a job in Tennessee as Director of Education for a medical imaging company, where I wrote the courses I taught. From basic elements to x-ray, nuclear medicine, anything imaging from ultrasound to CT, I can fix, but even better, I can teach them how it works, why it broke, and how to repair based on the problems. I'm honestly bored, and I was looking forward to getting back to work. I've taken time off since moving here in the summer of 2018, and I'm never leaving, but I let my technical certifications expire January 1st. I had made my decision, I was going to help the schools. Then, this. In conclusion, with a sophomore at University of Utah, a CMU student, and the 2 D51 students we have in the house, education is a giant part of our lives. Being retired from the medical field, Navy makes you a medic first, then more school to learn repair, I can tell you with 100% certainty, if you open the doors to the schools, with the current case count and accelerated level of growth, you will lose staff members. You will have to shut down again, it's only a matter of how long, and how much damage done. I have extensive experience, documented on military evaluations, in infection control, patient safety, medical training, medical experience on patients and medical devices, I prefer the devices, and educational leadership. You already know, opening won't work. You don't need all of the degrees that I have to understand this. Our beautiful valley and surrounding areas provide for, what I call, life in a postcard. We do have to realize our limitations though, realistically. That stomach bug last November exposed our problems. We are, in many ways, our own self contained society out here. Once the bug takes hold, it takes a massive community effort to break that hold. We've been through it already. Also, Banana's. Not to harp on a single business, but our son went once in January and was sick for around a month! How is that place open? I realize you're a school district that has no say about local businesses, but I'm letting you know ahead of time, with that place open, our schools stand no chance. If you have any questions, I've always believed, don't complain in secret, I can be reached at the information below. Robert Bell 860-941-4684 And yes, it's me on Facebook (Chris Bell, my middle name), trying to hold Mesa County Public Health Department accountable. They are behind on reporting cases, badly. Look at their most recent 2 posts, top comments are mine. I wish each of you a safe day, and I do hope that we can all get together again soon. Our children need to be in class, but our adults won't wear the mask. I don't know how to solve this problem, but until we do, we cannot return to anything resembling normal.

213	Thanks for keeping the safety of our children and everyone involved a top priority!	7/9/2020 8:46 AM
214	I was much more satisfied with the middle school remote learning than the elementary. My grandson actually learned new material. My granddaughter only reviewed what she had previously been taught so it was up to me to do more learning instruction with her on my own.	7/9/2020 8:45 AM
215	We need the schools to open back up	7/9/2020 8:42 AM
216	N/a	7/9/2020 8:39 AM
217	If it goes to remote learning the program needs to be amped up. I do realize the teachers/district didn't have alot of time to prepare.	7/9/2020 8:32 AM
218	GET OUR CHILDREN BACK TO LEARNING NOW!	7/9/2020 8:23 AM
219	(1) Flexibility This is the most important precept. Every school needs to have at least three plans at the ready. One for something that looks like full opening, one for partial opening, and one for fully remote classes. If I had my druthers, I'd also want options broken out separately for	7/9/2020 8:02 AM

Fall Planning Survey 2020

elementary, middle, and high schools. And I'd want a totally separate array of options for non-mainstreamed special education. School systems should also build in the flexibility to switch between options as circumstances warrant. If you're in Vermont, maybe full-open works well for your district. But if your town has a spike of cases, then you have to move to another mode. By the same token, if you're in a Florida town where the virus is out of control in September, maybe you have to start out with full-remote schooling. But that doesn't mean you have to stay in that mode for the entire year. (2) Individuality An acceptable risk for one family might be too much for another, so school systems should expend a lot of effort accommodating families. So for instance, if a school is running at partial-open and a family wants to do full-remote, there ought to be ways to make that work. (3) An Acceptance of "Good Enough" Let's just all agree, at the start, that this will be a weird school year. No one is going to get through their normal curriculum. There will be subjects that get left out or only partially covered. And when the 2020-2021 school year comes to a close and Jimmy and Susie aren't as far along as they should be, guess what? The world isn't going to end. At the elementary level, the truth is that kids need very little other than reading and math. Middle school is largely just table-setting for high school, so if everyone is short-changed by the same amount, then the kids will be fine. And as you get into high school—particularly the higher AP levels—the kids will be more equipped to learn through textbooks and lectures. Which is what college will be like for them anyway. (4) Pass/Fail Once you get to the high school level, a lot of institutional energy is spent trying to sift and separate kids in the 70th percentile from the kids in the 90th percentile. And even more energy is spent trying to separate the kids in the 98th from the kids in the 99th. We could have a whole debate on whether or not this is a good thing (I vote "no") but for the purposes of the 2020-2021 school year, we ought to just press pause on the whole thing by having everyone go to pass/fail. Grades are going to be meaningless in this environment anyway; they would all require an asterisk. Schools ought to recognize that explicitly. "Education" isn't a monolith. It's purposes are part childcare, part credentialing, and part genuine learning. And a lot of times that last part is the junior partner in the arrangement. By going to pass/fail, schools can put more emphasis on the learning portion this year, in whatever configuration the school year looks like. (5) Patience This is not going to be easy on anyone. School systems need to be patient with parents and kids. Families need to be patient with the schools. Employers need to be patient with the parents who work for them.

220	Would like for my children to attend school, but very apprehensive about it.	7/9/2020 8:01 AM
221	My older child jasmin has difficulties learning behind a screen and gets super bad headaches been behind a screen for a long period of time.	7/9/2020 8:00 AM
222	Our family truly appreciates all that D51 is doing to help get our community back to school! Thank you!	7/9/2020 7:53 AM
223	PLEASE-in person 100%. Look at data; kids age 0-18 numbers are very good re Wuhan virus. Very few cases & deaths in thus age group. Work with the teachers in the high risk groups please. Thank you for all you're doing.	7/9/2020 7:18 AM
224	Our children should be able to return to school, they need their humans and those interactions for their well being. They should be able to return without cloth face coverings and be able to play outside for recess and be able to be KIDS. There are home school programs in this community for those that are not interested in sending their children to school. As a working parent throughout all of this, if given the option to work from home I have very strict rules I have to follow. For example, I have to sign a contract stating, I will continue to perform the same amount of work production for my 8 hour work day without interruption. Therefore, working from home and teaching my child while at home is not an option, without the risk of losing of my job. Thank you for taking the time to get our input on what we feel is best for our children.	7/9/2020 6:50 AM
225	I want my kids, and all kids and staff to be safe at school. This is such a complex issue, with so many high stakes implications and I hope the district can really address each of those. I am fearful that it's such a complex issue that there will be stops and starts and mistakes, which we can't afford when health and lives are involved.	7/9/2020 6:43 AM
226	No	7/9/2020 6:38 AM
227	I think the schools and teachers did well with what they were given. The reason I rated my child's experience lower is that this format was difficult for him due to ADHD/executive function issues. It may have worked well for typical students. It was difficult for him to initiate the help he needed, whereas in class, his very excellent teachers helped him out. Thanks for all the work you did to try and make the best of a difficult situation!	7/9/2020 6:35 AM

Fall Planning Survey 2020

228	Get back to business as usual. The noro-virus was more impactful to our community and we worked through it without panicking or over-reacting.	7/9/2020 6:34 AM
229	Let's go back to school	7/9/2020 6:25 AM
230	My child did not do well at all in the remote learning. Her grades failed in that semester and she did not understand the material	7/9/2020 6:21 AM
231	I'd like to offer the opinion to whomever will listen, as a physician, that encouraging close indoors congregation at all is hazardous at this point and politically and emotionally motivated, not medically informed.	7/9/2020 6:18 AM
232	I think in person is the best. Most children are losing out on so much more than an education.	7/9/2020 6:13 AM
233	If masks, plastic dividers, no cafeteria, any Covid tests and no recess are part of the going back to school are part of the plan, we will not be back.	7/9/2020 6:06 AM
234	No	7/9/2020 6:05 AM
235	We should get the schools open. Everyone should wear masks as required. Social distancing encouraged. Adjust as we go along. Home school is always a good option and should be encouraged for those with at risk family members at home! Congratulations to our Graduates and great work on the selection of procedures and facilities!	7/9/2020 6:01 AM
236	No	7/9/2020 4:58 AM
237	It would be devastating to continue online education, I feel my son has already lost 3 months of his 4th grade education & do not want him to continue losing ground as 5th grade starts. It is not healthy to keep children from traditional school they need interaction with peers & staff & do much better in a regimented environment vs the terrible online schooling environment where both the students & the parents struggle. If only online schooling is offered then I will probably pull my son from the public school system all together & send him to a boarding school as I refuse to continue to keep my child isolated & provide him with a substandard learning environment because a couple old people might get sick, that's ridiculous!	7/9/2020 3:37 AM
238	I spoke with my sons doctor and she said it is not good for kids to be wearing a mask all day breathing in their own germs all day so I do not want my son to have to wear a mask. I truly believe if you take everyone temperature and sanitize thourouly and make the kids practice good hand washing and use sanitizer and make sure that if a child is sick they stay home until they are totally well that we can all stay safe. My son loves his school and he needs to be there learning from people who know what they are doing and being able to socialize.	7/9/2020 3:07 AM
239	My son has a ILP.	7/9/2020 1:28 AM
240	The chances oh my kids getting sick are great. I do not believe sending them back to in house schooling will be devastating	7/9/2020 1:09 AM
241	I believe that remote learning other than home schooling through a program such as southwestern advantage, does a disservice to our children, and would prefer southwestern over a valiant albeit lacking attempt at distance learning!	7/9/2020 12:52 AM
242	I believe that our school system is definitely not teaching our children what they need to learn as a matter of fact when they took out the the home education such as cooking and took out the automotives I think that our children have definitely gone in the wrong direction since then there are things that are they are learning that are absolutely useless in the future and their future and things that were taken out of the system then they need to be learning	7/9/2020 12:40 AM
243	high school teachers need to be accountable as my students are no communication besides emails when assignments are due and sending links not acceptable in my book	7/9/2020 12:04 AM
244	No	7/9/2020 12:02 AM
245	I will allow my kids to go back to school in person 100%, if there are measures to be put in place where every student that enters the school premises should have their temperatures check.	7/8/2020 11:48 PM
246	My children's education is more important then anything. I believe remote learning is taking their educations away from them.	7/8/2020 11:32 PM
247	How Punishments are decided and enforcedmaking them generalized more equal and More	7/8/2020 11:28 PM

Fall Planning Survey 2020

we'll known to students and parents. Also if it's a he said she said situation and no adult was present staff shouldn't always believe children and make sure to separate the kids to get stories to see if they're matching etc. what I'm saying is a better system for when these negative situations occur and also positive effective generalized plans for after they occur which will promote less problematic situations in the future. Also funding needs to be for the teachers that are working directly with our children and for up to date NEW training in techniques for making learning easier and quicker for each style of learner. Also NEW and proven ideas and stratagem for handling children with behaviors or special needs. Teachers have one of the most difficult and important jobs in the world ! Our youth and teachers deserve the best so they can be at there best. Increase teacher to student ratio making more teachers with our kids that don't leave but stay so that they can understand them better and have more help thank you :0)

248	None at this time	7/8/2020 11:15 PM
249	I fully trust whatever D51 puts in place for the upcoming school year	7/8/2020 10:58 PM
250	No	7/8/2020 10:58 PM
251	Please let us go back to school without restrictions!!!	7/8/2020 10:36 PM
252	Are the kids going to be required to where a mask at all times? If so what does monitoring and redirection look like for the ones who don't want to Participate in wherein a mask.	7/8/2020 10:24 PM
253	I felt that D-51 showed great flexibility in the shift to online learning this spring. This gives me confidence, that should our county's Covid numbers suddenly rise this fall, a similar adjustment could be made should the need unexpectedly arise. Thank you for the great leadership!	7/8/2020 10:20 PM
254	I'd love to see safe opening , with masks required for older children, and cohorts or younger kids. Jeff Co has a good plan, and Clear face shields as opposed to masks would also be good for younger or special needs students. Thank you	7/8/2020 10:18 PM
255	no	7/8/2020 10:18 PM
256	no	7/8/2020 10:14 PM
257	We understand that the district has to take all students into consideration, but with the level of classes our older children participate in, we are unable to teach them. It is also hard for the young children to connect with their peers and teachers if they have to socially distance. Not good for their social/emotional well-being.	7/8/2020 10:09 PM
258	Depending on what the requirements look like for this school year I may choose to homeschool.	7/8/2020 9:58 PM
259	My child will not ho back if they are required to wear mask, required to have a flu shot or required to have a covid shot.	7/8/2020 9:43 PM
260	In person school is more than just book learning, the kids NEED social interaction outside of the home as well. School is the first learning place on how to make friends, being cooped up at home takes that away and is EXTREMELY unfair to the kids. On the education side, we pay for teachers in one form or another to teach our kids, not send some stupid computer home and have the parents be the teachers. The teachers need to be the teachers and quit this nonsense of passing the buck back to the parents. In person, in school teaching is the only option there should be period!	7/8/2020 9:37 PM
261	On line schooling is a battle, not worth the effort. Save your money on teaching this way.	7/8/2020 9:36 PM
262	It's going to be hard for their to be any remote learning during the day when most parents work. So then we are trying to teach them and get to bed at a normal time (for k-5th). That seems ridiculous. Older students have concepts they learn that most paternoster can't help with. The amount of kids that will fall behind is catastrophic. Especially being a county that has such positive numbers- risking our kids education is just as scary	7/8/2020 9:20 PM
263	I just feel like having my child who has asthma in a mask all day is too risky or having kids who are unable to adhere to social distancing in school learning right now I just don't think we're ready for that	7/8/2020 9:07 PM
264	Masks should not be a requirement to return to school, they are ineffective and cause more harm than good. If they are mandatory My children won't return.	7/8/2020 8:52 PM
265	Face to face learning is the only effective model available. COVID-19 is less dangerous than the flu.	7/8/2020 8:52 PM

Fall Planning Survey 2020

266	Considering homeschooling if the children are mandated to wear masks or hybrid model	7/8/2020 8:47 PM
267	The kids need to be in school, WITHOUT masks, and try to have as normal an education as possible.	7/8/2020 8:45 PM
268	No	7/8/2020 8:30 PM
269	Putting a mask on young children and putting in their minds that "being near my friends is bad" and "if I can see someone else's face, that's bad" is dangerous. Please do not sell out. This is not a pandemic as has the media tried to sell us. Listen to the parents. WE KNOW OUR KIDS. We can choose to send them or not, depending on our own conscious and freedom of choice. If you really want to do what's best for the kids, they will return to school as normal.	7/8/2020 8:27 PM
270	I would like to be given an accurate account of what plans are in place to even begin to plan on whether to and them back to school if at all this year.	7/8/2020 8:22 PM
271	If it isn't an option to go 5 days in a row I'd prefer that the days are lumped together.	7/8/2020 8:19 PM
272	with the way the virus is changing and numbers continue to rise, we are very very hesitant to send our children to the physical school building. our now 7th grader was very resistant to the online format given in the lockdown and it was a constant battle to get them to complete their works. our now 7th grader is known through testing to be an auditory learner and the curriculum given through the online learning was not compatible at all with their learning style. my husband would have a heck of a lot more to say and he can be reached at 8609414684	7/8/2020 8:17 PM
273	No	7/8/2020 8:11 PM
274	I will not be allowing my children to attend school if masks are required and school will seem like a jail. Back as regular or not at all	7/8/2020 8:05 PM
275	My son will also be enrolled in WCCC welding so that will already require in person instruction so perhaps a combination will be best since he will have 2 locations or 2x exposure to people	7/8/2020 8:04 PM
276	I would like the District to set objective measures to direct and help adjust the reopening. What I would like to see are preset clear public health measures to meet or use to give guidance to the District. I would think it beneficial to find a way to take "politics" out of things. For example, using public health data like positive testing rate, hospitalizations, etc to limit or further open the schools. The reopening should not be seen as all or nothing or static. It must be seen as fluid and reactionary to the current conditions in the community. I understand that the ambiguity of the above approach would be challenging for many families but I also think that using current, actual public health data would give us the most effective method. Thank you for your consideration.	7/8/2020 8:00 PM
277	Until there is a vaccine I do not believe that regular school can be made safe, and face-to-face school is irresponsible. Thanks for all you do!!!	7/8/2020 7:58 PM
278	While I'm not excited to send my children back, my NT kids did well with online learning. However my youngest with an IEP and learning delay did so bad that he didn't attend the last couple weeks. I'm a single mom who works full time and he is not able to log on and engage. I feel like the schools should not reopen however there should be small groups for special education kiddos a couple hours a day/ week with face to face learning. And not expect these children to be capable of the same work load with out instruction. I would also recommend if they can't do face to face that EVERY SINGLE TEACHER in the district meets DAILY with students. Same time SAME LINK! My child who did the best usually struggles in the classroom. Her teacher (5th grade) had them log on every day at 9am and then again at 1pm. The later time she read to them for an hour. My daughter soared with online learning with that structure. 6th grade was disastrous for my eldest because they lacked consistency and changed the stupid link every week. Not to mention a few teachers were using schoology instead of Google so classes were missed. ONE PLATFORM PLEASE these kids aren't checking 3 or 4 different places for class. Their brains don't work that way and not everyone gets to sit home all day making sure everything is happening. Working full time then coming home to help with schoolwork until 11pm is unacceptable.	7/8/2020 7:56 PM
279	I will not allow my child return back to school if you make every student wear a mask	7/8/2020 7:44 PM
280	No	7/8/2020 7:41 PM
281	If remote learning is required i think Zoom type educations is needed where they are able to attend class and be held accountable with regular schedules. Example: if they have English as	7/8/2020 7:36 PM

Fall Planning Survey 2020

first class from 9-10 then they log in to Zoom meeting at that time attendance taken and on till end of time. Assignments can still be posted for them to do and turn in for grade. My son rushed through his assignments last time and did not put any effort in to his work at all. Also give students time to interact with teacher and other students and still learn. Also will help those who are visual learners. If you are wanting kids to keep to a 8-3 school schedule then you have to do something to hold them accountable for that. Those of us who are working are not able to be home with the kids are not able to make the 8-3 happen.

282	None	7/8/2020 7:34 PM
283	The in-person works best for our child or if needed a hybrid will work	7/8/2020 7:33 PM
284	My son has speech therapy at school and he also gets extra help for math that he need so I would like to know what can be done for accommodating him of this is going to be another remote learning	7/8/2020 7:30 PM
285	Whatever the requirements are for the upcoming school year- we understand that we're all doing the best we can and will make it work. Thank you!	7/8/2020 7:28 PM
286	We realize there will be restrictions come the new school year, but we vote our children be face to face schooling.	7/8/2020 7:25 PM
287	It's not sustainable idea to have remote learning. Our children need social interaction. They also need interaction between other people for herd immunity and that's not just for Covid but all communicable diseases.	7/8/2020 7:24 PM
288	N/A	7/8/2020 7:24 PM
289	Will be very upset if the same benefits are not offered to the kids... like WCCC and college credit courses.	7/8/2020 7:23 PM
290	If masks are made to be mandatory, I will pull my child from the district.	7/8/2020 7:20 PM
291	This is awful for everyone. We know you are doing the best you can, and we appreciate your efforts.	7/8/2020 7:20 PM
292	We will not be attending. If kids are required to not touch. Or have to use mask and social distancing. We will do non D51 homeschooling.	7/8/2020 7:12 PM
293	No	7/8/2020 7:11 PM
294	The remote learning was unfortunately a disaster for my family. It wasn't really the fault of the school system as much as barriers with the state of mind of the children, getting the classes assignments, understanding them, which we mostly didn't, and submitting them. We had a lot of technical issues. I'm truly hoping to return to school the way it was before "covid".	7/8/2020 7:09 PM
295	I don't feel the students had enough video classroom instruction with their teachers. They did not have to attend a video conference daily or for more than a few minutes each time. I do not think the 4th quarter learning expectations were high enough even though it was remote classes and there was very little time to pull it together by the district. If we have remote learning this fall, I would like to see that students are required to attend the video classroom, attendance be taken and expectations of the student be as high as if they were in a regular classroom environment. I was monitoring my grandson daily with the remote environment and often only 4 students would log into the 15 minute session with the teacher. Some of his teachers put a lot of effort into their instruction and others did not at all. Several sessions were cancelled and there was a bit of general confusion by the staff. Too many emails from D51 admin and the students teachers with inconsistencies and changes over all. I am a firm believer that too much information, especially if it is not final, is not helpful. If it's too much, people tend to stop reading or take a quick glance and think they read that yesterday when in fact there is a different decision in the new email. The district would serve the parents and students better by providing clear and concrete information this year. Thank you	7/8/2020 7:06 PM
296	I would prefer in-school face-to-face learning for my Granddaughter, but under the current circumstances the hybrid option will work as the next best option. Thank you!	7/8/2020 7:04 PM
297	I would hope D51 will make the best educated assessment of how to move forward that will keep our children the safest and not focus on pressure by people to reopen and have business as usual no matter what. It's better to be over cautious than not and effect the whole county.	7/8/2020 6:57 PM
298	No	7/8/2020 6:56 PM

Fall Planning Survey 2020

299	Add more custodians rather than removing them every few years. Have the teachers focus on core subjects like Reading, Writing, Math, Science, and more than ever History. The amount of people out right now with a poor understanding of history is scary. Keep opinions on sex, gender, and drugs out of the classroom. When the superintendent said she had to listen to more people of color dose that mean the district has been racists in its existing policy and curriculum? Or was she just pandering to the mob? Or is she just another person who did not learn enough history in school? Focus on teaching real subjects for life and avoid political and social justice pandering.	7/8/2020 6:55 PM
300	As long as good Covid19 protocols are in place and adhered to, I would be comfortable with my child being at school. The online thing was great with the short notice, but it is an inferior method and certainly less effective model for developing children.	7/8/2020 6:55 PM
301	I am 100 percent supportive of returning our children to school as usual! Everything in their worlds has been turned upside down- they have no normalcy, no certainty, a lot of anxiety, fear and depression they're dealing with. Suicide rates are up and I have one High schooler who battles depression and suicidal thoughts and another high school student who is an outgoing senior in fear of missing out on everything she has worked so hard to experience her senior year and then a 5th grader who goes between homes that tried to runaway to my house during quarantine and put himself in incredible danger. This is not healthy. It's more dangerous than any virus ever could be. They do not deserve this!! Please help our children and their mental health by returning to a normal school year so they have something to hold on to, look forward to and level their already heightened hormones and emotions. I care about the health and well-being of all but this has not proven to be something worthwhile of the precautions being taken. Enough is enough... please help me, my children and everyone else in my position. Everyone has the ability to choose online, at home schooling- if you deny us this - we don't have the ability to return our kids- so many kids - to normalcy, stability, a safe place, something so many have worked so hard to get to and can never go back to. This will not only have negative implications for the next few years but for generations to come. I have been a mom for 18 years, I have fostered multiple children, I have been a teacher and most importantly an observer and listener... Thank you for listening to me now....	7/8/2020 6:52 PM
302	I was impressed how well remote learning went. Mrs Smardo and Mrs Grammer really handled it well especially with such short notice. We will adapt to whatever makes sense but look forward to in person teaching as soon as it's safe to do so	7/8/2020 6:47 PM
303	Online schooling out my children into a depression and I would NOT want to go back to that!	7/8/2020 6:44 PM
304	Let the children go back to school my kids missed out on so many things . I suck as a Teacher	7/8/2020 6:43 PM
305	No	7/8/2020 6:43 PM
306	Depending on what the reopening plan looks like we will make our final decision at that time.	7/8/2020 6:43 PM
307	I have seen kids all over both Fruita and Grand Junction this summer- the majority of them without masks on at stores, parks, and the mall. Many of my children's friends have been talking about going to Bananas , and to spin city to name a couple of bad choices. Without parents setting an example during this time- I can't imagine how a school year could be safe for anyone. I'm guessing the next few weeks will decide what kind of school year our children will have, and as a nurse I'm confident it's going to be on line schooling again.	7/8/2020 6:40 PM
308	We just want what is best and safe for all of the kids.	7/8/2020 6:37 PM
309	No	7/8/2020 6:35 PM
310	No	7/8/2020 6:33 PM
311	The kids need to be in school	7/8/2020 6:29 PM
312	the difficult experience was partly from lack of structure& consistency for 1 kid & the other "doing busy work," depression &stress of isolation& COVID	7/8/2020 6:28 PM
313	Thank you for the effort you are making for our children!	7/8/2020 6:28 PM
314	Remote learning was extremely hard on my son. Also, the new style of teaching math was extremely hard on me. Please re open the schools. Thank you	7/8/2020 6:27 PM
315	We all work. Remote learning is out of the question for my children! The remote learning from March-May was a joke anyway. I didn't feel like the learning moved forward at all. It only kept	7/8/2020 6:25 PM

Fall Planning Survey 2020

their minds going for a short time. The teachers were barely involved and it took half of my day or more sometimes. I was working and home schooling and I will not have that opportunity this year.

316	My daughter that's starting kindergarten needs to be in school because she has never been in a school setting and she needs to learn things and my son he's gonna be in 8th grade and he needs to be in school because he does speech therapy there and he needs to focus on school work and get better grades	7/8/2020 6:17 PM
317	100% in person learning if masks are required withing reason and hourly hand washing or hand sanitation	7/8/2020 6:16 PM
318	I believe we are doing a huge disservice to our future generation by not having them attend school and get a very fair education. We are setting them up for failure if we do not proceed with face to face learning.	7/8/2020 6:16 PM
319	Please do your best to get our kids back in the classroom.	7/8/2020 6:13 PM
320	I think all kids should be screened daily(temp) and any cold or sniffles shouldn't be allowed in the classroom. If this county reaches the 15% in hospitalizations and/ or cases, a different plan should be in effect. Possible 2 weeks quarantine/ shutdown of the school if anyone is covid positive while at school. Thanks for your time.	7/8/2020 6:08 PM
321	Remote learning must be an option for families like ours who have at high risk family members in the home.	7/8/2020 6:03 PM
322	I think if it turns into remote learning the teachers should be given enough time to figure out what works for them to do remote learning. The kids can't continue to lose out of decent education	7/8/2020 6:00 PM
323	My children struggled to focus with online learning but their given grades were much improved. For our family, I think a mix of remote and in person learning will benefit them both.	7/8/2020 5:59 PM
324	I may not be sending my child back to school if they continue remote learning. I feel it is very important to put a daily importance on education, and for children to learn and take instruction from other adults. My child especially, is ver advanced academics, but struggles taking extra demands from us as her parents for school type activities.	7/8/2020 5:56 PM
325	Marked Poor for the previous school years remote learning because the High School level for both my Graduation Senior and Freshman was way below what I would of expected. My elementary age student had about three times the work load as the high school. He add 5-6 new assignment every day from his elementary teachers, and the High School students may had 1 or 2 assignments per week per class if they were lucky. For the upcoming school year I have an elementary age student that would benefit from either 100% in person or mixed, but not 100% at home. I feel that my Sophomore would do better in a mixed in person/at home environment.	7/8/2020 5:55 PM
326	I truly believe we should have volunteers in each classroom to assist educators with CDC suggestions/guidelines and to keep our educators and children clean and safe. (Sanitizing/assisting). I know WINGATE will have the supply of volunteers. And we need to EDUCATE our children and staff so they feel safe. I can't say enough about safety. Health. Education. I am so thankful to our educators!! Thank you.	7/8/2020 5:53 PM
327	I would love to have our daughter back in person to school, but I'm very unsure about how that actually happens safely.	7/8/2020 5:51 PM
328	Remote learning this past spring was horrible. My son was in 8th grade and his teachers would throw assignments at them with little to know teaching. There should have been online teaching for our kids not just assignments given.	7/8/2020 5:49 PM
329	As a full time working mother, single parent, and student myself, I need my children to be taught by professionals in person. Not only does this allow for myself to succeed but for them as well since I will rarely be home to teach them. Remote learning is NOT conducive to kids in single head of house holds.	7/8/2020 5:46 PM
330	Parents would benefit with more instruction if learning has to be done remotely again.	7/8/2020 5:40 PM
331	no	7/8/2020 5:40 PM
332	It's very unlikely you will see kids sit through a entire day of school having to wear a mask	7/8/2020 5:37 PM

Fall Planning Survey 2020

during the 8 hours of school, there safer at home doing there remote learning yes it was hard on teachers students and parents but it's safer for our kids and everyone else to reduce spreading this virus and keep the schools closed a little longer and keep to learning at home till we see the curve drop and it's safer that's just my opinion

333	The online learning experience was at best a bad joke. Teacher presentations were so poorly put together that they would have failed as a project in 101 college class. My family sent several emails to the teachers, did we receive a single reply- No! Please remind me why does District 51 always want more revenue increases raised for education when they hire talentless teachers that can't even put together a video presentation.	7/8/2020 5:36 PM
334	It's so hard to do remote learning with 5 kids	7/8/2020 5:26 PM
335	Go back to school! Kids need the interaction with teachers and friends. Stick to current policy about fevers and sickness. I've seen kids go home with a fever and later that day the parent tried to drop them back off. Parents need to be held accountable for the safety of all children and keep sick kids home. This should be strictly enforced.	7/8/2020 5:16 PM
336	My children will NOT be wearing a mask if attending in person school.	7/8/2020 5:07 PM
337	Thank you for asking us to give feedback. This is not an easy task, I am willing to help be on a task group, or join a board or people to help develop solutions. If I can be helpful, please let me know, I am a Public Health RN with over 12 years experience. Thank you again!	7/8/2020 5:06 PM
338	No	7/8/2020 5:02 PM
339	No	7/8/2020 5:00 PM
340	Get our kids back in school. Parents have to work full time and some of us can't afford all this daycare that is needed. Plus online schooling didn't work, it froze and half the time they couldn't do what they need to and he didn't learn anything. Kids need to be around other kids, and their teachers in the school environment. They also need their lunch to be in a different room then the classroom. They need their extra classes like gym, music, library time and computer class and they need their exercise on the playground and the field. They are kids not prisoners!	7/8/2020 4:56 PM
341	I would much rather not send my children to school with masks on I go to work for four hours a day and I have to have a mask on and it is awful I would much rather them do remote learning at home	7/8/2020 4:53 PM
342	I will be doing homeschooling on my own if we do remote learning for my Elementary school kids. My middle school child does well in his own and did well with remote learning. The Elementary instructions where not congruent and hard to follow. I would rather have control of what we learn.	7/8/2020 4:49 PM
343	Kids need to go back to school. Education is important and parents (including myself) are not fit to educate them to the extent that they need.	7/8/2020 4:44 PM
344	If my child does not receive in person teaching she will Not be attending until in person teaching is brought back.	7/8/2020 4:42 PM
345	we are very concerned as we see Mesa County Cocid-19 numbers rise again	7/8/2020 4:42 PM
346	This is a tough decision. I can only tell you what I think based on what we know today. It all might change tomorrow. We're all going to do our best. God speed.	7/8/2020 4:35 PM
347	the remote learning was very hard on my son. he is a hard worker and his stress level rocketed because he was not clear on his expectations, and he overachieved, even with me trying to reign him in. he also loved his German class and became less interested in it with the remote learning	7/8/2020 4:33 PM
348	I'm really concerned with COVID and don't want to risk it we have my elderly dad living with us that has underlying conditons	7/8/2020 4:29 PM
349	I hope D51 takes into consideration what is best for the children and not just feel pressured to reopen because people aren't taking the virus seriously.	7/8/2020 4:28 PM
350	No	7/8/2020 4:28 PM
351	I will not send my child to in-person learning if they are required to wear a mask, not allowed to be around their friends or have lunch period.	7/8/2020 4:27 PM

Fall Planning Survey 2020

352	My child will definitely not return to in building, face to face school IF she is required to social distance or wear a mask. And she will absolutely NOT receive ANY vaccines that I'm not comfortable with under any circumstances. If these are things D51 feels necessary to implement then my child will do all schooling from home by a qualified in home teacher I hand pick and I personally will pay his/her salary.	7/8/2020 4:24 PM
353	My child and I believe that attending school is not only a necessity but also something that is the reason we choose public school My child doesn't do well with learning online and the need to have that face to face availability is something that makes her strive to be better	7/8/2020 4:18 PM
354	Follow closely to what CMU is doing.	7/8/2020 4:18 PM
355	I know d51 will do the best they can for my child.	7/8/2020 4:14 PM
356	One of my children really thrived with remote learning, the other really struggled a lot. I would be extremely disappointed if my son couldn't return to school this fall.	7/8/2020 4:12 PM
357	remote learning last year did not work the kids need to be in school to learn	7/8/2020 4:09 PM
358	I work at a hospital 12 hour shifts and graveyard. It was very hard for me to work, sleep, and get my daughters homework done on the computer.	7/8/2020 4:09 PM
359	I believe its essential the kids return to school in the fall. The risks associated with the virus do not outweigh their education.	7/8/2020 4:05 PM
360	My kids all do better with face to face learning however I will not want my kids to have a wear a face mask will in class all day. I know COVID is a real think but I don't agree with wearing masks all day. I think you'll see an increase in fights and bullying. I believe that if parents want their kids to wear masks then maybe those kids should be the ones to do remote learning.	7/8/2020 4:01 PM
361	Remote learning is very difficult for parents that work full time. Our kids need the structured learning of being in the classroom!	7/8/2020 3:58 PM
362	I felt the remote learning went fairly well given the circumstances. I was naive with the nature of remote learning and how many people could be on a meeting at one time. I had assumed the teachers would be giving instruction with all students possible online during their regular class time. I understand now that's more complicated that it seems and not every student has access to a computer or internet. My daughter did ok with remote learning but needed a modified curriculum. Her para did the best she could to facilitate this. We've often thought a hybrid learning situation would be more effective/effecient for her even if it wasn't a pandemic. We are looking forward to working with RMS to provide her a successful Fall semester.	7/8/2020 3:58 PM
363	No	7/8/2020 3:57 PM
364	I think it's too early to reopen schools with the covid rates, as they are rising. We will only exacerbate the situation further by reopening schools while during a pandemic. I would appreciate remote learning for my older two children who learn quickly and hybrid learning for my son who is deaf and in special education. My step daughter is far behind her cohort educationally speaking so hybrid would be ideal for her as well. Different children have different needs, but the less person to person learning that we can handle at the moment would be safer for everyone.	7/8/2020 3:56 PM
365	I think Mesa county has done a good job with the pandemic as compared to other counties. I think we should get to plan this year according to our county's needs & not Denver's model. If we have an outbreak we can remove those kids & quarantine then, clean the schools & keep moving forward. Hospitalizations have not gone up here in GJ so that's a factor to keep an eye on as well	7/8/2020 3:55 PM
366	Please don't require children to wear a mask.	7/8/2020 3:52 PM
367	Remote learning is a joke and if it comes to that, I'll homeschool instead because my kids will learn more	7/8/2020 3:51 PM
368	Trump 2020	7/8/2020 3:33 PM
369	I strongly believe waiting until after Labor Day to start school is a much better idea, given the current situation. It allows more time for recent upticks in COVID-19 to be handled before kids return to their schools.	7/8/2020 3:29 PM
370	Children don't seem to be affected by the virus. Perhaps a better approach would be to isolate	7/8/2020 3:29 PM

Fall Planning Survey 2020

high risk staff and then go ahead with traditional or hybrid model teaching. The total online experience does not allow students to interact in the same way and it just doesn't seem to be as helpful as in person.

371	Remote learning needs a trteacher there 100 % if the time helping the children as they do homework just like in school Not this go to this website and figure it out on your own But teach them kids in the beginning how to access there work on line and how to access any other work needed and how to turn it in Very hard last year unless your a computer wizard which most parents are not	7/8/2020 3:27 PM
372	I think her teachers did an outstanding job through all of this and Gracie was able to keep up. I had great communication with most of her teachers and the school and felt that I had excellent support. Her dean even delivered, contact less of course, her Chromebook when we found we were not doing well with only one computer! And the district has done a great job of updating all of us during uncertain and ever changing times. Thanks!	7/8/2020 3:25 PM
373	if the kids are able to go back to school, please don't get rid of the resource officers. My kids wouldn't feel safe without them. Also if my kids are forced to go to school with a mask on or are forced to stay away from other kids, they will not be going to school until things go back to normal	7/8/2020 3:24 PM
374	NA	7/8/2020 3:22 PM
375	I will put my kids in school if it is 100% in person.	7/8/2020 3:20 PM
376	Open the schools up and let our children go back to class.	7/8/2020 3:20 PM
377	We all need to open up sometime. My child is older, but this is hurting the young kids the most. some parents do not parent well and keeping kids home all day will not be a good solution. We will lose this generation.	7/8/2020 3:15 PM
378	I believe students and staff will need masks to reduce the spread of viruses and have hand sanitizer plus move desks 6 ft apart and no sharing of any items to reduce the spread of germs	7/8/2020 3:14 PM
379	My daughter is declining because of the lack of one on one. she is going into 6th grade with difficulties in the 3rd grade math curriculum. remote learning is not for my child who needs extra attention.	7/8/2020 3:11 PM
380	Normal schooling, no masks to compromise my childs lungs, if no Physical education classes then some kind of activity choices.	7/8/2020 3:09 PM
381	With remote learning a lot of the teachers were no help	7/8/2020 3:06 PM
382	I feel very sad that my child is going through a pandemic like I've never thought was possible. However, his safety and the safety of teachers is 100% the highest priority. I am apalled that teachers were made to take paycuts. I wonder how many administrator postions took paycuts?	7/8/2020 3:05 PM
383	No	7/8/2020 3:05 PM
384	I PRAY the schools are open fulltime for in person education. I think the Crone books learning was HIGHLY ineffective for my children. My 2nd grader never did any work. My 6th grader might've done a "little." My repeated Freshman dropped out for most of the yr. PLEASE BRING BACK TRADITIONAL SCHOOLING. Best Wishes, Catherine Martinez	7/8/2020 3:04 PM
385	I can not remote learn with my kids I'm a single mom who's an "essential" worker and am not home to school them. They need to be in class!!!	7/8/2020 2:58 PM
386	If you choose to do remote learning, we will pull our children out of school and homeschool! Remote learning was a joke. Many of my friends that have kids in District 51 have said the same thing. I know the schools budget has already been cut by a lot... Losing more kids to homeschool will also drastically cut the budget!	7/8/2020 2:54 PM
387	I can't make a full decision about returning to class until I know the requirements I don't want my kids to have to wear masks at school or not have playground time	7/8/2020 2:54 PM
388	Our daughter could never retrieve or get into her account. She would ask for help and was told they could log in, but the system wouldn't allow her to log in. I tried different times and called for help, they kept saying they could log in. I could not get sufficient help.	7/8/2020 2:54 PM
389	We had free internet for the end of the school year. We are unable to afford internet for th	7/8/2020 2:50 PM

Fall Planning Survey 2020

upcoming school year. Unless we get help my children will not be able to do remote even though i think it would be better for them at home until things get better but we do not have any way of paying for the internet service

390	Safety needs to be a priority in learning model regardless of which model is chosen by districts	7/8/2020 2:47 PM
391	My daughter pretty much shut down academically with online learning.	7/8/2020 2:44 PM
392	The remote learning experience at the end of last school year was exemplary considering the conditions. However, it was very far from what I would hope for the education of my children going forward. I have a very high level of respect for the quality of education that my children have received in school district 51. I plan to be as supportive as possible while the district navigates such a challenging environment full of unknown outcomes.	7/8/2020 2:40 PM
393	Open the schools! No staggering, adhere to a normal full-time schedule.	7/8/2020 2:39 PM
394	If no face to face learning is available, our mill levy for the School District should be reduced. The reasoning for this is that the homes will be providing paper, internet, air conditioning, heating, food, ext... If buildings are not occupied no maintenance staff is needed and cost of schooling is realistically going to be less for the District.	7/8/2020 2:37 PM
395	I just hope the District takes into consideration the data available and credible about Covid and low infection rates amongst youth.	7/8/2020 2:37 PM
396	It was hard to do group assigned projects during remote learning, very stressful on the students	7/8/2020 2:35 PM
397	No	7/8/2020 2:34 PM
398	just wanting to know if my child will be required to wear a mask.	7/8/2020 2:33 PM
399	I would like daily mask wearing and weekly covid-19 testing to be required.	7/8/2020 2:26 PM
400	No masks for the children	7/8/2020 2:26 PM
401	The remote learning experience was very bad, my daughter became exhausted between working and also keeping up in school, she had difficulty understanding some of the material. I'm addition, she and I were both extremely irritated when it did not weigh on the grades of the students as it should of because others simply didn't do the work because they said "it doesn't count anyways so I don't need to do it." While there were other students working their hardest to get the work done.	7/8/2020 2:21 PM
402	I would ask to not force them to wear masks.	7/8/2020 2:20 PM
403	We would be open to sending our kids back to school, but if they can't play with other kids, eat with other kids, go to gym, music, or the library then I probably won't send them back. At that point I will most likely do 100% remote learning. I am in a place where I'm able to teach them at home, and since I run an in-home daycare they will have more socialization and freedom to play. Socialization is half the reason, my husband and I send our kids to school. Thank you guys for all that you do. This must be such a mess for teachers and D51 admin. We are so appreciative of you, especially in this situation.	7/8/2020 2:20 PM
404	The on line learning was very difficult for my special needs student to learn through would like to see 1 on 1 times for him, if possible to arrange	7/8/2020 2:17 PM
405	Just open schools back up. Let kids learn and be kids.	7/8/2020 2:12 PM
406	Mrs. Harding was great at Thunder Mt, however I wasn't very pleased with the 6th teachers at GMMS, on project was turned in, it was late because I was unsure how to(essential worker also), and the teacher never even graded, gave him a 0 for it, it was already hard enough for us to figure things out. And using Google classroom was easier than schoology.	7/8/2020 2:12 PM
407	My child needs the enrichment of going back to school! Online learning was a very hard struggle for our family, with both parents working full time	7/8/2020 2:10 PM
408	No	7/8/2020 2:10 PM
409	Neither of my children thrived during the remote learning ordeal-- and I do believe it was a direct result from having to switch to remote learning. My step son in 7th grade (going into 8th this fall) did a little better than my 1st grader. My 1st grader suffered greatly, she absolutely hated remote learning-- it was a battle everyday to get her school work done, she fell behind quickly-- plus the loss of 90% of her social life outside of home was hard as well. We, as a	7/8/2020 2:06 PM

Fall Planning Survey 2020

whole family, lost a lot of the structure we had in our schedules & day-to-day life. We tried to reform some type of routine but things were much more organized before. Please don't continue remote learning in the fall-- I do believe that it is slightly more urgent & necessary for elementary school students to receive in-person learning/ teaching--

410	It will be a hardship not to have face to face learning. My son does better with that learning. We had to take away his chromebook because he was doing more than remote learning in it, which was a major problem for us. He did not do well with remote learning and I am afraid he would flunk out.	7/8/2020 2:06 PM
411	I will not send my children back to school if they are required to wear masks. If masks are required we will do online school.	7/8/2020 2:04 PM
412	The key to a safe return is to have required testing before attending school and testing every two weeks after, with intensive organization to allow for rapid contact tracing. If this is in place, then outbreaks can be stopped early before they derail the entire school program.	7/8/2020 2:04 PM
413	If our children our required to wear masks all day, your asking for more germs and viruses to be spread. I think it will only distract from the learning environment and cause more problems! Let them be children, they are resilient and if have good immune systems, there is no reason they should need be required to wear a mask! Furthermore, more with children who are unable to breathe well, with asthma, a mask is a BAD idea, and I have one such child who a mask does NOT work for!! Let them go back to life! Without all the ridiculousness and hindering that all this is causing.	7/8/2020 2:04 PM
414	Children are ment to be able to play together. Sitting at home on a screen is detrimental to their ability to learn the necessary social skills. Also fear should not be the driving force behind any decision made. Parents should have the right to choose. As we all know not everyone fits into the same box.	7/8/2020 2:01 PM
415	in-school learning is more than just acedemics. My daughter is entering 1st grade and social learning is equally as important in my opinion.	7/8/2020 2:00 PM
416	Remote learning was disastrous for my son.....although he enjoyed it because he could do it more quickly, and he doesn't particularly care for his peers, it does not meet his needs in the best way. Not all teachers approached remote learning in the same way and it was sometimes unclear whether he was doing what was required or not. If D51 doesn't resume regular classes I will return him to Caprock or perhaps an alternate home school for the upcoming school year. My opinion.....is that the the district did the best they could given the hand you were dealt but the "remote learning was ill conceived and poorly implemented. Connor was having one of his best yrs yet and was showing real interest in some of his classes, and also taking real pride in doing well. The remote learning crushed all that. We are not fans and will not participate in that again.	7/8/2020 1:58 PM
417	Don't play politics. Do what is right for the children regardless of the consequences or repercussions to the board members.	7/8/2020 1:57 PM
418	I firmly believe our children need to be learning IN school with appropriate measures in place to protect everyone whether that be masks, daily temperature readings, required sanitizing, etc.	7/8/2020 1:56 PM
419	We must follow the data when making the decision to shut down schools. When the New York Times singles out Mesa County in an article as having practically no COVID, then we ought to resume normal education. Online learning does not work at the primary level. Let good data drive the decisions. Test students weekly. Don't shut down again.	7/8/2020 1:56 PM
420	These kids need to go back to school with NO restrictions. Children are not dying from COVID. Mental health and suicide rates are up and there is more to consider than the politics behind COVID. Also, school sports NEED to happen.	7/8/2020 1:56 PM
421	If we wind up doing partial remote learning for middle school, I'd like to see it for the non core subjects first. I'd like the opportunity to continue items like orchestra to meet face to face. I think those extra-curricular are important too.	7/8/2020 1:54 PM
422	The remote learning does not work	7/8/2020 1:53 PM
423	No	7/8/2020 1:51 PM
424	How does D 51 plan to keep students and faculty safe? Are they going to reduce class-size? Will somebody be going in and sanitizing classes in between classes? And if they do plan on	7/8/2020 1:51 PM

Fall Planning Survey 2020

cleaning in between every class what does that do to the school day?

425	I feel very strongly that my son is unable to get what he needs with remote learning. I also feel he has already fallen behind. I don't feel qualified to teach him at home. Additionally we are new to this area and he needs to have time to bond with his peers. I feel if we move forward with a remote learning model that it will be detrimental to his academic growth and progress.	7/8/2020 1:49 PM
426	While we are very concerned as to our child's health, his special needs are around social/emotional issues that can not be adequately addressed in a remote learning bubble. We hope the district is committed to meeting the needs of special education children as we move forward during this time of uncertainty.	7/8/2020 1:49 PM
427	Remote learning would need a great deal of an upgrade	7/8/2020 1:48 PM
428	Not as of now	7/8/2020 1:47 PM
429	Not at this time	7/8/2020 1:45 PM
430	Interested in pursuing remote learning for Trystin, open to any and all options including online home school programs. We have multiple computers and separate learning area set up for home schooling	7/8/2020 1:44 PM
431	.	7/8/2020 1:44 PM
432	In my opinion the spring online learning was not adequate. I understand that this was an urgent need that was not planned for. However if hybrid or online learning will continue in the fall there will need to be a drastic improvement.	7/8/2020 1:43 PM
433	My children will not go back to in person school if there is no gathering of students (like if they have to stay in the same classroom all day with no outside activities, no lunch break with friends, etc.) or if extra curricular activities are cancelled and there will be minimal socialization and have to wear a mask all day. That will not work for us. If they can engage with friends and teachers as school, they will go back, otherwise we will figure out homeschooling or online school.	7/8/2020 1:41 PM
434	There needs to be structure across the board for the teachers, and explained planning and scheduling so that parents know what is expected of their kids, when it's due, and how to contact teachers if there are problems or questions.	7/8/2020 1:39 PM
435	Assignments and instructions were vague at best and led to difficulties at home and completing work. Made it hard to hold child accountable. Any online this year would need to have actual online teaching streaming the teacher to be effective.	7/8/2020 1:39 PM
436	Must dramatically improve remote learning	7/8/2020 1:38 PM
437	Even though my son's teacher did a great job with online schooling. We feel the learning and obviously the social skills were definitely not there. If my child has to continue to do online, we will have to find a different route, as in private learning or something different, we don't feel online teaching is the way to go for our young children, especially what they need to learn at this age. We feel it is not good for my children to sit at home on his computer all day. We are completely against our children going back to school and without masks. We feel it is unhealthy to have a child wear a mask all day and I can only imagine the kind of germs that they will be putting on themselves by touching it all day long. We don't feel that this virus should stop how the schools are being run. There were more kids sick with the flu and we didn't close the school for that. Our children need interaction. Thank you!	7/8/2020 1:37 PM
438	I believe that a hybrid model of remote/in person learning will be disruptive to my child and other children who thrive from consistent structure. My children already live in a blended situation, so the more consistency I can offer them, the better. While I do not necessarily believe that remote learning is the most beneficial educationally, if I have to pick one or the other at 100%, I am most comfortable with them home right now.	7/8/2020 1:36 PM
439	No	7/8/2020 1:31 PM
440	Classes need to be face to face this remote learning is not beneficial to my son in anyway.	7/8/2020 1:29 PM
441	Kids really need to be back at school and getting back to normal- since kids do not generally get very sick from Covid 19, it would be a shame if they had to suffer with another year like last!	7/8/2020 1:26 PM
442	my kids will not wear a mask to school for any reason. If its make a requirement they won't go.	7/8/2020 1:22 PM

Fall Planning Survey 2020

Also if the vaccination for covid 19 they won't be getting that eitherever required or not.

443	Homeschooling was difficult. My 5th grader was beyond overwhelmed because they expected him to have the online platform figured out quickly. He struggled. Our kids need the Social and Emotional opportunity's that In-person school offers. Unfortunately if one of the restrictions for the school year starting is that the kids will have to wear masks and distance with no recess, we would prefer a homeschool option. They would not be able to handle wearing a mask all day. I believe you would end up with more children sick because they will be constantly itching,rubbing and adjusting their masks and their face. I do understand that this is a difficult situation for everyone and we truly appreciate the district for their determination in trying to make things work for as many as possible. Just putting in my two cents.	7/8/2020 1:19 PM
444	No face masks in school. My child will not attend if face masks are required.	7/8/2020 1:19 PM
445	This year is a mess- good luck y'all!	7/8/2020 1:17 PM
446	If going back to face to face learning would require mask wearing, my children would not attended and we would require remote learning or grand river academy.	7/8/2020 1:14 PM
447	I think you guys are doing the best you can with the current situation. I am sorry people are so hyper critical about everything. Keep doing a great job for our kids!	7/8/2020 1:14 PM
448	My daughter really struggled with the remote learning, she really needs the in person learning in order to understand what is expected of her!	7/8/2020 1:13 PM
449	If there was a way to work out having the core classes and any electives that are not hands on be remote? Then we can spread out the kids on different days at the schools for hands on electives and sports. It will be very difficult for my daughter to have a mask on at all times as she has asthma. We already limit the time she spends in situations where she needs the mask. However, I don't want her to miss out on her last 2 years. They are already giving up so much.	7/8/2020 1:13 PM
450	If schools will require masks all day and there will not be recess or specials we would rather just do remote learning. If masks are required all day I do not plan on my kids returning for the school year	7/8/2020 1:13 PM
451	If children are to return to school, I do not believe masks should mandated, it should be an option. If it is mandated, they I vote for remote learning as learning will not be productive for teachers or students if masks are required...to much time would be wasted by teachers having to remind students to keep masks on.	7/8/2020 1:12 PM
452	No	7/8/2020 1:11 PM
453	Obviously the best case scenario would be 100 percent in-person learning, but if it's not possible, it would be nice to at least have the kids at school 3 days a week or so. Also a little concerned about school buses and if they will run as it would cause some issues for some families and also more congestion at the schools. Maybe there's a way to stagger kids who are in person vs. at home so as to create more social distancing.	7/8/2020 1:09 PM
454	Get our children back to normal as possible. This is very bad for their mental health.	7/8/2020 1:06 PM
455	It's much easier for older learners to work remotely. I'm most concerned about the younger kids. Both with respect to keeping good hygiene, and their abilities to be able to adapt to remote learning. Our older child struggled with the online assignments he got through kindergarten, and now we'll have two. At the same time, I worry about them catching it because they are both quick to pick up any bug going around. Whether they go back full time, or stay home full time, neither is ideal given the recent spike.	7/8/2020 1:04 PM
456	I think the kids need to be back in school. The remote learning was ok in the covid pinch but what a fight every day to make sure they log in and get everything completed.	7/8/2020 1:03 PM
457	Computer learning has been proved relatively ineffective when used as the sole source of education and has proved substantially ineffective even when combined with in person learning unless if utilized as an assist with traditional in person learning. Further, relative to computer based learning use with students having learning disabilities or challenges such as attention deficit disorders, sitting in front of a computer is a ridiculously difficult and ineffective mechanism for learning. One more issue with Dist 51's implementation of computer based learning is the fact that early on in the computer based learning implementation students were notified that regardless of how they performed during the last quarter (the computer based quarter) they would not receive a grade lower than they had received in the 3rd or previous	7/8/2020 1:03 PM

Fall Planning Survey 2020

quarter. What a ridiculous manner in which to motivate students to try their best in the face of a difficult and untried mechanism; they were basically told they didn't even have to participate to get a grade as good as their last quarter. The result should have been obvious to experienced adult educators even before the announcement was made, only those students who are internally motivated high achievers or those closely supervised and motivated by their parents would make a reasonable effort at computer based learning, the rest would be satisfied with receiving last quarters grade, if not even pleased to not have to participate at all. Whomever decided to make that announcement before the completion, or at least near the end of the last quarter, should have their judgement severely questioned and their credentials reviewed for revocation. Covid 19 has not proven to be severe and certainly no worse than the flu, particularly relative to children and most healthy adults and especially in Mesa County. Therefor, in consideration of the local covid 19 situation, it's relative insignificant impact upon healthy children and adults and it's lack of impact in Mesa County as a whole, and the ineffectiveness of computer based learning, there should be no question that school should resume normally in person in the fall. Perhaps as an aid in limiting liability some reasonable protective measures may be required like masks on buses, temperature taking, self quarantine from school for a reasonable period for those who have traveled to covid hot zones within the previous 2 weeks and the like and n school should resume as normal but with those types of measures in place for a reasonable limited duration.

458	Remote learning will negatively affect my children, in person- face to face is the only model that will work for my son with an IEP. Also he cannot wear a mask for medical/safety reasons and his goals and growth would be negatively impacted by his peers wearing them. If things don't go back to normal in the fall there is a high likelihood that I will pull my students for homeschooling.	7/8/2020 1:01 PM
459	It is hard as a parent to teach the way you guys want them to learn. We would try our best but its hard	7/8/2020 1:00 PM
460	I don't think it is a good idea to have the kids return to school, I don't see how they could possibly keep social distance safety, especially in the hallway between classes.	7/8/2020 12:58 PM
461	Remote learning worked well for our family because my kids are older and don't need childcare.	7/8/2020 12:57 PM
462	I do not think we are safe sending the children back yet! They are not going to be able to wear masks at school! We need more time!	7/8/2020 12:57 PM
463	We are currently working with mind springs health to help better child's mental and behavioral health issues	7/8/2020 12:54 PM
464	I really wish the district would be better about keeping us informed on how reopening will look like and repercussions if we don't attend. We need to know so we can start making back to school purchases.	7/8/2020 12:54 PM
465	Remote learning did absolutely no good im a single working parent to 4 kids 7 and under i cant work and spend 6 hrs a day between kids on a computer with assignments we cant get done	7/8/2020 12:53 PM
466	I'd like to get more information on online schooling for my daughter for 2020-21 school year	7/8/2020 12:52 PM
467	I'd prefer either 100% in (business as usual) or 100% out (remote/home school). I am not keen in anything in between, or social distancing/mask wearing during school hours. In case such practices are required, will likely opt out for home school/online school for the next year.	7/8/2020 12:51 PM
468	One on one is better learning .	7/8/2020 12:49 PM
469	Do your job and open up, no masks, sports/extra curricular in place and let our kids be kids.	7/8/2020 12:49 PM
470	For the overall mental health and social aspects of face to face interaction with other students in the same age group, I feel it is very important to return to a normal school atmosphere. Face to face interaction teaches social skills on level that sitting in front of a screen can not accomplish. Also, for working parents, it is impossible to have the consistency needed to promote a healthy education. For example, I work an early morning shift from 6am till 315 pm at a center for adult survivors of traumatic brain injuries. My spouse does security from 3-11pm. My spouse and I both do private home health care for a family member on various days of the week making it nearly impossible to have a set learning time. I was having to cram a full week of schooling on my 2 days off making it a day full of pressure for my son. Please take all these things into consideration and thank you for all that you are doing to promote healthy learning.	7/8/2020 12:45 PM
471	Just need to make sure that our students and faculty are yaken care of. I know that no one	7/8/2020 12:43 PM

Fall Planning Survey 2020

enjoys wearing is a mask ,but I hope it is part of the requirement if school opens up for face to face learning.

472	My child will not be back if social distancing and face masks are required. There social and mental health is much more important than a virus that is politically driven!!	7/8/2020 12:37 PM
473	We are very fortunate to be flexible. We will adapt to whatever you decide is best for the community!	7/8/2020 12:36 PM
474	This is so different for everyone. I certainly can help my kids with learning but the teachers need to be better prepared to help the students too. They also need to hold kids accountable just as if they were physically in school.	7/8/2020 12:36 PM
475	My children's 4th grade teachers were awful. They offered no help or support to my children during remote learning. They both treated the COVID-19 like a vacation and excuse for not having to do their Jobs. I would prefer the children go back to school. However, I believe I was a better teacher to my children then their actual teachers were throughout the entire year. The only concerns I have is that I must return to work with no one to watch them while I am gone. So, even though I would rather homeschool my children myself. Chipeta provides good babysitters during the day as they sure do not provide good learning. We are also worried that if the children go back full time, there is a greater possibility of them becoming sick. That is why a hybrid of both may be the best option.	7/8/2020 12:34 PM
476	I am torn as to what is best for the kids and staff. Please make the best decisions based off health and safety for all not because of pressure from one side or the other. Keeping everyone safe and healthy needs to be the focus not people's feelings.	7/8/2020 12:34 PM
477	School needs to resume back to normal.	7/8/2020 12:32 PM
478	It's very hard to make good choices with regards to our kids needs vs their safety! I appreciate all the effort, time and hard work put forth by everyone involved in making all this work! God bless you all!	7/8/2020 12:31 PM
479	My youngest can not read yet and attended kindergarten with remote learning . He was home with my 79 year old grandma that was unable to assist him in any computer work .It went horrible with both my husband and I still working full time in Healthcare. He was receiving extra help in school that he really needs and was devastating to loose that help.	7/8/2020 12:29 PM
480	Thanks for all you do!	7/8/2020 12:28 PM
481	I think you should open these schools back up all this is doing is hurting these kids in the long run	7/8/2020 12:28 PM
482	Before spring break my son was in the process of learning evaluation. This has not since resumed, we feel he will be placed on a 504 or IEP plan. He struggles greatly with online learning and is unable to focus. He needs in person instruction.	7/8/2020 12:26 PM
483	Please DO NOT resume remote learning.	7/8/2020 12:26 PM
484	If the district moves forward with online learning I'd like to see more live classroom online. I know other school may have had problems with hackers or other issues but my student needs strict deadlines and actual times to hold her accountable. She found she had too much free time and wouldn't do class work until the last minute or it was too late and she'd get a lot all at once. She found out she is a better in seat student than online.	7/8/2020 12:24 PM
485	Please allow our students to return to in person learning. The social skills are just as important if not more so during this age!	7/8/2020 12:23 PM
486	I appreciate the survey, my kiddo wants to go back but as a high-risk individual, I don't want him bringing anything home with him. I think our school did well keeping the kids engaged this last semester.	7/8/2020 12:22 PM
487	It is unrealistic to expect children of any age to tolerate or adhere to social distancing or mask wearing. I do not expect the school to enforce this.	7/8/2020 12:22 PM
488	More teacher-student interaction if we must do some remote learning.	7/8/2020 12:22 PM
489	I believe instruction school is extremely important, especially in the areas of math, science,and foreign language. If health department officials don't allow in person instruction in Fall 2020 the District need to find a way to do actual virtual classrooms with a video camera, on the teacher	7/8/2020 12:22 PM

Fall Planning Survey 2020

and on the whiteboard for instruction, or technology like that. The last quarter of Math 3 my daughter received very little instruction on how to perform math problems, and do not believe she learned or retained what she needed to move on in Math. Science and Foreign Language were the same. As a parent, although I understand COVID concerns, teaching and preparing this generation for the world is most important. They should be allowed back to in-class instruction until a more beneficial online learning environment is achieved by the District.

490	I would like to see the kuds go back to school has normal as possible. I don't think face mask will work with the kids especially in elementary school. I don't want my kids wearing a mask all day. As for social distancing you can practice that all you want.	7/8/2020 12:21 PM
491	Please no masks	7/8/2020 12:21 PM
492	If we can't be in school 100% of the time. I think that at least 2-3 days of in person contact is essential for children to not only excel in academics, but also meet social needs.	7/8/2020 12:21 PM
493	My child did well with remote learning, however, I think the social interaction with her classmates is very important and is a key piece to her learning. I don't feel like she was very engaged in the learning process more so just wanted to get it out of the way for the day.	7/8/2020 12:21 PM
494	I honestly believe that school should go on the same. It will cause more stress on young and even older children to have such restrictions in place. And quite honestly, it does not do any good for their immune systems to keep them from each other.	7/8/2020 12:20 PM
495	Causes to much depression in kids when they can't be around people, lower motivation, teachers aren't very interested in them, the system they used was horrible.	7/8/2020 12:19 PM
496	We feel that MVCS has helped both our daughters be prepared to easily experience this kind of situation. Both my girls were in a crossover choir class which did change to the online platform for them. It was different, yet handled well by the instructor. Our kids feel their advisors and teachers really care about them! That is awesome!!! Thanks for the good you are doing!	7/8/2020 12:19 PM
497	This "virus" is not as bad as it is portrayed to be. I would like my son to be able to attend school without a mask. I would be willing to sign a waiver. The governor's restrictions are far overreaching. Please let our students attend and have a normal school year. Neither of my sons did well with remote learning. I don't want to have to quit my job to home school my son. Masks are unhealthy and children have not been affected by this virus on any kind of measurable level. Thank you.	7/8/2020 12:18 PM
498	Not at this time	7/8/2020 12:18 PM
499	Ideal learning happens in-person, but safety must be the first priority and can't be sacrificed.	7/8/2020 12:18 PM
500	what about teachers? what if they don't feel comfortable being in person? Have you asked them yet?	7/8/2020 12:17 PM
501	The school district did a great job (in a short amount of time) to organize the remote learning. However, I feel like my children didn't learn nearly as well at home as they did when they were attending school, face-to-face with their teachers. We didn't have any problems with the remote learning, it just wasn't an effective method for us... felt like my kids were short-changed in their education for the last quarter of the school year.	7/8/2020 12:15 PM
502	Not real sure if there was any learning going on with the "remote learning " last year	7/8/2020 12:15 PM
503	My son did not do good at all with the remote learning and I'm worried that he will drop out if he is not able to return to person to person learning this fall.	7/8/2020 12:12 PM
504	Remote online schooling in the high schools should be an option at all times for the students that need it.	7/8/2020 12:12 PM
505	Participating in School Sports are ESSENTIAL to the physical and mental development of our youth. Please, PLEASE DO NOT KEEP OUR KIDS FROM THEIR FALL SPORTS PROGRAMS... In my family's case it is women's volleyball for both of my daughters.	7/8/2020 12:10 PM
506	If my child is required to wear a mask or get a covid vaccination he will not be returning	7/8/2020 12:10 PM
507	D51 teachers are amazing!	7/8/2020 12:10 PM
508	If reopening looks like...: mandated masks, no cafeteria, no sports/recess/assemblies etc... we will likely choose to homeschool. Hoping that things will be safe and open as normal as	7/8/2020 12:08 PM

Fall Planning Survey 2020

	possible.	
509	It was very hard for her online schooling	7/8/2020 12:07 PM
510	no masks, or my child will not attend	7/8/2020 12:06 PM
511	Na	7/8/2020 12:04 PM
512	I have been very pleased with Dr. Sirko, but do not like the thought of just spreading the desks further apart. This is insufficient and doesn't take into account any of the remaining school day. Masks should be required whenever possible (not possible for most band instruments obviously). The cases are continuing to climb and we need to be cautious; otherwise we'll never get to fully reopen.	7/8/2020 12:03 PM
513	I am more than happy to do remote learning as long as there is in person learning too. 100 percent remote learning is just not plausible for my family. If that happens we will have to find alternate ways of learning and i'm just not sure there is anything available.	7/8/2020 12:03 PM
514	These children need interaction, they need to socialize and they need to be in school to learn!	7/8/2020 12:02 PM
515	Have another child that is ready to start PreK	7/8/2020 12:02 PM
516	if we have to do remote on line it would be dramatically improved if it was consistent very structured with one app/location for all core and priority lessons. having all of these random apps when parents are not able to direct the learning is ridiculous for kids under 10. Every didn't should be provided a chrome book so all the software is installed and functional. things like music and PE really need to be deemphasized and the basic core learning needs to be emphasized. The EPIC book application has so many worthless Book full of comics with incorrect use of the English language as well as slang and poor spelling so should be discouraged and paper book should be available for check out or pick up or sent home for required reading. There's no harm in being more structured and strict that helps us parents try to maintain some order while many are still working full-time jobs.. last year was a total fail in my opinion.	7/8/2020 12:02 PM
517	Kids need the structure in person schooling provides	7/8/2020 12:00 PM
518	How is it possible to keep my kids safe in packed classrooms without the possibility of social distancing?	7/8/2020 11:57 AM
519	No	7/8/2020 11:56 AM
520	We believe the Chromebooks from last year that school district 51 did work really well	7/8/2020 11:55 AM
521	I would prefer 100% face to face learning. However, hybrid would be acceptable if my students were attending their physical schools at least 3 days a week.	7/8/2020 11:54 AM
522	We miss the traditional school model and believe there is no substitute for positive teacher/student interaction. That being said, our top priority is for the safety of our son, all students, and all D51 staff. I am very fearful to return to traditional school even though we miss it. I would rather remain online than to see a spike in COVID-19 illness. If we do return in person, we would like to see changes made with screening for health, use of masks, etc. to maintain proper respiratory hygiene.	7/8/2020 11:53 AM
523	I understand that the teachers had a limited amount of time to implement online learning however it's my understanding they do plenty of classroom stuff on Google which seems to mean it would be easy enough to upload assignments and require more studies being done at home. Including work that is challenging. My children reported daily and stayed on task but there just wasn't enough school work to do 2 hours a day is not enough.	7/8/2020 11:52 AM
524	I am a health care worker. There is not a day or time that COVID has not affected my life. However, I feel that in class learning is needed for my children. Not having this option will put a financial hardship on my family as I do not qualify for reimbursement programs. My child will still be going to a facility where other children are and so no benefit from having home learning.	7/8/2020 11:52 AM
525	My son did very well with remote learning. It was hard to get into it at first but as we all learned what he should be doing, it went very well. Please do what you need to do to keep all of us safe.	7/8/2020 11:51 AM
526	Not at this time	7/8/2020 11:49 AM

Fall Planning Survey 2020

527	No	7/8/2020 11:49 AM
528	Don't put our children in jeopardy because trump wants the schools open and I'm not sure you can trust Mesa county public health.	7/8/2020 11:48 AM
529	The educator were only available most mornings and not in the afternoon except 1. It made it hard to get help or help was recieved late (next day) which made schoolwork turned in late and also got behind on next days work. Some teachers were not as strict as other about turning work in on time which made grades lower. It was frustrating but I know it was the 1st time there was remote learning for the school. But it made me sad to know some kids that don't get the extra help from parents that can use extra help from outside the homes because as a parent trying to help 2 kids was hard for me so I know for kids that don't have support at home what do they do?	7/8/2020 11:48 AM
530	I believe that student's education is suffering with online learning for working parents who cannot be home to keep kids on task. Even if we could be home, teaching is a skill, and a specialty that I have zero training in. Just because I was taught, and attended school and obtained a degree doesn't qualify me to teach. Online learning is insufficient and I hope this is an absolute last resort.	7/8/2020 11:47 AM
531	Let the kids be kids. Children need the face to face social interaction - no masks - no social distancing!! old style NORMAL OR NOTHING!! if you need to do anything - push the calendar back to the old fashioned Labor day to Memorial day model. worked for a hundred years, still good now.....	7/8/2020 11:45 AM
532	No	7/8/2020 11:44 AM
533	We want full back to school in person face to face. School aged children are not dying at any rate that warrants schools being shutdown. Plus there are several studies coming out that asymptomatic carriers dont pass the virus. We are much more concerned with the mental, and emotional aspects of kids not being in full normal back to school, sports and other activities. We need them to go back to what they enjoy and focus on their health and well being. Covid is reeling havoc on them and it isnt the virus it is the response or over response. Allow for virtual for those who are compromised or prefer that option. Have parents sign waivers that want back to school normal, increase cleaning and hand washing but no masks and please normal lunches, recesses, and specials Push back on state mandates, respond appropriately for our county and our kids needs not blanket mandates	7/8/2020 11:44 AM
534	No	7/8/2020 11:43 AM
535	Kids need to have the interaction with their teachers and fellow class mates to have the best chance of learning.	7/8/2020 11:42 AM
536	Consideration around the amount of screen time for each child should be considered. My child with the IEP has to meet regular class requirements and his IEP requirements. This required extra screen time. In the school setting children on IEP's miss a certain portion of regular instruction for IEP classes. This did not happen during online learning.	7/8/2020 11:41 AM
537	I dont like specified times, I want to be able to determine my child's hours and daily schedule in remote learning as I would be the one to help him along the way . And if teachers are doing remote learning I believe they need alittle more training, because it can make for complications when teachers are unaware and do not know how to use the program when they do not read or follow guidelines on the specific courses and rules being taken for remote learning, and do not know how to communicate with parents appropriately.	7/8/2020 11:41 AM
538	Please please please let us go back to in person learning.	7/8/2020 11:40 AM
539	No	7/8/2020 11:38 AM
540	There are alot of single moms out here that need more help then y'all think with all these new rules and regs of covid. We need to figure it out	7/8/2020 11:37 AM
541	The remote learning last quarter was not an effective learning opportunity for our kiddo with D51; it was however, effective with her private clinicians and private therapists. We therefore, hope to have all D51 academic instruction be in-person, although we are in favor abbreviated contact so that there is flexibility for social distancing and/or other necessary measures to keep all kiddos, staff & community safe. Thank you D51 for all that you are doing! Keep moving forward : D	7/8/2020 11:34 AM

Fall Planning Survey 2020

542	With kids in different schools on different schedules if it was a hybrid system we would need to ensure we can match their schedules	7/8/2020 11:34 AM
543	The scientific evidence supports a full return to in person school. Children are at virtually no risk of death from covid. The risk of death from suicide, abuse, overdose is preliminary but expected to be greatly increased due to school closure. The fact that evidence will take time to gather On these harms does not excuse schools from considering them. assuming that schools will monitor students for symptoms of covid as part of opening plans, the argument that children put adults at risk is rather weak. This is true given that the CDC has stated that asymptomatic transmission is rare. If in full person school does not occur, the schools and the NEA should be held responsible by litigation. It is my expectation and desire that the appropriate government state and or local and the NEA be held fully liable for the failed education we currently face due to last year and for the ongoing failure to provide a safe and effective educational environment from a public safety standpoint. Although schools may cite a fear of harm from covid as a reason to deny in person school—does not mean such a harm in practical actuality exists. This assessment of various risks will ultimately be judged by the legal system, not the media. The science is available and the risks of school lockdown are real and increasingly measurable. To ignore them will be costly on many levels. We must place our total and comprehensive well being above that of political ideology and unfounded fears	7/8/2020 11:33 AM
544	No	7/8/2020 11:32 AM
545	Remote learning is to hard for parents that work full time!!!	7/8/2020 11:31 AM
546	I'm very concerned about sending my child back to school. Especially, since we went backwards with the bars and restaurants. I don not want my child's safety put into jeopardy due to pressure of reopening. I personally think it's too soon and reopening for schools should be slow.	7/8/2020 11:29 AM
547	I'm not a teacher. The remote learning caused many fights and arguments. Assignments never made sense and even the teachers felt the plain. One of my sons had I guess 4 websites to check for assignments and I didn't know this nor did he even remember all the passwords. Please look at Lean for office. Things need to be simplified and teachers should be given support. If I'm forced to do remote learning I will be going to an actual home school program.	7/8/2020 11:28 AM
548	In person learning is SO very important for these kids. As a healthcare provider, I believe that increased frequency and additional areas for handwashing should be a HUGE priority. As well as implementing additional cleaning measures . This might have to include looking at schedules to allow more time for this to occur in the way it should. I would also not be opposed to a later start date in order to accomplish this task. The learning experience should be as close to "normal" as possible. Being aware of social distance is ok, but I feel masks would be a nightmare for both teachers and students and be a huge distraction that would take away from learning time.	7/8/2020 11:28 AM
549	Safety from Covid always first	7/8/2020 11:28 AM
550	No	7/8/2020 11:28 AM
551	No	7/8/2020 11:27 AM
552	No	7/8/2020 11:27 AM
553	No	7/8/2020 11:27 AM
554	If the health dept believes it is safe to return for in-person learning I will send my children. Will I disagree with this decision, absolutely. More and more cases are popping up in our community. Children will only spread this faster. I will trust your decision and support it. We're in this together.	7/8/2020 11:27 AM
555	I will not be sending my children to school in masks	7/8/2020 11:27 AM
556	In person learning is best for kids. They need interaction. Masks will only be a distraction.	7/8/2020 11:26 AM
557	No	7/8/2020 11:25 AM
558	Thank you for the work you are doing to keep our kids safe and open the schools if possible. It's a big job and I trust you are doing what is best!	7/8/2020 11:25 AM
559	I am a physician and my children's mother is a nurse. To date, we have a higher total death rate from influenza that exceeds COVID-19. In my 30 plus years as a health care provider, (26 in the	7/8/2020 11:25 AM

Fall Planning Survey 2020

ED) I have never seen a pandemic handled in such an unorthodox, and poor fashion thrown scientific rigor out the window. So much of what we are doing is merely arbitrary based on fear. We are truly harming our kids' psychosocial development by isolating them, not to mention impairing the development of a robust immune system for those not immunocompromised. There are multiple infectious diseases to be confronted...this is the human condition. Keeping children healthy is the best way to support a vigorous immune system...yes we believe the children should be back with their teachers and friends providing them the optimum tools to be successful in life...including healthy, and carefully considered quantifiable coping mechanisms to confront challenges with objectivity and not hiding in fear. We realize in our litigious society you have a challenging job as administrators. Media bias is at an all-time high. They usually, mitigate panic, and instruct the sick and unhealthy to be confined...yet with this pandemic have walked into the theater of life and yelled, "fire!" We need to think of the big picture and do what is right for the kids.

560	While I understand the short notice of shutting schools down everything was disorganized lacking in information. My kids did not learn anything, I feel they are behind in all areas.	7/8/2020 11:25 AM
561	These kids need social interaction, keeping them out of the classroom is more harmful than the current situation we are dealing with	7/8/2020 11:24 AM
562	Smaller classes need to happen period! And 4 day school weeks instead of 5!	7/8/2020 11:23 AM
563	My son is asthmatic and I'm concerned for his safety if he is required to wear a mask breathing your own carbon monoxide is so bad but I'm sure you already knew that.	7/8/2020 11:22 AM
564	No	7/8/2020 11:22 AM
565	Our children need interaction with others, to learn and grow as people.	7/8/2020 11:22 AM
566	My child becomes extremely frustrated trying to learn online. This frustrates me as well and nothing gets accomplished. However, I worry more about the health of myself and child more than her learning what 2nd grade has to offer.	7/8/2020 11:21 AM
567	None	7/8/2020 11:20 AM
568	If schools should open and kids have to wear mask, that is not fair for kiddos to wear mask that long. It is better to wait and let the kiddos be in a safer enviroment. Only core classes are needed	7/8/2020 11:20 AM
569	If a vaccination is required to go back to in person learning, my children will not attend in person	7/8/2020 11:20 AM
570	remote working is very hard for working parents	7/8/2020 11:19 AM
571	I am beyond disappointed with D51 leadership. You are posting things on Facebook without having prior told staff/families what is the plan. You are saying you will release the "plan" on the 21st but already giving feedback to families on Facebook. How disappointing. You haven't even told your hard working teachers what the plan is yet. Oh and wait, there is the fact that this survey, and the MVEA survey are not even due yet... but you have a plan. So why are you taking this survey? You are not even using the information in making your plan. You will lose so many staff and families. Districts all over the country are doing this right... and you are doing it severely wrong.	7/8/2020 11:19 AM
572	I would like to see school return face-to-face, but push the start date back to late August/Early September.	7/8/2020 11:19 AM
573	No	7/8/2020 11:18 AM
574	If kids are going back while cases are still going up, then masks should be required to be worn by everyone entering the schools. Remote learning is my preference until COVID19 is under control. I am not sure how you would have more than a handful of students in a classroom without endangering the students, teachers, and other staff. Thanks for the opportunity to provide feedback.	7/8/2020 11:18 AM
575	why are they sharing supplies again? Need to know what your plan is so we can plan	7/8/2020 11:17 AM
576	In person is our number one choice	7/8/2020 11:17 AM
577	With the current pandemic and having a "high risk" child, I firmly believe it is in my child's best interest to do remote learning instead of in person. Remote learning was just as beneficial for	7/8/2020 11:16 AM

Fall Planning Survey 2020

my child, we had no issues with it and I also liked being able to be involved in my child's learning as well.

578	Children need to go back to school. Real school. Not the online school. That is where they learn the best without distractions of the household. They learn social skills and get to make friends and get to know their teachers. They will create memories that will last a lifetime in school. Our kids need to be in a normal school setting.	7/8/2020 11:16 AM
579	If COVID-19 vaccination required to return to school I will not have my child return because I will not give my child something that hasn't been tested and proven safe.	7/8/2020 11:16 AM
580	I will not send my kids to school if you require them to wear a mask or any other face protection. I will for sure home school if that is the case. They need interaction and normal life including school.	7/8/2020 11:16 AM
581	N/A	7/8/2020 11:16 AM
582	If remote learning in started again, there needs to be weekly guides for parents	7/8/2020 11:16 AM
583	My daughter is taking cmu and art classes her senior year. She can't do these classes remotely	7/8/2020 11:15 AM
584	If we have to do a hybrid model, we would much prefer a full day on-full day online model as opposed to the half day model. For example, in school on M/W and home on T/R and Friday (IACS already uses a four day week model) or in school T/R and home M/W and Friday. The half day option will be really difficult in terms of getting kids to and from school (no bus service) for families who have parents who work full time.	7/8/2020 11:15 AM
585	Don't be pressured to compromise the safety of our children and our community.	7/8/2020 11:14 AM
586	I'm disabled with a brain injury. This was the worst experience for my kids and I.	7/8/2020 11:14 AM
587	No	7/8/2020 11:13 AM
588	Absolutely NO MASKS!	7/8/2020 11:12 AM
589	I tried very hard to help my son with remote learning and feel as though i failed. He has been on an IEP his entire school career. He has trouble staying focused. Get angry and wont do the work. I feel remote learning would set him up for failure.	7/8/2020 11:12 AM
590	Remote learning was largely unsuccessful for my student	7/8/2020 11:12 AM
591	All the staff at each school has been very helpful and understanding which helps significantly with transitioning to remote learning. Also I believe it would be best to push out elementary face to face learning at least younger children dont wash hands as good...	7/8/2020 11:11 AM
592	No	7/8/2020 11:11 AM
593	My child learns better in person and at home with homework paper instead of computer she is a super hyper kid who needs breaks	7/8/2020 11:10 AM
594	No	7/8/2020 11:09 AM
595	No	7/8/2020 11:09 AM
596	I do not have options for childcare if my child doesn't go to school in person.	7/8/2020 11:09 AM
597	No	7/8/2020 11:08 AM
598	One of my children is disabled so that is why I am skeptical.	7/8/2020 11:08 AM
599	Half days would be ok some kids in the morning other in the afternoon until covid starts to slow down	7/8/2020 11:07 AM
600	I had a freshman and senior this past year. My senior was given 30 math assignments a week and even when completed it didn't help his grade. After several weeks of spending more time online in one day than an entire week in the classroom and not really learning, he gave up. My freshman already had A's so he just copied and pasted and didn't learn anything. Since his grades couldn't go up or down he also stopped participating. In person schooling provides more education then just book learning. Our teachers and school provide the next generation with social skills, problem solving athletics and activities that make them well rounded adults. Lack of in person education to a minimal risk population will have significant long term ramifications for our society.	7/8/2020 11:07 AM

Fall Planning Survey 2020

601	Our strong preference is face-to-face learning if at all possible.	7/8/2020 11:07 AM
602	Please do not open schools up it is not safe yet !!	7/8/2020 11:06 AM
603	Thank you for the all the effort and attention being provided to this very complicated issue. We know you have hard decisions to make, but trust that you will implement the best plan for our community. I'm very proud of D51!	7/8/2020 11:06 AM
604	If schools turn into a hybrid of school and home and my child is required to use the computer for 25% or more of computer work, we will opt to home school. Online learning may be fine for secondary students but for elementary students in our family it was a disaster which they received 0 credit for. Huge waste of time and effort. I would consider keeping in school if true worksheets made it home and the teachers actually included the parent working with our children in the decision process. Parents were a mandatory third wheel to assist with navigating computers and wasted a huge amount of time when our kids received non grades for all their efforts. Also, your computer department never reached back for an issue we suffered through the entire at home time period. We'll opt out if those same issues we encountered in the past aren't addressed. Also have issues with masks on my third and kindergarten student, we are flexible and truly understand health of others, but their health matters too. It can't be healthy for them to be in a hot classroom with a mask on full time.	7/8/2020 11:04 AM
605	The remote learning does not work.	7/8/2020 11:04 AM
606	Please, for the sake of us all, families, communities, make a decision to open the schools! If people are afraid to return, let them make accommodations for themselves and their families, do not pressure the people who desire to return to suffer. We lost so much in just the last quarter of school last year, please do not jeopardize the sanity and emotional well being of the children, teachers and all involved. This is something to be overcome and it won't happen by keeping those of us ready to live at bay. Please, make a decision, stick with it even if it is to defy certain "recommendations" rather than be afraid of offending somebody.	7/8/2020 11:04 AM
607	my son has adhd and remote learning is far to hard on him.	7/8/2020 11:04 AM
608	No	7/8/2020 11:04 AM
609	I think my son learns much better in a classroom setting where there are other children around and a teacher. I also think this is good from the Social Development aspect for the children	7/8/2020 11:04 AM
610	We greatly appreciate the effort it takes on the part of the teachers to develop online classes- especially when many teachers have kids of their own.	7/8/2020 11:04 AM
611	Na	7/8/2020 11:02 AM
612	I would like my son to attend school again. We will keep him home if he becomes ill. Maybe taking their temperatures daily would be a good idea when they return. Thank you!	7/8/2020 11:01 AM
613	safety of my children is most important but I want them to be successful	7/8/2020 11:01 AM
614	My child will not attend remote or hybrid school. I will take home somewhere we can get face to face education.	7/8/2020 11:01 AM
615	no	7/8/2020 11:01 AM
616	Remote learning was not very well structured or Helpful.	7/8/2020 11:01 AM
617	I am not cut out for Homeschooling my student, however, I cannot possibly see how these kids can go back to school when they're in such close proximity to one another.	7/8/2020 11:01 AM
618	We would prefer half in school and half remote learning	7/8/2020 11:00 AM
619	The remote learning was not acceptable.	7/8/2020 11:00 AM
620	Remote learning was very difficult with 3 kids in 1st, kindergarten, and preschool. My comments are not intended to speak poorly of teachers, they did great considering the circumstances. None of my kids had the computer agility to do any independent work. Each of my kids required 1-1 to do a good job and all 3 combined took 6-8 hours a day. Even with having a teaching background and with the ability to be home with my kids, this was very difficult. Teacher expectations were very different. If it had been a homeschool situation, I would have coordinated curriculums and lessons so that I could teach my kids at the same time with	7/8/2020 11:00 AM

Fall Planning Survey 2020

differentiation to their levels. Teaching each kid individually while the others (including a 3 year old already at home) made it very difficult to maintain.

621	While my son does very well even in the remote learning, he has expressed that he would definitely rather be face-to-face with his instructors. He feels that he gets more out of the teaching and is able to ask questions more readily with more understanding between himself and his instructors.	7/8/2020 11:00 AM
622	Our experience with online learning was terrific, but mostly due to how our child's teacher (Sarah Schaffer) chose to run her online classroom. She was very interactive and had live classes everyday. If this is an option (and needed due to COVID concerns) I would be in favor of this style of online learning. The other options I've heard of from parents in other classrooms doesn't sound like a great option. Not enough input from the teachers it sounded like. Really hoping we take advantage of the low number of cases and concerns in our community and provide as much of a normal experience for our students as possible, definitely no masks. I can't even get my daughter to keep a jacket on in January, a mask would be impossible. Required masks would likely make us look at online learning, which we would rather not do.	7/8/2020 11:00 AM
623	I do not want my children to feel unsafe during these continued uncertain times. I know the school district is doing their best but I don't believe starting school in August is best safety if not an online option	7/8/2020 11:00 AM
624	I think my kindergartner will benefit more in school, then a home. He is really looking forward to school. I think the social skills in school will benefit him	7/8/2020 10:59 AM
625	Require masks for all students, faculty, and staff. Anyone indoors must be wearing a mask. Make it part of the dress code and announce it as soon as possible.	7/8/2020 10:59 AM
626	Please plan for not returning to school. We all can easily return to school if allowed, however, failing to plan for not returning will be planning to fail. Thank you	7/8/2020 10:59 AM
627	It is hard to answer if the 2019/20 school year went well for my children. 1 student who excelled inseat struggled greatly with distance learning. My other child who struggled horribly with inseat learning land up doing so much better with distance learning. We have done hole school before and with the distance learning there are just too many factors that came into play. I answered a few question in hope. But I can say 100% that if masks are required full day for inseat learning (and at this moment it seems they should), my students will not be returning for inseat classes.	7/8/2020 10:58 AM
628	Thank you for all you guys are doing - Remote learning was much easier for my older kids, but with 2 working parents, it was extremely difficult / close to impossible to keep up with for my kindergartener - now first grader	7/8/2020 10:58 AM
629	In case they go back online, social interactions online between students should increase. Also, I think parents can collaborate to lead some weekly sessions online that give a better sense of synchronize course	7/8/2020 10:58 AM
630	I think there needs to be more outdoor learning (gardening, building, etc.). I think it is a crucial missing part of their education and would be a much healthier learning environment for everyone.. A win, win! :) Thank you all, for all that you do!!!	7/8/2020 10:58 AM
631	My son failed a few of his classes junior year due to this online schooling because half of his teachers didn't care to have their stuff on Google Classroom like they should have and then half of them they have access for him to get into either so he felt I was not happy about it and even when we did get this stuff finally we tried our hardest to help him get through it and they still sell them even though he tried his hardest to complete his assignments	7/8/2020 10:58 AM
632	Schools back in session this fall should be Mesa County's top priority. Bars and other non-essential gatherings (concerts, rodeos, etc.) should not be allowed right now specifically so that we can increase the chances of all of our kids going back to school in the fall so that parents can work.	7/8/2020 10:58 AM
633	Please make sure that any restrictions on student and staff will be supported by administration. Children will remove their masks and refuse to put them on. If there won't be follow through on rules like this, please don't include them. It makes it difficult on parents and teachers to have rules that aren't supported.	7/8/2020 10:58 AM
634	If my children have to wear masks I will be keeping them home.	7/8/2020 10:57 AM
635	A huge thank you to all of the teachers, administrators & staff who are committed to both public	7/8/2020 10:56 AM

637	Homeschool is likely if you don't return to in person learning.	7/8/2020 10:55 AM
638	No	7/8/2020 10:55 AM
639	My child does not do well with remote learning. If it can not be done in person I would rather he just sit the year out.	7/8/2020 10:55 AM
640	No	7/8/2020 10:55 AM
641	My elementary student had a very good online experience but my high school student had a very bad experience there was only one online face-to-face meeting for all his classes the entire time and that was totally insufficient plus none of his teachers ever tried to contact me about bad grades	7/8/2020 10:54 AM
642	No	7/8/2020 10:54 AM
643	No	7/8/2020 10:53 AM
644	If masks are required and there is modifications to there learning day I will pull my children. My Autistic child was not given adequate services by law at the end of school year either. I will seek legal representation per his disabilities act.	7/8/2020 10:53 AM
645	Please get the students back in school	7/8/2020 10:53 AM
646	no	7/8/2020 10:53 AM
647	My family is totally willing to be flexible with what the district believes is best. I believe that we can teach our children how to be safe in a public but understand if it's not an option. Thank you for all that you guys are doing!	7/8/2020 10:53 AM
648	No	7/8/2020 10:53 AM
649	N/A	7/8/2020 10:52 AM
650	Kids need to be in school and taught by teachers face to face they need the time to interact with there fellow classmates and teachers, it is good for children to have a hands-on learning experience. children get to distracted at home to sit behind a screen all day and learn.	7/8/2020 10:52 AM
651	I am on the fence about sending my kids back. I feel that face to face learning is absolutely the best but if that puts my children at risk it's scary. If the COVID numbers keep going up I don't think kids should attend public school.	7/8/2020 10:51 AM
652	My child will go to 100% in person learning with no mask or I'm pulling her and putting her in private school. Remote learning was a complete joke.	7/8/2020 10:51 AM
653	I would ask what the teachers need, that is most important and they are always put last. As a family we can handle whatever situation is decided upon.	7/8/2020 10:51 AM
654	I would like to see a hybrid plan over full remote learning. I would also like to see a zoom or live set up for learning for those not in the class room. I think the kids need structure of class and focus, instead of just tasks to complete. It could be 15-20 minutes of instruction and then projects/tasks to work on after that to complete the class.	7/8/2020 10:51 AM
655	Elementary students will have the hardest time if there are restrictions for them in school. If it is not back to normal for them please keep them home.	7/8/2020 10:51 AM
656	Open the schools	7/8/2020 10:51 AM
657	No	7/8/2020 10:50 AM
658	Just want the kids to be safe and not have a situation where it spreads through the school and then into the community with how aggressive this virus is.	7/8/2020 10:50 AM
659	No	7/8/2020 10:50 AM
660	I have serious concern for the mental health of my child if school does not return to face-to-face	7/8/2020 10:50 AM
661	My child is a hands on learner, and if the district decides to do remote learning for the school	7/8/2020 10:49 AM

Fall Planning Survey 2020

year 2020-2021, I will have no choice but to take her out of the district and move her to private school, and or online learning that has books and worksheets to go along with the online stuff. I am not making my child hate school because of how she learns...

662	No	7/8/2020 10:49 AM
663	I can not help my daughter with remote learning. If that is the case I feel we need tutor help or something. She is also not motivated enough to do the learning properly	7/8/2020 10:49 AM
664	I don't think elementary school students can or will adhere to a safe distance. What about lunch or recess? I could see middle and high schools being in person/in school learning; but elementary school kids are too young and too friendly to be in school right now. Plus, I don't see kids that young keeping masks on. Half of them don't even wash their hands after they go potty	7/8/2020 10:49 AM
665	My kids love in person school learning. If things go bad we will do remote learning. Half the time. It just depends on guidelines what happens.	7/8/2020 10:49 AM
666	If the School District chooses to provide learning in a 100% online atmosphere, we would likely choose an alternative path as the experience our children had in the online portion of the 2019-2020 school year was not a positive one. I recognize the difficulties faced by the district and school officials, however there were several instances of our children being frustrated by the onslaught of assignments with little to no instruction or ability to get the much needed assistance when needed. I'd be happy to discuss further if needed. Regards, Lincoln Folkers	7/8/2020 10:49 AM
667	No	7/8/2020 10:49 AM
668	I think half remote and half in person would be a great option given the spike in the pandemic.	7/8/2020 10:49 AM
669	In my opinion, there was no learning that took place during the remote and learning. The entire setup was thrown on us so quick that we as parents haven't had four years of education to learn to become teachers. expecting us to actually get our children to teach is never going to work out. It's impossible for my child to separate home from school when they are stuck at home doing school. There is no routine there is no ability to put the home life on pause in order to focus on schooling. As a parent I have no ability to teach him. Therefore remote learning he will never learn anything and I think it's a joke!	7/8/2020 10:49 AM
670	Please let students return to school in person. It's the only way my child will learn.	7/8/2020 10:48 AM
671	None	7/8/2020 10:48 AM
672	Remote learning was not successful for my children. This also makes an assumption parents are available, while some of us have full- time jobs. Remote learning will only increase the amount my kids struggle with school. Most parents struggled and the kids are now months behind where they should have been. Most adults are not even successful with online classes, so why would children be!	7/8/2020 10:48 AM
673	Na	7/8/2020 10:48 AM
674	I am A teacher as will it it made things hard trying help my daughter and teach my class as will. I feel she would be better at in class setting.	7/8/2020 10:48 AM
675	I will not have my children attend any in person learning where masks are required. Should this be the case I would be forced to find another alternative for my children's learning.	7/8/2020 10:48 AM
676	please please please have face to face learning. it is essential for the success of our children and the sanity of parents.	7/8/2020 10:48 AM
677	no	7/8/2020 10:47 AM
678	The district should encourage the wearing of face covering during the CHECK-IN DAYS until all necessary safety precautions are implemented. It was not mentioned in an email from Jenny Kostelecky.	7/8/2020 10:47 AM
679	It seems like using an established online program may be easier than having classroom teachers concoct a teaching plan and delivery that they are not used to operating in. On line schooling is much different than in person in my opinion.	7/8/2020 10:47 AM
680	We made remote learning work, because we had to, but it was hard on my kids. Even with great teachers and online resources, it's just not the same as face to face instruction.	7/8/2020 10:46 AM

Fall Planning Survey 2020

681	In my opinion, our children (ages 5 and 7) need the social interaction that comes with in-person learning. They are too young to benefit in any meaningful way from remote learning.	7/8/2020 10:46 AM
682	I feel that the level of education under the remote learning model was not where it needed to be. Seemed like busy work and I don't really feel like my kids learned anything. Plus the fact that the grades could not go down I also think was an issue because if they had a decent grade then they did not put a lot of effort into the classwork that was given to them.	7/8/2020 10:46 AM
683	Would really love my child to have person to person learning atmosphere, but not at the risk of her health. Should masks be required of her at 5 years old, I may have to reconsider sending her to public school. Thanks so much.	7/8/2020 10:46 AM
684	I would like to have teachers input on in person. They should also have a say about their health being on the line if we do not require masks, etc.	7/8/2020 10:45 AM
685	My kids did not do well with online learning. Although we are a super high risk family and I fully support extreme measures being taken to protect our family.	7/8/2020 10:45 AM
686	My daughter worked very hard to complete all of her assignments and give 100% effort and when we received a report card showing N as her grades it was very frustrating. Between balancing teaching at home and having to work to support my family my child should have at least gotten graded on all of her hard work and not received the same participation grade as children who never once signed on for remote learning and put forth zero effort. We have 4 children in our home, 3 of which did the remote learning and 1 is a 2 year old. So we worked very very hard on doing school work even though she was already advanced. Very disappointing she was not graded on her efforts at all.	7/8/2020 10:45 AM
687	Good luck!! You'll likely upset 1/3 to 1/2 of people no matter what you decide.	7/8/2020 10:45 AM
688	No masks for the children. Rebreathing their expelled carbon dioxide kills brain cells. It's science.	7/8/2020 10:45 AM
689	For a house with multiple children in remote learning for the end of last semester I was able to observe that there was not enough consistency between expectations for teachers from one school to another or one grade to another. If remote learning is required, the curriculum should be standard for the district based on grade level and not at the discretion of the teacher. This leaves too much room for children to fall behind if one teacher is struggling to properly plan.	7/8/2020 10:45 AM
690	I think its probably a bad idea to return to in-person learning given the current surge in cases. It is difficult for kids to find the motivation with complete remote learning, so the hybrid would work best, but still makes me nervous with conditions worsening as the summer/year goes on.	7/8/2020 10:45 AM
691	It is imperative that students get back in the classrooms and on the athletic fields. This is necessary for their physical, mental and overall well being.	7/8/2020 10:45 AM
692	No	7/8/2020 10:45 AM
693	If we are going to continue remote learning it needs to be more spread out. I spent 2-3 hours per day with a child in kindergarten trying to complete assignments. That is a long time for a parent that has to work 8 plus hours a day.	7/8/2020 10:45 AM
694	No	7/8/2020 10:45 AM
695	Thank you for all of the work you are putting in to keeping the teachers and students safe while still providing the students an excellent education. I appreciate this district so much.	7/8/2020 10:44 AM
696	I believe that it is in kids' best interest to be able to attend school, especially when they are on an IEP. I am not qualified to teach them in this capacity. I have four on an IEP. I also do not want my kids to go back to school if they will be required to wear masks and not have any interaction with their peers. They need the social interaction as much as the schooling right now. I am open to hybrid, but we will need more support in place this go around.	7/8/2020 10:44 AM
697	I think that there should be multiple options as to what's going to happen this year. If parents want to send their kids to school they can, they wanna do both online and in person they can, and if they wanna do all online with their child they can. I will be choosing to do online/homeschooling this year due to everything going on.	7/8/2020 10:44 AM
698	When it came to remote learning the thunder mountain teachers where amazing.and demoing on what requirements are for my 4th grader to go back will determine if I will send her back to	7/8/2020 10:44 AM

Fall Planning Survey 2020

school or not. For remote learning for the middle school I was not impressed, they were not helpful, but she is starting high school and will go no matter what

699	Please allow our schools to reopen! We cannot live in fear, and sacrifice our way of lives, for an illness that while bad has minimal fatality percentages with proper care. Especially given that ultimately it is likely that a large percentage of the population will contract the illness eventually, regardless of measures practiced. Thank you.	7/8/2020 10:44 AM
700	I work full time if remote learning is forced on us again my kids will suffer for it. It should be up to the parents if I'm willing to send my children it should be allowed. I don't want my kids to fall even further behind. Thank you	7/8/2020 10:43 AM
701	Please don't make this a political game, put our children's safety first.	7/8/2020 10:43 AM
702	No	7/8/2020 10:43 AM
703	Remote learning is too hard for parents who work full time.	7/8/2020 10:42 AM
704	My kids love their extra curricular activities (band, sports) and we'd like alternatives for these to be considered.	7/8/2020 10:42 AM
705	No	7/8/2020 10:42 AM
706	100% face school	7/8/2020 10:42 AM
707	N/A	7/8/2020 10:42 AM
708	Open the schools	7/8/2020 10:42 AM
709	N/A	7/8/2020 10:24 AM
710	Please take into consideration that many children are being raised by their grandparents, which increases the risk of those at home getting Covid 19. Thank you.	7/8/2020 10:03 AM
711	I have 2 kids in Middle School, 1 in HS and I am Para for Elementary and we had the most problems with Schooligy. It was very frustrating for us parents and our kids which are in GT and higher classes. However I was extremely happy with how fast our D51 came up with a plan and for all the help I received to do my job.	7/8/2020 9:46 AM
712	My student's experience in the spring with remote learning was very mixed. Some of his classes were very active in continuing to provide both instruction and contact with the students. Other classes had very little instruction or contact. I know it was a difficult situation with the sudden switch to remote learning. Some teachers were able to continue to provide instruction, and I truly appreciated that, but it puzzled me that in contrast some teachers did almost nothing after the switch. I hope there will be more consistency this fall if we again have to switch to remote learning.	7/8/2020 9:29 AM
713	Putting my child back into in person learning makes me very nervous, as we have high risk family members. I realize that is life and everyone is at risk as things are reopening, I would just feel more comfortable doing distance learning for them.	7/8/2020 9:27 AM
714	School district did the best they could with the short time they had to redirect learning to a remote setting, but my children struggled not because of the lesson plans, but just because of the lack of participation of others. Seems there was no ramifications to those students who didn't try, while others such as mine did the assignments, stayed caught up and put forth the effort to make the most of a bad situation. Many of the teachers ended up spending more time bringing those who didn't stay up to date on assignments back to being caught up while those kids that did their assignments had to simply sit back and wait. I just felt that my kids didn't get much out of the 4th quarter.	7/8/2020 9:15 AM
715	Kids need to be in the classroom with other kids. They are sad and depressed not being able to see their friends and have a routine. They miss out on learning and not being in school is bad for them.	7/8/2020 9:01 AM
716	Open communication on the topic of school expectations is imperative. Please do not have the students go through remote learning and then hold them harmless to the grades, again. Also, giving assignments with little instruction is not helpful. In the professional world, people are adapting to group meetings via web based platforms. I believe that teachers should be held responsible to actually hold class at a certain time and the students be required to attend the online meeting. Expecting students to learn on their own negates the teacher and the learning	7/8/2020 8:52 AM

Fall Planning Survey 2020

experience. And having "virtual office hours" for students to email questions to the teacher is also less effective than the teacher being required to have regular class periods where the students can ask questions in a group setting and learn from the other student's questions as well as the answers to their own.

717	In the even the district must adhere to a remote education structure, please tell me that the teachers will be held accountable to actually teaching the students. It does not settle well with me (coming from an online platform previous to the 2019-2020 school year) that the teachers left the kids with very little instruction, very little face to face and really just "clocked out" for the remainder of the year. Especially, for my middle schooler. The teachers, who are still being paid, should be working regular hours. For example, if my child is scheduled from 8am until 8:45am to attend ELA during a regular face to face school day, that teacher would be instructing for that full 45 minutes. It should be the same for remote learning. The tools were provided for zoom calls or Google meets and there is no excuse for those teachers not to have used them to their fullest advantage. My other concern is that my 4.0gpa high schooler, is unable to receive his hunter safety card after completing his lifetime activity class. He works so hard and it would be nice for him to receive that same acknowledgement that he would if he were attending school face to face. We had one teacher that I feel needs to be acknowledged for her dedication to her students. Susan Connor from Broadway Elementary. If there is anyone to ask to help model a learning plan for elementary students, it is her. I know that online education works and can work great. Again, we were enrolled in K-12 online and loved it. Mrs. Connor proved that even in district 51, remote learning can be just as great an option as face to face.	7/8/2020 8:49 AM
718	Have you looked at the well defined and well laid out plan that Clark County School District (Las Vegas, NV) is looking at for K-5. They have been extremely transparent with the parents, teachers, community with their process.	7/8/2020 8:43 AM
719	If this district goes back to remote learning for how little this "virus" is effecting the community. We will not participate in that program again. It was completley inadequate for reasoable learning in a young mind. We will find some other way and permanatly remove him from this district and home school on our own. If we wanted remote learning we would have done home schooling from the start. The remote learning is a cop out in every way.	7/8/2020 8:33 AM
720	my youngest had a really hard time with remote learning. I'm an essential worker so worked the whole time. She is very smart and I believe remote learning held her back from reaching her potential.	7/8/2020 8:31 AM
721	I am a Grandparent and completing this form for my grandchildren.	7/8/2020 8:29 AM
722	I feel its not safe for them to be back at school especially with cases rising daily	7/8/2020 8:09 AM
723	I appreciate everything the school district is doing in the middle of this pandemic. I hope y'all stay safe and healthy. I just don't think opening schools back up is the smart thing to do yet. Thank you.	7/8/2020 8:05 AM
724	Our kids need to be in school if at all possible	7/8/2020 7:44 AM
725	Many of our teachers are older. Protecting their health is important. We do not have sufficient data about the transmission of covid with regard to children because children have not gathered en masse since March. Please proceed with caution and require masks for everyone.	7/8/2020 7:31 AM
726	Will there be more staff to help with students to check temps; 100 % hand washing; 100% mask wearing and making sure students are keeping social distancing at all times?. How many, who will be chosen to attend school?	7/8/2020 7:05 AM
727	My children need to go back to face to face not only for the learning but the socializing.	7/8/2020 6:39 AM
728	I feel that masks should be required. I also feel that you should look at a staggered schedule. Even if that means evenings. At this time I don't feel that stuffing so many people indoors without extreme ventilation and masks, seems safe. Obviously children need to go to school but so many are cared for by grandparents, every consideration needs to be taken.	7/8/2020 6:31 AM
729	Very impressed with the way things were put together under such extreme circumstances in the Covid Era. Great Job Superintendent Sirko! We are lucky to have you!	7/8/2020 5:55 AM
730	None	7/8/2020 1:10 AM
731	I think that mask for a kindergarten is impossible along with distancing. I feel they need	7/7/2020 9:48 PM

Fall Planning Survey 2020

interaction. The research has proven children are not in danger of contacting the virus. I would like for the children to have a normal setting.

732	No	7/7/2020 9:29 PM
733	TDP services would need to be increased. Parents who have children in TDP (Which require intense intervention) need more support.	7/7/2020 9:28 PM
734	we just want our child to be in a normal school environment. NO MASK, more hand washing and NO MORE SURFACES TO CLEAN. Keep it simple! please and thank you!	7/7/2020 9:00 PM
735	No masks please	7/7/2020 8:50 PM
736	Kids needs socialization. It's much better for mental health. Everyone should have the option but unless you're going to hire 100 other teachers hybrid learning does not seem smart.	7/7/2020 8:24 PM
737	Masks and social distancing in a learning environment will harm children, especially elementary students. D51 has to take into consideration the suicide and depression rates. They have to take into consideration that for many students school is a sanctuary and the only place some students feel safe. Requiring masks and social distancing is going to take that sanctuary and safe place from these students.	7/7/2020 8:11 PM
738	Making kids wear masks to school would be a nightmare and my kids will most likely not attend if masks are required. I believe that wearing a mask all day for healthy children is very unhealthy.	7/7/2020 8:02 PM
739	I feel that the children need to get back to a normal school year! Without masks and all these restrictions! It hinders their learning and makes school a scary place for kids!	7/7/2020 7:55 PM
740	I feel my student's mental health will also be greatly impacted further without face to face learning. Social interaction and interaction with teachers is top on my list!	7/7/2020 7:39 PM
741	Going to school is more than learning that is necessary for the development of children and the sanity of parents	7/7/2020 7:30 PM
742	These kids need to go back to school!!	7/7/2020 7:25 PM
743	Online learning is difficult to stay focused on, and it feels pretty pointless.	7/7/2020 7:25 PM
744	If numbers of cases rise dramatically, this might change my opinion to 100% online, but I do see the challenges with an incoming kindergartner and 9th grade high school student.	7/7/2020 7:22 PM
745	We do not believe in making kids wear masks Or sit behind a barrier all day, nor should recess be limited at all.	7/7/2020 7:02 PM
746	The question about experience with remote learning is not fair. It should be split. I would highly rate Gretchen Sand's effort and dedication to the kids, so I have no problem with the teacher or Mr. Alexander. They are incredible, but I also believe that if we are being honest – Mrs. sand found the experience to be taxing as well. Every teacher I know would rather be in the classroom than sitting in front of the screen. So we have to figure it out, not just for our kids, but for all the teaching professionals. Remote learning is simply not an effective way to teach. It will not work and every day that we normalize remote "learning" is a step towards mediocrity. But if D51 believes that this is necessary, then I believe that the D51 School Board is going to have to start a conversation about why Grand Junction property taxes are being used to fund schools that are not open. We all know that the COVID-19 issue is uncertain, but it is clearly manageable. I say that we should take all the necessary precautions and address any situation that is even remotely potentially infectious, but c'mon ... don't sacrifice our student's educations because we can't figure out how to come up with a plan for the "new normal" in the post-corona world. It is what it is – so let's get on with it.	7/7/2020 7:02 PM
747	As much as I would want my daughter to have the experience of one on one in person schooling, I would rather her be safe, so it has me drawn towards remote learning for the year to come. If not at least half of the year.	7/7/2020 6:55 PM
748	Concerned about school updates. Only receiving video updates	7/7/2020 6:54 PM
749	My children will not attend D51 if virtual learning and in person is restrictive	7/7/2020 6:50 PM
750	When a decision is made, please make the SAME decision for all. I keep reading about different age levels having different expectations. I also would like for the board to not make	7/7/2020 6:40 PM

Fall Planning Survey 2020

reactive decisions based on parents threatening to pull their children out of public education. These parents should not sway a decision. The health and safety if students and staff needs to stay at the forefront. Schools are known to be breeding grounds for sickness. Cleaning needs to be a priority. Cleaning solutions should be used throughout the day.

751	Will students get covid-19 test before school starts to protect the old grandparents?	7/7/2020 6:39 PM
752	My children did not do well in the remote learning environment. I do not want to have them go through this again. My students are 4.0 students and they were frustrated and suffered through this experience. The lack of being with a teacher made learning very difficult.	7/7/2020 6:32 PM
753	I would love my daughter to have in person schooling, but safety is a priority, not someone's opinion. If remote learning is the way to go then we're ok with that. She will wear a mask if needed.	7/7/2020 6:11 PM
754	Out of my 4 children I have one that has special needs and would benefit from all day school because he needs that one-on-one with the teacher during the last quarter he did not do so well with online school as he did not know what to do. I have another 1 that will be a 9th grade that has an IEP as well that would benefit from hybrid classes so he can get to know his teachers. My other 2 would probly also benefit from hybrid as well. It will be important for students to get to know their teachers and vice versa before endeavoring in full time online schooling, if things come to that. It seems to make sense that some teachers would prefer to be online teachers given their circumstance while providing other teachers the option to either be hybrid teachers or full time class teachers. I hope that you will consult with teachers across all grade levels of D51 on the decisions that need to be made.	7/7/2020 5:44 PM
755	none	7/7/2020 5:38 PM
756	We support going back in-person if students do not have to wear masks. The learning environment will determine how our kids go back to school this year.	7/7/2020 5:36 PM
757	As a precaution, could a teacher check the kids temperature everyday before walking into the classroom? I think this would also help in preventing other sicknesses spreading as well.	7/7/2020 5:28 PM
758	If school doesn't look normal we are likely homeschooling	7/7/2020 5:27 PM
759	Would like info about after school programs. If they will happen or not.	7/7/2020 5:05 PM
760	No	7/7/2020 4:57 PM
761	If D51 doesn't do in-person learning we are homeschooling in a non-district program or transferring to Rangely who is doing in-person learning.	7/7/2020 4:55 PM
762	Norovirus was unmanageable enough that we made national news and needed to close. I am immunocompromised so send my children to school every day as things currently are is a major risk to my life. If we had to close for "Pali" virus how is Covid 19, which is airborne and highly contagious going to be safe or manageable? And how many cases of Covid would cause us to shut down anyway? You would have to quarantine each person for 2 weeks each time someone contracted the virus! Literally the entire school with each positive case, right? So now you have had months to prepare for online learning and it won't be chaos.	7/7/2020 4:53 PM
763	COVID is real. we have had over 120% increase in cases since Memorial Day. do the math!!!!	7/7/2020 4:47 PM
764	I appreciate all the work and effort that D51 put into keeping my kids safe and still learning.	7/7/2020 4:24 PM
765	Our family appreciate all of you that are involved in this process. We have so much gratitude for your leadership and innovation and want you to know we love being a part of D51. THANK YOU FOR ALL YOU DO!	7/7/2020 4:20 PM
766	If masks are mandatory my children will not be returning!	7/7/2020 4:18 PM
767	Please don't make our children wear masks in order for them to be back in school. It is not healthy!	7/7/2020 4:15 PM
768	My child's online learning experience was atrocious. If there is any online learning done, I expect there to be a MUCH better format - the only 2 subjects he was in (in 5th grade) was one math lesson and the teacher reading to the class for an hour a day, unacceptable no matter how much time there was to prepare! If we are on a 100% online learning system this fall, I will likely pull my child from the district if there is not a complete turnaround in the education he will be receiving. I feel he was already deprived of a quarter of 5th grade and our children cannot	7/7/2020 4:15 PM

Fall Planning Survey 2020

afford to lose ANY more time, especially in these more formative years, if we are to still expect them to have an education that will make them competitive in both their higher education aspirations and the workplace.

769	what happens if schools reopen and many of the kids start getting sick with COVID? Will the immediately shut down again? I want my kid to be healthy and safe while at school	7/7/2020 4:02 PM
770	Remote leaning was hars for my son to do cause it wasnt alway clear on what was going on.	7/7/2020 4:01 PM
771	There have been several studies done on how young kids handle and spread the Chinese covid-19. In the studies they have found children have a very, very low risk and there are no cases of a child spending it to teachers. Older high schools are at a very low risk and may spend it if the are seponmatic. So with this information we should go with K through 10 no problem and check 11th an 12th grades. I think if any kids seem sick they should stay home, we are all adults and can work through this.	7/7/2020 3:57 PM
772	We cannot afford to have remote learning! Who is going to stay home with the kids if remote learning is voted suggested? Who will pay those with a loss in pay? Children need social interaction and learn best in an in classroom setting. We can continue to shut everything down because of a virus or sickness.	7/7/2020 3:55 PM
773	Please please please provide more music and arts learning. Please teach the teachers how to create STUDENT CENTERED and PROJECT BASED lesson plans. Many simply sent worksheets for the students to fill out. They need to be taught best practices for engagement and assessment. Online learning is not a new field and all subjects can draw on what has already been done and what is effective. I won't mind kids going 'back to school' a week late if teachers can have a full week of lesson plan development and content-specific professional development. Please let the 'specials' teachers collaborate with others who teach the same content in other schools. Tell all of the teachers to dial down to what matters most - and that isn't state testing - it's students learning.	7/7/2020 3:54 PM
774	The district is doing a high quality job of communicating with families and making data driven decisions. Thank you.	7/7/2020 3:54 PM
775	If children will require masks or cubicals of some sort or not be able to sit with friends at lunch or play with friends on play ground I will have to reconsider sending my child to school.	7/7/2020 3:54 PM
776	We are concerned about health and safety particularly related to the in-person behaviors of other students. We are also concerned about the quality of online course delivery particularly in the areas of math and science. Finally, will there be opportunities for flexibility of instruction during the year.	7/7/2020 3:49 PM
777	We are very concerned about protecting our child (in-person) from the behaviors of other students at the school. We are also concerned about the quality of any online delivery of class content, particularly in the areas of science and math. Will there be options for students and parents to decide later what their child will do?	7/7/2020 3:46 PM
778	We understand the health and welfare of everyone is in your best interest. However, there is a social/emotional aspect to school that our kids very much missed the last quarter last year. At least a hybrid model where they can participate at school part-time is preferred to online school only. Thank you!	7/7/2020 3:44 PM
779	Thank you for all that you do for our children. Please keep up the good work. We support you 100%	7/7/2020 3:41 PM
780	As a teacher and parent- I do not understand how the hybrid model will work if it is students coming certain days and not others. I would then need to find additional child care for my kids- which is then placing other people around my kids that may not need the germs of "school". I fully think we should just give it a shot, and let us go back. We know now how to do the remote learning, at least going back would give us educators the opportunity to "prep" for any further "remote learning" time with the kids instead of trying to teach them "how-to" do things over google meets.	7/7/2020 3:39 PM
781	Please, no masks!!	7/7/2020 3:35 PM
782	I would like to see my children attend school as normal pre-covid.	7/7/2020 3:32 PM
783	Remote learning is easy for me however My son does better with face to face learning. However it depends on if vaccines and masks are required .	7/7/2020 3:31 PM

Fall Planning Survey 2020

784	You guys did great with remote learning. Given the short amount of time it was a good experience. My 9th grader thrived so much at the remote experience, I would look into Hybrid learning for sure. For elementary she has reading needs so it may be better for her to be there fulltime depending on what reopening looks like. Thank you! Diane is kicking butt!!	7/7/2020 3:30 PM
785	As a two full time working parent household online learning for such young children is not practical. My husband and I are both Essential workers and he also works shift work. I work full time during the day and he is usually working full time in the evening into early morning. Also having a child that is co-parented going back and forth on who is "teaching" is not successful. If it is remote learning my household will not be participating. I am not a teacher and do not have the ability to be a teacher. I think expecting parents to take on that burden while working is an unrealistic expectation.	7/7/2020 3:25 PM
786	If there is to be remote learning again, I would expect a LOT more organization and interaction from the teachers. While I understand they were trying to assist their own children, I didn't feel like the majority of them even tried to teach and assist my children in their learning.	7/7/2020 3:23 PM
787	I think that every body should do the year over except the seniors. That's what I think. Thank you	7/7/2020 3:22 PM
788	As a mom of 5 and considering our county's very very low counts of positive co-vid test results- it makes no sense to even do partial remote learning. But I think if parents have a child who has low immunity for whatever reasons, they should be given first choice for their children to do remote learning if need be.	7/7/2020 3:21 PM
789	I would like the school district to be flexible as needed due to COVID-19 cases. I want student health and safety as well as staff to be the main concern. I would love for my students to go back to school as long as every precaution is taken to keep the numbers low in Mesa County.	7/7/2020 3:17 PM
790	My son did not engage in remote learning. I would like him back in the classroom.	7/7/2020 3:15 PM
791	I would really like to see the children back in school a hundred percent face to face. If this is not possible, they should be at home 100% The hybrid option adds too many variables for working parents and something will surely be missed educationally	7/7/2020 3:15 PM
792	My child needs face to face she learns better I feel if other children learn better at home offer both options if available and nessesary	7/7/2020 3:15 PM
793	#4.My boys did good with remote learning. It wouldn't just let me pick one choice. Honestly right now I am not sure how I feel about going back to school full time.	7/7/2020 3:14 PM
794	Remote learning consists more then uploading work to be completed by student without direct teaching. With Google hangout there is a way for direct teaching to occur and is my expectation if d51 goes to remote learning for the 2020-2021 school year!	7/7/2020 3:02 PM
795	I don't feel with should risk our children and families with COVID	7/7/2020 2:55 PM
796	I am concerned since my child and her mother have asthma. I am concerned for the safety of the teachers and staff as well. I don't want people to die because it is more convenient to send them to school.	7/7/2020 2:45 PM
797	Remote learning is very difficult for my children in elementary school. The amount of learning and grades dropped substantially as a result.	7/7/2020 2:14 PM
798	My son was not challenged at all for remote learning, he finished every lesson quickly and was left bored. I am a single mother and had to stop working because I had no where for my son to go. Most of the days it was a video to watch and not lessons or making them read or write.	7/7/2020 1:43 PM
799	I would not consider returning my children to school for in person learning if they are required to wear masks.	7/7/2020 12:58 PM
800	I just don't think reopening the schools is safe right now	7/7/2020 12:38 PM
801	The kids need in-person instruction but they need to keep seating 6 feet apart. If this isn't possible then a hybrid schedule needs to take place where 1/2 go in one day and the other 1/2 go in the next with alternating online learning. Lockers should not be used if there isn't a way to not have them right next to each other. I don't know how you keep them safely distanced in the halls during passing periods? My intuition tells me that if the public schools open back up that the kids will most definitely contract and spread the virus and bring it to our most at-risk.	7/7/2020 12:12 PM

Fall Planning Survey 2020

802	My son is going into 9th grade and is on a 504 for ADHD. While he had a fantastic remote experience, I fear that as a student in transition from RMS to Fruita 8/9 (freshman) the same results may not carry over. He will not be familiar with the culture of the school, or have the same solid support system established that he had at Redlands Middle School. He really needs that in person learning to establish those relationships that were so crucial in him having such an amazing result during the last remote learning period. For my daughter who is going into 1st grade at Broadway. While the Kindergarten learning was Amazing for what it was. Mrs. Curtis was exceptional at providing support to our kiddos, this is definitely now how elementary kids should have to learn. They need to be in person. My daughter has been attending Eureka Science camp and Extended Hours Summer Camp all summer and by following their set policies to screen and handle COVID19, we have not had a problem or worry about her being out and about.	7/7/2020 12:06 PM
803	I have full faith in the efforts that our administration are making. I would like to start out in person to form those relationships with our students that make our jobs effective. Our students will need to be taught how to use the programs available.	7/7/2020 12:00 PM
804	In person learning I think is very important for my kids. Especially for my kindergartner, it's his first year of school. I think we can make special health precautions in school for the kids such as hand sanitizer at every classroom ect. Check temps on kids beginning of the day ect. Work it out to make it safe so they can have there schools back.	7/7/2020 11:47 AM
805	Our family I would like to see our schools open, for face-to-face learning. Our student is a highschooler that plays sports and does struggle with learning. So face-to-face learning is the best option for her. Understanding if children are showing symptoms of any illness should stay home. Thank you	7/7/2020 11:41 AM
806	Remote leaning does not help the kids that need the in person and face to face help. My son struggled with not having thst extra support.for his learning. He does have. A 504 in place.	7/7/2020 11:26 AM
807	I have multiple kids who want to do different things. My daughter wants to do an online school that is used to assigning online material but she can't attend her school of choice and participate in athletics and orchestra. Grand River offers that option but with an online program that wasn't working for her. We feel like that's unfair because we pay taxes too. The district should contact the state and petition for a change in policy so we could get funding for students who are attending part time with the district and part time at an online school. As it is, the district won't get any funds for her and she won't be able to participate in any extra activities.	7/7/2020 11:09 AM
808	I just want to say that the remote learning is fine but children need socializing too. That's how they make friends.	7/7/2020 11:02 AM
809	Face to face learning is so important. Mandate masks and take universal precautions with hand washing and supply of hand sanitizer.	7/7/2020 10:12 AM
810	My wife and I are working from home and it makes it difficult to have 3 students remote learning as we are working and at times we're all on conference calls. Teachers are gifted and trained on providing instructions to students and we found it was difficult to do with remote learning. We believe remote learning and not having the social aspect is more detrimental than COVID-19. We are having our children work on some school this summer hoping that they did not fall too far behind from missing out on some spring curriculum.	7/7/2020 9:55 AM
811	I have 2 other kids besides my kindergartener. One of my children gets sick all the time. I don't want other kids around my children because of covid 19. Very much appreciated	7/7/2020 9:14 AM
812	Wingate staff did amazing with online learning. I want what is safest for our community but don't want to run our teachers into the ground either.	7/7/2020 8:11 AM
813	Fruita Monument High School teachers did an outstanding job with so little time to prepare in the spring. I hope to see some form of hybrid in order for all classes to work to some degree ie; band, choir, welding etc. Thank you for all the hard work to keep our kids safe and educated!.	7/7/2020 7:42 AM
814	The safety of students and teachers is most important. I do not understand that we are going ahead with graduation considering that other of people do not take Covid serious and they are not wearing masks. That will be an issue when infected kids go back into schools. For students and teachers.	7/7/2020 7:17 AM
815	I think a cautious approach to returning to schools is important. Full-time, in-person schooling may offer better education but the risks of spreading viruses concerns me as a parent. I also	7/7/2020 6:52 AM

Fall Planning Survey 2020

want to be supportive of teachers and all staff in the schools too. Some staff and teachers may feel pressured by parents to return to the schools and I want to share my opposite opinions. I support a hybrid approach which would hopefully allow for increased social distancing measures.

816	If you implemented live online classroom learning like on google class where the teachers teach 3 to 5 days a week for a couple hours so they could see there class mates and teacher in a class room type environment but online, most children could deal with only remote learning without a lot of issue. I also think if the hybrid learning ends up being the chosen method the In school face to face part should not be required. It should be the parents choice of wether to send there kids for the face to face learning part.	7/7/2020 6:03 AM
817	Let the students have an opinion as well! They work so hard to give us diplomas let them SPEAK!	7/7/2020 5:51 AM
818	My child, even thou she has only attended pre-k, thrives with face to face contact with her teachers and her peers. She desperately needs contact with friends outside of our home and the structure that a classroom provides.	7/7/2020 3:25 AM
819	If masks are required we will unenroll. Children must socialize for mental health as well as have outside time. If these requirements are not met we will be seeking other educational pathways.	7/6/2020 11:08 PM
820	Our children's safety is of the upmost importance to us. If there is worry about the virus. I prefer to do remote learning. I don't believe working parents and childcare should factor into the decision made by the school board. Schools are for education, not free childcare. I only mention this because I have seen and heard my community protest this loudly. Thank you.	7/6/2020 10:15 PM
821	The face to face learning environment would need to include socializing and activities that children and young adults need to participate in for their social and mental health. If strict social distancing, masks, sneeze guards, etc are implemented my child will not be attending. Although he did okay with the remote learning at the end of last year he dearly missed the interaction with his friends. This needs to be considered with the reopening plans. The health of our children and young adults goes beyond the scientifically low risk of children contracting and passing the virus.	7/6/2020 10:06 PM
822	I think it would be smart to delay 100% contact until maybe January. Having a student that goes to GRA I love the idea of only doing onsite learning once a week.	7/6/2020 9:49 PM
823	I feel that it would be more detrimental to have hybrid or all at-home learning. There are too many kids that don't have Internet access, or access to a tablet or laptop or they don't have parents that can stay home to ensure that their assignments are being completed. I think it would cause way too much stress for student and parent to go back to online learning or even a hybrid approach	7/6/2020 9:42 PM
824	We both want our children to get the best education possible. And interacting with other children is very important	7/6/2020 7:25 PM
825	With the recent spike in cases I don't believe it would be a great idea for schools to reopen.	7/6/2020 5:41 PM
826	I would like to see a larger portion of learning outside.	7/6/2020 5:32 PM
827	Regular return with opportunities for social interaction and sports.	7/6/2020 4:33 PM
828	I believe the teachers at Fruita 8/9 did the absolute best they could in this situation. We support Fruita 8/9 and remain hopeful that the kids can go back to face-to-face learning, but understand that we may all have to compromise. Looking forward to a successful 2020/2021 school year!	7/6/2020 4:19 PM
829	The children MUST to go back to school!!! working parents who are not teachers are struggling. Teachers are struggling with the remote learning. The children are suffering the most. Please let them come back to school and if they have symptoms like any other virus then send them home.. simple	7/6/2020 3:46 PM
830	Independence Academy staff did an amazing job preparing for remote learning, communicating with families and responding to needs. The problem was not our school's dedication, it was with the isolation of our children and the difficulties of trying to fill in as a teacher while working a full time job. Academically and emotionally remote would be harmful to our student's growth.	7/6/2020 3:27 PM
831	Children need to go back to in school face to face learning. It is not fair for us parents who are REQUIRED to work. If their are parents who feel it is safer at home for their children then that	7/6/2020 3:19 PM

Fall Planning Survey 2020

should be on them to set up the learning for their child. We should not be FORCED to quit our jobs to try to teache or children.

832	I would like my children to attend face to face and so would they. Remote learning us almost impossible and was a struggle. I feel I don't have the skills to teach my children adequately.	7/6/2020 3:03 PM
833	Yes my youngest it was harder on him with the remote learning cause he has extra services and needed that social interaction.	7/6/2020 2:34 PM
834	I am Fully opposed to the cheap way out you are looking for. Why pay Teachers to provide a lesson plan and then I teach their lessons? I dont think so. If online was an actual class, with realtime teaching and interactions for the Entire school day that would be one thing but it isnt. Its crap a few computer assigned worksheets and read. BS and if you think we are going to stand for it, youre crszy. It will not work, didnt work has No Hope of working! I cant work and teach her too. I am not paying property taxes for this! I am very very angry about the total lack of response by this district. I will be at every meeting available to the public! And since when is attendance subjective, under state and federal law, children must attend school until a certain age. This is Not the way to decrease your budget. How about giving back the unfair wage increases that were given to certain administrators not teachers including our illustrious Superintendent? Find a different way ask for Volunteers to help with grounds maintenance, janitorial stuff etc. Sorry but	7/6/2020 2:17 PM
835	Want what will be the safest for kids, teachers, and families.	7/6/2020 1:58 PM
836	I think it is important to consider kids' mental wellbeing in all of this. School is not just a place of learning, but also a place where they can interact with friends. Removal of their ability to interact with their peers has a negative effect on their health - which also needs to be considered.	7/6/2020 1:40 PM
837	I have heard y'all of remote/in person combined learning but fail to see how that protects our children if they are exposed during the in person learning period what is the need for remote learning? My child has an IEP and although she loved learning at "her pace" and without the disruptions of others she was basically left on her own . Her grades were reflective and went down drastically (as well as her effort) when told by an educator that "these grades won't count and just do what you can!" In school additional assistance is difficult enough for a child with learning disabilities. Leaving them at home to flounder on their own is totally detrimental. What resources and accommodations will be put into place for these students?	7/6/2020 1:39 PM
838	I do not have children	7/6/2020 1:26 PM
839	Please be as safe as possible, many children live with or are cared for by Grandparents. Losing these supports is detrimental to everyone in the community, most especially the student and their families.	7/6/2020 1:20 PM
840	My child will be starting kindergarten 2020 fall. If the school district decides to have remote learning I will just home school my child.	7/6/2020 12:35 PM
841	My 5th grader needs to be 100% in school learning. He didn't do well with remote learning. His teacher was amazing, but no matter what I did, he just couldn't focus and learn that way. My 7th grader might do ok with the mix of in person and remote learning. Although, her teachers were basically unavailable for questions or anything else, so that problem would need to be solved before I will let her do remote learning again.	7/6/2020 12:35 PM
842	Hoping to see kids back in school, they need interaction and face to face learning.	7/6/2020 12:29 PM
843	No	7/6/2020 12:26 PM
844	My daughter loved to learn from home at her own speed, while still interacting with classmates and teachers	7/6/2020 12:24 PM
845	None	7/6/2020 12:09 PM
846	My daughter attends Valley 1/2 time and was used to doing some online work. Grad point has been really helpful.	7/6/2020 11:58 AM
847	Please consider safety first, despite pressure from the communtiy to pretend there is no pandemic. Thanks for all your hard work during this mess!	7/6/2020 11:20 AM
848	I did fill out this survey once before when it first came out - our answers as a family have changed after much discussion, research and the changing circumstances over the past couple	7/6/2020 11:18 AM

Fall Planning Survey 2020

	of weeks. As a teacher and parent, I know there are no easy answers.	
849	Please no mask required	7/6/2020 10:55 AM
850	If face masks and vaccinations are forced, my kids will not be attending public schools.	7/6/2020 10:55 AM
851	Its very up in air right now	7/6/2020 10:34 AM
852	I think that for my children in elementary level do better in the classroom than remote learning. The hands on learning is more beneficial to their success in school.	7/6/2020 10:31 AM
853	It needs to be safe for students and staff. This shouldn't be up to parents, it should be up to the district and health dept. as to what is the best plan. The health and safety of students AND staff need to be taken into consideration. Also, the lack of time between knowing the plan for fall and school starting makes it hard for everyone to plan and adjust.	7/6/2020 10:13 AM
854	Our children deserve a normal education. SD51 - Goes to school every year with flu- colds - Norovirus - etc. Now is not the time to be sheep, we need to forge our own path, and look at covid 19 like we do every other virus, it is not going away, it is the new flu, kicking our kids out of school every time someone gets the sniffles is a logistical nightmare for all involved. IF YOU ARE SICK STAY HOME - IF YOU AREN'T GO TO SCHOOL! #SD51STRONG!!	7/6/2020 9:50 AM
855	Please open the schools! All my children do 100% better in a classroom with their peers!!	7/6/2020 9:38 AM
856	If the school does not have recess, PE, and is set up with social distancing I do not see the point of reopening them. Would rather risk COVID than do that.	7/6/2020 9:35 AM
857	I would love for my child to go back to school, though I would not like for her to have to go back for a short time, then have the schools close again. I know this is out of your control, but the back and forth would be difficult on our family situation as with many I am sure.	7/6/2020 9:21 AM
858	If the district goes to hybrid, there has to be a "streamlined" system of educating the children. Expectations for students is not clear. Depending On the age, teacher assignments & due dates need to be consistent. My middle schooler struggled with the fluctuations of assignment dates / zoom mtgs times/ that different from teacher to teacher & weekly.. students at that age need more structure & help in time management. Time management is needed to be addressed for children & take into account they need to be taught time management & how to learn from online classes. MAYBE something like the teachers that are in the same core have the same "system" for homework /assignment due dates & zoom mtgs. My children really struggled with juggling different expectations from different teachers.. they were stressed & I believe if it continues like that, the childrens education & learning will suffer because they will become discouraged & unmotivated very quickly. Resources are not available for all students to learn online and therefore we are not providing equal opportunity education for our children. Lastly, what guarantees to we have that students are doing their work and not some else's?	7/6/2020 9:18 AM
859	I believe children need socialization and outdoor activities with others. They learn important experiences such as coping with winning or losing a game and learning how to work as a team during sports. These are very important when introduced to the work force and having to be a leader or learning to take direction from one.	7/6/2020 9:08 AM
860	I am raising my great granddaughter and the remote does not work for me, as I still work daily. It was not constructive for her, she would not focus to complete the assignments I am not going thru that again. Not to mention I am 68 and my patience is not what it used to be. That was a very frustrating time period.	7/6/2020 8:45 AM
861	The diverse plans for remote learning really hindered the kids last school year. They need in person desperately. It has taken a toll on their mental health, and our special needs daughter didn't thrive what-so-ever. She absolutely needs to return.	7/6/2020 8:43 AM
862	I would like to see full face to face contact without masks or plexiglass deciders on every desk. I don't feel this is necessary and is demeaning and demoralizing our children. I feel the masks and plexiglass do nothing to protect them and only is distracting and unnecessary.	7/6/2020 8:28 AM
863	My children need the social aspect of school. They get sad and depressed staying home by themselves for such long periods of time. Remote learning gave them headaches, neck and back pain and eye problems.	7/6/2020 8:27 AM
864	Although full return to classroom learning is our hope we are preparing our daughter for potential hybrid learning. The interactions and learning environment to facilitate the	7/6/2020 7:42 AM

Fall Planning Survey 2020

development and growth I know my daughter needs is crucial. We also are adjusting to the situation we are in and are prepared to make the best of it. It would not be in the best interest of the kids to move to total online learning. I feel that would be a great disadvantage to upperclassmen who are planning on college.

865	I don't think the children get the education they NEED with remote learning. Even if you are a stay at home parent you are not qualified nor equipped to teach your child school curriculum. These children (especially elementary children) NEED to be able to go back to their learning environments (Teachers, Structure, Routine, Classrooms) in order to succeed with their education.	7/6/2020 7:36 AM
866	I believe children desperately need to be in class and socializing with other children and teachers, especially in the times we live with the current technology.	7/6/2020 7:22 AM
867	Kids NEED to go back to school. They NEED the social interaction with not only classmates and friends but other adults as well. It is vital to their social development!	7/6/2020 2:12 AM
868	My daughter has severe anxiety and panic attacks, and wearing masks makes the problem worse. She loved Valley last year, but struggles somewhat at Fruita 8/9. She loved that she could go at her own pace at Valley, and yet have in person help with teachers who were patient and understood she needed extra help in Math. She is sad that the Math teacher has retired, and hopes that the new teacher is just as patient and understanding. Having electives like Orchestra, PE, etc.... is very difficult to do online...	7/5/2020 11:10 PM
869	There is no way my child, going into kindergarten, would be able to sit in front of a computer for learning. That would require me as the parent to be able to be present the whole time while also working full time. This would not be possibly for my family.	7/5/2020 9:12 PM
870	No	7/5/2020 9:00 PM
871	Remote learning is a joke and no learning really took place! When teachers and schools are telling students their grades can't get worse if they don't complete the work, why even have remote school? It wasn't worth the time, money, and the effort!	7/5/2020 8:46 PM
872	I would like to know what kids of precautions the kids would have to take if they return to class.	7/5/2020 8:29 PM
873	Not to thrilled with masks 6 hours a day and no socializing. Also kids usually get sick first 2 to 3 weeks they are back in school just because they are not used to so many people.	7/5/2020 8:22 PM
874	No	7/5/2020 8:21 PM
875	I do not recommend online learning what's so ever for my child and will be very disappointed if that's what the district decides to do for children. The deserve a proper education.	7/5/2020 8:11 PM
876	If we HAVE to do 100% remote learning this coming year there needs to be a better way for parents to get a clearer "picture" for lack of a better word of child's weekly assignments. There are so many steps and pages to navigate to for each class and then each class has a folder inside a folder with assignments then assessments. And if you times that by 3. It makes it very hard to make sure that assignments are done. And if I wait for my notifications to tell me assignments are not turned Then we play catch-up. Another thing that we had problems with is uploading assignments from email if they took pictures and sent it to their school account to upload from the computers sent home their to their Schoology Assignments the school filler will not let them open emails with attachments because they don't know what the attachment is. We ended up sending to the teachers directly. I hope we learn soon what the fall has in store for the kids so we can prepare them. Thanks	7/5/2020 7:53 PM
877	My daughter would not receive as good an education if she had to do remote learning because the nanny would have to Teach her. And the nanny is a young man who's never taught before. I work full time and remote learning was not easy for us.	7/5/2020 7:34 PM
878	Masks are too distracting. Hand washing and plenty of outdoor time will be adequate. We will keep our kids home if they are ill.	7/5/2020 7:31 PM
879	not at this time	7/5/2020 7:13 PM
880	Students learn most effectively in person. Teachers instruct most effectively in person. We are confident our school district will implement appropriate health measures to have our students back in the classroom this fall and will support this every step of the way.	7/5/2020 7:12 PM
881	I work the the district and all these questions apply to families with students. Is this the wrong	7/5/2020 7:10 PM

Fall Planning Survey 2020

	survey for staff?	
882	My children need social interaction with peers and teachers. No face masks, no treating them like robots. Get our children in person schooling and learning.	7/5/2020 6:52 PM
883	While we're aware of precautions needed to keep at risk people safe it is also important that our children deserve to live their lives as normal as possible, including the opportunity to return to classroom learning and getting the education, socialization and support our schools afford them.	7/5/2020 6:26 PM
884	I would like to see more contact with the teachers if we continue remote learning more google class talking to the children.	7/5/2020 6:19 PM

886	No thank you, I look forward to the updates as they come along. This will be my first child's first year of school, should be interesting!	7/5/2020 5:57 PM
887	I think if it comes to remote learning the teachers need to be more involved. Why couldn't they hold class via online and teach then assign the work. Give them 15 min then sign into another class. Seems like it was just work assigned no teaching.	7/5/2020 5:55 PM
888	Learning from home was very difficult for us, both parents work long hours and the added task of teaching from home was stressful.	7/5/2020 5:28 PM
889	My kids need to be with their friends and face to face learning with their teachers and peers. They did ok with remote learning but do very well in school- without masks!	7/5/2020 5:19 PM
890	I think our students would benefit from being back in the classroom both for both learning and mental health. The schools did a great job of putting together plans on such short notice, but online learning is not something that would work in the long run for our family and many others. Additionally, the mental health of our students is very important and taking them away from their friends and outside activities is not healthy	7/5/2020 5:11 PM
891	We did not enjoy the remote, at-home schooling.	7/5/2020 4:53 PM
892	I would love to see measures put into place to see our children be able to safely return to school at least part of the time. I am not comfortable with things returning to exactly the way they were before without any changes being made. I would look into other options if there were no safety measures put into place.	7/5/2020 4:05 PM
893	We have had a death in our family due to COVID-19. Our family member who died was young and healthy with zero medical issues prior to getting this virus so we are terrified of sending our son back among other students where his health could be at risk. We would like to stay with GJHS but want to do remote learning with the option of attending after school classes for tutoring and extra help.	7/5/2020 3:48 PM
894	No	7/5/2020 3:46 PM
895	Normal as possible would be best learning environment for my kids. Thanks for all you do keeping our kids safe.	7/5/2020 3:30 PM
896	No comment	7/5/2020 3:16 PM
897	no	7/5/2020 3:16 PM
898	If home school is mandated, home schooling would be much easier with packets and instruction manuals with limited online or computer assignments. Math and English should be done paper and pencil IMO.	7/5/2020 3:06 PM
899	If face masks are required we will look into different options.	7/5/2020 2:53 PM
900	If face masks are required we would like to consider other options.	7/5/2020 2:52 PM
901	CNN 10 SHOULD be removed from all schools in District 51. There is absolutely no benefit from forcing students to sit through politically biased media. I don't appreciate it, and demand it be stopped immediately.	7/5/2020 2:48 PM
902	I am most concerned about remote learning for the youngest children in the district. I hope the district is considering remote learning for middle/high school students and then distancing the	7/5/2020 2:16 PM

Fall Planning Survey 2020

	elementary children among all the buildings.	
903	if remote learning is instituted again, it would be helpful for each teacher to have a set online class time to go over the lesson. Many children are unable to fully learn a new lesson without set instruction time and feel overwhelmed and fail to complete lessons without actual teacher contact time.	7/5/2020 1:30 PM
904	Our oldest child was supposed to be tested on several different things, to get him more help on the things he is struggling on the most, such as reading.	7/5/2020 1:28 PM
905	No	7/5/2020 1:17 PM
906	The computers did not work for our family... was really hard to get my children to do what they were asking while working 50-60 hours a week myself.	7/5/2020 1:14 PM
907	By continuing with online education, you are damaging children's social skills, problem solving, and disconnecting society more and more each day. Children who require more help in certain areas are falling through the cracks. It puts strains on families creating a less than desirable home life.	7/5/2020 1:14 PM
908	No	7/5/2020 12:55 PM
909	If social distancing and masks are going to ruin the learning environment then we will seriously consider home schooling our kids with the best platform that we can choose.	7/5/2020 12:13 PM
910	Thank you all for the time, effort, and expertise you all bring to the table. You have risen to the COVID occasion with intention, dedication and continuity. I appreciate you ALL	7/5/2020 12:08 PM
911	I will not allow my children to return to in-person learning if a COVID vaccine or a mask is required.	7/5/2020 12:04 PM
912	Our children will not be attending in person if masks and social distancing are required. We will also use a home school model that is not affiliated with District 51.	7/5/2020 12:04 PM
913	My senior had a very difficult time with AP Chemistry and Calculus, he was not prepared for the AP tests doing remote learning. Nor did he do well in the English CMU class that went to online learning. I also do not feel my 10th grader should be wearing a mask all day at school.	7/5/2020 11:50 AM
914	With her being at Grand River already last 3 years this being her 4 and final year... doesnt affect us that much last year. She did miss going to class the one day a week. She doesnt have but a couple credits left so most likely will be done early this year.	7/5/2020 11:49 AM
915	No	7/5/2020 11:37 AM
916	My children will not do remote learning via D51. If they return to face-to-face learning and are required to wear masks or have strict and unusual "social distancing" then they will not return to school. If that were the case, we will be homeschooling or coop learning on our terms and with a curriculum we choose.	7/5/2020 11:14 AM
917	It would be nice to know if there is going to be in school learning so we can plan accordingly.	7/5/2020 11:11 AM
918	Keeping a 6 year old focused at home is very hard, with all the distractions at home like toys, other siblings it was hard to keep him focused. With both parents working away from home home was hard with our schedules.	7/5/2020 10:44 AM
919	The school district must continue in person 100% contact. Children have become highly depressed and if they are not allowed to return to school, a greater issue of suicide will arise from not being allowed to do so. Make the right choice and allow kids to return to school. The majority of the population has been exposed and kids aren't vulnerable like the older population.	7/5/2020 10:43 AM
920	If my child has to wear a mask and "social distance" during the school day my child will NOT be attending school. and if you defund or take the police out of school my child will NOT be attending as well.	7/5/2020 10:30 AM
921	No	7/5/2020 10:29 AM
922	Given Mesa Counties current worsening trajectory re: COVID I am increasingly worried about in person school. A month ago I would have been fairly comfortable with a hybrid model that reduced the number of students in the school building at any one time, but our COVID numbers	7/5/2020 9:53 AM

Fall Planning Survey 2020

are worsening and I expect them to worsen even more due to the irresponsible behavior I am observing in our community.

923	For the question about quality of online education I tried to select 'poor' but couldn't without also selecting 'very bad'. My choice for that answer is 'poor' because it was not a good experience for my learner. Online education is not the right choice for how he learns and being suddenly forced into learning that way did not work. I know everyone did their best in a tough situation but his learning went down and I cannot see him getting the same amount of growth from a full year of online learning versus being in the classroom and having interaction with teachers and fellow students.	7/5/2020 9:42 AM
924	The classes my child has are in school classes.	7/5/2020 9:18 AM
925	I work a 40+ hour work week in healthcare, my children will need to be in school in order to have a steady income	7/5/2020 9:13 AM
926	Please don't make them wear masks. Please let them have recess!	7/5/2020 9:12 AM
927	Remote learning is extremely hard for families in which both parents work. This places more stress on parents as well as increases day care costs.	7/5/2020 8:58 AM
928	The remote learning model doesn't work for my daughter and has/will hinder her learning and set her back.	7/5/2020 8:40 AM
929	District 51 needs to adhere to the needs of immune compromised students and also students during this time.	7/5/2020 8:38 AM
930	no	7/5/2020 7:00 AM
931	In school learning without the ability to have some form of recess and breaks/lunch is not an acceptable solution.	7/5/2020 6:56 AM
932	Students who have a elderly grand parent, with comorbidities, living with their family? Also, how can you possibly keep surface areas clean with kids going bathrooms, not washing hands? Mask MUST be mandatory. If they don't wear, they DONT COME TO SCHOOL. This needs to be a non negotiable rule until their is a cure or vaccine.	7/5/2020 6:55 AM
933	Just want to know soon if kids are going back.	7/5/2020 2:34 AM
934	Please let the kids go back to school!!	7/4/2020 11:58 PM
935	I will not send my Kids to school if they have to wear masks	7/4/2020 8:17 PM
936	If re-opening is not consistent and allows the education I feel my kids should receive we will look at online schooling 100%. The instruction that was needed to explain subjects such as Math during school closure was lacking for both my children.	7/4/2020 8:10 PM
937	Very little actual teaching was provided to my children through remote learning. Very little instruction was given. If remote learning continues I would like to see actual teaching of lessons happens otherwise we will switch over to an established online learning program like Grand River Virtual. I know teachers had little notice and I think they did what they could and applaud them for their flexibility and creativeness but for 20-21 My children need more from their school year!	7/4/2020 7:38 PM
938	If my child was unable to attend in school sessions it would greatly impact his sociability in a negative way. Prior to prek he was non verbal and getting speech services. After attending school he started talking. Remote learning speech therapy was also very challenging.	7/4/2020 7:00 PM
939	No	7/4/2020 6:28 PM
940	No	7/4/2020 5:24 PM
941	We will, of course, do what we are asked but my student really disliked the remote learning. We would encourage everything possible to get them back to a normal face to face learning. I don't think face masks at school will be realistic or social distancing so if that is our option then I think we would still prefer remote learning	7/4/2020 5:13 PM
942	Mask required if going 100 % in person instruction	7/4/2020 4:52 PM
943	Only concerned about her reading because she is behind	7/4/2020 4:37 PM

Fall Planning Survey 2020

944	I'm concern about students wearing mask all day especially students that already have breathing problems. (Asthma).. What's plans for those students? Even normal students shouldn't need 8 hours of mask on..	7/4/2020 4:27 PM
945	Given that big business are not allowing their staff to work face-to-face, why would we risk our children being around others who could bring the virus home. The school district needs to get an online platform for staff and students from August to December. We need a plan! The unknown causes unnecessary anxiety. Children will stay 6ft apart all of the time. They will bring a deadly virus home that can kill their grandparents. Please be responsible with our families, and stop causing anxiety about how the school year will look. We know if a number of cases are confirmed, you will shut the school down, and it will cause chaos. Stop the chaos before it begins. Thank you.	7/4/2020 4:23 PM
946	Hopefully the option for remote learning will be available for the school year	7/4/2020 4:05 PM
947	Thank you to all the teachers, administration and support staff within the district. Your hard work and dedication is so appreciated.	7/4/2020 3:40 PM
948	please just keep our children safe	7/4/2020 3:37 PM
949	Our remote learning experience was amazing! Both of my girls had improved grades, shared their knowledge with younger siblings more, teachers were very accessible...my hat is off to the great work done at such limited notice by our schools!	7/4/2020 3:28 PM
950	Get over the palitacal crap with COVID 19. In Masa country the chance of anyone catching it is .0006% as of today.	7/4/2020 2:59 PM
951	We really really hope that the kids can be in school in person. They need their friends. and, in all honesty we are not equipped to homeschool our kids for a full year. I wouldn't have a clue how to do that	7/4/2020 2:55 PM
952	Some children thrive with remote learning but the majority do not! Many MANY children are get very little out of remote learning!! I hope this is taken into consideration and a hybrid ,if not face to face, would be imperative for our children!!	7/4/2020 2:53 PM
953	Kids need normality and face to face learning. The kids also need to learn how to socialize with their peers and teachers. Having sports involvement is important for the physical & mental health of students.	7/4/2020 2:40 PM
954	These kids need to be in school. Remote learning was a joke!	7/4/2020 2:31 PM
955	I hope that masks will be required in schools as well as social distancing as much as possible.	7/4/2020 1:51 PM
956	I am comfortable with 100% face to face if it meets our current standards for safety, but I think 100% mask wearing is going to be difficult for students to adjust to and this is why I lean to hybrid learning, where they get social interaction a few days and home school the other days. I feel more prepared now to assist and supervise my daughter in her online studies to get the most from that platform. I feel like I failed her a bit when we switched over because I did not understand the platform well enough.	7/4/2020 1:36 PM
957	Children should be able to go to school and have in person learning and be around other children as it is good for mental health as well as having structure with a routine	7/4/2020 12:55 PM
958	My children thrive at school. Most children need the Out of home learning experience that a school environment gives them. Kids need learning partners and peers.	7/4/2020 12:54 PM
959	Online learning is detrimental for our youth socially, emotionally and academic wise.	7/4/2020 12:49 PM
960	My children desperately need the in person schooling!!! I have a son who has historically struggled with learning and online schooling only exacerbated the problem!! Keeping my children focused and on task was also a huge challenge. I DO NOT think D51 should be treated like a school in New York City or Denver.. .We are very different and our Covid numbers have remained somewhat stagnate. Have the older teachers take early retirement if necessary but for the well being of children and their families please start school in the fall!!!	7/4/2020 12:37 PM
961	I do not support mandatory mask wearing. I will not send my child to school if masks are mandatory.	7/4/2020 12:23 PM
962	If online learning takes place, there needs to be respect for working parents, like myself, not being able to manage so many emails coming from so many children. When you have multiple	7/4/2020 10:55 AM

Fall Planning Survey 2020

children with multiple teachers and they all send a ton of emails, you quickly give up on managing them. I still have to work full time and cannot keep up with all the technology demands placed on me by the teachers (understanding the different platforms and programs teachers' use, along with the constant emails).

963	Let the kids come back, please. Full time.	7/4/2020 10:47 AM
964	My son needs the socializing that comes with being at school, with the remote learning he was becoming depressed.	7/4/2020 10:36 AM
965	Face to face learning is absolutely necessary for this generation to thrive.	7/4/2020 10:08 AM
966	As a single parent and full time student it's extremely difficult to work, teach and care for a child that is doing remote learning. I feel it should be a priority to teach our kids how to clean after themselves. Encourage hand washing and sanitize areas after use, this will not only prevent the spread of COVID-19 but many other illnesses that are spread throughout the schools. Kids have a bad rap for being dirty or gross but why? They haven't been taught any better and are almost expected to be that way. I don't want a strict uniform style schooling as most parents don't but they can still be kids and be cleanly.	7/4/2020 9:00 AM
967	I strongly encourage a hybrid approach to education this year. I do not believe, especially in the middle and high school settings, there will be an ability to control social distancing and adherence to a face mask policy. This is assuming that this will be part of the in school attendance requirement. My personal concern is I am a 66 year old grandparent on oxygen. It is very emotionally uncomfortable for me to trust the school environment to send my student to and from school to home without contact with the Covid-19 virus. HOWEVER, I do believe it is possible to have students attend school in smaller groups for their core classes. An option might be for instance, Monday is Lit/Comp in school attendance classes, Tuesday is math, etc. Just a thought. I believe the learning ratio will be much higher if there is some in school classes for the core subjects. Also, I STRONGLY encourage the teachers to live stream lessons - not just assign material. I realize the sudden need to cover material requirements for the last 4th quarter limited preparation time, BUT it is not that hard to live stream a lesson either. My student raced through his assignments in about two hours each day! That is not enough immersion time for learning new material. Additionally, I would strongly encourage the District to allow the other meaningful activities such as Marching Band, athletics and drama to continue with proper precautions. I would also suggest, that other options to using the school buildings for in person classes be considered. If students could meet in the Regal Cinema theater or Two Rivers Convention Center, etc. many more students would be able to attend in person class education. Just trying to give options that allow spacing so the students may gather and have an opportunity for questions, etc. as they are taught material.	7/4/2020 8:58 AM
968	So is there no bus transfers going on this year?	7/4/2020 8:56 AM
969	Thank you for everything you're doing. I appreciate you	7/4/2020 8:41 AM
970	The decision should be driven by the health department	7/4/2020 8:34 AM
971	--masks save lives --in-person works best --kids can adapt to new expectations	7/4/2020 8:24 AM
972	I caregive for my 90 yr old Mother. If you do hybrid model or fulltime in person attendance, then please make sure options for fulltime remote learning and support. The reason I think the remote learning was not good...most teachers didn't give any instructional videos..i.e. record themselves teaching. Some were great. If remote learning happens, I suggest they brush up on that teaching style to engage students more. Thank you for all you guys do for our kids! Good luck, because no matter what you do, some people will be frustrated. You guys did great overall! We had practice from Nov 2019, right? Ugh.	7/4/2020 8:16 AM
973	If there is remote learning I will be homeschooling my child as I want to do it at my pace not the teachers	7/4/2020 8:06 AM
974	My son's teacher never gave him a video call to see how he was doing during remote learning program last year. If remote learning program will be using next year, make sure every teacher do what they supposed to.	7/4/2020 8:03 AM
975	The remote learning is VERY difficult for families who have two full time working parents. We felt like our kids didn't learn near as effectively as face to face learning.	7/4/2020 7:54 AM
976	With the likelihood of a viral resurgence in the Fall, is the district prepared for quarantine teaching? Will faculty receive the support, training, and resources necessary to create a	7/4/2020 7:40 AM

Fall Planning Survey 2020

successful online experience?

977	If you do go to all remote learning or a hybrid....I think you need to emphasize that teachers could send a syllabus to the parents of what's due when so that we can help keep work on track.	7/4/2020 7:13 AM
978	I saw firsthand how my kindergartners learning almost stopped once school went remotely. I myself do not have the tools or training to give my children the education I appreciate so much at and during school. Home is not where my kids learn best Unfortunately.....there is something to be said for being inside of a classroom surrounded by other children that makes my kids WANT to learn and excel in their education. More than ever I truly appreciate our educational system and the teachers who provide it for my kids	7/4/2020 7:02 AM
979	It's difficult to answer if I will have my children in face to face learning or not. Given the recent upturn in covid across the country, it seems likely that the spread will continue. As I don't want to live in fear, I also don't want to be ignorant and dismissive of covid effects. All this to say, I realize a decision has to be made and you can't offer all the options. I think offering face to face learning for those who want to send their children and remote for those who don't. Hybrid seems silly because you either do or you don't want to expose your children .	7/4/2020 6:58 AM
980	No	7/4/2020 6:57 AM
981	The teachers did a great job at OAE with the short notice but my children did not do well at all and I saw a great decline in ability and learning with no accountability.	7/4/2020 6:17 AM
982	I think that everyone attending school should wear masks.	7/4/2020 6:17 AM
983	While remote learning is a great option when necessary and a preferred option for some families, the majority of families would suffer because the majority of families are two income households. Also, there are many kids that need the structure school provides because they may not receive it at home. These kids also rely on school for a regular meal schedule, teachers that make sure they are being cared for, and sometimes general safety. There are also kids that may struggle with online learning and require in person time with a teacher for effective learning.	7/4/2020 5:38 AM
984	I am still very concerned about the possibility of my children contracting the COVID virus and firmly believe that until we reach the 60% immunity threshold it is unsafe for my kids to be at school	7/4/2020 5:16 AM
985	I want to home school	7/4/2020 2:38 AM
986	My child learns best in a face to face learning environment especially with Band, but I'm hesitant to send him back to school with covid numbers rising again, so if remote learning is needed for longer to keep everyone healthy then I think we should do what's best.	7/4/2020 12:47 AM
987	If remote learning HAS to occur, then some teachers will need to spend a lot more time on the teaching the kids.	7/3/2020 10:44 PM
988	Remote learning is available I prefer 100% remote learning for my child . Concerned for his well-being because he does have some Asthma problems	7/3/2020 10:31 PM
989	If my children have to wear mask or do online learning I will be home school my children	7/3/2020 10:24 PM
990	Not at the moment	7/3/2020 9:32 PM
991	Depending upon the situation and what safety procedure the school will be taking as to whether we would send our daughter. If they can't socialize and they have to remain in a plastic bubble or have to keep masks on all day and can't talk and act like a normal child then they might as well do online learning.	7/3/2020 9:27 PM
992	I want senior year to be good, but you guys do what you gotta do	7/3/2020 9:26 PM
993	Thanks for all D51 folks are doing and have done to support families. For my sons particular situation, my main concern is maintaining effective learning for dual immersion as our family speaks English primarily at home. More face to face is my preference assuming safety precautions are implemented. Thanks again for all your effort.	7/3/2020 9:20 PM
994	Basis for decisions should come from health department and evidence that it's safe, not the opinions of our community.	7/3/2020 9:20 PM

Fall Planning Survey 2020

995	They miss in person contact with other children. Learning how to write and read is not all they need . By remote learning they lack very important part of their education which is interacting with other students and practicing their social skills.	7/3/2020 9:10 PM
996	No	7/3/2020 9:09 PM
997	my son is in special education and really needs the in person interaction, he regressed and hasn't progressed during the remote learning whereas before this he was progressing well and retaining more.	7/3/2020 8:58 PM
998	I am fine with the 100% remote learning. It worked for our family pretty well. But if we can assure a safe school experience then in person is preferred.	7/3/2020 8:52 PM
999	I just hope for a situation where my child can grow in her education, socially, and mentally/emotionally, and of course remain healthy. I have concerns of the virus spreading through the schools because I don't know how socially distancing can be achieved in the school setting. I also don't think many of the kids will faithfully wear masks, if that's required. I am anxious to see what kind of plan you guys come up with to keep the children safe as well to continue their education so they aren't falling behind. Virtual learning was hard due to me working and my child trying to find ways to not have to do schoolwork, like not getting out of bed or arguing with me or lying about getting school work done, for example. Until I see how this is planned to be implemented in the school system I am not sure what I think will be best for my child. I do however have faith and trust that district 51 will find a way that works best to keep kids healthy and well educated. Thanks for all you guys do!	7/3/2020 8:48 PM
1000	my children do best learning face to face and love seeing their friends and teachers they get upset when having to do remote learning they have even stated "this is not fair we miss our friends and teachers."	7/3/2020 8:36 PM
1001	I would prefer that my student participate in online only dual enrollment at CMU.	7/3/2020 8:03 PM
1002	Please have teachers focus on navigating online learning tools and building teacher-student rapport in the first few weeks. I'm nervous we are going to move to shut down quickly after school starts. The distention did a great job adapting. But if we have to go to online learning, please give more options for rigour. 3 assignments a week in Ela and math isn't enough for some learners. Finally, please try to standardize communication platforms. A school should pick something - Google classroom, Schoology, email and every teacher should stick to it. Having assignments all over the place is stressful and confusing, especially for middle school	7/3/2020 7:47 PM
1003	I know it was a real challenge with the online learning but I appreciated the hard work it took. I just know hands on fours works the best.	7/3/2020 7:42 PM
1004	Teachers worked really hard to work with us with the distance-learning. It is very difficult when your child has special needs. It will be important for my ninth grader to establish a rapport with her teachers prior to her being willing to work on any distance-learning that may end up happening.	7/3/2020 7:37 PM
1005	if returning in person I would expect that there would be clear communication about sanitizing practices and methods for personal protection that may include smaller classes or masks.	7/3/2020 7:36 PM
1006	Please give parents as much time as possible to figure out how a hybrid schedule will work with working parents.	7/3/2020 7:34 PM
1007	How would sports work with a hybrid learning scenario?	7/3/2020 7:25 PM
1008	Please allow this to be a safe year to the best you can please protect our babies	7/3/2020 7:21 PM
1009	I 100% vote for in person learning for my child. He is Autistic and learns better in public school instead of Remote Learning. Remote learning for both my child and I was very difficult and so I prefer in person learning for my child.	7/3/2020 7:16 PM
1010	Special Education children need physical direction which i cant do when at work	7/3/2020 7:04 PM
1011	My child needs face to face interaction. I know the district wasn't prepared for a pandemic but I didn't feel the teachers were actually teaching. It was more independent study which my son doesn't learn from especially when there are no textbooks so I could teach him. I know you all are working hard and we appreciate you!!	7/3/2020 6:37 PM
1012	My number one concern is safety! However my child in special education I felt did not grow during remote learning. As the teacher was their for help which was great! But it was hard to	7/3/2020 6:34 PM

Fall Planning Survey 2020

add secondary learning for her. Also remote learning wasn't consistent for each grade. Some challenged not enough and others challenged to much. At times I felt it was just busy work. Hoping these will be worked out. Maybe ask what worked and didn't work as each teacher did things very different.

1013	My child had a very hard time with not having the social aspect of schooling. He is an only and often school is one of the only places he gets to interact with children his own age.	7/3/2020 6:32 PM
1014	Please don't send Elementary kids back to school there's no way they can properly social distance there's no way they can maintain their sanitary needs there's no way to stop kids from getting sick! School isn't a daycare. If there's people out there that want to send their kids cool allow that ,that's their choice but allow the ones that want to keep their children safe to stay at home. If High schoolers really wanna attend at least they're capable of knowing that they need to social distance and not eat and drink after each other or put a crayon in their mouth and hand it to a friend. elementary is not ready for this. Please keep our kids SAFE PLEASE.	7/3/2020 6:16 PM
1015	Remote learning has been a challenge during this pandemic and I will like my son to be back to in person learning ASAP	7/3/2020 6:12 PM
1016	My second grader did very poorly with remote learning. My 8th grader fell into depression because she stopped being able to go to school and was not interested in doing her schoolwork as much as if she were in person. I feel it is very necessary for them to go to in Person School this year in order for either of them to succeed. how can my daughter do school work if she's having to babysit her little brother. And how can we put it on a 14 year old to do the disciplining and keep her little brother on track during school time, when she supposed to be doing her schoolwork during that same time. It is not fair to our children or any children as I'm sure many others were in the same situation because parents do have to work for a living.	7/3/2020 5:57 PM
1017	Please don't make kids wear masks. I will keep them home if this the requirement.	7/3/2020 5:56 PM
1018	A lot of parents will face hardships if 100% remote learning is decided upon. I totally understand this, and know that that option will be chosen by them due to the expense of day care or missing work because their children cannot be left unattended while they're working. Please keep in mind that these children will be exposed and be at a hugely elevated risk of contracting Covid or spreading it to other children. Far too many do not show symptoms but are still contagious and attempting to "return to normal", for the convenience of some, is an unfair risk to take. Hybrid, part time face to face, with extra cleanings being done is a much better option. Honestly going back to 100% face to face would be awesome, as kids need normalcy and us parents need a break, but...safety HAS to be the primary factor in decision making.	7/3/2020 5:46 PM
1019	Myself and my children absolutely despise online learning. They need to be around their peers and teachers.	7/3/2020 5:43 PM
1020	No	7/3/2020 5:42 PM
1021	Bot allowing the children the ability to socialize, has had a negative impact on my child's mental health. Being around peers is very important	7/3/2020 5:41 PM
1022	I would only send my children to D51 in they are able to attend 5 days a week in person. If not i would pull my children for homeschooling. Thank you for your hard work and this survey!	7/3/2020 5:36 PM
1023	Getting to see their teachers and friends in school is really important to my children	7/3/2020 5:26 PM
1024	We are new to Grand Junction this coming school year. Speaking on behalf of our children, while our kids engaged in distance learning (Salida School District), the amount of real learning was far less than in-person instruction.	7/3/2020 5:17 PM
1025	Our Covid numbers remain low and it seems that we can not run away from this virus. I support 100% in class learning with safe practices and enhanced cleanliness. Masks should be optional.	7/3/2020 5:13 PM
1026	Go team!	7/3/2020 5:10 PM
1027	You guys are doing a great job, please ignore any negativity from the community when you decide on a plan. The American Pediatric Association is recommending going back to school because kids are at a lower risk but also because of the decrease in child abuse reports, an increase in child abuse deaths, and the lack of food/resource/supports some kids only get at school. I think those are important things to consider. I am fine if kids don't wear masks at school but maybe include mandatory hand washing in every class. I also don't care if teachers	7/3/2020 5:09 PM

Fall Planning Survey 2020

go to school in hazmat suits if they feel more protected. I am honestly more worried about the teachers because they are in a higher risk group. For MS/HS maybe they have a home room class and the core teachers rotate and the students stay in the classroom. Maybe have half the kids go until lunch and then a second group starts after lunch. Again, whatever you guys decide we will make work for our family so ignore any negativity you hear.

1028	No	7/3/2020 5:07 PM
1029	If school go to strictly remote learning my kids are going to severely be affected in a bad way by that!!!!!!!	7/3/2020 5:04 PM
1030	If remote learning happens again I would prefer books and no computer if I cant get books my kids will not do the remote learning.	7/3/2020 5:01 PM
1031	I know my daughter needs an in person teaching experience in order to learn properly! I don't mind if there are minor safety measures but they shouldn't be ones that would disrupt learning & social skills.Thank you!	7/3/2020 4:58 PM
1032	Masks are a must!	7/3/2020 4:57 PM
1033	We would like to hear plans for school activities beyond sports. In particular, will the Speech & Debate team be able to meet in-person and have tournaments in-person - or will those be online or hybridized in some way.	7/3/2020 4:57 PM
1034	Online school was definitely a challenge for our family and "in classroom" learning is a much better fit. Although, the current COVID/health situation is a big concern for us as we have family health issues. In order to keep our family safe we may prefer online or hybrid learning this fall as a better choice until the current safety/health issues are resolved.	7/3/2020 4:56 PM
1035	I will not send my children back to school if masks are required. I don't believe that masks in the school setting is beneficial and will greatly affect their learning and attention/focus. I also will not be sending my children to a public school if the COVID vaccine becomes available and becomes a requirement without exemption, for attendance.	7/3/2020 4:52 PM
1036	Schology was terrible and was always having issues. I think I heard the high schools used google and did way better	7/3/2020 4:37 PM
1037	I believe social distancing and masks should be required in the classroom.	7/3/2020 4:36 PM
1038	I think it is appropriate for children to get germs naturally. All of this sanitizing is really unhealthy. Thanks	7/3/2020 4:33 PM
1039	No	7/3/2020 4:29 PM
1040	My son has a congenital heart defect with asthma. He attends the IB program. I'm afraid to send him back to school and would like to know what sort of accommodations can be made for students with high risk health conditions.	7/3/2020 4:22 PM
1041	I answered this the best I could but at this time we are very up in the air as to what we will do. We would like to have everything go back to "normal" with increased sanitization precautions in place. We are not against hybrid, but feel in -person is best. We are also not ruling out grand valley academy if in-person rules/restrictions are too strict/confining for children to be children and LEARN. Thank you for your hard work to get our kids back to school!	7/3/2020 8:52 AM
1042	Please let our kids go back to school. They really miss it!	7/3/2020 8:03 AM
1043	I am more cautious about my son returning to school than he is. ELearning was a dismal experience for him. He definitely prefers in person. Although I'm not sure the eLearning was set up optimally. It felt temporary or was treated as such.	7/3/2020 7:15 AM
1044	In person learning is the only acceptable choice this fall.	7/3/2020 6:26 AM
1045	I'm thankful for all of the work the teachers put into the distance learning, but it wasn't as good as face to face	7/3/2020 1:26 AM
1046	I would like to see 90% of the children wearing masks and washing/disinfecting/sanitizing HOURLY. Weekly updates and videos for the children to remind them that COVID-19 is REAL and life threatening and the importance of staying healthy and well and to continue learning. And the freedom to choose online learning, for those that do not want to send their children back. And online options for those parents that would like BOTH OPTIONS. Thank you.	7/2/2020 10:28 PM

Fall Planning Survey 2020

Looking forward to keeping our kids safe! We will need more help in the classrooms to help the teachers with sanitation and mask wearing. I volunteer!

1047	The idea of the kids having to wear masks in the classroom is not setting well with me, I'm not sure how this will affect the dynamic and I wonder how it will be possible for the 6-foot rule if required. I just am very unsure of how all this is going to promote learning and safety	7/2/2020 9:18 PM
1048	No	7/2/2020 8:29 PM
1049	Children need to be in school. This is Paramount. The damage being done to their young psyche is vastly more than the risk if coronavirus. Kids are despondent, depressed, anxious and lonely. Get them back into class. Please	7/2/2020 7:49 PM
1050	Please have in person learning	7/2/2020 7:30 PM
1051	If in person school resumes, I would like to see strict guidelines on handling students who arrive at school with a cold- runny nose, etc. Parents shouldn't send them to school, and if they do, kids should be sent home if they are not 100% healthy.	7/2/2020 6:37 PM
1052	This covid stuff is stupid	7/2/2020 5:41 PM
1053	I feel that the interaction of other kids and the teacher in person adds so much to a child's learning experience. The district did a good job with remote learning, but nothing beats in person education with the give and take and social interaction it requires.	7/2/2020 5:13 PM
1054	My son did not thrive in the online school system either time we have tried. This is very tough for him to manage and the lack of socialization really becomes a huge distraction to his learning.	7/2/2020 2:10 PM
1055	No.	7/2/2020 1:38 PM
1056	No	7/2/2020 12:49 PM
1057	I would rather see the schools open with some sort of staggered, every other day approach, and have a successful year,, then have everyone there everyday for awhile and then have to go fully on line. I believe my high school aged kid could adapt well with that type of instruction. I know all kids are different so just expressing our take. Thanks	7/2/2020 12:26 PM
1058	my child will not be attending in person learning if a mask is involved. There is a high health risk to anyone wearing a mask that long.	7/2/2020 12:20 PM
1059	They didnt seem to learn much with on line, just got through.	7/2/2020 11:37 AM
1060	I feel that there needs to be some form of normal for these kids.	7/2/2020 11:18 AM
1061	I'm worried about sending my first grader to a school that feels like a military institution where he isn't allowed to play and work in groups and feel safe and relaxed. That's why I am in favor of a hybrid model so he can still have normal and important things For learning for 7 year olds at home, when he isn't at school.	7/2/2020 10:45 AM
1062	I'd like to see a temperature check for each teacher, sraff member and child coming to school in the morning. Teachers emphasizing hand washing. Hand washing/sanitizing between classes or set times aside to do that. Include hand sanitizer/washing stations in various parts of the school. Reduce class size! Encourage face coverings for all ages who can reliably use them, and provide instruction on how to properly use them. Teachers and staff especially masked. Install clear booth-type screens around desks (in addition to spacing desks 6 feet apart). Ensure the air handling system does not spread respiratory droplets throughout a classroom - use diffusers or baffles. In one published study the A/C system of a restaurant was found to spread the droplets of an asymptomatic person several tables away, infection a number of other people in the air flow much further than 6 feet away. Children with a temperature should be sent home before entering the classroom - scan temperartures at the door of the school. A child with a temperature should be tested for Covid-19, quarantined at home for 14 days if positive, stay at home for 2 days then tested again if negative. Ensure there are enough masks and sanitizer for staff as well as students. I think the district is playing with fire without a strict policy of masks, distancing, temperature checks, tests, droplet shields and how to respond when someone becomes ill with coronavirus. It's not going to be a question of if, it's a question of when. I also hope the district has the will to do what needs to be done without delay when that time comes as currently a number of individuals have made these precautions into a political	7/2/2020 10:33 AM

Fall Planning Survey 2020

and cultural belief statement instead of what they are, science-based public health measures that can protect our teachers, children and community.

1063	I'm up for education for my children in the safest, healthiest way. I'm not concerned about COVID. We will stay enrolled with district 51 no matter what decisions are made	7/2/2020 10:27 AM
1064	A big component of schooling is being able to interact with friends. My child is really struggling with not being around other kids. Summer camps have helped and he has been fine wearing a mask full time during those camps.	7/2/2020 9:12 AM
1065	I think D51 did a decent job last spring given the circumstances but my daughter really suffered setbacks intellectually and emotionally with the distance learning. Really hoping to get her back in a classroom setting.	7/2/2020 8:38 AM
1066	It would be nice to have the kids go back as normal as possible. I feel in our area we have been overly cautious. Can't we just try to let them go back and see how it goes and evaluate? Remote learning did not work for my children	7/2/2020 8:16 AM
1067	I believe Fruita Middle School is doing an excellent job of remote learning. I hope our experience with Fruita 8/9 will be equally good if remote learning is necessary again.	7/2/2020 7:31 AM
1068	I feel that socially mentally and emotionally the students need to be back with other students and teachers.	7/2/2020 7:27 AM
1069	I believe socially, emotionally and mentally our children need to be back in school with the teachers they grow to trust and love.	7/2/2020 7:09 AM
1070	The glitches in the presentations on line where very distracting. We couldn't get our kiddos interested in how we presented certain subjects. We are not teachers!	7/2/2020 1:30 AM
1071	Remote learning was a huge challenge for our family of 6. 3 which of are students. With both parents working full time, one of which working over nights in the hospital made home stressful. The teachers did their absolute best, but my children did not thrive from being out of school and need to have the face to face teaching.	7/2/2020 12:23 AM

1073	Im not in favor of the students wearing masks for the entire time in school.	7/1/2020 10:13 PM
1074	I hope that SD51 considers the safety and health of students and staff to be the number one priority.	7/1/2020 9:45 PM
1075	I won't let my child attend in person learning if there are plastic partitions or excessively strict guidelines regarding masks and sanitizer and playing on playgrounds	7/1/2020 9:13 PM
1076	The only concern I have is if the district decides to spray disinfectant chemicals around the school every day. This is harmful to our kids and would make me think about keeping my kids home to avoid then breathing in chemicals everyday.	7/1/2020 9:07 PM
1077	Online learning is very difficult as we work full time and our baby sitter doesn't have internet so we have to cram learning into the evenings. I am especially concerned for my child that will start kindergarten in fall of 2020. I don't want my children to fall behind.	7/1/2020 8:09 PM
1078	Its absolutely vital my child attend school full time in person due to his health care needs. AUSTISUM	7/1/2020 7:28 PM
1079	Please fight to have in person school for all of the families who are not concerned if their children come in contact with covid-19 or bring the germs home. I know some homes are at risk if covid is brought home, but most, like mine, are not. Please allow recesses for in-person school. More time spent in the sun (uv light) breathing fresh air and producing vitamin d is needed, not less.	7/1/2020 7:06 PM
1080	My son had excellent grades until remote learning. He cant seem to focus doing online or remote learning. He got his first 1 ever. He needs the teachers	7/1/2020 6:11 PM
1081	I believe the educational and emotional/mental impact of not having 100% in person school is a great risk that COVID-19.	7/1/2020 6:08 PM
1082	Teachers need support if we have to do online. Some teachers went overboard with work and some just said forget it, you get the grade you had when you left for spring break and we never heard from them again.	7/1/2020 5:45 PM

Fall Planning Survey 2020

1083	There is NO way I, as a single mother of four working nights as a registered nurse and obtaining my master degree, that I can do remote learning.	7/1/2020 5:36 PM
1084	We believe science and present data is saying that children are at little risk. Therefore, it is important that they have a full school experience which includes socialization with other children.	7/1/2020 5:21 PM
1085	These children need to be back in school full time face to face. Their is too much idle time, they need the socialization and exercise, if a parent is required to work full time they are unable to provide both, what do we pay taxes for? I would then look at a private school if the district is unable or UNWILLING to go back to full time for our youth.	7/1/2020 5:16 PM
1086	Our kids have immune systems. They can't pause their lives and education for a virus that's being wrongfully portrayed as a plague. The remote learning will set our children back for years to come. We need our schools. We need our teachers!	7/1/2020 4:55 PM
1087	Let them return like normal! Mask will be a bigger problem if this would be a requirement. Mesa county has very low numbers! Thank you	7/1/2020 4:50 PM
1088	NO MASKS!!! 100% in person learning! Get these kids back in school and stop with this madness! The emotional upset with children being isolated at home is not okay	7/1/2020 4:39 PM
1089	Children need to be back in school full time. Distant learning was NOT a success and made too much work and stress on the teachers	7/1/2020 3:29 PM
1090	If we do remote learning. Virtual meetings with special education should be more than once a week. Daily is best. The special ed Apps were very poor. I'm sure there are better ones out there.	7/1/2020 2:46 PM
1091	my husband and I both work, 100% remote learning is impossible for us and means that our child has to spend their schoolyear away from home entirely as our only option is to send him to his grandparents 4 hours away.	7/1/2020 2:30 PM
1092	I believe this is an attack towards/against President Trump. I believe if people are this scared, they should stay home and leave the rest of us who need a little more proof than what the media reports, alone. I do not push my beliefs or opinions on anybody I expect the same in return.	7/1/2020 2:13 PM
1093	Kids need to be in school learning and to be able to socialize not stuck at home online frustrated trying to figure what they are supposed to do. Its very discouraging for both kids and parents.	7/1/2020 2:02 PM

1095	Kudos to the District 51 employees/teachers/staff! Thank you for all you do and continue to do for our kiddos and community!!!	7/1/2020 1:24 PM
1096	My children are not doing well at home all the time. All children/people need social interaction. My daughter suffers from depression and anxiety and being isolated away from her classmates and no in person instruction has been detrimental to her. I fear every day for her well being, as well as all children's. We are meant to socialize, not be stuck at home. Going back to a online situation will not be beneficial to any child. We cannot live in fear and need to stop forcing our children to!	7/1/2020 1:11 PM
1097	this virus is not going away. keeping kids out of school is hurting the at risk and vulnerable children. we already flattened the curve.	7/1/2020 1:00 PM
1098	Children and teachers need school to be as normal as possible, even if that means waiting until september.	7/1/2020 12:45 PM
1099	I strongly feel like our children should go back to regular school. I do feel that there should be another option for students who may be or have family that may be immunocompromised but the rest of us need to get back to as much normalcy as possible why being respectful to those in need.	7/1/2020 12:43 PM
1100	I feel very strongly that in person "normal" school should resume in the fall. No face masks, no recess restrictions. I am ok with social distancing techniques and reduced numbers at recess and lunch times.	7/1/2020 12:11 PM

Fall Planning Survey 2020

1101	No	7/1/2020 12:05 PM
1102	We will support the district in whatever decision they choose. This is a difficult time and our kids will come out stronger because of it. Thank you for your hard work.	7/1/2020 11:44 AM
1103	I believe with extra precautions like checking temperatures of children and staff every day and limiting other class interactions, our children should continue to go to school as normal.	7/1/2020 11:10 AM
1104	While I understand offering an online or hybrid option, I fee it is just as important to offer an in-person option. Even if the in-person option requires a release of liability, extended calendar, or weekend classes.	7/1/2020 10:16 AM
1105	I will not send my child for in person schooling if they have to wear a mask	7/1/2020 10:11 AM
1106	I think another thing to consider in this is if there is a scenario that has children attending partial days, this will be a barrier for working parents. Not everyone can stop in the middle of the day to pick up and take children elsewhere. If there is a hybrid scenario, I think the remote learning should be on set day(s) to avoid this. Thank you for your hard work!	7/1/2020 10:06 AM
1107	I will not send my daughter if the students are required to wear masks.	7/1/2020 9:36 AM
1108	The McConnell math and science center have an excellent process in place if examples need	7/1/2020 9:07 AM
1109	Thank you for keeping us informed on your efforts. Our family appreciates the school's willingness to work towards in-person school this fall.	7/1/2020 8:20 AM
1110	Please try to avoid masks. I am wearing one for work and will not subject my kids to them. I've had headaches, dizzy/light headedness, chest pain and a bloody nose while working with a mask. My kiddos have a hard enough time letting me know what is wrong when they don't feel well that I'm not sure they will take it down when they need a break. They are rule followers and I don't want them to compromise their health to please their teachers. I am aware that most say mask wearing is safe and does not pose a health threat. From experience in moving around it isn't healthy. I also believe masks will make life awful for the teachers and the students that want to learn. Just one more distraction for kiddos and another barrier for teachers.	7/1/2020 8:08 AM
1111	Thank you for working diligently to meet the needs of all families!	7/1/2020 8:00 AM
1112	We need our children to attend school 100% in person in the fall.	7/1/2020 7:59 AM
1113	Please no remote get back to normal	7/1/2020 6:34 AM
1114	If limited students are allowed back in a classroom, possibly alternating weeks of in session for students. A certain amount one week and then the other half the other week if all students aren't allowed back in one classroom.	7/1/2020 1:08 AM
1115	I'm a single mom and remote learning would be physically impossible for me, as I have to work.	6/30/2020 11:16 PM
1116	Our children are very anxious to return to school. Both the pre-schooler and the 1st grader are especially longing to return to their classrooms.	6/30/2020 10:41 PM
1117	My son will be in 6th grade, he needs the structure of classroom learning, especially going into the middle school setting. My daughter is going into 3rd grade, she absolutely loves school (she literally says tests are fun). However she was miserable doing remote learning, would cry because she missed her teacher, her classroom, her friends. And then she would just shut down and we didn't get anymore school work done for the day. I work all day, can not be home to "teach" them, their dad is disabled so they are with him and he struggled with trying to teach them....and really didn't want to. So many parents aren't cut out to teach. I believe many parents have gained so much respect to our teachers who do this everyday with a classroom full of kids. I don't know how they do it, they definitely deserve to make more than they do!	6/30/2020 10:36 PM
1118	I prefer my child not be required to wear a mask during in-person learning	6/30/2020 10:25 PM
1119	We appreciate the survey. This is a very challenging time.	6/30/2020 10:07 PM
1120	If we do resort to part or full-time remote learning, we need to have the Teachers in the classroom, appropriately socially distanced. teaching from the classroom. Using video instruction and props from the school, especially laboratories. The online learning needs to be much more creative and much more robust than it was in the spring. Real time or close to real time Interaction with the teachers is a must.	6/30/2020 9:49 PM
1121	Please, please, please do what is honestly best and safest for the staff and students. As a	6/30/2020 9:14 PM

Fall Planning Survey 2020

parent and a teacher, I know that not everyone follows precautions (especially elementary parents who just want/need free "daycare") and I want/need my family to be kept safe and healthy. For parents threatening to pull their children over the all or nothing, please let them go if all is honestly not the best option at the time.

1122	There was so much of a difference between classes.	6/30/2020 8:46 PM
1123	Would really like to send my kids back to a normal school environment. It is very important and essential to my children and myself.	6/30/2020 8:44 PM
1124	We are a two parent household that is not home to supervise and help with classroom instruction, I myself believe we need to get back to school, either way you look at this Covid is not going away. We will deal with this every year like we do the flu, I understand that this affects all people differently but so does the flu, if these kids don't have an immune system it is only going to be worse, every school year we deal with the same viruses spread around through every class. I say put these kids back to school.	6/30/2020 8:29 PM
1125	I really feel my kids need in the classroom learning. Remote learning didn't not work so well. I don't think they really finished as strong as they could have. I feel that they lost some ground that they were gaining. I don't think they learned anything from the remote learning. When we as in parents are working we can't help them learn or take away what they need to. And after we are off work the school stuff isn't able to be access. For me is a parents worst nightmare. It doesn't work. I had to call in sick a couple time while remote learning was happening cause I am an essential worker. It was not easy for me or them. I don't like the idea. Please face to face in classroom learning. Both my boys have said to me if they don't go to school and have in classroom learning they will drop out and figure another way around it or a super senior for two years in a row. It's too complex to understand or get the education that they have the right to get.	6/30/2020 8:20 PM
1126	What is the ideas for school sports??	6/30/2020 7:46 PM
1127	The education to not stop for our children	6/30/2020 7:28 PM
1128	My son will be a senior this year and being in a school taking classes and particiaptng in theatre is very important.	6/30/2020 7:28 PM
1129	My child may be going into 7th grade but I will be working. I know that she will not participate in the remote learning independently. The only reason she participated this spring is because I was home with her every day. I am extremely concerned about my daughter's emotional well-being without other students to communicate with because she is an only child.	6/30/2020 7:15 PM
1130	We would like to see some flexibility. No matter what face to face learning is the best. If current health conditions change, we would be open to some remote learning but also would like to see remote learning not take over all learning indefinitely.	6/30/2020 6:58 PM
1131	the remote learning does not work.	6/30/2020 6:17 PM
1132	I know most of Mesa County has dismissed the Covid-19 pandemic but we can not. Our home has a handicapped, immunocompromised member who would most likely not survive it. I would prefer my high schooler to stay home for most classes but he would very much like to attend school for at least the JORTC Honor Batalion and Leadership Lab. I would be ok with sending him as long as Central High School requires masks, enforces their use and enforces social distancing at lunchtime (use gymnasiums and other classrooms), and allow time to sanitize before and after lunch. Thank you for reading my requests and ideas.	6/30/2020 5:39 PM
1133	My children love school. Their social/emotional well-being was effected without school. They struggled and lost motivation to do their work	6/30/2020 5:20 PM
1134	Most of the difficulty that my child experienced was programs not working correctly or links that teachers provided not working. This caused a lot of frustration on their part and on our end because it took a lot of extra time to figure out what was wrong if we were doing something wrong how to fix it etc.	6/30/2020 5:20 PM
1135	Hoping for full back to school, as long as the numbers in our area continue to be low. I hope all actions taken to keep our children safe are also appropriate for the small amount of cases in our area. Fully support hand washing, hand sanitizer and temp checking. And a zero tolerance for any sick symptoms. I think the rest may be a bit over the top.	6/30/2020 5:15 PM
1136	My desire to send my kids back to school stems from the fact that learning is not just done from	6/30/2020 4:57 PM

Fall Planning Survey 2020

a book or computer screen. Our students are missing a vital component of learning when interaction with others is taken away. I do not feel that the risks of COVID outweigh these benefits of a well-rounded education. I'm also particularly concerned because this is our kindergarten year, and I worry about my child's progress with reading and writing if he is deprived of the in-person kinder experience, not just for this year but beyond.

1137	let my son go to school	6/30/2020 4:52 PM
1138	I appreciate your service. You're working very hard. Please let your decisions be based on student education and 0% on staff and union desires. If not, do not ask me for tax revenue increases. Those teachers that don't or can't work need to go on disability.	6/30/2020 4:46 PM
1139	I worry about being compromised health-wise. I'm sure I'm not the only one. What might come home with the kids once they get into the schools.	6/30/2020 4:39 PM
1140	Distance learning was hard on my school loving child's emotional state and my youngest would NOT do well with remote. We tried with remote preschool and it was horrible. My kids neeeeeed to be IN school with a teacher!	6/30/2020 4:38 PM
1141	I realize a lot of kids need to go back to school but the health of my family is very important. I have poor health and do not want my kids to bring home sickness. D51 teachers are amazing. We love them.	6/30/2020 4:30 PM
1142	As a healthcare professional and as a mother, I am concerned that opening up the schools to the standards instated prior to the COVID-19 pandemic will usher in the beginning of a healthcare disaster for our community. Mesa County has yet experienced the full blow of this virus, and I have high doubts that the children will be compliant with social distancing measures, and the wearing of face masks will likely be more dangerous than helpful. Face masks are meant to be worn and untouched for the duration it remains on the face. Are you going to staffed well enough to ensure these safety measures are complied with? I have serious doubts about that.	6/30/2020 4:13 PM
1143	In person schooling and after school activities is crucial to the mental, physical and emotional well being of our youth!	6/30/2020 3:41 PM
1144	While our teachers worked hard to implement leaning in the spring it was very difficult to manage the process and hard to lean new concepts. The active learning model is so much better for our kids. They need interaction and ways to connect. Also the isolated experience was not good for many learners. We are happy to wear masks but please let us come back to school! Thanks! Also, I think it would be best if everyone wore a mask except the teacher. It would make it easier to hear. Thank you for asking our opinions.	6/30/2020 3:23 PM
1145	My daughter is starting kindergarten and I would like to be able to plan if there is going to be a hybrid or remote learning need. My husband and I both work and my daughter has been in daycare/preschool since she was a baby. More time to plan would be helpful.	6/30/2020 3:12 PM
1146	Thanks for all you do for our families. We appreciate you so much.	6/30/2020 3:04 PM
1147	None	6/30/2020 3:01 PM
1148	Please have 100% in-person learning in the fall.	6/30/2020 2:55 PM
1149	If school doesn't return to normal and any restriction for social distancing such as masks or limited number of children on playground or PE distancing required I will not enroll my children and will homeschool or enroll them in an online school.	6/30/2020 2:22 PM
1150	I am hopeful that school can return to mostly normal for the children. If not, I am considering homeschooling. This is certainly not ideal, but from what I've learned about children and screen time, I am VERY concerned about my child having to spend several hours every day on the computer screen. Finishing out the school year that way was incredibly difficult for him. So, I feel like if remote learning includes much screen time, I would rather just teach him myself. I am concerned about safety, and I'm concerned about the students having the best opportunity to learn. Obviously there are no easy answers.	6/30/2020 2:04 PM
1151	No	6/30/2020 1:59 PM
1152	My student is a very strong, hard working, involved student. Online schooling was very hard for her mental health for so many reasons. I understand that there are risks involved with in person	6/30/2020 1:49 PM

Fall Planning Survey 2020

learning, but I feel it is essential to our youth to have school be an in person, on campus experience.

1153	It would be extremely difficult for both teachers and students in middle schools and high schools to wear masks and stay with one teacher all day.. if this was the case we will stay on remote learning. Thank you !	6/30/2020 1:43 PM
1154	No	6/30/2020 1:35 PM
1155	Do what is safest and healthiest for our community and families.	6/30/2020 1:23 PM
1156	I was very happy with Pomona and online but my other child who goes to West was more of a problem. Majority of her teachers were not organized or knowledgeable navigating with the various programs used.	6/30/2020 1:19 PM
1157	None	6/30/2020 1:18 PM
1158	What kind of accommodations is the District going to make for immune compromised children? Will their only option be Grand River Virtual Academy?	6/30/2020 1:18 PM
1159	I think remote learning would be a feasible option if teachers were required to record videos giving instruction or having a Google classroom meeting where they gave instruction. That was my biggest complaint for remote learning. Most of my children's teachers didn't actively teach. It was very frustrating. A hybrid model would eliminate this to some extent.	6/30/2020 1:09 PM
1160	I am a nurse practitioner practicing in the valley for over 25 years please return the kids to school face-to-face teaching	6/30/2020 12:59 PM
1161	Really want normal school year with least amount of fussing for kids.	6/30/2020 12:53 PM
1162	Would be interested in both 100% in person or hybrid depending upon strictness of requirements. Would prefer ("quareenteams") small groups of kids/staff with less time during the week than masks, division and heavy restrictions between students and staff all week long.	6/30/2020 12:52 PM
1163	I think simply planning on the assumption of there being a need for some online learning would help smooth the process and ensure learning new lessons is possible, instead of a lot of review. Our school/teacher did a fantastic job on short notice, but I would have liked to see more with learning new concepts. If that in-person curriculum trajectory can continue with a mixture of online learning, that would be ideal. Whichever way we have to go, I think it's important to keep students and staff safe - I just don't want to see loss of learning or lack of growth during that time.	6/30/2020 12:45 PM
1164	Remote learning is difficult for us when school starts as I'm heading to bed after a nights work.	6/30/2020 12:42 PM
1165	If 100% in school learning is not available, we will enroll for home school (not remote learning).	6/30/2020 12:30 PM
1166	If my children can not do in person learning at all, I am afraid that my children will fail. Both my girls are intelligent, but structure is very important. The home environment is not the best for them. I want my children to be safe and I want them to succeed. We need to be able to have both.	6/30/2020 12:28 PM
1167	It is not just the required learning children have to do that is important. It also important to allow them to socialize with other kids and adults for a variety of reasons.	6/30/2020 12:13 PM
1168	We were not happy with the transition to electronic schooling in the spring. We know it was difficult for all. We feel our son, who is a good student, was overwhelmed at times and had little to do at other times. The coordination across the school seemed poor. We also believe the sweeping policy that grades would not go down then alternatively created a situation where most teachers made it very difficult for a student to improve a grade as well. That needs to be addressed more closely.	6/30/2020 12:05 PM
1169	Being new to the District and parenting, I just wanted to say that the reception has been great. I am a little concerned having heard that RAW had be created. (Right And Wrong). Hoping that the issues have been addressed, and that guidelines/policies have been modified or instituted.	6/30/2020 11:47 AM
1170	What considerations are being taken for D51 staff who also have students in the system? What will this look like if students go to a hybrid learning system? How will D51 employees support their students, staff AND their own children?	6/30/2020 11:42 AM
1171	N/A	6/30/2020 11:41 AM

Fall Planning Survey 2020

1172	We are hoping for no restrictions going back to school this August. If face masks are a requirement we will look into other options for our students.	6/30/2020 11:38 AM
1173	We believe that this fear driven agenda is mostly politically driven and has been blown way out of proportion. The flu virus is much more dangerous and no one has made a big deal about it. Move on with public schooling or refund our tax dollars!	6/30/2020 11:36 AM
1174	I notice that there is no mention of face masks and lunch or recess periods. As of right now, I am feeling my children will not be returning to school if they have to wear masks or cannot have regular lunches and recess. Children need to see facial expressions and emotions to learn. They need to see lip movements to learn how to pronounce words correctly. They also need to be able to play with their friends. I will look forward to what is decided so I can move forward. Is Grand River Virtual Academy prepared for new students?	6/30/2020 11:36 AM
1175	I feel like my middle school child did "ok" with remote learning however, my second grader struggled with navigating the system and completing all the work in a timely manner. Socialization is huge for my middle schooler and I feel the lack of socialization with peers at the end of the school year resulted in some true depression. I don't believe my second grader got much Learning out of the entire last quarter of second grade. I am also a single parent that works full time and cannot be at home supervising and providing home school instruction. With that being said the health and safety of my children come first. I must say I appreciate all the hard work the staff and teachers in D51 put into a very difficult situation.	6/30/2020 11:31 AM
1176	If we do remote learning teachers need to be on screen for at least 4 hours a day teaching. Just assigning work and saying these are my office hours are not going to cut it.	6/30/2020 11:27 AM
1177	Going back to remote learning will not benefit any child to help them stay on track. It will also be a financial and job hardship on parents especially the single parent, like myself! I will not be able to teach and work full time so I will have to lose all or part of my job.	6/30/2020 11:27 AM
1178	I am also a special educator (SSP) for D51. If there is ANY remote learning, we will need training and materials budgets. Round 1 was not effective for my special education services.	6/30/2020 11:20 AM
1179	None	6/30/2020 11:18 AM
1180	We have to live with this now, I believe that herd immunity will keep this from being a problem further. If masks and a segregated model is put into place I will probably decide to homeschool my children	6/30/2020 11:10 AM
1181	In my opinion, I would prefer for my students to do 100% remote learning instead of hybrid since we do not know where other students that are in the same class as them have been. Not only that, but the contagion of the virus would be a lot higher since it is students in a room together for a period of time.	6/30/2020 11:08 AM
1182	My children will not wear masks it is bad for their health and I will pull them from D51.	6/30/2020 11:08 AM
1183	I'm hearing that we will require children to wear masks? If this is the case I think it would be a good idea to do half day schooling with home learning on other subjects.	6/30/2020 10:43 AM
1184	Online learning is not for everyone, us included. It was a constant battle. We are not tech savvy and were not able to help when problems were encountered.	6/30/2020 10:34 AM
1185	Remote learning was a struggle this Spring, particularly for our younger gradeschool child, but it was worth it. We are VERY uncomfortable with having our kids return to school buildings, full time, at full capacity (all students) this Fall. PLEASE PUT THEIR HEALTH ABOVE CONVENIENCE OR ECONOMIC FACTORS!	6/30/2020 10:09 AM
1186	You guys have done a good job in a very difficult situation. You're in a no-win situation with a lot of very difficult parents to deal with and I feel for you.	6/30/2020 10:05 AM
1187	No	6/30/2020 9:44 AM
1188	I realize the impact that 100% "at home" learning will present and that this may be an inconvenience to parents, (including myself), but the health and wellbeing of our children much be our most important concern. Our children will learn, but unnecessary exposer by trying to do "in person" learning is not one I am interested in taking. We greatly appreciate our teachers for stepping up and doing remote learning this past year and hope that, maybe delaying in person contact in the beginning can be what keeps our COVID numbers down in Mesa county. Thank you for all of your hard work!	6/30/2020 9:44 AM

Fall Planning Survey 2020

1189	D 51 staff did a great job of preparing for remote learning it's not the teachers that we unhappy with it's was the remote learning itself we felt the kids were just going through the motions not really retaining what they were "learning" and not being able to be with friends was hard	6/30/2020 9:40 AM
1190	Lincoln Orchard Mesa staff did an amazing job considering the circumstances when we had to do remote learning.	6/30/2020 9:35 AM
1191	No	6/30/2020 9:31 AM
1192	It's very difficult for remote learning when both parents work full time	6/30/2020 9:30 AM
1193	I am still not sure about sending my children back to school it seems still to risky	6/30/2020 9:10 AM
1194	The remote learning was very difficult for my kids. They were spending so many hours staring at the computer screen. Some classes had them spending 4-5 hours on one class and it was very overwhelming for my kids who are both hard workers and had a hard time with this.	6/30/2020 9:09 AM
1195	My child needs face to face. It was difficult to keep him motivated to do assignments and not being able to get immediate feedback on questions/explanations was extremely difficult. I am wishing for face to face teaching	6/30/2020 9:06 AM
1196	They need to go to school in person they get a better learning experience and have face to face contact with the teachers	6/30/2020 8:49 AM
1197	In person learning with a return to extracurricular activities is the best course of action for our students, families and teachers.	6/30/2020 8:19 AM
1198	One of my kids from Grand Junction High school did great with remote learning Even better than at the school without all the distractions the other from central High school did not like it as well but still did ok.	6/30/2020 8:12 AM
1199	it is incredibly difficult for full time working parents to home school their children. My children did not get the same quality education from remote learning.	6/30/2020 7:39 AM
1200	My daughter really struggled with the online platform and would not be able to graduate if she had to do her last year of school online.	6/30/2020 7:36 AM
1201	My child will only attend a D51 school if masks and social distancing are NOT mandatory. We need normal life for our children. The science does not support making kids social distance or wear masks. Kids are not at risk and need to resume normal life. Immune compromised kids can do virtual learning, let the others go back as usual.	6/30/2020 5:56 AM
1202	Thank you for doing your best!	6/30/2020 5:41 AM
1203	no	6/30/2020 5:31 AM
1204	I appreciate all that the teachers do/did to make learning possible.	6/30/2020 5:23 AM
1205	My children want to go back to school grounds and interact with their peers as well with the teachers. Remote learning was not a good experience for my students or for me as a full time single parent. It was very frustrating.	6/30/2020 1:37 AM
1206	My kids did horrible with the remote learning. Please do whatever you can to get them face to face learning	6/30/2020 1:19 AM
1207	I do not want to send kids to school this fall because one parent has pre-existing condition.	6/29/2020 11:13 PM
1208	N/a	6/29/2020 10:40 PM
1209	I am concerned about them having to wear masks for HOURS daily. There are also repercussions to that. Thank you for keeping our kids AND families safe	6/29/2020 10:26 PM
1210	I think the safety of our students is very important, as well as their education. I have heard of alternating times or days for students at school as a possibility.	6/29/2020 10:02 PM
1211	We are concerned for the safety of our kid and staff at the school and hope the school board will limit group sizes and adhere to social distancing.	6/29/2020 10:00 PM
1212	I was a former software engineer, a D51 elementary school teacher at Pear Park Elementary while we worked towards and then earned the National Blue Ribbon School of Excellence award, and am now staying at home with my young children and worked with my first grader during remote learning the last months of school this year. I would be highly interested in	6/29/2020 9:42 PM

Fall Planning Survey 2020

offering my feedback of our remote learning experience with D51, if interested, from my perspective with a background in tech, teaching locally, and now as a parent administering remote learning. Feel free to contact me via my provided email address above.

1213	Please consider following American Academy of Pediatricians recommendations. "The importance of in-person learning is well-documented, and there is already evidence of the negative impacts on children because of school closures in the spring of 2020," the group representing 67,000 pediatricians wrote. "Lengthy time away from school and associated interruption of supportive services often results in social isolation, making it difficult for schools to identify and address important learning deficits as well as child and adolescent physical or sexual abuse, substance use, depression, and suicidal ideation." The on-line platform is not very supportive of younger learners. I feel they need face-to-face teaching to thrive. My children have been depressed since social isolation has started, especially my youngest.	6/29/2020 9:34 PM
1214	I would just like to commend the school district on working so hard to give our kids the learning experience they need. However, for my child, remote learning just does not work. But I know how much work was put into it; and for that, I thank you all.	6/29/2020 9:22 PM
1215	Sincerely hoping kids go in person for at least 3 days per week.	6/29/2020 9:20 PM
1216	We experienced successful remote learning this spring. We also experienced successful remote integration with a GT class from another school. I know that it will be challenging for individual teachers to meet the needs of 100% remote learning AND hybrid teaching models. Has the district considered designating an elementary teacher per grade (perhaps for multiple schools) to only focus on 100% remote learning students, leaving the other grade level teachers to master the hybrid model for students? Just a thought.	6/29/2020 9:19 PM
1217	No	6/29/2020 9:02 PM
1218	None	6/29/2020 8:55 PM
1219	I believe children need to be in school and be around their peers. They need social interaction with their peers. They do not need any restrictions when they go back, they need to be allowed to be kids!	6/29/2020 8:04 PM
1220	You all did an awesome job of responding to this pandemic in a short timeframe. Developmentally and emotionally, so many kids, mine included, need and want to be back in school. I hope this experience helps parents to better appreciate all teachers do!	6/29/2020 7:54 PM
1221	School needs to be as close to normal as possible. Not being able to have close interaction with friends or giving hugs will have a very big emotional impact on my children. Also they need activities like recess and to break up their days in order to stay focused. If this is not allowed then school days need to be shortened.	6/29/2020 7:46 PM
1222	I want the school to be as normal as it can be for them. PE and breaks are so good for them. Hugging teachers and friends is so important to them, if they can't do that it will be hard for them to understand.	6/29/2020 7:43 PM
1223	Children need social interaction, children need interaction from other authoritative adults other than their parents. Online learning misses so many if these elements.	6/29/2020 7:04 PM
1224	No	6/29/2020 7:01 PM
1225	I won't send my child back to in person classroom settings I'd rather look into 100% online learning because we have multiple high risk people in our immediate family including my child themself. I do not feel comfortable sending them back to a classroom setting.	6/29/2020 6:33 PM
1226	It would be nice to be able to let the families that want remote learning to do so. It would make in-person classes an easier size to allow for the school to follow any specific safety recommendations that might be put in place. The model they used this spring was nowhere near efficient enough and making sure each individual child truly grasped the concepts being taught to them fell through the cracks. I was HIGHLY disappointed in the whole experience as was my child.	6/29/2020 6:31 PM
1227	For the kids that learn in person, online school does not work. As a single parent that works outside the home, I was coming home trying to guide 2 kids through school and some nights we were up till midnight trying to get through it. Very frustrating.	6/29/2020 6:29 PM
1228	No	6/29/2020 6:21 PM

Fall Planning Survey 2020

1229	I really liked the extra time my children spent at home, and the self paced aspect of distance learning.	6/29/2020 6:06 PM
1230	For high school students the hybrid model should become a permanent fixture. This model of in Perón classes maybe only 2 or 3 times a week more closely models college and would better prepare them for this	6/29/2020 5:56 PM
1231	As long as Mesa County numbers remain low, in-person learning (with special modifications for safety: masks and physical distancing) works best for our family. If cases increase and/ or safety measures are not in place, remote learning would be preferable but with the additional option of remote working (for the district as a Speech-Language Pathologist) for both my student and personal safety.	6/29/2020 5:51 PM
1232	Both students are two and three sport athletes, we're anxious to see what happens with sports. We applaud your hard work this past spring and are grateful for all you continue to do!	6/29/2020 5:46 PM
1233	I don't think it would be beneficial to the kids to wear masks and be required to distance away from other children. Children don't understand how to properly wear masks and they would be touching them more than anything. How can you ask a kid to stay 6 feet away from all their peers. They need bonding and socializing to grow.	6/29/2020 5:38 PM
1234	For my children's health and safety I do not want them wearing mask at school, unless mask are disposed of every 20 minutes or sterilized as they pose more of a risk when not routinely changed than not having one at all. Additionally we don't know the long term consequences of children wearing mask for long periods of time.	6/29/2020 5:12 PM
1235	No	6/29/2020 5:07 PM
1236	My child was able to navigate the remote learning last year fairly well. But by the end she was feeling so isolated from the lack of social interaction with other children and having face-to-face learning. She lost interest in the remote learning towards the end and was far less motivated. My child LOVES school and was very disappointed in remote learning. The learning isn't the same without discussions in class and learning and hearing peers thoughts and questions. We definitely noticed a shift in her attitude towards school work. She went from rising early and getting it done for the day to dragging it out through the day and not wanting to work on the projects. She missed out on several fun projects her 8th grade year that should have been great experiences. Chautauqua was one of them, that was a huge disappointment with all the work that goes into preparing for it. Also she felt uncomfortable being on the zoom meetings. She was able to stay engaged with her teachers by emailing them weekly if not multiple times in the week. But I'm not sure if some of her classes were affected in grade because she wasn't on those meetings.	6/29/2020 5:05 PM
1237	My kids need the face to face interaction. Preferably with no masks.	6/29/2020 4:58 PM
1238	We owe it to our kids to provide them the BEST educational experience. Numerous students were left out at the end of 2020 school year. We have to do better. Kids need social interaction. Parents can't be expected to pick up the slack. Our economy must recover.	6/29/2020 4:55 PM
1239	You (teachers, staff, admin) are doing a great job. It's all a mess.	6/29/2020 4:31 PM
1240	I will not make my children wear a mask to school.	6/29/2020 4:30 PM
1241	It is crucial for my child to be in school learning	6/29/2020 4:28 PM
1242	I cannot work full time and homeschool my child! Please open up schools!!	6/29/2020 4:17 PM
1243	Na	6/29/2020 4:09 PM
1244	If we don't go back to face-to-face programming with no restrictions for the 2020-2021 school year I will be pulling my kids from public schooling.	6/29/2020 3:57 PM
1245	I'm afraid I won't be able to keep my child current with the curriculum, as I am a college student and work full time. If it's unsafe for face-to-face learning, we will accept that. But I know my child will fall behind if I can't be home for remote learning with him. We love you all regardless!!	6/29/2020 3:55 PM
1246	I will lose my job if my child has to do remote learning. Then we will be homeless.	6/29/2020 3:42 PM
1247	I will have a senior this year and she really wants to enjoy her last year. Even if that means wearing a mask. I hope this can be worked out for sports as well.	6/29/2020 3:37 PM

Fall Planning Survey 2020

1248	I feel for my child who has adhd need the school learning environment. He needs face to face learning	6/29/2020 3:32 PM
1249	If face to face learning would require big restrictions such as face masks all day, I would prefer either a hybrid learning plan or just online school. My daughter terribly misses school for the social interaction between her peers and teachers alike. If she were required to wear a mask all day, everyday, or not be able to participate in extracurriculars I think she would do better having a hybrid model of learning this fall 2020.	6/29/2020 3:31 PM
1250	I think remote learning would be good if all the teachers did it the same way or kind of the same systematic way	6/29/2020 3:30 PM
1251	If there is remote learning, it needs to be structured more like an online school is. Teachers cannot just dump a weeks worth of work in an email once a week and then say the students shouldn't spend all day in front of the computer.	6/29/2020 3:13 PM
1252	Elementary can not wear masks or loose recess time. If this is the case I will keep my kids home- however I'd like to see safety measures put in place, like smaller classrooms so on...	6/29/2020 3:13 PM
1253	Be smart, face masks are ok to wear daily. Make sure hand washing is allowed before entering each classroom, etc.	6/29/2020 3:11 PM
1254	No	6/29/2020 3:11 PM
1255	I never realized how valuable face to face learning was until it wasn't an option. My son is generally a good student and enjoys school and I watched him decline rapidly. His confidence level decreased and he had no motivation. It was a very tough time for our whole family. His teacher did her best but there is no replacement for being in a classroom.	6/29/2020 3:04 PM
1256	please get the kids back in the classroom per normal non-covid guidelines aka no masks etc..God Help us ALL!	6/29/2020 3:04 PM
1257	For FMHS bring back CAT time or SAT and get rid of Advisory or have it more like how it was before advisory was implemented	6/29/2020 3:04 PM
1258	Nope I am done with public school.	6/29/2020 2:53 PM
1259	I feel for all of you, as none of these options will please everyone. This is a very difficult decision to make. We know you are trying to do the best for everyone, and that there are many factors involved for both in-school and remote learning. In the event that the Health Department insists on remote learning again, please prepare teachers, and have a district wide comprehensive plan. The platform needs to be similar between ALL classrooms AND schools... it was very difficult for parents to navigate all of the different platforms with no prior experience. Some students had no work, some had extensive expectations. Mental Health should be a priority, and helping all kids know that things are going to be ok is more important than them completing every single assignment, especially in elective classes. Core classes should be prioritized with a very relaxed approach to music, art, PE, tech lab, etc. Last spring, it seems that across the county every teacher did their own thing. D51 lacked a comprehensive plan for the county and teachers to follow. There was little opportunity for parents to give feedback on what was and wasn't working. To see a model experience on remote learning, please look into the team approach given by the first grade team at Wingate Elementary- Mrs. Robinson, Mrs. Van Pelt, and Mrs. Mendoza created the ideal situation for their students. They collaborated on lesson plans, and it was a fantastic experience. It was extremely easy to navigate, with each assignment on a link on the lesson plan. Each teacher pre-recorded themselves ACTUALLY teaching a lesson, and it looked so familiar to the students. There were many "just for fun" links, too, including virtual zoo tours, etc. Homeschooling appears to have been challenging to everyone, but for so many different reasons. Many parents had to work full-time, and that left little to no time for proper instruction. Other parents easily navigated the required technology, yet others had no internet, or computer knowledge. Some had unlimited resources, and asked for more work for their kids. Unless guided by an approach such as Grand River Academy, I'm not sure how all kids could ever be learning at the same pace. Thank you for trying to find the right option for everyone.	6/29/2020 2:37 PM
1260	do not believe we will send them to school if they are required to wear masks or are not able to play with other children like they are planning in some places, The kids need school and socialize, the end of the year seamed like a joke at times ... online learning is hard for college kids let alone young kids.	6/29/2020 2:28 PM

Fall Planning Survey 2020

1261	Please let the kids return to school!! This is a situation that was blown WAY out of proportion; we have been misguided in the way we are to be keeping our family/community safe. Take precautions yes, absolutely, be careful, be mindful but be an advocate for our children in safely and successfully reaching their goal of graduating from High School to complete their school career in a strong and safe manner that doesn't perpetuate fear. The kids, as well as us, their parents, look to the teachers, administrators and Superintendent for this leadership. It's our District and we need the leaders to step up to do what's right, not necessarily what's popular.	6/29/2020 2:26 PM
1262	We will not be sending our child if masks are required for the kids and recess is not allowed. We are very much for pushing back the start date or doing the first semester half face to face and half remote learning.	6/29/2020 2:23 PM
1263	You are in a tough place with everyone being an expert and giving their advice and opinion. I support your decision but if at all possible, please have in person learning. God bless you and our district.	6/29/2020 2:18 PM
1264	Children should be able to go back as normal, no masks, no social distancing!	6/29/2020 2:17 PM
1265	It would be nice to see extra curricular activities begin, not just sports when school begins. For example JROTC. Also, if students go back full-time will there be back up for teachers if they get sick? There often is a sub shortage and that needs to be considered ahead of time.	6/29/2020 2:07 PM
1266	I was tasked with homeschooling my autistic granddaughter as her single mother is an essential worker. The lack of social interaction with other students also is very detrimental to our granddaughter as social understanding is an area she really struggles with. I think that the damage home schooling causes is much worse than the possible but unlikely threat of Covid 19. I think you need to realize that while a teacher teaches one subject to several classes, we have to teach at least 5 different subjects every day. This usually requires us to sit in on classes so we can adequately help our child. With an autistic child it is necessary to sit right by her to help her navigate the emails, schedule zoom meets, etc. 6 hours a day, 5 days a week. i don't get a paycheck and I became so frustrated that the stress really affected my health and relationship with my granddaughter, as well as others. If D51 decides to home school, I think that they should have to pay for tutors at least for the kids with disabilities. I can only imagine how hard it is for parents that have more than one child at several different levels. It is simply impossible for our children to get any quality education in a remote learning world. The kids that take music classes also are not able to perform and/or learn their instruments. There are currently only 12 active virus cases, we have had very few hospitalized and no deaths. Our children our being punished for no reason. Let them get back to a normal life, with ball games, friends, dances etc...if there are parents who aren't comfortable with sending their kids back, let them do homeschooling, but don't force it on all families. I worked hard all my life to be able to enjoy my retirement...not start a second career as a "volunteer" teacher. I would be happy with half the salary one teacher makes...but I am forced to "work" for nothing.	6/29/2020 2:04 PM
1267	My thoughts are a hybrid model, where 1/2 the kids go on Monday/Wednesday and the other half come on Tuesday/Thursday. Then on Fridays they all do remote learning. This way they can actually be socially distant.	6/29/2020 2:02 PM
1268	They are also ready to come back. Social learning is important too!!	6/29/2020 1:54 PM
1269	I was told my child's grades would not drop with this remote learning, they marked her down from fours down to ones. Not sure how that grading went about, but it DEVASTATED her	6/29/2020 1:51 PM
1270	I believe that it is in the best interest of my children for their mental health and overall being that they attend school in the fall with no mask and normal learning.	6/29/2020 1:51 PM
1271	No masks!!	6/29/2020 1:49 PM
1272	It will be hard to have a kindergartner start school online. If they decide on remote learning that's fine but makes it very hard for working parents. My husband and I both work and It would be tremendously hard to home-school, work and pay for daycare etc. These things are not being accounted for. Also for the many children that go to school to get away from abusive parents. There are so many factors that need to be addressed before an actual decision is made.	6/29/2020 1:38 PM
1273	Media is not a part of our lifestyle which is another reason why online learning was so undesirable besides the lack of human interaction. My daughters 2nd grade teacher at Juniper Ridge did an absolutely amazing job keeping the learning as close to normal as possible.	6/29/2020 1:35 PM

Fall Planning Survey 2020

However, if online learning becomes the only option then we will have to homeschool moving forward to meet the need of our own personal values.

1274	I believe having an in person and online experience would be great for children because while they're online you'll be able to sanitize school.	6/29/2020 1:32 PM
1275	Remote learning is an extremely difficult way to learn for children who needs social interaction to pick up the information being given. Talking with peers face to face is much different than talking over Google Hangouts. Face to face learning is the most important way to learn. You can get questions answered right away and not have to wait to get a response. Plus, life is much easier when you can just take your child to school and know that the teachers will be teaching them instead of a parent worrying about trying to teach their child while working and doing everything else they must do to be an adult.	6/29/2020 1:29 PM
1276	We are not willing to put our kids in masks all day for coming to school. If this is a requirement we will be looking for other options.	6/29/2020 1:26 PM
1277	I feel the emotional impact of not having kids in school is going to be greater than COVID. I also fell very strongly that children should not have to wear masks	6/29/2020 1:26 PM
1278	No masks	6/29/2020 1:24 PM
1279	I support what is best for our children and the safety of our community. I/we understand the importance of safety for all with COVID. I don't love that this is happening, but understand and respect what happens moving forward. Masks are important for children's safety. Mrs. Sanchez at Taylor did a fantastic job on the online learning, very organized and made it fun for the kids. Good model.	6/29/2020 1:24 PM
1280	I would prefer my children to attend in person school. As well as my senior to enjoy his senior year like a normal year	6/29/2020 1:23 PM
1281	I feel School would need, for my children, to be 100% in person and as it was before all of this. The social aspect of school is just as important as the learning. Having kids be distant or with masks WONT make for a proper learning experience for them	6/29/2020 1:15 PM
1282	My child will not return if they are required to wear masks. We will chg to home school.	6/29/2020 1:08 PM
1283	My child had an excellent online learning experience. The Grand Junction High School teachers and counselors are the best! They all worked so hard and went above and beyond to help the students.	6/29/2020 12:57 PM
1284	My child has ADD & dyslexia & struggles in school & at home.	6/29/2020 12:49 PM
1285	Remote learning had a significant impact on my child's emotional state and it was difficult to manage. We have considered that we are a 2 parent family with technology access and no worries w finances- and worry about less stable family situations for other homes/children. Given it was a struggle for all of us to work from home and support our children, in person would be best if the health department and local numbers look good- we would prefer in person learning. We had to upgrade internet (2 adults working, 2 college students, and a middle schooler). I think it was hard on the teachers who did their best and went above and beyond. Special needs students definitely need in person.	6/29/2020 12:47 PM
1286	No	6/29/2020 12:45 PM
1287	I will not send my kids to school if they have restrictions I don't think it's fair for kids to not have a normal learning environment	6/29/2020 12:42 PM
1288	I think our kids need each other, their teachers, sports, groups and clubs. My kids are involved at their schools!	6/29/2020 12:29 PM
1289	Please let the kids go back. Remote learning is very difficult	6/29/2020 12:29 PM
1290	I would attend school if they do not require masks or social distancing. If they make the children feel like they have done something wrong when they play with each other or walk to close to someone it would be non-benifical to send them to public school. I want them to feel it is ok to be human and have freedom of choices.	6/29/2020 12:28 PM
1291	Grandchildren rather than children, but their parents died and can't take the survey.	6/29/2020 12:28 PM
1292	What about the seniors who play sports? What about the kids who just need social interaction.	6/29/2020 12:21 PM

Fall Planning Survey 2020

1293	my kids don't learn through a screen my daughter that is going into 6th grade is so far behind and I work full time as a single mom, plus have a 3 year old and a 6mont old. I dont have the time to help her like she needs. She and her sister need to be able to go back to school for their benefit or learning	6/29/2020 12:15 PM
1294	My kiddo absolutely needs some sort of in person schooling. He is on the spectrum and a big part of his IEP is socialization. He also needs his speech and OT services. Online learning did not work very well for us.	6/29/2020 12:15 PM
1295	My child does not do well at home learning and had a very tough time the end of last school being at home on the computer, he failed may classes due to at home learning.	6/29/2020 12:08 PM
1296	If WCCC is involved this year, the school district be more aware of what is happening to those students. Horrible outcome this last year	6/29/2020 12:07 PM
1297	No	6/29/2020 12:07 PM
1298	Online school was not a good experience for my daughter. She did fine and what was expected; however, I can't say that for the teachers. Why would teachers give the same grades as last quarter, tell the kids that and expect them to try?! The teachers were being paid to teach. Expectations, motivation, encouragement should not have changed. I still had to pay the fees for AP testing but yet somehow the teachers gave up and that was ok. Not all teachers, but most. Better measures and expectations should of been put out for teachers.	6/29/2020 12:05 PM

1300	I believe that the kids need to be with other kids. I know that being at school instead of home makes a huge difference in my daughters learning.	6/29/2020 11:54 AM
1301	If there are restrictions my children will not go to school. We will homeschool, not through the district.	6/29/2020 11:54 AM
1302	N/A	6/29/2020 11:50 AM
1303	It would be nice to know the plan and what it is going to look like before the end of July so we can make arrangements if needed.	6/29/2020 11:49 AM
1304	please let our children go back to school	6/29/2020 11:49 AM
1305	How are electives going to look? Can they touch the same ball? The same crayons?	6/29/2020 11:46 AM
1306	If school isn't in person, my child will delay 1 year to begin kindergarten.	6/29/2020 11:46 AM
1307	Stop punishing our kids by your fear. Children are at less risk of this issue than the more mature population. Stop living in fear!!!!	6/29/2020 11:38 AM
1308	My kids, as do most, thrive on social interaction with their peers, as well as their teachers. Remote learning was difficult even for my older kids. They need their teachers close by for better instruction and motivation. Unfortunately, normally good grades, went down slightly. We all need in person instruction.	6/29/2020 11:36 AM
1309	D51 did a good job given the circumstances we were facing.	6/29/2020 11:34 AM
1310	I do not feel that remote learning is good for students. They need to learn social emotional behaviors and to do that they need to be in school making friends, disagreeing with friends, etc.	6/29/2020 11:33 AM
1311	If vaccination bill passes we will be pulling our children. We would prefer 100% in person instruction without masks, but if masks are required for a short period of time, we will adapt. If it looks like masks are going to be required for many months, we may decide to homeschool.	6/29/2020 11:32 AM
1312	We are not Denver and we need to do what is best for our community, students and families. My child will not wear a mask and needs that in-person learning for social emotional learning.	6/29/2020 11:31 AM
1313	For their mental health, I am really hoping that we are able to go back to face-to-face learning. Thank you for all that you have done!	6/29/2020 11:28 AM
1314	Please don't make children wear masks! It's not healthy! Let our kids go back to 100%	6/29/2020 11:19 AM
1315	I think hybrid would be the safest/most feasible structure. Our kids need in person education and the social interaction, but that can be combined with online learning. Perhaps 3 days a	6/29/2020 11:14 AM

Fall Planning Survey 2020

	week?	
1316	This spring, High School teachers way over did it. Both my high schoolers were sun up to sun down working and often got behind because their course load was so heavy. Also it would have been beneficial for high school teachers to have more mandatory online instruction or video teaching, especially for new content and not just available for questions. For my 5th grader he had little to no work and was done in 45 minutes each day with no new learning. Better communication from teachers to parents would have been helpful so we could have monitored and helped kids stay on track, ie. missing assignments.. especially at the high school level. Trying to figure out and keep track of multiple online sources (google classroom, google emails, parentvue/studenvue, gradpoint, dreambox, sight reading factory, etc) was very overwhelming and a pain trying to figure out when and what assignments were due and where.	6/29/2020 11:12 AM
1317	Maybe allow in-person only for students who struggle with online and online for all others. Would keep the classroom numbers lower. Teachers can stream live lessons or have some teachers do online and others in class.	6/29/2020 11:10 AM
1318	I would just like to see stricter guidelines for healthy attendance where the sick kids stay home or are sent home. I'm ready to send my kids to school and trust the teachers to help promote good hygiene. Very unrealistic for kids to wear masks. Let's not live in fear but really look at our community and the health risk not the state/global statistics who has had it much worse. Thank you.	6/29/2020 11:06 AM
1319	It's hard to say which option is best given the current situations of the pandemic, with all options having pros and cons. Maybe offering an option of hybrid or full remote could somehow be incorporated, and let parents choose which option they would prefer for their child/ren.	6/29/2020 11:05 AM
1320	If we do remote learning it would be helpful to have video tutorials for parents on how it works. Also, a more structured setting and expectations would make it easier. If given the option to choose, we would choose remote learning this year.	6/29/2020 11:01 AM
1321	Wearing masks and trying to keep kids 6 ft apart will not work. They are kids that love socializing. More frequent hand washing and supplies of antibacterial wipes would be good. And kids that are feeling sick stay home or wear a mask if already there	6/29/2020 10:58 AM
1322	I don't want to send my kids back for in-person learning if there are too many new rules or restrictions. I will send them if things are back to normal. No filthy mask wearing, no hiding in classrooms all day, no walking around following arrows!	6/29/2020 10:56 AM
1323	I would rather have my children in an outdoor setting than online, if that's being considered as an option.	6/29/2020 10:51 AM
1324	I know you're working hard to keep kids and staff safe. I support 100% in person, but I also want to make sure staff is protected. If 100% in person is not possible, a hybrid online/in person would work best for our family, rather than 100% online. Thanks for asking.	6/29/2020 10:51 AM
1325	Our family is so very grateful for all of the effort D51 and Palisade High School has made to adapt to the new ways of teaching, coaching and communicating during this past several months since COVID affected our community. We just want you all to know we are very appreciative.	6/29/2020 10:47 AM
1326	One child did really well with online, the other one really did not. If there is a Hybrid I think more teacher interaction is key with the younger students. My husband and I both had to work full time and our younger child fell behind because ALL of the lessons required my husband or I be available to help him. It was VERY difficult to balance and at the end of it we felt that we really failed him and couldn't do both effectively.	6/29/2020 10:41 AM
1327	I would not send either of my children back to in person learning if masks will be required all day long.	6/29/2020 10:40 AM
1328	I will support any district plan that is approved by the public health specialist. If we are required to return to 100% remote or a hybrid, please, do not implement a "no fault" grading policy or limited curriculum coverage. The spring was a good bandage for the situation but shouldn't the level of education that is status quo for this fall.	6/29/2020 10:40 AM
1329	IEP is needed for remote learning.	6/29/2020 10:36 AM
1330	Open the schools	6/29/2020 10:31 AM

Fall Planning Survey 2020

1331	I would love to have the kids back in school, but not at the expense of community health and teacher health.	6/29/2020 10:30 AM
1332	If remote learning is necessary, I would like to see better instruction from the teachers. I felt that the teachers did not use all resources available or make students accountable for lesson plans. I also felt that the teachers choose to reduce work or eliminate important projects.	6/29/2020 10:22 AM
1333	Weekly Zoom calls provided the Face to face need of my child but a daily check in with each teacher should also be required if online and hybrid learning continues.	6/29/2020 10:17 AM
1334	Bring them back to school full time	6/29/2020 10:17 AM
1335	Our son would like to be able to go to school for 100% of time if a mask is required we would like to look into Grand River for part of the day.	6/29/2020 10:10 AM
1336	Part remote and part face to face is pointless. The exposure would happen in bulk when the face to face happened. I'd rather full remote or full face to face.	6/29/2020 10:05 AM
1337	Let's get these kids back in school!!	6/29/2020 9:58 AM
1338	It's time to get our kids back inside schools getting a proper education that my tax dollars pay for.	6/29/2020 9:54 AM
1339	I'm concerned with my kindergartener getting behind if their is on line only learning. These little guys need direct instruction.	6/29/2020 9:53 AM
1340	100% Remote learning is not feasible	6/29/2020 9:50 AM
1341	Having 3 of my 4 kids transitioning to new upper level schools and learning would be so hard to do from remote learning when both parents work.	6/29/2020 9:43 AM
1342	I think the children of our valley need to be back in school, we are doing them a disservice for the large percentage that are struggling with online learning. I fear that our children are going to fall behind and/or lose their desire to learn or to even be in school. I understand there are some that prefer this method of learning so maybe they continue to have that option but I do not believe that they are the majority of the children.	6/29/2020 9:42 AM
1343	I congratulate the teachers , coaches and administration for the excellent job with remote learning with such little notice.	6/29/2020 9:42 AM
1344	yes, since there is google classroom I would like to make sure my child's teachers also make sure these lessons are on google classroom that way if the school work cant gets all done at school we can access it so we as parents can help our children and so they can complete their assignments and get them in on time, furthermore I have parent vue and when I looked on how my child was doing some said there where missing assignment but I saw nothing missing nor was I able to find out what was missing, the teachers need to stay in contact with the parents and return a call or email if we as parents are trying to stay on top of things so our kids don't fall through the cracks of the school system and not wait to tell parents their kids are falling behind /or struggling at the conferences thank you.	6/29/2020 9:42 AM
1345	The teachers should learn to teach on line so they can help the kids	6/29/2020 9:37 AM
1346	thank you	6/29/2020 9:32 AM
1347	No additional feedback at this time.	6/29/2020 9:30 AM
1348	It almost certain I am going to pull my children from the district if schools are locking parents out from volunteering in classrooms, if there's no recess, if lunch will only be served in the classroom, if my child is required to wear a mask, if my child will not be able to interact with their friends in a normal manner at school, all of these restrictions will make it where I will pull my kids from the district and use actual online school that is trained for that kind of learning. I am also Leary of temperature checks daily with daily healthscreens because many factors can give false alarms. My children miss being at school with their friends and teachers the way school was before spring break and that is the kind of school they need to go back to.	6/29/2020 9:25 AM
1349	Not all children learn well with remote learning. My child went from loving to go to school and eager to learn more, to absolutely hating school and and life in general. If wearing a mask is what has to happen for school to return, then she will have plenty. Our children's education is vital for our communities future. Not to mention that the curriculum taught is nothing like what I learned so helping her with her work is impossible. If a parent does not want there child to	6/29/2020 9:24 AM

Fall Planning Survey 2020

attend school and want to home school, that is there right. I want my child to attend a classroom setting. She is learning way more then math, reading, writing, etc.

1350	I would like my child to return to school if it is safe but a lot of people I know have been traveling to other states and going about life as nothing has happened. I am concerned about precautions being followed and as a teacher also I'm worried about my students families not following precautions which could put my family at risk. I help my mother and we all link to each others health.	6/29/2020 9:24 AM
1351	Thinking about online or homeschool till covid is over	6/29/2020 9:11 AM
1352	No	6/29/2020 9:11 AM
1353	Remote learning is extremely hard for a single mom that works full time.	6/29/2020 9:10 AM
1354	None	6/29/2020 9:07 AM
1355	What exactly are you learning from this survey?	6/29/2020 9:07 AM
1356	Please allow sports and in person learning. Students need it!	6/29/2020 9:07 AM
1357	Kids need to be back at school, with teachers and friends and activities.	6/29/2020 9:07 AM
1358	Safety must be priority one for students and staff!!	6/29/2020 9:06 AM
1359	N/a	6/29/2020 9:03 AM
1360	I feel strongly children need to be back in school 100% this coming school year. Please consider involving CHOICE. I am happy to sign a waiver releasing D51 from any liability. For those who are not willing give them the choice of remote learning. For my children, remote learning was a failure and I would like the CHOICE to send my kids back with little or no restrictions. We can not afford to lose more instructional contact time. We cannot make decisions based solely upon state or national rates of infection. We cannot sacrifice the mental health and well-being of our children because we are making decisions out of fear. Statistics are showing the common flu had been much "deadlier" for children than the novel Corona virus and we had never allowed the seasonal flu to disrupt school and the education of our children. Yes, there is some risk involved and we will have to try and mitigate some of that risk, if possible. But we cannot sacrifice "the many" because of "the few". In many ways school is the absolute SAFEST place for a great many children to be. In person learning is the only way to ensure children are getting what they need and most certainly deserve. Thank you.	6/29/2020 8:52 AM
1361	I would not be opposed to a hybrid of remote and face-to-face. I just hope all activities/sports are able to continue. School is not 100% about learning. It is social skills as well.	6/29/2020 8:49 AM
1362	Face to face would be best. If they don't have some social interaction at school that would be extremely detrimental. I would consider homeschooling or grand river if the restrictions prevented kids from having recess and PE and other interactions.	6/29/2020 8:45 AM
1363	Remote learning in Spring 2020 involved too little work and too little challenge for my student. I personally feel like we should focus on daily screenings of students for Covid 19, and the quarantine of any students who test positive.	6/29/2020 8:43 AM
1364	I think remote learning could be a viable option and I do understand the district had limited time to prepare this past spring, however, the inconsistency and lack of instruction made it very difficult for my kids to learn, be productive and stay motivated. The teachers should have still set up cameras and gave their lectures and instruction, not just hand out "busy " work or a link website like Khan Academy.	6/29/2020 8:41 AM
1365	I believe our school and our superintendent conducted themselves to the absolute best credibility they could. I would not enjoy my children being in school under severe restrictions and lack of socializing, but as a working parent, full time remote learning is not the best option for my children. I would prefer them to be in school to the best of their abilities	6/29/2020 8:41 AM
1366	Everyone is ready for school to start!! Let's just get this started like normal akready!!	6/29/2020 8:40 AM
1367	Please make online learning more than just 20 min with a teacher saying hello and the rest online videos. Very poor online learning for my 1st grader at thunder mt this spring. They did absolutely nothing but videos and my son hated it. Teachers got off easy and didnt even repsond or check in when asked questions. Awful experience for him and my daughter's 4th grade online stuff was awful to. All this at thunder mountain please do better!!!!	6/29/2020 8:39 AM

Fall Planning Survey 2020

1368	If using remote learning, please allow several days for completion of assignments. Working parents may need to facilitate school in the evenings or over a weekend. When possible, video lessons or real-time video lessons help the kids stay connected to the teacher and subject material.	6/29/2020 8:32 AM
1369	-	6/29/2020 8:32 AM
1370	Thank you!	6/29/2020 8:30 AM
1371	Nope	6/29/2020 8:29 AM
1372	Please no mask requirements.	6/29/2020 8:27 AM
1373	I think it is so important for my kids to go to school at the location. We did not do well with online learning. Everyday was a battle. My kids need to be in class with teachers and friends.	6/29/2020 8:25 AM
1374	I have the patience to teach my child at home. He tends to learn better on a one-on-one basis. However, the lack of social interactions has had an impact on my kids. A hybrid offering would be ideal for my child, but I know it's not for everyone. This would also reduce the number of children in one place at any given time and allow for cleaning between days. This layout could reduce the number of children exposed if a positive case were to arise.	6/29/2020 8:23 AM
1375	Google Classroom is far superior to "Schoology". My Highschool student had much more success using Google Classroom than my middle schooler who used Schoology.	6/29/2020 8:23 AM
1376	If we have to do remote learning, will there be free in person help for those that need it. My daughter needs face to face. None of the online bull.	6/29/2020 8:21 AM
1377	The in person experience is so important for our children's mental health too. They need their community ro keep their sanity.	6/29/2020 8:20 AM
1378	I am also a teacher and the thought of being hybrid is terrifying! I know how much work it took to be remote & I don't know how I could do both!	6/29/2020 8:18 AM
1379	I understand that we have to adhere to the safety guidelines the Health Dept implements. I feel the kids need some form of social interaction though. If face-to-face learning isn't allowed I would rather see a hybrid option than 100% remote learning.	6/29/2020 8:17 AM
1380	Sports need to be brought back. If contact sports are not allowed,they can golf, it is a sport that is non contact- should not be a problem.	6/29/2020 8:14 AM
1381	I am 65 and my grandson lives in my home, we have practiced good hygiene all along. We use a mask in public when required. I have not closeted myself anymore in the last four months than what is required to live in the county. I understand the risks and behave appropriately in my daily living. My opinion on the matter children returning to an in person classroom learning - their risk of falling ill and dying of covid-19 are significantly low. My concern for in classroom learning is for the teachers/administrators in the building. Remember how quickly norovirus spread in the fall? Enough said, excellent hygiene by all is the key in the schools!	6/29/2020 8:12 AM
1382	Just let our kids go back and have a normal school year! They need this interaction !!!!!	6/29/2020 8:12 AM
1383	It's too hard for working parents to do remote learning.	6/29/2020 8:10 AM
1384	One of my kiddos excelled with remote learning while the other struggled some. So we may opt to let one continue remote learning and the other would most likely need n person learning if that is an option going forward.	6/29/2020 8:06 AM
1385	We appreciate the attention and family-centeredness that the district is bringing to these important considerations.	6/29/2020 8:02 AM
1386	It is important that students return to school to build that relationship with their teachers and visa versa. If we need to be creative to help with the space guidelines then do what you need to do. Kids need to be back in school	6/29/2020 7:59 AM
1387	I want my child to be able to move around the classroom, to play outside, have recess, and to be with their friends and teachers. Teachers are a vital part of school and I'm praying we can go back to normal. I would like more info about grand river academy if my children have to do online learning. I'm worried they will lose their Spanish language skills they have mastered if we go to online learning again. Thank you for your time. We are thankful for district 51 schools!	6/29/2020 7:48 AM

Fall Planning Survey 2020

1388	I'd like you to please consider the importance of socialization for young children mixed with numerous studies and data worldwide showing children, particularly 17-under are not shown to get this or really transmit it. It's different than other viruses. They have lost months of education. People will get sick. It will likely be a minority.	6/29/2020 7:25 AM
1389	I think we should just go ahead and start with a hybrid model so it is easy to switch to 100% remote in the high likelihood of another stay at home order. I think the transition would be smoother. Also, please find a way to keep band going — even remotely. Playing music together is critical to many kids' mental health.	6/29/2020 7:21 AM
1390	Am very concerned that another set of HS Seniors will miss out on their athletic, extra curricular, and other senior activities.	6/29/2020 7:15 AM
1391	Send the kids back to in person classes. My kids are begging to go back to regular schooling situation.	6/29/2020 7:11 AM
1392	I tho k the biggest thing is keeping our children safe and try to give them a sense of normalcy to	6/29/2020 7:10 AM
1393	I think the school did great in most cases. The social aspect amplified by stress and anxiety was very missed by my teens. If there was a way to physically distance while maintaining social bonds, hybrid would be definitely be my 1st choice.	6/29/2020 7:02 AM
1394	The remote thing went well, but I do not believe that it is a good way of learning that will benefit all the different ways people learn. If the district was forced to do e-learning again it would be detrimental to all students in some way or another.	6/29/2020 6:57 AM
1395	No	6/29/2020 6:52 AM
1396	We do not feel remote learning is as effective as in person.	6/29/2020 6:51 AM
1397	If there is any restrictions or masks required, I will likely pull my children from D51. The mental health risks are to much for my children.	6/29/2020 1:07 AM
1398	No	6/28/2020 11:53 PM
1399	I just hope we can follow the science when making these recommendations for the upcoming school year. Thanks!	6/28/2020 11:20 PM
1400	High school and middle school online last year was giving assignments to close together my kids had trouble keeping up	6/28/2020 11:04 PM
1401	None	6/28/2020 10:56 PM
1402	Does the County / district have funds to proactively test students? Could be pooled testing, rotating through classrooms (google pooled testing). Besides social distancing measures, hand washing, and mask wearing (where feasible), it seems like rapid and proactive, rather than reactive, testing will help identify outbreaks before they spread.	6/28/2020 10:44 PM
1403	Give teachers some slack, as well as the parents who aren't tech savvy. I had the hardest time keeping up with my kids school from lack of organizing and different grades having different apps and log in info. Was very confusing and hard to switch between users. I think remote learning helped, however I think if there was a bit more adjusting period, things could go smoother.	6/28/2020 10:23 PM
1404	I think everyone in the school district is doing the best they can, and I appreciate everyone's efforts! Thank you! I also know what a hard position you are in and that you are not going to please everyone, but I appreciate being asked for feedback and will give it. I was sad to hear Ms. Sirko's comment that they are going to be focusing more on 6' distancing instead of wearing masks. I don't think kids sitting 6' apart in classrooms is going to contain the spread, nor will it be very feasible. I don't think kids will comply with 6' distancing - they will want to be closer to each other. I think that at least middle and high school students should be required to wear masks as much as possible, (but obviously not during lunch, or when playing instruments in band, etc., and in those situations, maybe 6' can be emphasized.) Wearing masks will keep everyone (kids, parents, and teachers) as safe as possible, it will improve the chances of school being allowed to stay open for as long as possible, and obviously it will slow the spread. But if kids aren't required to wear masks, they're not going to wear them because they won't want to wear a mask if no one else is wearing a mask. I want my daughter to be able to go back to high school, but I won't feel like I can let her go back if kids aren't wearing masks, (my husband has asthma, so we don't want him to be exposed) and that's not fair to her. If kids want	6/28/2020 10:21 PM

Fall Planning Survey 2020

to go back to school, they should be required to wear masks so that the nonmask wearers are the ones who suffer, not the kids who are willing to wear masks and protect their friends, family, and teachers. I know mask wearing is a volatile issue now, unfortunately, but the school district needs to be a leader and a voice of sound policy and reason during this world-wide pandemic by requiring everyone to wear masks, unless they have an issue that makes it impossible, and then, they should be exempt from the requirement with a doctor's note. Another idea to help with social distancing is to have half of kids (I'm thinking high school) attend in person one day or week, and the other half the next, with the kids not in attendance physically attending by zoom or some such. I'm not sure how practical that is. I think mandatory mask wearing would be much simpler. Thanks and good luck!

1405	The young one NEEDS in-person schooling for success. The older one might be able to be successful if online learning was necessary, because of the pitfalls of being and interacting with girls at the age of 10 (something we all have to endure, but nothing I would wish upon my worst enemy). Either way, I'M depending on d51 to instill a lifelong love of learning with compassionate and kind teachers. We will do our part as parents.	6/28/2020 10:09 PM
1406	If there is a requirement of wearing masks, my children will not be attending school in person to wear a mask, and instead we would find alternative learning at home.	6/28/2020 9:38 PM
1407	Children learn best with face to face learning. Remote learning is not an acceptable option for our children	6/28/2020 9:36 PM
1408	I appreciate all the time and energy out in to keep our kids safe!	6/28/2020 9:29 PM

1411	Schools need to open in the fall for the well being of our children.	6/28/2020 8:56 PM
1412	It is very important for the well being of our children to go to school. It prepares them for real life situations! It is beneficial to be with teachers to ask questions to learn and for instruction.	6/28/2020 8:45 PM
1413	If my child goes to school, they put my elderly parents at risk. I cannot choose between taking care of my folks or my kid. I am very concerned about the rapid and crazy germ spreading that schools do. You cannot expect safe social distancing from kids. This puts our teachers and support staff in the likely situation of exposure, are they ALL insured?	6/28/2020 8:44 PM
1414	No	6/28/2020 8:41 PM
1415	Masks are unrealistic and would be extremely distracting . Please let our children go to school and get the full experience without having to wear a mask.	6/28/2020 8:36 PM
1416	The kids need some interaction	6/28/2020 8:33 PM
1417	I feel we need a vaccine before kids & all(all of us) are back to normal. I understand this is really hard for the kids. Trevor is going to be a senior, and will miss all the experiences. But if one of the kids caught COVID, and had serious health problems or death, of a family memorial or friends, they would never forgive themselves. Me included.	6/28/2020 8:25 PM
1418	My eldest child needs the structure and social aspect of school. He is a terrible candidate for homeschool or online learning. My youngest does fine either way.	6/28/2020 8:18 PM
1419	I hope you adjust class sizes or have alternating days so classes can be smaller.	6/28/2020 7:57 PM
1420	none	6/28/2020 7:56 PM
1421	no	6/28/2020 7:50 PM
1422	Students need to return to as much normalcy as before Covid as possible. Remote learning is nearly impossible for parents who work full time and majority of moms and dads work full time nowadays. I believe that if it becomes another "remote" learning school year I'd rather enroll my children in homeschooling as there is at least a cut and dry curriculum to follow.	6/28/2020 7:42 PM
1423	We are in full support of returning in person to the classroom in the fall. My girls need classrooms to learn and I'd risk contracting Covid any day to get my kids back to structure and learning. It is just as big of a risk in mind to lose my motivated, high achieving kids to	6/28/2020 7:40 PM

Fall Planning Survey 2020

Covid/stay at home learning. Another quarter or more of learning at home and I will have three teenagers with social emotional issues than will last much longer than any Covid virus. Thank you for the chance to respond. We are hopeful to be kicking our kids out the door come the first day of school to live, learn and experience life.

1424	My children will be homeschooled through a private curriculum if masks or severe disruption of their day is in force. Our kids need school, it is scientifically proven this virus is not a huge threat to them, and they need to learn.	6/28/2020 7:15 PM
1425	We want masks to be optional.	6/28/2020 7:08 PM
1426	Masks should be optional! I do not want my child to attend if she has to wear a mask. They also should be properly socialized with their classmates.	6/28/2020 7:07 PM
1427	As we began remote learning last spring, my kids were excited and did well. I have two very different learners academically and we did fine. However, by the end of school, one of my children was showing signs of depression. I know that this child NEEDS social interaction. Obviously, this is no fault of the district. It's just something we noticed, and took action for her sake. I am a proponent of sending my kids back so they can be with their peers, even if it's a hybrid learning situation. Thank you!	6/28/2020 7:03 PM
1428	I think that kids can learn to be adaptable, but it is also probably not realistic to expect that small children will be able to keep masks on all day long without a break.	6/28/2020 6:59 PM
1429	I think the teachers and staff at Shelledy Elementary did an amazing job with what they had to work with this past spring.	6/28/2020 6:50 PM
1430	Thank you for all you do!	6/28/2020 6:46 PM
1431	Please let us go back to school. Remote learning was a complete dis service for my children.	6/28/2020 6:46 PM
1432	Given the highly contagious nature of covid, I don't see any way to safely put kids back in school full or even part time in classrooms. Though our county has been lucky so far, I see way too many people in Fruita not wearing masks in public or social distancing. All it takes is one student in one school to start an outbreak. Is that something that you're willing to be responsible for?	6/28/2020 6:38 PM
1433	Our family would not feel comfortable with returning to school as usual. We would prefer a hybrid to allow for social distancing	6/28/2020 6:06 PM
1434	Please don't trust the Mesa County under-reported published Covid-19 confirmed cases, they are currently on the rise and will continue to rise with limited mask use. Please error on the side of caution.	6/28/2020 6:01 PM
1435	I do not want my kids to be required to wear masks. Also, they need to be with their friends....	6/28/2020 6:00 PM
1436	I fully support going back to school as normal. As does any information that I have seen and can find regarding children, psychological healthy, physical healthy re: Covid, and other issues.	6/28/2020 5:13 PM
1437	Full on face to face education/instruction is needed.	6/28/2020 5:11 PM
1438	No	6/28/2020 5:03 PM
1439	Kids who have adhd need a lot more guided learning. Expecting a kid To stay on task at home with working parents who cannot be there every day is unrealistic and I fear he did not get the information he needs to be successful in his upcoming school year.	6/28/2020 4:52 PM
1440	Our 11th grader we'd like to have 100% in person school, our 8th grader has asked for online school only. Of course some teachers were excellent during online school and we did not hear from other teachers. My high schooler was frustrated that each teacher had their own website to log into for assignments, the middle school seemed more streamlined.	6/28/2020 4:48 PM
1441	Not only do kids need to be in school, but they need sports and extracurriculars too!	6/28/2020 4:32 PM
1442	Our kids NEED the social interaction schools give. They learn better in person.	6/28/2020 4:30 PM
1443	I believe that full time in school should be allowed. While, remote learning as an option with live coverage of the actual classrooms that are in session.	6/28/2020 4:27 PM
1444	I think a hybrid model would be unrealistic for teachers. I know how hard they worked during remote learning and to ask them to do both would be asking too much of them. If parents want	6/28/2020 4:24 PM

Fall Planning Survey 2020

to keep their students home, they need to choose Grand River, so it is not the teacher's responsibility to teach their child at home and also teach kids in a classroom.

1445	Kindergarten remote learning was a poor experience because the lack of direction we received. Also noting that it was no fault of the teacher due to the lack of training they were briefed with. 2nd grade remote learning was easier with clear, direct, expectations; however the amount of work to complete was overwhelming. The specials (physical education, music, and art) were extremely difficult to complete on top of the other academics.	6/28/2020 4:14 PM
1446	I appreciate all the hard work that D51 Educators have put in to serve their students. 100% remote learning is the worst choice in my opinion, as it puts a lot of stress on all of those involved. My kids were mostly self-motivated, but it got tiring and some classes (like Ceramics) were just a waste of time and need to be done in person. Thank you so much for working hard on this issue.	6/28/2020 4:12 PM
1447	In person learning is desired if it can be done safely.	6/28/2020 3:55 PM
1448	If my children have to abide by any social distancing guidelines, such as no specials (art, PE, music, etc) and would have to stay in their own classrooms all day, then my children will NOT be returning to D51. We will homeschool.	6/28/2020 3:35 PM
1449	Need to have no restrictions. Kids back to learning teacher's back to teaching.	6/28/2020 3:25 PM
1450	My 9th grader had *substantially* less work in remote learning than my 4th and 5th graders. I felt that my 4th and 5th graders generally had an appropriate amount of work and was disappointed in the my 9th grader's remote learning experience.	6/28/2020 3:19 PM
1451	My son learns fast so I don't want him "held back" from excelling no matter what platform is chosen.	6/28/2020 3:17 PM
1452	My husband is a teacher and I work an 8-5 job. I feel in person kindergarten is critical for my children's reading skills and comprehension and well as the social interaction they need at this young age.	6/28/2020 3:04 PM
1453	No	6/28/2020 2:54 PM
1454	My sons teacher worked very hard to provide as much education as she could but I didn't feel he got the same quality of education as he would have in person. Tailoring education to individual students is hard enough when teachers see them daily. Being at home is also very distracting for my child. School isn't just reading and math, it's also a social education.	6/28/2020 2:46 PM
1455	I would like to see schools open, if not I'd like to see a better system in place for remote learning.	6/28/2020 2:40 PM
1456	I would like to see consideration of early out or online learning after Thanksgiving Break. CMU is following this procedure, and I think it's wise. I'm fortunate that I'm able to take my children to work with me instead of requiring daycare.	6/28/2020 2:35 PM
1457	No masks, no fever testing, etc. School needs to be a normal place where they can go and interact with peers and teachers. We will not Corona test or Corona vaccine, period.	6/28/2020 2:25 PM
1458	We should only do in person learning for our children. They would suffer so much socially if they weren't allowed to be at school.	6/28/2020 2:23 PM
1459	Should in-person instruction require masks or shields, temperature checks, student tracking/reporting to state and county databases, excessive sanitation (use of hand sanitizer over hand washing), extreme limits to student interaction, ie: anything that would not be considered operation as normal- which might create increased anxiety while at school my children will NOT attend any D-51 related instruction. We will opt for independent homeschooling without district oversight. We trust the board will consider all available research pertaining to the use of such suggested measures. We trust that all decision will be made based data and research and all research used to make decision will be shared in their entirety with the families of all D-51 students as early as possible. Given the low mortality rate of the virus it seems any measures that would infringe on students rights to a Free and appropriate education would be not be in the best interests of D-51, staff, administration, and especially students.	6/28/2020 2:16 PM
1460	The remote learning was ok for a short period of time. My husband and I had to work with our 2nd grader at home and we both work full time jobs. Neither of us are teachers and are not	6/28/2020 2:11 PM

Fall Planning Survey 2020

trained as such. We tried to have his grandparents help him so we could work but they struggled and our 2nd grader struggled. My husbands new job can not allow him to work from home and my job can't handle it more than just a few times a year. We can not afford a private tutor so if 100% in person schooling will not happen then what are my tax dollars paying for? Also how do you teach a kindergartener virtually? My daughter starts school this year and she is would take all my patients to work with, it would not be good for her or us but we will do our best if required but we will need assistance in getting her a private tutor so she doesn't fall to far behind.

1461	It was too hard for me to try to teach my son because of his learning disability	6/28/2020 2:03 PM
1462	The children need to return to face to face learning full time in the fall without any restrictions.	6/28/2020 1:52 PM
1463	.	6/28/2020 1:35 PM
1464	I think the administrators and teachers worked very hard to come up with creative solutions for learning and am very grateful for that. The most difficult thing for my kids was keeping up with different learning platforms and communication strategies among their various, challenging classes. For example, my son received a B- in one class and a C- in another because he missed a two key communications from those teachers. I realize that different subjects lend themselves to different on-line platforms but would really encourage the schools to try to standardize the platform they are using, and mostly standardize the way teachers communicate with students. Thanks!	6/28/2020 1:29 PM
1465	I don't think it would be reasonable to ask young children to be in masks all day or be stuck in the same room all day. So we will be looking into the option of homeschooling if the restrictions will be high for in person instruction.	6/28/2020 1:07 PM
1466	Please let them go to school.	6/28/2020 1:04 PM
1467	I understand that this is complicated but it's important to remember you're dealing with real people in real space and time (not that you're doing the opposite) and the impacts of hybrid and remote learning have a high impact on families and family dynamics and more as well. It's my ultimate hope that our kid is able to learn grow socially and emotionally and continue his learning in an environment he finds safe and comforting.	6/28/2020 12:55 PM
1468	Online was hard with two working parents. Not sure that is a sustainable option for us! Teachers did the best they could and did great! My kids did the best they could, and worked hard. I did the best I could (not sure I got a great rating). Even with all working hard the retention of what they learned at home seemed so minimal. Granted we were learning how to live life in a pandemic at the same time. I just think in person learning is so necessary for some learners, myself included in that. Screens are such a distraction to learning content for some learners. I REALLY do appreciate all the work teachers put into online learning. They would have not learned anything without them 😊!	6/28/2020 12:52 PM
1469	I don't feel as though remote learning at the beginning of a school year will give adequate education to our children. Covid is not going away, we need to figure out a way to live with it, by infection control, teachers wearing masks, social distancing and extra janitorial services. We can't just keep shutting down schools for the next year or more until a useful vaccine is created and D51 also can't expect working parents to stay home to teach their children.	6/28/2020 12:48 PM
1470	I support following the CDC guidance and nothing that president Trump says.	6/28/2020 12:45 PM
1471	I would like them to have more time meeting with a teacher, not in a group meeting that has no purpose. Not a lot of teaching was happening and there was too much busy work. Seems online schooling could work if done the right way. I don't want our whole family infected by others so I don't look forward to kids going back to school in the fall.	6/28/2020 12:42 PM
1472	We'd like to see the kids back in school this fall with no restrictions. Data shows kids are doing fine with the COVID-19 and are not transmitting it to adults.	6/28/2020 12:42 PM
1473	Will there be COVID testing for all returning students and faculty? Recurring testing? That is the ONLY way to ensure a clean start to the school year.	6/28/2020 12:41 PM
1474	I would like as much face to face learning as possible.	6/28/2020 12:10 PM
1475	nope	6/28/2020 12:10 PM
1476	I would like to find a balance between remote learning and in person because I don't think it is	6/28/2020 12:01 PM

Fall Planning Survey 2020

	healthy for them to to wear masks all day. My son needs some contact with his friends in order to succeed.	
1477	My biggest frustration came with high school. 40+ page power point presentations multiple times a week is a bit of a stretch. If teachers are attempting that during in seat instruction, there is too much content.	6/28/2020 11:54 AM
1478	Although grades looked great at the end it was torture to try and homeschool 4 children while having a full time job. My mother had to do most of it. It came to the point my kids couldn't stand her and she couldn't stand them.	6/28/2020 11:53 AM
1479	It is very difficult for special education students, especially those with Autism and Mental Health Issues to do 100 % learning. D51 needs to plan for a special type of schooling for those children. On line learning is not appropriate for this special population of children. I am a health care professional and understand the difficulties of Covid 19, but my daughter's learning must be appropriate to give her the proper education she needs and is required by law. Thank you. I wish you the best in an extremely difficult situation. Be well, stay safe and be creative, our children are counting on you!!!	6/28/2020 11:37 AM
1480	Would like to have more Zoom meetings with teachers and students rather than just Google assignments.	6/28/2020 11:34 AM
1481	I think the school should look at splitting the day for students to limit the number of students on campus to facilitate social distancing.	6/28/2020 11:31 AM
1482	No- grateful for all the planning that has gone I to this. Teachers/staff have been incredible through all this!	6/28/2020 11:31 AM
1483	We are nervous about our kids being in school because it doesn't seem like people in the area wear masks or social Distance. It seems that kids in school will have to wear masks as there just isn't room to spread them out. If schools can open safely and if teachers actually monitor things well, we will consider sending our kids to in-person school. If it is like cell phone use monitoring, I don't believe we will successfully keep our children healthy as kids use cell phones in the classroom all the time without teachers telling them to put it away. If we need to do remote learning again, have you all thought to ask for parent volunteers to help? Some of us are tech savvy and could help with some things, even help with grading, etc. Just a thought And thank you for the work you are all putting into this to make sure our kids are safe and are learning.	6/28/2020 11:30 AM
1484	Hybrid shouldn't include half days, they should include full days at school.	6/28/2020 11:22 AM
1485	My children will not be attending D51 if it not a NORMAL school year with ALL of their NORMAL routines. Examples... Lunch, PE, Music, speech time outside time with friends.	6/28/2020 11:20 AM
1486	It would have been nice to keep the chrome books during the summer in order to keep learning.	6/28/2020 10:51 AM
1487	Q4 went pretty well, esp considering the quick change! We'd be really open to a rotating schedule where part of the school went in for some of the days.	6/28/2020 10:47 AM
1488	I would rather see you make a conservative decision based on science asap so teachers and administrators have ample time to prepare as much as possible for the best education possible. I would rather be inconvenienced than unsafe.	6/28/2020 10:45 AM
1489	Whether or not we want our son back in school depends on what happens towards the fall. As far as how things are right now, yes, we would like him back in school.	6/28/2020 10:40 AM
1490	not at this time	6/28/2020 10:29 AM
1491	If school is going to be from home on computer. I think that there should be math classes on zoom for the kids to see work like in class. A few other classes. Some kids need the directions and hear them from teacher. To be able to ask questions in real time. Not being able to ask questions when doing work is frustrating for child and parent	6/28/2020 10:28 AM
1492	The health and safety of my child & my family is more important to me than trying to return to in-person learning. I would rather do remote learning if that is safest. Thank you so much for your hard work in figuring out how learning will look in the fall.	6/28/2020 10:20 AM
1493	We will NOT be enrolled in the district if any restrictions are implemented. That includes online trough the district as well. Maybe have an online module for teachers who are worried and families who are worried for each grade.	6/28/2020 10:19 AM

Fall Planning Survey 2020

1494	Put kids back in school. Or have or do half and half. Those that want to do schooling on line and those that cant or dont do will being home schooled.	6/28/2020 10:18 AM
1495	Given that there is likely to be a flare of COVID cases in our county as kids/employees return to physical school, as well as a worse flu season as people risk getting coinfectd with both viruses, thank you for being truly thoughtful about your reopening strategy and requesting input from the community.	6/28/2020 9:58 AM
1496	As long as health experts believe it is safe for in person schooling I will send my children!	6/28/2020 9:55 AM
1497	My children thrive with person to person learning but if they return to school with extreme restrictions (no recess, wearing a mask for 8 hours, etc) I do not feel that would be in the best interest of my children. Thank you for all you do and for caring about our children.	6/28/2020 9:51 AM
1498	If you end up doing remote learning please have online tutoring for Math and other subjects. So that the teachers can answer and guide the students better.	6/28/2020 9:44 AM
1499	Put the kids back in School. If they get sick send them home for two weeks. Have strict health protocols for identifying sick children. Kids who are sent home sick can do online learning.	6/28/2020 9:34 AM
1500	I think the remote learning was successful and I can see a risk if children return to the schools	6/28/2020 9:16 AM
1501	Please go back to face to face, in person school. No more remote learning!	6/28/2020 9:09 AM
1502	If they have to wear face masks and not be able to have a normal life my child will NOT come to school! And if there are no police they will NOT attend either.	6/28/2020 9:08 AM
1503	that we need to go back to face to face learning in the school I think parents can make their own decisions about their kids and if they feel safe or not	6/28/2020 9:06 AM
1504	No	6/28/2020 9:00 AM
1505	The risk to our children and the majority of teachers and staff is minimal! Let us choose. We would sign a waiver releasing SD51 from liability if it meant our kids can return to school as usual. Also, PLEASE let them play!! Do not remove recess, lunch, music programs and sports. These are vital to their mental health.	6/28/2020 8:51 AM
1506	I would love to get some assistance in just finding a good laptop for my son in the event that he is to do remote learning. I'm not looking for a handout just the resources in getting him one that he could be comfortable in learning on.	6/28/2020 8:47 AM
1507	If the new school year requires my child to wear a mask, we will look into alternative online/homeschool.	6/28/2020 8:44 AM
1508	I'm assuming you are putting this out here as a PR thing, because obviously the school district does whatever they want, when they want it seems like, and people are dumb to that. Hopefully not for too much longer though. Also, studies have shown that the "remote learning" bs is leaving up to 40% of students that don't have the best of the best or access to it, and the ideal home situations behind to fail while others are favored to more easily succeed. That gives 60% of students a better advantage over the rest based on things that are beyond D51's control, and ultimately beyond the students control in most cases, but these students continuing to be left behind in your push for "remote learning". Nothing can replace what tax payers pay for, in person instruction, that is in a place that ALL students can learn equally and ALL students can have the same opportunity to succeed. So D51 will do what they want to do, and push it off as a decision made above them of course. What I do envision is, D51 deciding to go ahead with "remote learning", then a class action lawsuit from all the parents of students that are being failed by "remote learning", which could be up to 40% of students! I'm sure there are lawyers just licking their lips at the chance come this fall! So keep giving yourselves raises and do what you want to do and see what happens!	6/28/2020 8:41 AM
1509	If requiring masks and cubical style desks are mandatory, and my child is uncomfortable,we will be looking at home school.	6/28/2020 8:30 AM
1510	no	6/28/2020 8:27 AM
1511	No	6/28/2020 8:26 AM
1512	I refuse to allow citizens of this town who are not wearing masks to jeopardize the 100% in-person opening of schools his fall. Please please please partner with local governments and	6/28/2020 8:15 AM

Fall Planning Survey 2020

the health department to get the message out that increased numbers may lead to online education. My daughter has always enjoyed school and learning and doing her best. We were also blessed with having excellent classroom teachers do their best transitioning to online learning. However, by the end of online learning being stuck in her bedroom staring at a computer screen for hours her attitude towards school definitely suffered. If school begins this fall - even in a hybrid online form - then you will see a once bright educational star and product of twelve years of D51 education lose her enthusiasm and love for learning!! I am NOT willing to have my daughter pay the price!!

1513	My child will not wear a mask or my child will be lulled from d51	6/28/2020 8:13 AM
1514	If students are required to wear masks for the duration of the school day my grandchildren will NOT be attending. If a rushed through COVID 19 vaccination becomes mandatory my grandchildren will NOT be attending either.	6/28/2020 8:11 AM

1517	Well I understand that it was quick to get things set up for remote learning in March I also believe the students missed out on socializing skills and are really behind now. Going from 7 hr days to only having 1-2 hours of work was kind of pointless.	6/28/2020 7:52 AM
1518	none	6/28/2020 7:30 AM
1519	Thanks for ALL you do. This is not an easy decision so thanks for keeping our kids and staff safe.	6/28/2020 7:08 AM
1520	I really want my children to have music, PE, and computers. I also want them to have recess and eat lunch with friends.	6/28/2020 7:07 AM
1521	My child will not be required to wear a mask during school in person learning days. If this is implemented I will resort to other learning options. I do not believe that wearing masks is good for your health and will eventually do more damage to your body.	6/28/2020 7:05 AM
1522	Please consider the health and safety of teachers. Just spreading out "desks" is not a good solution. Kids MUST be expected to wear masks. Please be smart and not just give into pressure from the loudest voices.	6/28/2020 6:03 AM
1523	Please let our children go back to school (without masks)!! They desperately need it for their own social/emotional needs. THANK YOU!	6/28/2020 5:51 AM
1524	No	6/28/2020 4:38 AM
1525	I personally think D51, as a whole did a great job last semester. The problem dropped in your lap without warning. My 4 grandkids all did fine. One of them has opted to attend Grand River Academy because she found her concentration at home was far better than in a classroom full of disruptions. All teachers were prompt with their assignments, having video meetings, and being reachable through the whole at-home learning. This included 2 in GJHS, 1 in OMMS, and 1 at EMS.	6/28/2020 3:26 AM
1526	My kids struggled with the online learning. If In person learning cannot resume, a hybrid schedule would be beneficial for us as my kids feel like they get more out of being in class with a teacher.	6/28/2020 2:50 AM
1527	No	6/28/2020 2:04 AM
1528	I'm a medical professional. This is far from over. Indeed I can have breakfast in Phoenix, a large city in which the pandemic is completely out of control and have dinner here in Grand Junction on the same day driving. Certainly make plans to consider opening. But the reality given the fact that a large percentage of people in this town are treating simple public health steps such as masks like a political issue, I would plan on having a 100 percent online backup if (when) things worsen.	6/28/2020 1:38 AM
1529	I am eager to see the presence of RAW.'s taskforce on anti racism at our school.	6/28/2020 1:18 AM
1530	if the kids are required to wear masks, social distance from their friends and not resume normal school life i will look into homeschooling	6/28/2020 1:12 AM
1531	My children are willing to wear masks at school to protect themselves and others	6/28/2020 12:57 AM

Fall Planning Survey 2020

1532	Remote learning was a disaster for my student.	6/27/2020 11:46 PM
1533	i want you guys to find a plan for face to face learning, especially for kids with IEP. with my work schedule and my kids all having IEPS i am not able to get them the proper learning and provide	6/27/2020 11:44 PM
1534	Go back to normal	6/27/2020 11:08 PM
1535	The schools should open and follow all the safety precautions that they can. If parents don't want to send kids they should do 100 percent at home if the risks seem to high for them. Kids are at a disadvantage not going to school outside of the home. I fear for kids and how all Of this is going to impact their growth. All we can do is be as safe as possible but give the kids and parents the choice to come and have schools reopen.	6/27/2020 10:58 PM
1536	Please no remote learning, or masks	6/27/2020 10:44 PM
1537	You are doing a great job. Thank you for the excellent communication. Thank you for asking about our needs and ideas.	6/27/2020 10:29 PM

1539	I want the best learning opportunities for them but I am scared to send them back to school with crowds.	6/27/2020 10:20 PM
1540	I would hope they can return to school and life as normal in a safe way.	6/27/2020 10:06 PM
1541	I think i it would be a lot easier to social distance high school and middle school. I feel like elementary will be much harder. I also feel like if you are going to take away specials, lunch room and recess, elementary needs to either be hybrid or half days.	6/27/2020 9:57 PM
1542	If remote learning is required, I hope that the district would offer an established on line learning platform. Especially for the students in one or more AP classes. A zoom meeting once a week isn't going to cut it.	6/27/2020 9:53 PM
1543	If school doesn't return to 100% normal in the fall, I would most likely disenroll my children.	6/27/2020 9:48 PM
1544	No	6/27/2020 9:38 PM
1545	I think in school learning is critical. My daughter did not feel like she received a quality education at the end of the year.	6/27/2020 9:27 PM
1546	Remote learning/hybrid learning was not a functional option for our family. We have too many learners I. Our home and it was not a conducive learning set-up. If remote or a hybrid style of learning is decided on, our children will homeschool.	6/27/2020 9:26 PM
1547	If we have to do remote or hybrid, the district needs to enforce the 20 hour (approximate) rule and get all the secondary teachers and admin on board with it. My middle schooler often had 20 assignments a week to complete. There is no way he would have that many when he was sitting in school. My high schooler worked approximately 10 hours EVERY day of the week. The workload was ridiculously high. One teacher assigned approximately 16 hours of work and Meets for just her class alone. My child has seven other classes! My child started showing concerning signs regarding his mental health and happiness. I even had him Zoom with his doctor to talk about the stress school was causing. I was led to believe that one of the district's main focal points during 4th quarter was SEL, but this was not demonstrated. When I contacted the school counselors and principals for both of my boys (multiple times), I felt like I wasn't heard and nothing changed. I also contacted Dr. Sirko and did not even receive a reply. D51's lack of response to the situation was disappointing. If we continue hybrid or remote in the fall, I hope it does not go as badly as 4th quarter.	6/27/2020 9:24 PM
1548	No	6/27/2020 9:19 PM
1549	No	6/27/2020 9:15 PM
1550	No	6/27/2020 9:14 PM
1551	I am ready to homeschool if the in school enviroment is too strict and inconducive to emotional learning of children. I care as much about emotional and mental health of my children as i do intellectual	6/27/2020 9:07 PM
1552	No	6/27/2020 9:02 PM

Fall Planning Survey 2020

1553	remote learning does not work for our special needs children. It is taxing and stressful and not a good learning environment for the children.	6/27/2020 9:01 PM
1554	This will be my son's kindergarten year and really think it's crucial for him to be in class. But I am willing to do remote learning.	6/27/2020 8:48 PM
1555	I feel we need to take into consideration our kids and our staff who might be ill or have chronic illness' when thinking of opening 100% I would hope people would be understanding if some cannot attend due to complications that may arise. Keep everyone's health in mind. I also feel that in no way our teachers should delete OUR American history. Kids need to know what happened in the past to help to prevent it from reoccurring in the future. I would love for us to go back to school, I hope people realize that there needs to be a new "normal" for school.	6/27/2020 8:48 PM
1556	I would like to see my children return to the same routine they had last year. I have heard rumors of children being held in a single classroom all day without lunch hour and recess. If this is the new learning model I would rather homeschool.	6/27/2020 8:47 PM
1557	If schools go to 100% online remote learning I will have to quite my job. If that happens I will be homeless and so will my kids. This has been extremely difficult for not only myself but my kids also. Please remember that there are a lot of parents out there who are doing everything on there own, and have no extra support.	6/27/2020 8:26 PM
1558	In the big picture- our children's mental health is at risk with 100% distance learning. However, as a parent working in Healthcare, I strongly urge we do everything we can to require masks in schools to decrease risk of COVID to these students and their families. Newly published recommendations from the American Academy of Pediatrics to consider https://services.aap.org/en/pages/2019-novel-coronavirus-covid-19-infections/clinical-guidance/covid-19-planning-considerations-return-to-in-person-education-in-schools/ As a pediatrician, I would be happy to participate in these discussions at the district or school level. Some considerations for curricular teaching particularly in the upper grades may be to block classes to limit larger population exposures so that courses are taught over 4 weeks and then move on to next course. Or that we consider 2 weeks in person alternating with 2 weeks distance with 50 % of students attending at any given time. Again allowing closer monitoring of larger cohorts of students and their families Feedback from 4th quarter- My daughter is a high achiever. Some classes were very well managed with curricular standards maintained in the distance learning setting, such as Honors 10 with Miss Reed and Spanish 2 with Miss Spence. Ms Cronk and Mr Shawcroft were actively available to their advisory class. AP Psych continued to maintain an appropriate pace. CMU 113 through the high school was an OK experience but certainly not to the standards of their online CMU 113 class directly through CMU. Should distance learning continue this next year - music courses will need to step up their curriculum to meet yearlong standards. I worry for the kids in the performing arts classes as to how they will be beat engaged in a distance learning setting.	6/27/2020 8:24 PM
1559	My kids do better in school with friends and people that can help them. I am a single mom so I have to work full time in order to provide for my family and I work during school hours so I would not be able to be there to help them and I cant afford day care on top of everything else. Remote learning would mean that they would end up falling behind	6/27/2020 8:22 PM
1560	I don't feel it is necessary to make the kids wear masks because it would cause a distraction and take a way from learning	6/27/2020 8:21 PM
1561	Whether a newly and quickly covid vaccine is required to attend school would also greatly influence our decision.	6/27/2020 7:38 PM
1562	to hard when both parents work full time and my kids are always needing extra help	6/27/2020 7:23 PM
1563	Please do in-person learning. I think masks will not be effective for elementary students. They will just lose them, play with them, and touch their face more to adjust the masks because of discomfort. Hand-washing time should be more encouraged.	6/27/2020 6:55 PM
1564	I believe the shutting down of schools was a wrong decision in the first place. We knew what Covid 19 attacked and preyed on, children and young adults were the least likely to be seriously affected, and the most likely for us to build a herd immunity. We should have protected children and teachers with pre-existing conditions and/or age being a factor, but not shut it all down. Lets get it right this time! Protect those that need protected and get the huge majority back in school living their daily lives as free Americans with the right to choose if they want to be back in the classroom or continue in an online format.	6/27/2020 6:40 PM

Fall Planning Survey 2020

1565	I had one kid do well and the other two had a tough time with remote learning. Also, now those two don't want to continue with Orchestra at all next year. It is unfortunate and I know it had something to do with no final performances, no real feeling of success with remote learning.	6/27/2020 6:39 PM
1566	My middle schooler hated on line learning, keeping him on task was awful. My high schooler did fairly well although she did get distracted and off task.	6/27/2020 6:27 PM
1567	My biggest concerns are that although there are not a surge in cases in Mesa County right now, the states surrounding Colorado are surging and I feel like it is just a matter of time before our county is hit hard. Attending 5 days/week in seat puts so many people at risk.	6/27/2020 6:23 PM
1568	No	6/27/2020 6:22 PM
1569	Na	6/27/2020 6:19 PM
1570	We need to be back in school especially for social emotional needs. Isolating kids is not healthy. There are also so many things that happen in a classroom that cannot be replicated remotely	6/27/2020 6:14 PM
1571	No mask & let them play sports	6/27/2020 6:14 PM
1572	The kids need to back in school with no restrictions! Let them live.! Those that are that afraid of COVID-19 can make that decision to keep their children home. The children need to be in contact with people, this social distancing and mask wearing is biggest crock of crap! No restrictions with school and no restrictions with activities including sports, they need to feel normal again and so do we!	6/27/2020 6:06 PM
1573	Not at this time.	6/27/2020 6:04 PM

1575	My child's wellbeing is directly related to in-person learning. Her clinically significant anxiety worsened to a level that was unprecedented and required at least weekly discussions with her counselor and at least bi-weekly meetings with her school counselor. Her academic achievements also suffered with remote learning because she relies heavily on face to face instruction and feedback from her teachers.	6/27/2020 5:53 PM
1576	No	6/27/2020 5:52 PM
1577	I believe the younger children need to be found in person learning and not doing so would do more harm than good	6/27/2020 5:50 PM
1578	I am concerned for my child who has asthma, she was hospitalized in March 2020, thankfully it wasn't the virus	6/27/2020 5:41 PM
1579	No masks, some kids (most that I know) can't handle wearing them!	6/27/2020 5:40 PM
1580	I appreciate the options.	6/27/2020 5:35 PM
1581	My children would also need daycare for the days they do have school, if school is to go either part time or full time online. My husband and I both work and would have to either find someone to teach them, or one of us would have to quit our job.	6/27/2020 5:22 PM
1582	You all are doing a great job navigating this unimaginably difficult situation. Thank you!	6/27/2020 5:06 PM
1583	While the teachers worked so hard at trying to provide a quality online learning experience, it was not even remotely the same as in person learning. It helped maintain skills. He did NOT grow academically.	6/27/2020 4:59 PM
1584	I do not want my children to go to school if they have to wear facemasks. And if my younger children cannot play on a playground, I would rather they stay home.	6/27/2020 4:56 PM
1585	We are flexible to what is deemed safest. (Social distancing and/or masks). Concerned to keep our kids safe and our community. Thank you for the time and consideration put into making these decisions.	6/27/2020 4:45 PM
1586	My kid will not attend school if they are required to wear a mask and sit behind plexiglass in the classroom.	6/27/2020 4:36 PM
1587	Just want to thank all of you for your hard work during these unpredictable times!	6/27/2020 4:18 PM

Fall Planning Survey 2020

1590	I will not be sending any of my kids if masks are required.	6/27/2020 3:57 PM
1591	We both work for the district and have two children going to 2 different school and there is no possible way we could have them half at home and half at school.	6/27/2020 3:49 PM
1592	I really hope that kids are allowed to go back to in-person learning for the social interaction with peers that is so crucial to child development and learning. I believe the COVID threat in our county has stayed and remains low, and what minute risk does exist doesn't come close to outweighing the mental health and social benefits to our kids to return to the normalcy of in-person classroom learning. I am completely comfortable with the full time in-person option, and would send all 4 of my kids to their classrooms this fall. I think it is best for our children and it doesn't make sense to rob them of that, nor throw another wrench in so many families' way of life. Thanks for the survey.	6/27/2020 3:47 PM
1593	Sanitation and masks! Let's get back to school!!!	6/27/2020 3:13 PM
1594	Thank you to the teachers for putting in such awesome effort with such short notice and so little prior experience with remote learning. We appreciate the care and concern that the district puts into keeping everyone safe and healthy.	6/27/2020 3:11 PM
1595	Improved accountability for remote learning. Much easier access to Schoology - I wasn't able to log on as I needed to have someone in Admin reset something and could not connect in a timely manner. Relying on my kiddos was not effective. Remote learning needs to include all subjects - I noticed my 5th grader had no science once remote learning started. teachers were very good at communicating over email and with FaceTime type meetings - I felt there should be more! I sincerely appreciate all the difficulties this last Spring. But if moving forward with this model, will need to keep improving!	6/27/2020 3:08 PM
1596	No	6/27/2020 3:01 PM
1597	My children suffered during online remote learning. They both did the work everyday but I do not believe they retained or actually learned anything. One of their teachers was amazing and did instructional videos everyday which was amazing and I give her big props but my child does not do well learning like that, she NEEDS to be in a classroom setting in order to learn. I felt my other child's teacher wiped her hands clean and basically gave up on her class once the remote learning started. We did all we could to teach him and give him the best education we could but we are parents not teachers. We both work in essential careers and had to work as well. The remote learning is a joke and our kids deserve an in class education. Please let our kids go back to school!	6/27/2020 2:33 PM
1598	Great job at doing online last qtr- tough job but hope to go back to in person learning!	6/27/2020 2:29 PM
1599	The virus is NOT killing children. They need to be in school. The only reason there would not be in class school is to protect the older teachers from getting covid from the kids. Kids are safe they need to be in school. Thanks	6/27/2020 2:23 PM
1600	I would like to know exactly what the school district is looking at to make the decisions regarding the teaching model (in-person, hybrid, online) for the 2020-2021 school year. (Medical studies, etc) Will the school district be asking parents and community members, OPENLY (via an online meeting or a public in-person meeting), with ALL of us invited, not a just a "representative group" that's hand-selected by the district - what we want? These surveys that the district gives are narrowly focused and narrowly worded. They do not allow for us to give our thoughts, opinions, concerns, and wishes. We have a right to be part of the district's decision making process because it is our tax dollars that fund the school district, and these our are children who attend.	6/27/2020 2:20 PM
1601	My two high schoolers learned absolutely nothing through remote learning. It was a disastrous experience. The future of our children & country is in jeopardy. The education system is already so poor in this country, now we are simply doing away with our children's future possibilities entirely!	6/27/2020 2:16 PM
1602	Are students going to be able to adhere to the CDC rules if implemented?	6/27/2020 2:08 PM
1603	For face to face learning, I would like to see students wearing masks and maybe faceshields	6/27/2020 2:08 PM

Fall Planning Survey 2020

(??) in addition to social distancing, hand washing, sanitizing their personal belongings and screening prior to entering the building. This would include checking of temperatures.

1604	I really appreciate what the district is doing in working with the health department. I believe there is strong evidence that facial coverings can slow transmission of the virus and would encourage the students to wear facial coverings. I believe that it's important for students to understand the science behind the recommendations for social distancing and facial coverings.	6/27/2020 2:07 PM
1605	While in person is preferred I understand the possible need for hybrid or online. I believe SD51 is doing the best they can. Thank you.	6/27/2020 1:56 PM
1606	If we do on line, the students need to be in class. Report to the screen, and see teacher and classmates on the screen. The situation we had before was not good for their mental health. No contact was not good for them.	6/27/2020 1:42 PM
1607	No mask for kids and let them learn and play with other kids	6/27/2020 1:35 PM
1608	Added sports above. I do not support social distancing or face masks.	6/27/2020 1:34 PM
1609	I will consider pulling my child from D51 and enrolling him in a non D51 school similar to his step brothers. My child will not wear a mask to school and will have learning that he is used to having. I also will remember names of board members with elections. I had a senior for 19/20 year as well and although they get to walk now the way graduation was handled was highly inappropriate for a superintendent that makes over \$300k annually. I've never been so disappointed in D51 than I have been this last school year and I REFUSE to allow my 9th grader to suffer another year.	6/27/2020 1:31 PM
1610	I do not want my child to wear a mask all day	6/27/2020 1:27 PM
1611	I'm willing to donate extra money for disinfecting, willing to buy masks. My child needs to be in school.	6/27/2020 1:23 PM
1612	Oppressing our kids' right to learn and flourish TOGETHER without ridiculous restrictions is essentially child abuse. Other school districts are handling this reasonably; there's no reason this district shouldn't as well.	6/27/2020 1:17 PM
1613	If we lived in a perfect world, one of us would be able to stay at home but both of us work and our kids desperately need social interaction with their peers. My oldest felt very isolated and lonely. I'm concerned about the long term impacts of social isolation.	6/27/2020 12:56 PM
1614	Parents will have to work and kids will need a place to go to learn	6/27/2020 12:54 PM
1615	I strongly feel like the kids need to be in school for the learning atmosphere and for the socialization that they get in school. I think that learning at home is hard for some kids and they aren't learning as much as they would in class. I also think that kindergarten is setting the foundation for their education and so much of that can't be taught outside of the classroom.	6/27/2020 12:54 PM
1616	As a parent that works full time with a kid that's on an IEP because of his ADHD remote learning is very difficult if not almost impossible for him to stay focused and do well at home on his own	6/27/2020 12:51 PM
1617	I absolutely believe a hybrid model with half days and or off days of in person is necessary for social distancing. I will not send my children if there is no social distancing.	6/27/2020 12:43 PM
1618	I am not a teacher. I had a very hard time having my child stay on task and finish tasks with me. At school he is a+ student. I never want to remote or home school again. Ever.	6/27/2020 12:41 PM
1619	My children desperately need the social interaction of face-to face school.	6/27/2020 12:40 PM
1620	I will no allow my child to attend if they have to wear a mask. I would home school	6/27/2020 12:39 PM
1621	If school has many restrictions such as masks all day or no play time and keeping 6 feet away or even no eating in cafeteria and just at their desks, my child won't be going back to school and we will be wanting remote learning instead.	6/27/2020 12:37 PM
1622	No thank you	6/27/2020 12:29 PM
1623	I wouldn't need daycare for my kids at their ages, but they did need a lot of help with remote learning and I don't see how working parents can make a remote learning or even a hybrid option work.	6/27/2020 12:26 PM

Fall Planning Survey 2020

1624	We are both physicians and we feel strongly that kids should wear masks in schools	6/27/2020 12:25 PM
1625	I have two students will be attending Central High School one of them has been accepted into the STEM program	6/27/2020 12:21 PM
1626	My kids would love to return to school, the group setting does not make sense to me. I will prefer them to stay home and hopefully, remote learning will go smoother with more time to prepare.	6/27/2020 12:17 PM
1627	We understand that making this decision is difficult and there will be challenges regardless of the outcome. Thank you for hearing And considering our voices in your decisions.	6/27/2020 12:04 PM
1628	Please educate the parents about ALL the teachers do behind the scenes to make sure they are offering the best of what is being taught. All students need to be held accountable for their work. Students should be meeting due dates and deadlines as their teachers request. Extended time (not included in an IEP) and work that is excused just because the student didn't bother to complete it (like 4th quarter online learning last spring) cannot be the norm as we go forward!	6/27/2020 11:58 AM
1629	Just wish you guys would hurry up and figure out what you're gonna do so we can plan our lives ahead of time thank you	6/27/2020 11:53 AM
1630	Our children need to return to school. It is perplexing that our children can go to a child care facility, or day camps over the summer but may not be able to attend school this fall. For a season, I understood the sacrifice our children needed to make. But the long-term social and cognitive ramifications of keeping our children out of school should be unacceptable to our community, state, and country.	6/27/2020 11:47 AM
1631	I believe it is an all or nothing thing for the kids to go back. The amount of learning time would be best if in a solid routine. Shuffling back and forth is hard on the kids and not as productive. I feel for elementary students the instruction needs to be as live as possible (not recorded or parent instructed based)	6/27/2020 11:46 AM
1632	I would just like to know of all precautions that will be taken.	6/27/2020 11:45 AM
1633	seems most likely we need to all prepare to do distance learning	6/27/2020 11:41 AM
1634	I'm very open to whatever needs to happen in the fall	6/27/2020 11:38 AM
1635	I feel the covid situation was handled exceptionally well for FMS considering all that happened as fast as it happened. A big shout out is well deserved for the staff at FMS.... Thank you	6/27/2020 11:34 AM
1636	Please give our Teachers a raise. Us non teachers are not good home schoolers! 😊 also from my experience my child learns a lot better with in person learning. Also I feel that should we have to choose this fall that we should either be completely online or completely in person for learning. I feel half days or split classes is going to be way too much work for our Teachers and our kids may struggle.	6/27/2020 11:33 AM
1637	Good luck with the planning. You are doing a great job in a very unsettling time.	6/27/2020 11:32 AM
1638	Thank you Diana for all of your hard work! Tough times and not everyone will be satisfied.	6/27/2020 11:27 AM
1639	It will be impossible for social distancing. Additional staff will be needed to monitor....additional stress to teachers and students...keep students in their own environments. Drop in on extended hours and see how they are struggling with just 30 students at a time	6/27/2020 11:26 AM
1640	No	6/27/2020 11:26 AM
1641	They should consider, letting the kids who did well and actually did their remote learning responsibly. To continue it that way.	6/27/2020 11:26 AM
1642	We appreciate the efforts to find the optimal solutions. I would not be opposed to a periodic evening class if it became necessary. I think we should all be prepared to take on some additional responsibilities and burdens on behalf of our children, with a view toward getting them the best learning engagement possible. I believe that, unfortunately, the only human support that some children get is from a teacher/aid or fellow students gained from live, in-person interaction.	6/27/2020 11:22 AM
1643	My child struggles greatly in school and fell further behind because of remote learning. I fear if we have to have remote learning he will just drop out.	6/27/2020 11:19 AM
1644	Not interested in having my child sit in classes all day in a mask, or being separated from	6/27/2020 11:09 AM

Fall Planning Survey 2020

	peers/teachers.	
1645	No	6/27/2020 11:05 AM
1646	No	6/27/2020 11:04 AM
1647	Our teacher, Mrs. Miller, tried very hard to make remote learning a possibility for our child without success. Her learning disabilities and early childhood trauma have made that impossible. It is important for our family to get back to the routine our daughter knew as so much information has been lost during this time of closure. It feels vitally important to return 100% in person at this time...	6/27/2020 11:03 AM
1648	No	6/27/2020 10:53 AM
1649	If masks are required and there will be no interaction at lunch or recess, it will be difficult for a lot of children. Taking away those outlets for kids to take a mental break is concerning. However, I completely understand that there is not a right answer and that concern for the safety of kids is top priority.	6/27/2020 10:48 AM
1650	What are essential working parents to do with remote/hybrid	6/27/2020 10:44 AM
1651	If students have to do remote learning again, then the teachers need to be more available throughout the day. Teachers for my student were only available for 2 hours per day at most and that is not enough. Teachers need to be more involved, not just assigning worksheets. Not all kids can learn that way.	6/27/2020 10:42 AM
1652	If my children have to go back to an online learning platform, I know there will be a substantial knowledge deficit by the end of the year as my children cannot focus on school appropriately if forced to learn online. The last semester of school was a disaster because we (parents) cannot make ourselves available to "teach" our kids. Even though one of us is home all day, we (parents) both work full time. We all have to find a way to live with the virus until there is a vaccine available no matter what. Closing schools will not solve anything. One thing can be sure, if we choose not to create an environment where all kids can thrive it will damage the economy in the long run. I fully understand that online learning is a just as much of a challenge for teachers as it is students, so let's make in-class instruction work D51!	6/27/2020 10:30 AM
1653	We appreciate all the work you are doing to keep everyone safe and educated! We definitely prefer in school learning but want what's best for everyone (if that's possible)	6/27/2020 10:29 AM
1654	Preper face2face if safe but expect hybrid option due to social distancing	6/27/2020 10:27 AM
1655	N/A	6/27/2020 10:25 AM
1656	No	6/27/2020 10:21 AM
1657	If masks are required, we will pull him and look into home school alternatives. This would hurt D51 because you would lose the funding you would have received. I know we are not the only people who intend to pull their children if masks are required, if children are no longer allowed to play and interact, if they are forced to eat lunch at their desks, etc, Please consider the emotional health of our kids.	6/27/2020 10:15 AM
1658	The district level communication has been stellar, however, communications from Central High School is needing improvement. Not so much with remote learning decisions but with day to day events and announcements. In the event that there is some amount of remote learning, i would like to see more face-to-face meeting and more personal interactions. I am a teacher and my son saw the interactions that l/we at the elementary level was having with my students and he said he wished high school teachers would do that.	6/27/2020 10:08 AM
1659	Thank you. We know you are working so hard to plan for every scenario, in a time when planning is nearly impossible.	6/27/2020 10:08 AM
1660	FULLY OPEN UP THE SCHOOLS. NO MASKS REQUIRED. LET THEM BE KIDS	6/27/2020 10:02 AM
1661	I appreciate the transparency of the communication during Covid-19. As a parent I felt online learning was as organized as it could be. I also believe teachers worked hard to make sure they were available for questions and help. Looking forward for my child to get back into that beautiful new OMMS! Thank you for all each of you are doing.	6/27/2020 10:01 AM
1662	No	6/27/2020 9:59 AM

Fall Planning Survey 2020

1663	Remote learning worked well in our household. Both parents were deemed essential so our student truly did it all on her own. My child could work at her pace. Once the platform was established, it was ideal. Thank you for all your hard work in keeping the children safe.	6/27/2020 9:58 AM
1664	No	6/27/2020 9:57 AM
1665	Remote learning was not bad due to the teachers, it was bad due to the lack of social interaction, and the fact that students had to wait for answers to their questions rather than having an answer right away (coming from a high schooler).	6/27/2020 9:55 AM
1666	The teachers did a great job with the sudden remote learning. However, I could not keep up with what my children did/did not do while at the same time attending online school myself. I do not know how parents who work were able to do it. I feel like my children did not benefit educationally from remote learning just because they are not as motivated at home as they were in school. There are too many distractions to deter them from learning while at home.	6/27/2020 9:54 AM
1667	I do not feel social distancing is acceptable for young children and I will do everything I can to find a alternative school if SD is in place at this school.	6/27/2020 9:51 AM

1669	Make kids wash their hands often, like before and after lunch.	6/27/2020 9:48 AM
1670	In person is much more enriching and engaging, I would support this as much as possible along with social distancing and requiring masks when possible.	6/27/2020 9:45 AM
1671	Teachers need to grade work assigned on line. Teachers need to respond to e-mails. I am a grandparent of a student. I helped several high school students with their on line learning this spring. I am a retired teacher with 43 years of experience teaching all areas of elementary education.	6/27/2020 9:38 AM
1672	Please try to keep school as "normal" as possible for the little ones. I'm sure this is incredibly difficult but the kids need some normalcy for there mental health.	6/27/2020 9:33 AM
1673	If the schools decide to continue ue remote learning, I hope they are able to find a better way to communicate between students and teachers. Especially the middle school and high schools. My children had a hard time with hearing back from some of their teachers in the time frame of getting their stuff turned in. Over all either at school or remote learning my children will be willing to do. Thank you all for your hard work and concerns during all the transitional tjme.	6/27/2020 9:31 AM
1674	Better education to parents for on line learning would be very beneficial if it continues to be remote .	6/27/2020 9:30 AM
1675	My student will not wear a face covering or mask.	6/27/2020 9:29 AM
1676	If it has restrictions going back such as masks or a hybrid of at home and in school then I will be homeschooling all my kids.	6/27/2020 9:29 AM
1677	Gateway did very well with the remote learning. My one concern for the coming school year is my incoming kindergartener. My older children will do great with whatever form schooling takes. I just worry that a brand new kindergartener is not going to get what she needs via remote learning.	6/27/2020 9:27 AM
1678	If reopening in person, would like to see minimal restrictions, as kids don't understand and it could cause additional behavior issues. For my 11th grader, he would like to do online school. He liked it and would like to be able to work while going to school.	6/27/2020 9:23 AM
1679	On #4—I have two children. The one who struggles academically (ADHD) did really well, but he had constant help from me. My honor roll student did horribly (high school level) and ended up in counseling. It was very rough there for a bit. Also, Google Classroom floods one's inbox, which made this experience more difficult for students, teachers and parents. There's more, but I'm sure you guys are on it!	6/27/2020 9:22 AM
1680	No.	6/27/2020 9:21 AM
1681	please allow in person classes	6/27/2020 9:19 AM
1682	I do NOT want my kids to have to wear a mask all day while at school.	6/27/2020 9:19 AM
1683	I hope that the kids have the opportunity to go back to school, it is important on many aspects	6/27/2020 9:18 AM

Fall Planning Survey 2020

to do so.

1684	I am worried about infection, also worried about issues revolving around social distancing, wearing masks, and being aloud to move class rooms as my son receives special education. I am really not sure either will be safe for my child personally.	6/27/2020 9:18 AM
1685	What if we go in-person 100%, and cases sky-rocket? Does each school have a hybrid model back-up plan ready? Also, I am a teacher at FMHS, and if it gets so bad we have to go completely online, we need to have something in place to hold kids accountable. The "no-harm" grading policy cannot be implemented again. You need to trust that your teachers can decide on a case-by-case basis which kids' grades shouldn't suffer due to wifi issues, struggles with mental health, etc.	6/27/2020 9:17 AM
1686	Knowing the layout and the size of some of the classrooms of GJHS, it seems impossible that social distancing can occur. To keep our kids as safe as possible while still allowing true learning to take place, a hybrid model seems the most appropriate.	6/27/2020 9:17 AM
1687	.	6/27/2020 9:14 AM
1688	Please consider the safety and health of the children, as well as the family, when planning for the 20-21 year. Groups of children together have a possibility of bringing illness home to family members who may not be able to protect themselves. Health and safety of the overall population is more important than convenience or accommodation to a small group of vocal parents who want full-time in-person school so they don't have to arrange childcare or take on the task of monitoring remote learning.	6/27/2020 9:13 AM
1689	I think it would be ridiculous to mandate that the children would need to wear masks, stay in the same room, not be allowed recess, and have to eat lunch in their classrooms. That can not be healthy for the children and/or the staff.	6/27/2020 9:11 AM
1690	We also have to have a sign language interpreter.	6/27/2020 9:08 AM
1691	Because I have a middle school student who watches my elementary school student after school I would need them to be on a schedule that would still allow for that.	6/27/2020 9:08 AM
1692	Please open school in the fall. To not would be ridiculous	6/27/2020 9:01 AM
1693	Dr. Sirko has done a great job with communication, however I find it hard to believe her emphasis on social distancing can be achieved in a school setting if there is a 100% return to school rather than some type of hybrid. It's physically impossible to spread out 25 high school students in a classroom at the same time.	6/27/2020 8:58 AM
1694	No	6/27/2020 8:57 AM
1695	Southwestern states are currently exploding w/covid 19. Some of our neighbor states' levels are increasing at an exponential rate! The only pragmatic choice is returning to 100% remote learning temporarily, enhancing the program by building on what the students & teachers learned last year. No shame or fear by reinstating a learning process that is proven a 100% safe option. Adaptation is required at this pandemic time. Going backwards to the way things used to be done is the type of thought process that has enabled the USA to become the world's leader in covid 19 infections & deaths.	6/27/2020 8:55 AM
1696	We need to be back in school. My oldest will be in 3 AP classes and calculus, I can. Or teach this stuff at home, note will he learn what he needs to. Set our kids up for success let them go back to school!	6/27/2020 8:53 AM
1697	I think that the my children's teachers did a great job thrown into creating online learning classrooms for my children. However, it was very frustrating and difficult for my children to learn this way, even with my constant help and guidance. Nothing replaces the classroom face to face learning experience for my children! Especially my 14 year old.	6/27/2020 8:52 AM
1698	I am concerned about face masks in school because my daughter has asthma and cannot breathe properly with a mask on. She will not be required to wear one.	6/27/2020 8:51 AM
1699	If they have to wear masks, can't have recess, gym, lunch in the cafeteria, we will homeschool.	6/27/2020 8:51 AM
1700	The expectations from teachers would need to be scaled back if we did 100% remote learning to accommodate the extra time it takes to access so many different classrooms and media platforms.	6/27/2020 8:49 AM

Fall Planning Survey 2020

1701	If there is to be the Hybrid or 100% Remote option, will there be the Chromebook checkout option again?	6/27/2020 8:49 AM
1702	I hope the school district doesn't rush to reopen like everything else in this country did. Kids are amazing and their health and well being should be as large a priority as their education.	6/27/2020 8:48 AM
1703	I know D51 is doing the best they can with the circumstances we all dealing with in these unprecedented times	6/27/2020 8:44 AM
1704	No fault to our teachers that our remote learning was so difficult for us. The at home learning situation just didn't work for our family, it was a struggle for all of us, and I can honestly say my kids didn't really "learn" during remote learning. They just tried to finish their work and turn it in. It was hard to attend the live classes, with three kids and my husband and I both working. For us it was a nightmare, I still have anxiety thinking we will have to do it all again.	6/27/2020 8:44 AM
1705	I'm not going to send my kids to school if it's going to be a prison. They need to be able to play on the playground to burn off energy. If these kids can't burn off their energy throughout the day, you're asking for more problems.	6/27/2020 8:43 AM
1706	On line learning for 4th quarter should have been required not optional. To offer that grades would not be lower than 3rd qtr gave students an opportunity to blow it off which was the wrong decision. It was difficult for my daughter but her grades improved 4th qtr due to her commitment & many teachers who cared	6/27/2020 8:42 AM
1707	Thank you for the continued communication.	6/27/2020 8:40 AM
1708	If we have any at home learning I would ask for more consideration for parents on the amount of work at home. One of my kids did at home learning for 6 hours a day everyday. The teachers also added work on rainy days because they couldn't go outside so they had more time for work.	6/27/2020 8:39 AM
1709	Keep up the hard fight for what's best for our kids health and education	6/27/2020 8:39 AM

1711	If masks are required for children my children will not attend	6/27/2020 8:33 AM
1712	I strongly believe that children need feedback from sources outside of the family...I had seen the spark for learning leave their eyes with remote learning	6/27/2020 8:33 AM
1713	My son is a hands on learner & did not benefit from the remote learning. I feel he is a little behind but with in person instruction, he will catch up. I realize we have to go with CDC guidelines, I do hope in person will be utilized.	6/27/2020 8:32 AM
1714	I'll do homeschool before we let you guys do a terrible job at remote learning again.	6/27/2020 8:30 AM
1715	If school doesn't resume in a completely normal fashion, without all of the bs distancing, face masks, e.t.c. My children will not attend any D51 schools.	6/27/2020 8:29 AM
1716	My son's Elementary experience was great with remote learning. My daughter is on a 504 and was in middle school. Her experience was not as successful. She struggled and didn't receive the explicit instruction and support she deserved.	6/27/2020 8:23 AM
1717	100% distant learning is not beneficial for my child's learning or Living experience. This is hard on some families but we understand the regulations just sucks.	6/27/2020 8:16 AM
1718	I will NOT send my kids back to school if they have any restrictions. It should be up to us as the parents to decide if it's not safe for our kids. My boys will be entering high school and will do better with face to face contact but we are willing to take them out of school if there are restrictions.	6/27/2020 8:16 AM
1719	I am hired as a substitute for the district and am looking very forward to getting in the schools! We moved here at spring break so my kids have not had the chance to meet many classmates or any of their teachers! They will be devastated if they cannot start school!	6/27/2020 8:15 AM
1720	We will NOT send our children to in person schooling if masks are required during the school day and if there is no cafeteria, recess, gym, etc. Open up the schools 100%!!	6/27/2020 8:15 AM
1721	I truly believe that my kids need to be in class with their teachers and friends. Remote learning	6/27/2020 8:14 AM

Fall Planning Survey 2020

was hard on them both. I don't want to see them cry about missing their teachers and friends anymore!

1722	I would like there to be an learning from home options to stay around.	6/27/2020 8:11 AM
1723	Remote learning was great to spend time with my children but I do not feel that they learned anything during that time . Thankfully most of the AP learning had taken place in the first half of the year and those classes were reviewing information . * once it was announced that the In school grades would not be effected in a negative way by remote learning results my senior chose to work full time .	6/27/2020 8:10 AM
1724	No masks please!	6/27/2020 8:10 AM
1725	I would prefer to send my child to school, of course, but physical distancing is important. Maybe that means sending back one half of the class to school for Mon/Tue and the other half of the class on Wed/Thur with webcams for the ones at home to attend online?	6/27/2020 8:10 AM
1726	My child will not attend because of the draconian plans to separate children. The mental health damage will be horrendous. There is no trust in this system any longer. The curriculum is all indoctrination and not truth. Still teaching biology that was misproven on the 70's.	6/27/2020 8:04 AM
1727	I do not support remote learning or wearing face masks. Or the cancellation of PE or recess. The children need to return to a normal life with face to face interaction with friends and teachers.	6/27/2020 8:04 AM
1728	I would be willing to sign something that says I am responsible for the decision to send my child back to school, sports, life in general despite CoVid. I believe that my children will struggle if they don't return to school and life as normal and that we may have to pull them from the District in order to implement an at home curriculum so that my husband and I can both continue to work full time. This is heart breaking as I believe in public schooling but I don't believe that the District can provide an appropriate schedule for us if we don't go back 100%. I won't make my child wear a mask either and I feel like if parents want masks- keep your kids at home. This is not living. This is fear. Please, please consider giving these children normalcy.	6/27/2020 7:59 AM
1729	My children's mental and emotional health have been negatively impacted by loss of peer interaction and in person instruction. I will NOT compromise my children's physical health as well by requiring them to breath carbon dioxide by wearing a mask. They will NOT attend D51 schools if required to wear a mask.	6/27/2020 7:58 AM
1730	You guys have done a great job! I work at St Mary's so I know the constant change you're having to deal with. I appreciate what you're doing and what you've done!	6/27/2020 7:58 AM
1731	I think masks are pointless for kids under 12, recess and outdoor learning should be utilized as much as possible. If kids will not have recess, my kids will not be attending this year.	6/27/2020 7:58 AM
1732	I am more concerned with the general trend in political philosophy away from grounded science and proven historical concepts than virus transmission. This coming era of anarchism and extreme confrontation for any ideas that the progressive mindset does not hold dear troubles me. It is being perpetuated in our schools and this is likely the reason we would keep our kid out of the public school system. I see too much "shouting down" of alternate opinions instead of acceptance of alternative thought. While the first few grades of public schools might not teach this, I think it grows in the higher grades. I think education was more effective, efficient, and generally better decades ago. The spending upon each student was far less as well. So the trend is in the wrong direction. We spend more, possibly teach less, and frankly teach things that I'm not comfortable with. And today - when I look at the news - we are heading straight for a segregated society. "Let's split all the groups apart." "Don't mix colors, but will still mix genders" (for now). "Make sure Blacks have a safe space from Greens, Whites, Reds, Browns, Purples..." And once that is done how much communication do you think will happen between the races of our country? None! And when communication breaks down, so does understanding. And when you have no understanding you have no compassion. And when you have no compassion you have nothing in common. We quickly become a Balkanized nation that tears itself apart from within. And I think these ideas will be promulgated within our schools. They were to a small extent before. It's about to get far, far worse. So the more I type, the less I want my portion of the future generation learning this poison. That is what I'm on the look-out for, not a virus that may not be any more deadly to students, staff, and parents than the flu. Or infections you could get in the hospital. Or driving a car. Or heart disease...	6/27/2020 7:57 AM
1733	We need to try and make school as normal as possible.	6/27/2020 7:55 AM

Fall Planning Survey 2020

1734	In class leaning is very important for childs focus and development.	6/27/2020 7:54 AM
1735	During periods of uncertainty, planning and communication are critical focus areas for leaders. Planning without a solid understanding of what the fall will bring is a challenge, but there are areas of certainty that we can plan for now. Local school boards, schools and districts are encouraged to partner with key stakeholders, including families, students, and community members, as an essential aspect of drafting plans. Clear, proactive, intentional two-way communication with these groups will help districts and schools create the most feasible plans for next school year. Additionally, D51 and board members are encouraged to provide regular communications about what they know and don't know to help keep students, staff, and families informed. The community has very little trust in D51 and continues to have little trust after the whole "blame" game with Mesa County Public Health with graduation, stages of sports, transparency with the budget, cares act funds and so forth. The website for D51 is extremely hard to clearly find documents such as agendas, budgets, board meeting notes, salaries and other public information. My child will NOT wear a mask and will not be required. In addition D51 will not be "triaging" my student daily with a temp check, and contact tracing him. We have health laws in place for a reason and are protected by HIPPA. Regardless, of the "pandemic". We do not have to disclose (segregate children) who have exemptions for immunizations, HIV/AIDS and the flu. We are asked to not send our child to school if they exhibit a variety of systems and that decision should be left in the hands of parents and the physician who is treating the student.	6/27/2020 7:47 AM
1736	Having only moved to Grand Junction in Jan. 2020, both parents in our household feel strongly that sending our kids to school in person was the most valuable change our family has made, both academically and socially. The switch to full remote learning was hard on us, and on our child, especially in terms of who could work and when, and in the long term was detrimental to our income. We also feel it is important for kids to learn with other kids, and hands-on, since screen learning is passive in many senses and there is already enough of a struggle to get kids off screens and involved in real life activities. We are fully supportive of reopening schools, perhaps with regular handwashing and ensuring plenty of fresh air. Thank you.	6/27/2020 7:46 AM
1737	I support whatever option is the safest for the kids. I am worried about what phase 2 of covid would look like during cold and flu season. I would love to try a hybrid return, and if covid increases again, then I'm sure it would have to switch back to remote learning. Thank for for taking the time to consider everyone's different opinions, I know these decisions are not easy to make.	6/27/2020 7:37 AM
1738	We are currently considering all of our options for this coming year, one of which involves homeschooling on our own due to some concerns we have with the public school system (not related to COVID).	6/27/2020 7:34 AM
1739	THANK YOU for working so diligently with such unprecedented circumstances.	6/27/2020 7:33 AM
1740	I strongly believe teachers should have a requirement of interaction with their class. Two of my children's classes did amazing. My 6th grade daughter didn't have interaction with her teachers. The 7th grade core has daily office hours which were fabulous for my son. He was able to log in daily and even just say hi if he was down from missing everyone. The 6th grade social studies teacher would not interact even when asked. My elementary student was very lucky to have Sara Hill as well she made the experience perfect for my daughter. I do believe teachers should have interaction requirements with at least office hours each day.	6/27/2020 7:28 AM
1741	In light of how quickly norovirus spread in November, I am concerned how this virus may spread through our schools and community.	6/27/2020 7:27 AM
1742	I will only send my kids to school if there are no restrictions (masks and social distancing). If there are restrictions I will homeschool my kids.	6/27/2020 7:19 AM
1743	I am beth concerned about what will happen if you do not have school back to 100% in-person class for.those that want to attend. My child did do her school work in the spring, but she didn't get anything out of it. In my opinion, it was more busywork. I am very concerned about how much the children ill fall behind in school if distance learning or even hybrid learning we're to occur this school year. I also I'm worried about the children that are at risk. School is a safe haven for them and most of the time the teachers are the ones that report child abuse because they are with them during the school year. Those.children can not be looked after and removed from unsafe situations if they do not attend an in-person class. I was one of those children growing and I do not want to continue to see this happen to future generations. I am also	6/27/2020 7:18 AM

Fall Planning Survey 2020

concerned about children wearing masks all day. I believe it will become a distraction from their learning environment.

1744	Most Young kids are not prepared or trained or have no discipline to do online learning. It takes time to get there and maturity. During 2019-2020, those months were frustrating and confusing for my son. I hope that at least next school year, if the kids have to do online schooling, it could be helpful for the kids to go to school a couple days a week and get prepare and get questions answered.	6/27/2020 7:14 AM
1745	Thank you for all your efforts to make these uncertain times safe and educationally proficient for our children. It is never possible to satisfy everyone but I appreciate our teachers and school administrators.	6/27/2020 7:11 AM
1746	I appreciate all the communication from the superintendent and school board. I believe they are trying to do what is best for everyone and appreciate all of their hard work. I am hopeful that they will be able to have the children attend school at least part time. The children definitely miss something by not being in-person with teachers and fellow students. I especially want it to start in-person for the sake of my kindergartener, as I want him to have some semblance of a "normal" public school experience.	6/27/2020 7:11 AM
1747	The teachers did a good job with the remote learning, but my child has ADHD and found it very difficult to learn from home.	6/27/2020 7:11 AM
1748	No	6/27/2020 7:05 AM
1749	No	6/27/2020 7:04 AM
1750	I know you are all doing your best and I am very thankful for the teachers and staff you all serve. I have big concerns about mask wearing and how social distancing is going to look for students like mine who have unique wiring and additional needs. I am also concerned about the disadvantage low income families may face if/when remote learning is used, especially if the communication and lessons are not intentionally inclusive and focused on alleviating the extra challenge those students would be facing. Additionally I am uneasy about the burden teachers are already under and the added stress that comes with the health and safety standards officials may place which inevitably they would be implementing. That being said, I believe you are all working on behalf of your students' best interests and the situation does not seem to allow an ideal scenario. Thank you for seeking feedback and input from parents and the community.	6/27/2020 7:03 AM
1751	I will not send my children if masks are required.	6/27/2020 6:56 AM
1752	It would be very hard to online school only for certain classes. My son is signed up for ROTC you cannot do that 100% at home. Also with his IEP I cannot give him the same needs as his special education teachers can. I work 43 hours a week and it would be very difficult to do class work for 4-6 hours with him at night too.	6/27/2020 6:54 AM
1753	Err on the side of caution please to protect faculty and students. I support good public health practice and will support d51 leadership in requiring hand hygiene, masks, social distancing.	6/27/2020 6:52 AM
1754	N/A	6/27/2020 6:51 AM
1755	If I'm not satisfied with the reopening of schooling I will continue with home learning as was before	6/27/2020 6:47 AM
1756	Having online options at the school they attend is important in case the virus count is up, not just Grand River.	6/27/2020 6:47 AM
1757	You all will need to make sure the college and WCCC are on the same page.	6/27/2020 6:43 AM
1758	If students are to do remote learning we will not use the public remote learning we will choose another homeschooling source. This remote learning from public online was horrific. Parents who work CANNOT be expected to teach at home, with five million different places to check into for each child.	6/27/2020 6:41 AM
1759	My son will be a senior. Our family likes the idea of a collage Type set up. Different classes a couple times a week. English Monday Wednesday math Tuesday Thursday etc Prepares them further for the next step of education.	6/27/2020 6:40 AM
1760	I don't trust the local public health officials. The decisions and what they say shows me they are NOT concerned for my and my family's health but only concerned for the economy. They are	6/27/2020 6:33 AM

Fall Planning Survey 2020

very political and only using the science that they want to use. Please don't just rely on these officials to make your decisions. Please keep our students health and their family's health foremost in you mind.

1761	The science behind covid 19 proves that our children are not in danger of dying from it. It should not be hindering our students from getting a face to face education. Remote learning does not work. If you took the time to read this please have a good rest of your day.	6/27/2020 6:31 AM
1762	No face masks or boarders around the desks.	6/27/2020 6:21 AM
1763	If we do do a hybrid... what will it look like for teachers who are parents, will we also be able to be at home with our young children, or will those children require childcare on the days they aren't in person school...	6/27/2020 6:06 AM
1764	What will busing be like? My child has special needs.	6/27/2020 5:55 AM
1765	This is not an easy situation. Thank you for navigating through it for our children.	6/27/2020 5:54 AM
1766	My kids hate doing school from home!!!!!! - I'm not a teacher. - my kids cried everyday - is it even healthy to have that much screen time! They complained there eyes hurt and of head aches. - they miss there friends. - being social is a huge part of my kids life's. - fighting my kids to do homework I thought was hard on our relationship! But actually trying to be the teacher and homeschooling took the cake. - please let our kids go back to school.	6/27/2020 5:49 AM
1767	We need to make sure we are the cases are not growing so the kids don't get sick or bring it home to sustable people	6/27/2020 5:04 AM
1768	I will not be sending my kids if there are major restrictions such as no specials, or mask requirements.	6/27/2020 3:56 AM
1769	Please do remote learning	6/27/2020 3:51 AM
1770	Social interaction and the physical activity that the school provides is integral for proper, well-rounded development.	6/27/2020 3:18 AM
1771	If the school district doesn't go back to in person instruction without restrictions, my son will be going to Grand River. He will not be treated as a prisoner without the ability to play and socialize with other students without having to wear a mask of pea ring social distancing. While COVID is serious, the flu has taken more lives and we don't treat our children this way during flu season. Furthermore, the wearing of masks is ridiculous as it has been said not help the spread of the virus. Not to mention the mental strain the past 3 months have done to our children as well as the adults. You cannot effectively implement a hybrid model of learning because the needs of families are too demanding and many families have to work. If you don't go to 100%, there are many parents ready and willing to pull student and create a learning environment that will foster learning and mental stability,	6/27/2020 2:25 AM
1772	If they do reopen the schools they need to have children check for temperatures and send them home if they are sick this is something that has been needed for a very long time if there is not a parent at home that can pick up the child the school needs to have an area to keep children that are ill	6/27/2020 1:52 AM
1773	My children would love to go back to school. They do not do well with remote learning.	6/27/2020 1:29 AM
1774	I have a child who is higher risk who is not school age yet. My husband and I have been watching the numbers nationwide and we do not feel it safe to send our oldest to school knowing he could potentially infect our younger child. We love our school and in most instances we think in person learning is best, however a pandemic (with experts are also predicting a spike in the fall) calls for extenuating circumstances. I sincerely hope our more at risk kids are taken into account with all decision making, as well as families with anyone at risk. I personally would like the option to continue remote learning.	6/27/2020 12:58 AM
1775	The students need to be back full-time for normalcy. Also, there needs to be consistent oversight of teachers' online lesson plans and curriculum. Some put forth little to no effort in their online teaching this past school year.	6/27/2020 12:54 AM
1776	These kiddos deserve to be in school like they were in the last years.	6/27/2020 12:53 AM
1777	Please continue to keep our SROs :-)	6/27/2020 12:51 AM
1778	I fully support the district taking extra measures to keep everyone safe. I don't believe that	6/27/2020 12:18 AM

Fall Planning Survey 2020

wearing masks, extra hand washing etc will scar our learners. This is our current normal and we must protect one another and make the best of the situation. Thanks!

1779	My daughter is a Senior in the fall and her class deserves to have a normal Senior year with dances, choir concerts and sports. I support 100% at school learning and sports as usual.	6/27/2020 12:17 AM
1780	My children did not find distance learning beneficial as it was more geared towards the children that were behind. This caused them to be disengaged in learning. If masks are required, the children are not allowed to play on the playground, or they are going to be confined to one room for the duration of the school day they will be attending grand river academy per the request of my children. "I don't want to feel like we are in a jail stuck in one room."	6/27/2020 12:15 AM
1781	My student already attends Grand River Academy, but I am at high risk, and she should not be exposed.	6/27/2020 12:15 AM
1782	Both my boys have Type I diabetics and have compromised immunity. I have MS and have a compromised immune system. A 100% online option for students and staff who have immunodeficiency or live with a person at high risk should be available in the fall. Thank you for the opportunity to share our input.	6/27/2020 12:11 AM
1783	100% open. No masks. No social distancing. The stats do not supports the overreaction for our kids.	6/27/2020 12:09 AM
1784	I will not make my kids wear masks to school. If the schools insist or make in person learning unbearable I will not allow my children to go to our public schools and I will find them an online school instead.	6/26/2020 11:52 PM
1785	The grading system for remote learning is a joke. My child did their work and proceeded to turn it in on time and attend all meetings for the lessons and still managed to not only drop in grades but recieve very poor feed back. Aside from the special eduation teachers, my childs core teacher wasn't very helpful and would not grade upon effort and participation.	6/26/2020 11:38 PM
1786	If it goes back to remote learning in the fall , I don't know how to maintain employment and homeschool my children at the same time.	6/26/2020 11:35 PM
1787	I am highly disappointed in not only my children's school but the district. My children had zero support for remote learning and we called. Not only did their teachers not keep in touch or provide assistance that was not online due to no internet but their principal said he just put in a ticket to the help desk. We were never contacted again for the rest of the remote learning. My children suffered and this isn't fair to them. My children deserve better	6/26/2020 11:25 PM
1788	How are the teachers going to be able to give quality teaching with all the new rules everyone will have to follow ? (Like wearing masks, social distancing of desks, different passing periods, restrictions on how many students can be riding the bus at one time, no assemblies, etc. if you are at school, part of the learning experience is the social experience with friends.)	6/26/2020 11:23 PM
1789	If learning is remot it would help if there was more structure (i.e. teacher all give assignments on Monday that are due on Friday) so the kids can plan and structure their learning rather than having assignments coming at all times and making it difficult to keep track of assignments.	6/26/2020 11:22 PM
1790	The remote learning really put both my kids behind! Did not like it at all!	6/26/2020 11:15 PM
1791	We would consider 100% homeschooling before trying partial or complete remote learning.	6/26/2020 11:12 PM
1792	I think you should ask the kids how they feel about all this.. I want everyone safe but I've spoken to my daughter and her friends and they don't want to wear masks they don't want to stay in one classroom the whole time and they don't want online learning.. It took a huge toll on their Emotional health and I think people should listen to what they have to say	6/26/2020 11:10 PM
1793	Unless there is a vaccine, I don't see a safe way to send our kids back in a school building.	6/26/2020 11:09 PM
1794	No	6/26/2020 11:08 PM
1795	My son does very good in school and takes pride in his grades I found it was really hard for him to do the work online he also is a football and basketball player he does a lot better with in school learning	6/26/2020 11:06 PM
1796	Please don't make them wear masks or social distance.	6/26/2020 11:06 PM
1797	If school is to continue remotely, the kids need access to counseling support and better access	6/26/2020 11:02 PM

Fall Planning Survey 2020

	to their teachers. My daughter struggled alot with self direction and lack of social constructs	
1798	I think having young children wearing a mask would be nearly impossible for both teachers and students. I believe a hybrid system would be best because it allows for the social aspect of school to be honored, while minimizing contact between children throughout the week.	6/26/2020 10:58 PM
1799	My daughter was enrolled in Grand River last year and would prefer that if classes are to be remote.	6/26/2020 10:53 PM
1800	It is an outbreak waiting to happen and a traumatic experience with what is purposed in other areas. Please don't do in-person.	6/26/2020 10:51 PM
1801	Hang in there! We know you will make the best choices for our students and staff!	6/26/2020 10:48 PM
1802	Send our kids back to school full time. Quit negatively affecting them.	6/26/2020 10:43 PM
1803	Just let the healthy students go to school! No masks, let the little one have recess and no on again off-again school!	6/26/2020 10:40 PM
1804	Im ok with my kids wearing masks if recommended. I prefer in person school, but if there was a large outbreak, I would like the option of returning to remote learning for safety.	6/26/2020 10:34 PM
1805	Thank you for all you do. You all have been so amazing during this process. We 100% trust your judgement and what you decide for our kids	6/26/2020 10:31 PM
1806	My son that goes to junior high would attend, but my special needs medically fragile child would not attend if they have to wear masks and sit apart from one another and stay in the same seat all day long.	6/26/2020 10:30 PM
1807	It's time to go back to in person learning. Remote learning doesn't work.	6/26/2020 10:29 PM
1808	No	6/26/2020 10:26 PM
1809	If education is hybrid, I would need both of my children off on the same days and times to allow for my older child to care for my younger child while we work.	6/26/2020 10:26 PM
1810	I do not want my children wearing masks	6/26/2020 10:20 PM
1811	Remote learning doesn't work well for my child who has a IEP. I also don't feel with our very low Covid numbers here Mesa County that we need to have any restrictions this coming school year. Let our children have a school year because last year was so hard on them in many ways. No mask and no social distancing or we won't be sending our 3 kids to D51 schools	6/26/2020 10:19 PM
1812	It was hard on the younger children that need more guidance and teaching.	6/26/2020 10:18 PM
1813	Face to face is what we would likke.	6/26/2020 10:18 PM
1814	The system sucks	6/26/2020 10:17 PM
1815	My daughter loves school. She misses her teachers and friends. But we will not give our child the COVID-19 vaccine in order to return to school.	6/26/2020 10:12 PM
1816	No	6/26/2020 10:05 PM
1817	In person learning is extremely important for my child	6/26/2020 10:02 PM
1818	Thank you for getting this survey out to us in a very timely manner!	6/26/2020 10:02 PM
1819	In my opinion it should either be 100% in school or 100% remote learning, not a hybrid half day, half class thing.	6/26/2020 10:00 PM
1820	We need to return to school in a normal manner. Fully open, no masks, and having ALL extracurricular activities.	6/26/2020 9:58 PM
1821	Safety is priority #1 for my children. I hope to see a model of safety directed by the advisements of the CDC. I also don't believe at this point masks should be optional, they should be required for all students and staff.	6/26/2020 9:58 PM
1822	none	6/26/2020 9:57 PM
1823	If remote learning is in place the learning levels and expectations should be the same as if it were in person. My child was not challenged at all during the spring remote learning. She	6/26/2020 9:55 PM

Fall Planning Survey 2020

learned nothing! Most of her teachers just gave up or were told to back off. It was pretty much a waste. This will not prepare her for college.

1824	No	6/26/2020 9:54 PM
1825	Please do not require masks to attend school. If masks are required we will look elsewhere for education.	6/26/2020 9:54 PM
1826	Put our kids back in class full time.	6/26/2020 9:53 PM
1827	I will not send my kids back to "in building" school if they are required to wear face masks, no outside play time or field trips. Please communicate with parents on this subject when that is what most is worried about.	6/26/2020 9:50 PM
1828	Since I teach in the district, I will be doing what the school district is directed to do in regards to work. My husband is a security officer for the district. I do want to return to face-to-face learning, but I'm hoping for at least some precautions. I realize kids may not often contract COVID or become very sick, but it will serve no one to have our staff and teachers sick or in danger. My own children deserve to be safe and to have safe and healthy parents, too. I don't have all of the answers, but I do hope we will do what the health department directs and not attempt to get variances to appease parents who want their kids back in school, regardless of the cost to their children's teachers.	6/26/2020 9:50 PM
1829	Thanks for providing updates and considering all options while facing very difficult, complicated decisions.	6/26/2020 9:49 PM
1830	I will not send my kid if masks are worn	6/26/2020 9:48 PM
1831	Some parents may decide to homeschool if schools are back in session and do not offer remote learning, but that was not an option in your survey.	6/26/2020 9:48 PM
1832	My son wants to be homeschooled if he has to wear a mask all day which I am in agreement with him.	6/26/2020 9:47 PM
1833	I would be happy to send my children back to school should there be no restrictions for social distancing or face masks for them. If those things are required or remote learning is needed, it would be easier for our family to do homeschool on our own schedule and with resources we can be in charge of.	6/26/2020 9:47 PM
1834	It seems like masks would be hard to enforce. Is the teacher required to discipline students who won't wear a mask? How will classrooms of 30+ students be separated for social distancing. My husband and I both work full time, so if students are not in school full time, getting our children to and from school would be a huge issue. We do not meet the requirements for bussing. I know there are so many logistics and do not envy your decision. We will be supportive of what ever decision is made in the best interest of health and safety for both teachers and students.	6/26/2020 9:45 PM
1835	If hybrid option, we would like to see more FaceTime with teachers. Ideally, an option that mimics a classroom setting.	6/26/2020 9:44 PM
1836	I expect school to be in session. Remote learning was a nightmare, not healthy for the kids. Absolutely will pull my kid out and take to a different school district if D51 is not in session full time. Both parents work and will not leave a child at home to fend for themselves and waste a semester or year trying to learn online. Mesa County has wonderful weather most of year, go outside, rent shade canopies, kids need to be in school learning. Colorado Mesa University has announced plans to be in person. We can do this with our low numbers. The kids deserve to be on school with their friends and teachers.	6/26/2020 9:43 PM
1837	I dont think my children were able to get what they needed from the online remote learning.	6/26/2020 9:42 PM
1838	No masks on children/students. Sports are a good team Builder and healthy lifestyle that should continue.	6/26/2020 9:41 PM
1839	Please try your best to implement in person learning this fall. It so much more rewarding for the students, and I like to think for the teachers as well.	6/26/2020 9:40 PM
1840	Central and Chepita schools are amazing. They are very supportive and have patience with our children.	6/26/2020 9:39 PM
1841	I am cautiously optimistic. However, it worries me that many, if not most in our community, are still not seeing the serious nature of the current situation. From my observations, I feel many	6/26/2020 9:37 PM

Fall Planning Survey 2020

are seeing the reopening as a return to business as usual with little or no regard for the fragility of the situation. I am honestly a little apprehensive about kids returning to school in the fall. With parents possibly not taking every precaution and not respecting procedures in place, I am not excited about sending my children into schools to be in close quarters with students whose families have perhaps not been diligent about following protocols. It worries me greatly.

1842	I found online learning to be ineffective for my children.	6/26/2020 9:36 PM
1843	I have seriously considered unenrolling my children if 100% remote learning takes place this fall. It is not a good way to learn and I'd rather homeschool my children rather than do that again.	6/26/2020 9:35 PM
1844	Yes I would not have my child go through D51 remote learning if that becomes the only option. I will choose an existing home school program.	6/26/2020 9:32 PM
1845	No	6/26/2020 9:32 PM
1846	Remote learning was the worst experience for my family. My wife and I both are considered essential, so we had to find babysitters for each day and then do homework when we got home. It was absolutely idiotic to have the computers shut down in the evening because in many instances we could not start homework until 30 minutes before shutdown. In addition, the teachers spent minimal time helping our students, especially since our work was done after hours. My kids hate school now and dread going back in fear of this happening again. D51 administration would not listen to my concerns and frankly am disgusted with their inability to communicate. I talked with friends that have their children attend Caprock Academy and they had the exact opposite experience. Overall, you should all be ashamed of yourselves and should tender your resignation immediately. I am appalled with how the district is ran and would like to see another audit completed to show how poorly our taxpayer money is spent. I can see why the district cannot keep teachers! Our children deserve better than the know-it-all's we currently have "running" our district. You should all be ashamed!!!	6/26/2020 9:31 PM
1847	I understand the possibility of children needing to adhere to extra safety rules for school to go back to in person instruction. However, I won't send my elementary aged daughter back to school if social distancing, closed play grounds and lunchrooms and masks will be the environment she'll go back to. I will homeschool her. My twins that will be freshman will likely try attending in person school, even with the safety measures in place. We will keep homeschooling open as an option for them as well, if they feel the environment at school is too uncomfortable with new rules in place. I know this is a tough situation to navigate, thank you for all you do.	6/26/2020 9:31 PM
1848	If in person learning resumes my kids will be very happy to return to school; but if that is not a safe option they will also be fine with a hybrid option or learning from home. We want to be apart of what is best for the community as a whole.	6/26/2020 9:30 PM
1849	Remote learning was so rough for a while til the end when we were finally getting a hang of it. Working and teaching is so hard. Lots to do. The of course my paychecks are lower due to not being a work because I'm home doing remote learning. My son really missed face to face seeing people everyday. So sad to be the only child and not able to see someone from school.	6/26/2020 9:30 PM
1850	I vaccinate my kids but I am against the government mandating a shot for the virus to attend school. Parents should be able to choose and if something has not been testefd long term and not proven safe long term we should have a choice. Teachers should also not be able to change assignments after they are posted it is too difficult to keep up on what is required	6/26/2020 9:29 PM
1851	My observation was that it was very difficult for the children, the teachers and working parents to do remote learning. I really hope we can initiate some good community practices that help create a safe environment for our children and teachers to return to schools full time. If that means shutting down bars and restaurants again or implementing strong social distancing policies, I think it's worth it to our kids, teachers, and families, to be able to go back to school full time this fall.	6/26/2020 9:29 PM
1852	No	6/26/2020 9:29 PM
1853	My son has a hearing disability. If teachers or students wear masks that makes it hard for him to understand and impedes his learning ability. If masks are required I will have to consider other options.	6/26/2020 9:27 PM
1854	I am uncomfortable with the idea of a 100% in-person learning model for the fall unless a	6/26/2020 9:23 PM

Fall Planning Survey 2020

vaccine is readily available. Our children live with both parents and grandparents (who have conditions that put them at-risk for serious complications if they get COVID-19). Requiring my children to go and risk exposing their vulnerable grandparents to this virus seems like a bad choice.

1855	If my children have to wear a mask and arent able to participate in music, PE, and or recess or are required to get a covid vaccination our children will not be attending district 51	6/26/2020 9:23 PM
1856	I think social distancing is going to be very difficult with the amount of students in each classroom and I dont see kids of any age wearing masks throughout the day and during after-school programs.	6/26/2020 9:23 PM
1857	Remote learning a failure	6/26/2020 9:22 PM
1858	I am a sole parent who works at D51. If my job became remote with the same schedule as my kids then I could help them as well. The teachers did well considering they had little notice but learning a second language at home has been difficult.	6/26/2020 9:22 PM
1859	I feel the children should have strict procedures; wearing masks and washing hands/sanitizing and wiping flat surfaces. I have ordered masks for school. It is important the kids wear them. Too many parents send their kids coughing to school. I will also be available to help in anyway at least 1-2 days a week. And am good with online. But kids need to socially interact with their peers and administrators. I am thankful keeping our kids SAFE is number one! ☺ thank you ALL	6/26/2020 9:21 PM
1860	We need to not run from a virus! It's a virus! We need to continue our lives as normal and those who are at risk should quarantine.	6/26/2020 9:19 PM
1861	I work at the school district as a sped para so if there was a hybrid set up I would need childcare unless the staff schedule was hybrid as well	6/26/2020 9:18 PM
1862	At this point in time, I'm still unsure of what is coming school year will look like. However, I feel it is very important for District 51 schools sweet here to the most stringent public safety health standards.	6/26/2020 9:18 PM
1863	My son's first grade teacher @ Pomona just stopped communication. I never heard from the principal! Unacceptable. I was very disappointed in her & the lack of response. He was on a reading program & without his special reading teacher we would have been absolutely lost. She was a champion.	6/26/2020 9:15 PM
1864	If there are requirements in place because of covid-19 where there is not playground,lunch room,library and others in place my children will only do half days	6/26/2020 9:15 PM
1865	If they have to wear masks they should not be there! Online would be healthier for them.. then wearing masks all day.	6/26/2020 9:15 PM
1866	The teachers (Geer and Ludlam) did an amazing job last spring, given the circumstances!	6/26/2020 9:14 PM
1867	Kids need to be in school!!!! They are NOT AT RISK.	6/26/2020 9:14 PM
1868	Just thank you for all of your thoughtful consideration. I know you're doing your very best for all of us, but you may not be hearing that enough.	6/26/2020 9:13 PM
1869	We would like to have our children back in the classroom this fall. However, if the guideline require them to wear masks, socially distance themselves, etc. we will plan on home-schooling our children. The remote learning this spring was not beneficial for our child.	6/26/2020 9:12 PM
1870	Thank you for asking us our opinion.	6/26/2020 9:07 PM
1871	No	6/26/2020 9:06 PM
1872	Thanks for all you do. Will a stipend be available to help cover education costs should we choose to completely homeschool with a different curriculum?	6/26/2020 9:04 PM
1873	Remote learning is VERY hard when you have both parents that work outside the home. Its virtually impossible to donate the time needed daily to keep up.	6/26/2020 9:03 PM
1874	Please let the kids back with NO restrictions. Social distancing is not good for them they have enough of that already. Look at the suicide rate now. Please don't put these children at more risk. They need to be children and learn with hands on and not l'm front of a screen all day. No masks!! They need to see smiles and hear laughing or other emotions. Some children need	6/26/2020 9:02 PM

Fall Planning Survey 2020

school for food and safety. Thank you for reading this. Our teachers did amazing at LOM but my kids missed the teachers and friends.

1875	No	6/26/2020 8:58 PM
1876	No masks. I don't feel they are safe or healthy for anyone to wear for long periods of time.	6/26/2020 8:57 PM
1877	None	6/26/2020 8:57 PM
1878	No mask wearing for kids and let kids learn and play on play ground	6/26/2020 8:52 PM
1879	Working family, we are essential workers and have struggled with online schooling, finding sitters and completing online schooling. Also worried about mental health set backs when not amongst friends	6/26/2020 8:49 PM
1880	Nope	6/26/2020 8:48 PM
1881	Would love to have my kids back for in person learning, they get more out of it and it's good for them to be around their peers. If our covid numbers continue to increase I won't feel comfortable sending them back though.	6/26/2020 8:48 PM
1882	We need to open our school so our children can learn from the actual teacher rather than us! They do a lot better that way	6/26/2020 8:48 PM
1883	Some in person instruction with mandatory safety measure is must to keep our kids in school and businesses still open. For the mental health of our children we will need some in person instruction.	6/26/2020 8:47 PM
1884	If my child is required to wear a face mask at school and socially distance from friends then I don't think that will be the best option for her. She is a social child, but gets anxiety about new situations easily. She would not do well without support from teachers and peers, let alone having to wear a mask all day.	6/26/2020 8:46 PM
1885	I want to have the choice to send my kids to school. I will not send them back if face masks are a requirement as I do not believe they have the skill, knowledge or responsibility to manage them properly. I also do not want to put another thing for teachers to have to manage, they do enough.	6/26/2020 8:45 PM
1886	Time to get our kids back to learning the way it should be	6/26/2020 8:44 PM
1887	The more covid-related rules that apply, the less likely I am to send my small children to school. I do not want them to have to wear masks, or give up recess and/or specials.	6/26/2020 8:43 PM
1888	This is an impossible situation. You can not please everyone and the upset families tend to be very vocal. We are so impressed and grateful for teachers, staff and administrators who are trying to navigate this ever changing situation. Please know we support you and appreciate you.	6/26/2020 8:43 PM
1889	Online learning was very difficult as it was hard for my children to stay focused. I feel they did not learn as much as they could have in person. I hope in person learning starts up again but I understand if online learning is needed to protect everyone.	6/26/2020 8:42 PM
1890	The teachers were wonderful and did the best they could under the circumstances. Remote learning overnight was a disaster in my opinion. These kids need socialization as well as learning in person. This cannot continue. I would rather take the risk of them catching some thing than to continue with remote learning. Especially having a child with an IEP, it was especially hard on her.	6/26/2020 8:40 PM
1891	With my 8th grader's severe special needs, he was not able to do remote learning at all. If the district goes to remote learning again, I will need to quit my job to stay home with him.	6/26/2020 8:40 PM
1892	it is important for kids to be kids and be able to build a strong immune system.	6/26/2020 8:39 PM
1893	Need to see what numbers/data looks like for Covid-19 when they start school.	6/26/2020 8:37 PM

1895	He does better with in School learning and both Dad and Grandma have to work to keep Bill's payed	6/26/2020 8:34 PM

Fall Planning Survey 2020

1896	Thank you for doing your best!	6/26/2020 8:33 PM
1897	NO masks required, it is so incredibly hard on little bodies. Also, my son has severe anxiety and every day he is home he is more afraid of going back to school. All the incredible progress he made last year in terms of his anxiety is now gone. He needs as much exposure to safe social interactions with other students, teachers, staff, and other parents as possible. I give him a structured environment at home but it is not the same as having face to face interactions at school. Being home with his mom is NOT enough. Please consider children's emotional and mental wellbeing, especially since COVID cases in children are so incredibly rare.	6/26/2020 8:33 PM
1898	No	6/26/2020 8:32 PM
1899	No.	6/26/2020 8:30 PM
1900	My child is struggling with the lack of socialization and face to face time with her teachers. Learning is so much more than just the classwork. The kids need their teachers and the teachers need their students. Online/remote learning is difficult for the kids who need to attend childcare while parents work when the childcare centers do not allow the kids to have electronics and then those kids are unable to join in on Google meets, talk to their teachers when they are available for help and all of the teaching falls on the parents who are not always equipped to teach their child what they are learning.	6/26/2020 8:26 PM
1901	Masks need to be mandatory in the building to protect students and staff. Without this in place, unless there is a vaccine, it will not be safe! Also, ninth and tenth grade classes are generally bursting at the seams. This cannot be the case in the fall. That is also unsafe, and I don't want my kid crammed in a class with 30+ others. My kid's teachers did a great job, and he felt challenged appropriately throughout the quarter, but hearing from his friends, it was pretty inconsistent across the board. I understand that it was a crazy switch, but telling kids that their grade wouldn't go down even if they didn't do any work was seriously detrimental for motivation. And it really put teachers in a difficult position (especially the ones who were managing the instruction with due diligence.). We need a better system in place for the next round of online learning, but I am confident that plans will be in place for that. I think our district handled the whole situation appropriately otherwise with the short notice and minimal planning time, so thank you for that! Teachers certainly appreciated that extra week to plan an online unit.	6/26/2020 8:24 PM
1902	Remote learning (no matter how well executed) eliminates teaching elementary aged children about so many social skills they desperately need to be building on. Remote learning with two parents working full time is unfair to our daughter's education and we don't have the option of taking a hiatus from working on short notice or for an unknown period of time.	6/26/2020 8:22 PM
1903	I would be ok with half day of serious learning if social distancing/ restriction were in place. Full day with social distancing/ restrictions we would look into home schooling.	6/26/2020 8:18 PM
1904	My children will not be comfortable wearing masks, and school without recess, lunch and other group activities is not how school should be. They need interaction with other kids.	6/26/2020 8:17 PM
1905	If my children have to be at school and yet be isolated and wear masks I will probably not send them.	6/26/2020 8:15 PM
1906	no	6/26/2020 8:15 PM
1907	I don't see how a hybrid model will work when both parents work full time. That is a big concern of mine.	6/26/2020 8:14 PM
1908	If there is a hybrid or 100% online instruction I as a parent would like to see a module set up like regular school. Where my children will log in to a live lessons with their teacher(s) everyday.	6/26/2020 8:11 PM
1909	My child will not be forced to attend a Black Lives Matter Class because ALL LIVES MATTER	6/26/2020 8:09 PM
1910	If we had known grades from the previous quarter were simply going to carry over and doing all the PE and music assignments was all for nothing, I bet we wouldn't have killed ourselves. I certainly hope grades aren't carried over again. We spent way too much time and worked way too hard and it felt like it was all for nothing and that definitely wasn't easy at all. We also had a teacher who communicated phenomenally (Mrs. kopp). I hope if this happens again the other teachers can be like her. She was our saving grace!	6/26/2020 8:09 PM
1911	I will pull all three children from district 51 if sports are participation only -no fans. I will pull all three children with any sort of mask requirement is made, loss of school grounds usage, i.e. cafeteria, gym, library, recess, nurse's office. School for children needs to be normal for them.	6/26/2020 8:07 PM

Fall Planning Survey 2020

They have already missed out on many opportunities due to fear from our health department. Please let us support you with having normal school and normal sports and activities

1912	I am having to teach my son the end of 2nd grade material so he is ready for 3rd grade in the fall, he fell behind during remote learning - I might as well pull my children out of school and homeschool since I am teaching them anyway. My daughter has worked hard her last 14 years in school and deserves a senior year to remember. Let them go back please. It is what is best for the vast majority of kids.	6/26/2020 8:07 PM
1913	Please don't go to online only school. It is not an effective nor sustainable way for our students and the community to learn and grow.	6/26/2020 8:05 PM
1914	My child will NOT be able to wear a face mask and be able to properly breathe! Doctors notes can be provided.	6/26/2020 8:05 PM
1915	I do not plan to start my child in kindergarten this next year if it will be remote learning or a hybrid schedule, I also will be reluctant to start my child if she had to wear a mask while at school or if she is not allowed in to have recess and interact with other children, I would rather her stay home with myself and her siblings and look at other options.	6/26/2020 8:03 PM
1916	Hi I would rather they delayed the return to school date by a week or two if needed to make the kids safe and able to go to school in person at least for a majority of learning. I also had concerns with high school registration at Fruita as last year this was very slow, congested and a lot of parents were upset with the delay and complaining even under pre covid conditions. Fruita middle and 8/9 in comparison work very efficient and well. Thank you for asking!	6/26/2020 8:03 PM
1917	Thank you! This is a monumental task and you are handling it with grace and wisdom. We appreciate you!	6/26/2020 8:03 PM
1918	Redlands middle school 6th grade teachers did a great job with the remote learning	6/26/2020 8:02 PM
1919	Let the kids go back. They need an education and the social interaction. Use good hand hygiene. Lets not live in fear.	6/26/2020 8:00 PM
1920	I would like to see the district use seesaw for the you get kids. I would also like to see masks mandated. For the middle schoolers i would like to see the learning operate with a home room So that parents and kids have a point person. I'd also like to see the timeframe for assignments be consistent and very regular. Our middle schooler often was scrambling to figure out which direction was up with assignments coming from lots of places with variable due dates and time for completion.	6/26/2020 7:59 PM
1921	While all of this is uncomfortable for everyone, and big systems like school districts are hard to steer in different directions because of all the voices that hold sway, I believe these radically different times call for considering radically different solutions. If in person classes resume in August, can we consider a winter break rather than a summer break to mitigate the spread of disease when disease spreads the fastest? Can we consider outdoor classrooms? How about a track system that goes year round, which would allow for reduced numbers on campus at a given time? I have other ideas, but the point is I want in person classes to be successful and so I think there are out-of-the-box strategies we could employ that could help it be successful.	6/26/2020 7:57 PM
1922	It will be almost impossible to keep children away from each other in school. If there are 6ft guidelines, I don't think it will be possible with young children.	6/26/2020 7:57 PM
1923	My kids would benefit from being in school, however they need interaction as well. I don't believe the kids are the most at risk in this situation and should be able to live as normal as possible.	6/26/2020 7:53 PM
1924	If we don't go back in person, we should at least do hybrid with some in person and some online so it's fair for people who want i. person and people who don't.	6/26/2020 7:49 PM
1925	Please offer in-person instruction if at all possible. Remote learning is not sufficient for my students, taking AP, CMU & Honors classes not to mention the athletic, social & emotional component they would miss using remote learning. My students will wear masks, if required. Please, allow students back for in-person instruction. If parents don't want to adhere to send their students then offer remote learning to them. Don't rob those that want to be there of that opportunity, especially the Senior class if 2021.	6/26/2020 7:49 PM
1926	Remote learning is good, but teacher dépendant. Our 5th grader didn't get much out of distance learning because of lack of teacher preparation, but our 2nd grade kept learning because her	6/26/2020 7:47 PM

Fall Planning Survey 2020

	teacher pushed her.	
1927	Face mask are not gonna work for a 3 grader not social distancing they need interaction and teaching. I'm a working mom and they have a working dad both in the medical field. We pay our taxes so are kids can go to school to learn by the awesome teachers that we trust. We like to see things back to the way they were. Ya parents are not able to help both kids with remote learning and it is not fair to them to keep them lock away at home and teach them selfs.	6/26/2020 7:46 PM
1928	With our crazy work schedules, we found it really hard to be consistent with getting work done which I feel is important to be and also I felt like it was more of a review of things they already know, I don't feel like they learned anything new.	6/26/2020 7:45 PM
1929	Kids need to get back to school, teachers need their jobs , one economy needs to get back to normal	6/26/2020 7:45 PM
1930	If they go with any type of remote learning or any type of mask wearing/separation she will be pulled and home schooled	6/26/2020 7:44 PM
1931	My family is in full support of going back to face to face learning. We are also in full support of whatever SD51 need to do to make it happen	6/26/2020 7:43 PM
1932	Not at this time.	6/26/2020 7:40 PM
1933	remote learning needs more time outside school hours so working parents can get more info from teachers. Also with special learning children, it is hard to do 3.5 hrs a day of school work because it has to been done after im done working. even if do partial at school and partial at home, would be nice for chrome book to come home so i can help with homework, since wnt have time with teachers help	6/26/2020 7:38 PM
1934	Remote learning was a lot of assignments and busy work and very minimal teaching and feedback.	6/26/2020 7:38 PM
1935	I work a full time remote job. My husband works 24hr shifts. I have two other small kids as well I can't provide my child the level of attention she needs to be successful in school while working and caring for other kids. It's not realistic and not fair to her education either. I didn't go to school to be a teacher.	6/26/2020 7:37 PM
1936	No, but thanks for taking our opinions into account.	6/26/2020 7:36 PM
1937	I think all students should receive the same instruction. For example, all second graders should be instructed by the instructional curriculum lead teachers. So each district same grade levels are being instructed In the same manner.	6/26/2020 7:36 PM
1938	#4. I would have selected Fair, if you hadn't attached satisfactory to it. It was not satisfactory. My high schooler had many teachers who could have easily adapted their curriculum better and done more/better but didn't bother. Some of her teacher did the bare minimum of "weekly contact", not even an assignment. My child needs social interaction for her emotional health and in person learning for her mental/physical well being. She also struggles with anxiety. I've watched some of your meetings, some of the city counsel meetings and press conferences and it is clear that masks hinder communication. If the teacher is required to wear a mask the students will not be able to understand them. Students will not wear masks. Requiring masks is going to cause more issues than it is going to solve. There are inequality issues, enforcement issues, health issues, consistency issues, etc. My child will not refrain from hugging her friends. I'm sure the high schools, teachers, administrators can express the issues they will have if you try to implement some of the ridiculous suggestions from the CDC, etc. TESTING! It would be wise to use the money from the state/federal government on testing supplies and other protective equipment. Teachers can be tested frequently. Students can be tested, I certainly don't want my daughter out of school for two weeks if a student in one of her classes comes up positive. I don't want her to be out for two weeks if she comes down with a fever and a cough for 12 hours when 5% of those tested actually have Covid, I'd like for her to be able to be tested quickly and get back to school. I know these are difficult decisions for you as administrators, teachers, health directors, etc. But the science so far doesn't show that students are spreading this to an extent that it requires shutting down school any longer. I believe most of you care about our children and want what is best for each and every one of them. Life needs to get as back to normal for them as possible. They shouldn't have to carry the weight of this much more than everyone else when they are in fact the least impacted by it. Thank you	6/26/2020 7:33 PM
1939	My home isn't a classroom. No matter what I did or how hard I tried, my kids struggled. My high	6/26/2020 7:32 PM

Fall Planning Survey 2020

schooler struggled the most as he didn't understand most of what he was doing or didn't have the supplies needed to do things. It was the beyond stressful and i worry he will not finish school if he has to go back to online schooling. He needs in person learning

1940	Remote learning was HARD for All 4 if my CHILDREN. They Do NOT appreciate Straight Screen time! They Need Social Interaction, Friend time, Sports and PE, Face to Face tesching with Teachers and MOST Importantly, HANDS ON Learning with Experiments, Art, Exponential Learning, etc... TOO MUCH SCREEN TIME!!	6/26/2020 7:31 PM
1941	Please allow students to return with no restrictions. Allow extra curricular activities to return with no restrictions. The mental health of our youth is at risk by pacing these absurd restrictions on them. Most are near impossible to follow and will take away from their education.	6/26/2020 7:30 PM
1942	If remote learning is to continue, all teachers need set days/times to online meet with students and all assignments should be due on the same day for all classes. We struggled with some teachers making assignments due on Friday, while others would make then due the following Monday. For full time working parents, we needed the weekends to help complete assignments. We also had poor communication from the extracurricular teachers.	6/26/2020 7:30 PM
1943	If it has to be remote consider providing us with a curriculum map (not just grade level standards)that lines out where the student is headed so we aren't just spinning in circles and have an idea of what we are working towards in their learning	6/26/2020 7:28 PM
1944	I am so grateful for our teachers and support staff! They worked so hard to make remote learning functional and accessible for our kids. Big thanks to all!	6/26/2020 7:28 PM
1945	Remote learning or even hybrid will not work at all for the working parents. Have 4 different grades in my home all elementary age. I would not be able to keep up... how does a kindergartener do remote learning. If we don't open we may as well hold all our students back until it's safe to have face to face learning.	6/26/2020 7:28 PM
1946	If there is No interaction and socializing and if they have to wear a mask my child will not be going to D 51 school	6/26/2020 7:27 PM
1947	If kids don't go back to school this fall if Mesa county is given the opportunity it will be absolutely ridiculous to expect parents to be able to be teachers and make a living!	6/26/2020 7:26 PM
1948	I am also a D51 teacher and so if we have a hybrid it might be difficult for me to get the right.I care for my 2nd grader.	6/26/2020 7:25 PM
1949	Need to improve the remote learning so every one is on the same system	6/26/2020 7:24 PM
1950	It's a must that the children are allowed be in school for in person learning next year. They're not getting sufficient education via remote learning.	6/26/2020 7:23 PM
1951	Please pick one plan and stick with it for at least the first quarter even if health restrictions are reduced, and of course assuming they don't get worse. Need a routine.	6/26/2020 7:22 PM
1952	If you choose to go in classroom I would expect high safety measures in place. I expect all to wear masks, 6 feet distancing, but I am highly concerned that it is not feasible. Kids do not know how to keep their hands off their faces or conceal a sneeze. I worry about my own children's safety as well as your staff. I would expect if you are opening to see your safety protocol that is consistent across the district (all schools should prove the same level of safety). This is a difficult time but the safety of the kids and your staff seem more important than reopening just to reopen. You might consider if it is possible to start later in the year and go longer in to the summer in case a vaccine becomes available and everyone would be more protected. I hope you think of the community health first and foremost as you make a decision.	6/26/2020 7:21 PM
1953	We are opposed to our children wearing masks at school	6/26/2020 7:18 PM
1954	I would like to add I think it is close to insane to open the school -such as any industry as the meat packing plant or other places where there is extended chance of viral load combined with the most contagious time being two days before symptoms therefore unable to truly contain anything	6/26/2020 7:16 PM
1955	I think you all did an amazing job when faced with this pandemic. They way you rallied for the kiddos and parents as we transitioned for the unexpected and difficulties. Thank you all so much! I do think it's best to continue to err on the side of caution though.	6/26/2020 7:15 PM
1956	My answers are based on how Covid is looking, if it continues or gets worse I would want my	6/26/2020 7:15 PM

Fall Planning Survey 2020

child indoors and not congregating with any other child.

1957	If parents could not adhere to keeping their children home in November when they were ill, what makes any of you think they will adhere to any Covid procedures? And if there is remote learning, children with behavioral issues, and slow learners should have special teachers. It was quite an inconvenience, and rather unfair to students when an online session had to be cut short because the teacher could not "remove" a disruptive student. And the parent was nowhere in sight to help.	6/26/2020 7:15 PM
1958	Children need to return to school! No restrictions!	6/26/2020 7:12 PM
1959	We will not allow our children to attend face to face, if masks are required. We want our kids to be able to feel the best warmth, connection, & teaching they can receive from their teachers which masks will absolutely disrupt. & trying to hear through a mask is SO difficult & being able to hear & see their teacher's lips is an important piece needed to listen well. Also, we want & need our kids to learn & grow through social interaction with other kids. Again, seeing those kid's faces to learn is so crucial. We also very much want recess & with NO social distancing. We will strongly consider pulling our kids out of district 51, if they have to wear a mask & socially distance. My husband & I are both healthcare providers & feel this has been overblown.	6/26/2020 7:12 PM
1960	If mask are required in school my children will not attend due to being unsafe and a health risk to themselves by not receiving proper oxygen to there lungs.	6/26/2020 7:10 PM
1961	why did you not ask about masks? seems like a question about willingness of children to wear masks would be helpful...unless it is already set that they will (I hope).	6/26/2020 7:10 PM
1962	No face masks.	6/26/2020 7:08 PM
1963	Remote learning does not work well for my kids. It's not the education piece but the social skills and peer to peer interactions they need most	6/26/2020 7:08 PM
1964	No masks for students or teachers. Let them breathe	6/26/2020 7:07 PM
1965	Please make mask use among teachers and staff required.	6/26/2020 7:05 PM
1966	I will not be sending my children to school if masks are required or lunch/recesses is not allowed.	6/26/2020 7:04 PM
1967	With my son in pre K the best thing for him is the face to face learning. He need this social interaction with his peers. He is delayed in speech and while to online learning was nice in a pinch. I don't believe if will help him that much in the long run. Not sure what restrictions you are looking at but I don't see how you can expect a room full of preschoolers to not sit near each other or touch each other, they are kids they are going to share germs and thats good for their/peoples immune system. I want my son in this program I believe it was helping him tremendously in many ways. But if your going to try and put a tone of restitutions on him and not let him learn though play side by side with his peers. I am not so sure he will attend. Thank you for all you do. I know it must be tough to try and make the majority happy when it comes to this topic. Have a wonderful day :)	6/26/2020 7:04 PM
1968	I would like to see significant social distancing measures implemented for face-to-face classroom scenarios	6/26/2020 7:04 PM
1969	No	6/26/2020 7:03 PM
1970	Our 10th grader special needs daughter will need some social distancing accommodations within classes for health measures. If hybrid education is approved, I hope accommodations will be made at school for our special needs high school student-as both parents work full time and we cannot leave her at home alone.	6/26/2020 7:02 PM
1971	Please consider staff needs- including childcare and safety.	6/26/2020 7:01 PM
1972	My DIA Student NEEDS In-Person. It is VERY difficult to teach a 2nd language remote. Our poor experience remote learning had more to do with the teacher not listening and refusing to address issues. My Palisade student loved the remote learning and would rather do that. He is most concerned about his sports opportunities right now.	6/26/2020 7:00 PM
1973	teachers need to be available M-F during the hours of the school day. My kid has a learning disability & when needing help with online work it shouldn't take over a week to get an email response. Teachers didn't seem to be available but were being paid. Seems like they were on vacation to me. Not a good experience.	6/26/2020 7:00 PM

Fall Planning Survey 2020

1974	Remote learning was hard, and I really want my kids back in school, but I want it to be done as safely as possible, for kids, teachers, and the community at large. If a hybrid schedule is needed please make it possible to coordinate sibling schedules so they attend the same days-even if they are in different levels (ie elementary and middle).	6/26/2020 6:59 PM
1975	Kids deserve to socialize with their friends	6/26/2020 6:59 PM
1976	I think it would be great if there was a remote learning teacher assigned at each grade level so that parents who feel more comfortable keeping their kids at home can have the option of remote learning. I would prefer my kids have in-person instruction but I also understand the concern of other parents who may have a family member with pre-existing conditions. As for the students who are attending in-person, I don't think they should have to wear masks during the school day. Parents who decide to send their kids to school are aware of the potential risk of COVID-19 and have learned to live with that risk. We can sign a waiver or something.	6/26/2020 6:58 PM
1977	I do not think that the kids should be required to wear masks. (I know that hasn't been said yet....but just as I'm hearing that rumor circulate around....) I think that will make it extremely difficult for them to concentrate and breathe.....and honestly, anyone that has young kids themselves knows that if they bring a mask to school, they will be messing with it and touching their face way more than if they had nothing on. Not to mention of other kids touch them....it's going to be an ineffective mess. If the kids are required to wear masks, or if they aren't allowed to have recess, or interact with their friends, I will be homeschooling them. Thank you for hearing me out!	6/26/2020 6:56 PM
1978	We are 100% against masks being required.	6/26/2020 6:55 PM
1979	Given that social workers have been cut- HOW are you going to support the students with social/emotional needs?	6/26/2020 6:54 PM
1980	We all need children back in school!	6/26/2020 6:54 PM
1981	Nope	6/26/2020 6:53 PM
1982	No	6/26/2020 6:53 PM
1983	If remote learning must have teachers actually providing instruction via video connection	6/26/2020 6:51 PM
1984	Need to be really clear on how to keep students and staff safe.	6/26/2020 6:47 PM
1985	Remote learning did not work well for my children. My high school student didn't have enough work for it to be worthwhile. My middle school student does not do well with online learning as electronics are too much of a distraction so he fell behind.	6/26/2020 6:41 PM
1986	We appreciate how difficult these decisions are and thank you for all your effort and consideration.	6/26/2020 6:40 PM
1987	No	6/26/2020 6:36 PM
1988	Let our kids go back to school normally, let them play sports, let them be social, for their mental health and their great good!	6/26/2020 6:36 PM
1989	My biggest concern about remote learning was the lack of "live" (Zoom) teaching that occurred. All of my children went from 7-8 hours of instruction per day to maybe 45 minutes of work with NO "live" instruction. This left an extraordinary amount of extra time each day they were not utilizing well. As a result of written instruction and weekly work expectations with almost no "live" (Zoom) instruction, their comprehension declined and frustration grew. Pre-recorded videos are not enough. Our family can adapt to remote learning but my expectation as a parent is that teachers will be teaching their classes DAILY. If my child attends Science at 9:00 am, I want her connecting to a science class at 9:00 am, followed by every other class thereafter. The daily live instruction (whether online or in person) will foster some socialization and a daily sense of connection and opportunities to ask questions and get answers in real time. There are many schools that have this model. Most universities pivoted to Zoom classes. Of course I realize this was a pieced together, best effort for the remainder of the 2019-2020 year but by August, I really expect to see a DAILY engagement, whether online or in person, that is similar to their hourly engagement when in school. Each of my daughters are in gifted, Honors, and AP programs and it's incomprehensible they will receive that education if what happened March - May resumes without significant change.	6/26/2020 6:34 PM
1990	No	6/26/2020 6:33 PM

Fall Planning Survey 2020

1991	I would like to see remote learning 100% but more user friendly one of my kiddos had a hard time getting this completed work to actually get sent to his teacher he'd have to do the work twice and that really frustrated him, me & the teacher.	6/26/2020 6:33 PM
1992	Let's be honest, this is not going away. There are too many people in a hurry to go to the bar, eat at restaurants, have gatherings, etc for this virus to go away. It is not wise to put all our children and staff together no matter what kind of hybrid system you think you can come up with. You are fooling yourself if you think COVID-19 is going to magically disappear or stop spreading. I would go on record saying if you move forward, kids and staff WILL get sick.	6/26/2020 6:32 PM
1993	No	6/26/2020 6:32 PM
1994	No	6/26/2020 6:31 PM
1995	Due to asthma, my child cannot wear a mask. So if returning to school requires that, we would choose remote learning. Also, the amount of extra work it requires for his teachers to have to teach multiple subjects and keep track of masks on students is asking a lot of them.	6/26/2020 6:30 PM
1996	Keep up the great work of keeping our children and the community safe!	6/26/2020 6:30 PM
1997	No	6/26/2020 6:30 PM
1998	I appreciate all the hard work everyone has done. Thank you.	6/26/2020 6:28 PM
1999	The social emotional health of our children was dramatically impacted by remote learning. It was very stressful for our sons. Lots of tears. Lots of frustration. Lots of loneliness. It felt like a death sentence to them emotionally. They need to interact with other children. They need other positive adults in their lives. They need teachers to teach them. Remote learning was a huge failure for us as a family.	6/26/2020 6:28 PM
2000	No masks	6/26/2020 6:26 PM
2001	I think that we shouldn't be sending our kids to school right now. There is no way you can socially distance in a high school and it's not worth taking the risk. Remote learning worked great and should continue for the safety of our children and all the people they could bring something home to.	6/26/2020 6:25 PM
2002	I'm not supportive of the idea of using masks, separated desks, separated at lunch, no music or P.E., no recess. I think that's too strict for the kids.	6/26/2020 6:25 PM
2003	I just want to say that I think D51 is doing an incredible job, considering everything that has been thrown at them and a huge shout out to the staff and teachers at Scenic Elementary. With that, I do have one concern regarding distance learning in the fall. My son will be transitioning to middle school and I know that they used a different format for distance learning (schoology). My son will not be familiar with that, so will there be a class or videos we will be able to watch to familiarize him to the program if distance learning will be required?	6/26/2020 6:23 PM
2004	Remote learning was not successful for our family. We can not afford to miss work if our children cannot attend school. We cannot afford to pay a sitter to facilitate remote learning. Our children simply have to attend school for our family to function. Please do not force our family to choose between poverty or inadequate education for our children. We know Covid-19 is a risk but a greater and more scary risk for our family is the possibility of not having school for our children to attend. Please allow school and let those who aren't ready for school for whatever reason opt for remote or hybrid. Not every family can afford remote learning. It denies the working class access to education for their children.	6/26/2020 6:20 PM
2005	It is difficult to manage remote learning with a job. I would like 100% face to face learning with zero restrictions	6/26/2020 6:18 PM
2006	My child has Asthma, and thus I selected hybrid as being the best option. I feel that if the situation continues as it has been, less person to person contact is better for her health so hybrid classes are a great choice.	6/26/2020 6:17 PM
2007	My wife and I are long-time D51 staff members, and a hybrid system would actually be more difficult for our family than 100% in-person or 100% remote learning because we would face challenges finding child care for our own children if we have to be at school and they don't.	6/26/2020 6:17 PM
2008	It is important to understand that my son's teachers that were doing a good to outstanding job in the classroom continued to do so remotely. The teachers that were mediocre to poor in the	6/26/2020 6:15 PM

Fall Planning Survey 2020

classroom just took the opportunity to provide yet another excuse for their lack of abilities. However, I do feel that the teachers that took distant learning to mean pack up & go camping or check out of their jobs clearly posting it on Facebook should be reprimanded in some way. It continues to be the normal process where many teachers carry much harder workloads than others, but all are treated the same when that just is not the case. Accountability is needed where a lack of effort & professionalism in education is concerned & many teachers dropped the ball. Make no mistake, the majority rose to the occasion!

2009	I have a type 1 diabetic son. Makes my decision for homeschooling.	6/26/2020 6:15 PM
2010	it is not safe no matter what precautions, changes we make until there is a definite cure or vaccine for the covid19 all school districts are just endangering our kids ,I will not allow u guys to put mour kids,my kids at risk,i know how important it is to have education,but you have to honestly say to yourself what good is education, if they get covid,not everyone survives,so was it really worth the risk far worse,god forbid they don't recover,and die,ok there smarter but now we lost our children so therefore the education unfortunately all of it does with them,so what was the point u guys cant guarentee our kids saftey,i will not allow any school districts to risk my kids life nor should any parent have to go through their child getn covid	6/26/2020 6:14 PM
2011	I would love the option of in person learning with online homework (ie turning in routine work via google classroom or email). Thanks for all you guys do!	6/26/2020 6:14 PM
2012	I was disappointed in the communication from teachers as this rolled out. I received an email the second to last day of school stating if the teacher did not feel the student did enough work they would receive no grade. With zero communication from this teacher for 2 months, I worked 50 plus hours a week and helped with homework daily and thought this was ridiculous. One teacher sets a bad example for our students. With that being said I think the majority did their part in helping. I would like to see partial in class with social distancing and some at home. I believe teachers get paid either way and should be competent enough to make this happen.	6/26/2020 6:14 PM
2013	After experiencing this 4th quarter online, we learned that kids need to be in school. Not only for the instruction part of it, but the social interaction with teachers and their friends. Thank you for allowing us to give feedback.	6/26/2020 6:12 PM
2014	My high schooler will not return if they are required to wear mask or social distance	6/26/2020 6:12 PM
2015	no mask wearing i will not put my child in that environment. Also they should allow children to play outside to get time with friends as well as eating in the cafeteria. This Corona virus is nothing worse than the flu virus.	6/26/2020 6:12 PM
2016	We dearly want to be back in school but the idea of kids in masks all day, in limited numbers and groups doesn't sound lovely or conducive to social wellbeing but I completely understand why it would be done so we will wait and hope the county stays healthy allowing the kids to return to "normal" schooling	6/26/2020 6:12 PM
2017	I have 2 daughters with ADHA. We have special provisions in place to help these kids to learn. My oldest hardly participated in the online learning because it was to hard for her to understand. She need in person instruction in order to understand. I took 8 weeks off work to be home and help her and it was just not a good experience. She would Try to log on to get instruction and at least half of the time was not able to logon because there was too many other kids using the system which was frustrating. Then in the afternoon when she was able to actually logon and view her assignments she had to go to three different spots almost every time and toggle back-and-forth between reading assignments and typing the answer in a different forum. This was very difficult for her to navigate, so she would get frustrated and give up nearly every time. She has special modifications in place for reading and all Her work online had to be read which made it hard for her to do without any help. Her teachers had tried to reach out several times to help her but she just struggle through the entire thing.I do not feel that the three of my children learned anything in this at home learning process. I feel if they don't go back to in person learning My children will have been failed by the school system.	6/26/2020 6:11 PM
2018	My kids need to be in school. My son did poorly during remote learning as he needs to be in a structured environment that I am currently unable to provide at home. My daughter also has a hard time with some of her classes (6th grade), and neither she nor I were able to reach ANY of her teachers, either by email or phone to ask questions. I even emailed the contact info on this site and did not receive a response. I was extremely unhappy with Grand Mesa's remote learning.	6/26/2020 6:10 PM
2019	No thank you	6/26/2020 6:09 PM

Fall Planning Survey 2020

2020	My high schooler will only return to school if it is normal no mask and no social distances	6/26/2020 6:08 PM
2021	In person learning is extremely dangerous to those of us with immunocompromised children. Especially since the majority of people in grand junction/fruits/clifton/etc have not and will not follow guidelines to ensure the safety and health of anyone around them. Its extremely concerning and if in person learning is to be allowed I would hope guidelines for children and their parents picking them up would be enforced heavily. Immunocompromised children should not be put at risk due to other parents not knowing how or caring to be empathetic.	6/26/2020 6:07 PM
2022	Please think about the safety of our children and our teachers!! I don't think it's wise to have in person learning	6/26/2020 6:05 PM
2023	I would feel comfortable with my kids attending school with a strict health policy in plan and the option to do work online at home if needed	6/26/2020 6:05 PM
2024	I am more concerned with safety than socialization at this point. My son's grades were not a failing on instructors, but a failing on my part as a parent. I believe he could do well in a virtual learning platform, but it would require more attention on my part. I would prefer that to exposing him needlessly in a pandemic.	6/26/2020 6:03 PM
2025	Being a type 1 diabetic, my daughter is high risk, I would still like some normalcy for her. Also, we were a bit disappointed to find out everyone got the same credit for the online learning whether they participated or not.	6/26/2020 6:03 PM
2026	If the covid cases remain steady or just slightly increase I would be ok sending my child to school. But if cases spike then I'd be ok with remote learning for the first few months of school and transitioning to in person learning.	6/26/2020 6:02 PM
2027	Please don't do the remote learning again. It was a horrible experience. I'm 99% sure my children, who are great students, learned very little. It created a ton of stress and conflict in our home. They need the social interaction and face to face instruction to truly learn and grow. I would vote for opening schools and keeping any sick children at home until symptoms are gone and they are cleared by a doctor to return.	6/26/2020 6:01 PM
2028	No	6/26/2020 6:00 PM
2029	Please err on the side overly cautious. Do not feel like you have to give in to the anti-maskers group that came to the school board meeting. There needs to be a middle of the road solution for ALL of us. We need to KEEP cases low in Mesa County by using masks and providing a hybrid of in person learning with small cohorts and online learning opportunities. Going back to business as usual is absurd, unsafe and unwise. Even if some of those parents take their kids out, I guarantee they'll be back. These are the same people who said online learning is unhealthy and harmful for mental health yet they threaten to take their kids out of our schools! It's a threat and they're bullying the rest of us. I am a teacher as is my 67 year old mother. Please keep staff members safe. Masks need to be used in large groupings. Research shows it keeps the virus at bay. We need small cohorts and masks in hallways at least. Please don't feel pressured by that group to ignore research. Thank you as always for getting our feedback.	6/26/2020 6:00 PM
2030	I am concerned about consistency if we are doing a combination of remote and in person learning.	6/26/2020 5:59 PM
2031	No	6/26/2020 5:59 PM
2032	If remote learning, having video instruction by their teachers (either live or recorded) would be preferable to book/Khan Academy.	6/26/2020 5:58 PM
2033	Online learning was impossible. I had a kindergartener and a 2nd grader last year along with a toddler at home. Trying to entertain a toddler while teaching school to two kids was not feasible. When the 2nd grader had less homework than the kindergartener it was frustrating. To complete the assignments it was taking 7 hours. It was a daily struggle and we will pull kids and do our own curriculum. I will not do online learning with district 51 after our previous experience.	6/26/2020 5:58 PM
2034	I think online or hybrid sessions would be the safest option for children, teachers, and our community. We have to start thinking ahead and not just about how to go back to the way it was to provide the education that is needed and the safety for our community.	6/26/2020 5:58 PM
2035	The numbers are unreliable and without a vaccine; I am hopeful that we will find another way for children to be educated without face-to-face instruction. Please consider children who may look healthy but suffer from autoimmune issues. Please consider parents, grandparents and	6/26/2020 5:56 PM

Fall Planning Survey 2020

teachers/staff that are immunocompromised. We have the ability to learn remotely as inconvenient as it may be. Lastly, please consider our teachers who are mandated to teach with COVID as they have their own unique health challenges themselves and within their own families. It is too costly for everyone to resume regular, in person meetings given the likelihood of another spike. Our valley cannot withstand high numbers of cases given how it will tax our healthcare workers and facilities. Mesa county simply doesn't have the resources to support a high number of COVID cases. Thank you for taking the time to read what I've written.

2036	I would like the district to be very careful sending students back to school just because some noisy parents are crying about how we must go back no matter what. I believe this virus is serious and I worry about my family becoming ill because people dont take it seriously. Additionally, NO ONE is talking about the risk to teachers. Please consider thier safety as well. There have to be options that work for everyone! Frankly, Im not excited about everyone going back like nothing happened. We worked hard to stay safe and I dont want to throw it all away now!	6/26/2020 5:56 PM
2037	Hoping for full time in person school!	6/26/2020 5:55 PM
2038	I will 100% the school board and super attendant in whatever decisions they make. Following the Mesa county health guidelines is not a problem for me or my children. I just want everyone involved to stay as safe as possible. Thank you for all your hard work.	6/26/2020 5:53 PM
2039	Do not make children wear masks. Open schools as normal, there is no real reason not to.	6/26/2020 5:53 PM
2040	He has graduated	6/26/2020 5:53 PM
2041	Thank you for asking! We would also really like to see ice hockey as a school sport option!	6/26/2020 5:51 PM
2042	Kids need professional teachers to teach them. Hard to expect a 12 year old to learn on his own when both his parents are working.	6/26/2020 5:51 PM
2043	Communication and how to the school work needs to be done better if school is going to be online...also something for lep children needs to be set up.	6/26/2020 5:50 PM
2044	I would like to see a hybrid model in case numbers increase and we would need to move to remote learning plan. We are then better equipped to adapt to the change.	6/26/2020 5:49 PM
2045	If school does not resume as it was before Covid my children will not be attending. Their mental health etc has suffered enough. We will do non-D51 homeschooling instead.	6/26/2020 5:49 PM
2046	As a teacher and parent I think it is extremely important to start as normal as possible to make face to face connections with kids. I do not believe the children receive the same education online as they would in school. If our numbers co ti is to stay within reasonable limits I would hope that we could ask for a variance since our district is not like those on the Eastern Slope.	6/26/2020 5:49 PM
2047	If it is recommended that children are not to return to in school learning, our family will choose to not start our 5 year old into kindergarten for the 20/21 year.	6/26/2020 5:49 PM
2048	Please don't do remote learning!	6/26/2020 5:48 PM
2049	Prefer my child to attend school on the fall, but if it's not possible I feel it would be beneficial for classes to be taught on zoom so kids still have access to their teachers and they are not having to teach themselves	6/26/2020 5:46 PM
2050	If modifications or masks are required or the hybrid program, my family will temporarily relocate to another state so they can have in person school, and they will not be in D51	6/26/2020 5:45 PM
2051	Please teach our children all of American history.	6/26/2020 5:45 PM
2052	I don't care how well you may think social distancing would work. Kids are kids and they almost NEVER wash their hands without being prompted, they are constantly touching their faces. Even if masks were to be required, the cleanliness of in person learning would never be enough. And you honestly think you could make kids maintain social distancing? They hug, they fight, they play tag, and what about playground equipment? How well will that be maintained? I understand people want to get back to normal, but we aren't living in a normal time right now. People need to stop putting what they want ahead of the health of humanity. It's selfish. And the classroom sizes are too small to maintain social distancing when we're packing almost 30 kids into a classroom! Not to mention some halls aren't even six feet wide, AND, if a child were to sneeze without a mask on, those germs go way beyond 6 feet, think more along	6/26/2020 5:44 PM

Fall Planning Survey 2020

the lines of 30 feet in all directions. Any in person learning should be done by appointment for those struggling, with masks on. I could say more, but I believe I've made my point. Thank you.

2053	Remote learning proved disappointing with very little instruction involved. If D51 has to provide 100% remote learning we will be looking into options with a more proven track record for results.	6/26/2020 5:44 PM
2054	I see Mesa County residents gathering in large groups, going out for non-essential shopping and errands, and largely not wearing masks. This really worries me because I anticipate seeing our COVID numbers go up soon. My family has practiced social distancing, remained Safer At Home, and always wear masks when we go out for essential errands. So many people are not doing the right things to protect our community, and there will be adverse affects. It worries me to have hundreds of kids in a school building and 25+ in a classroom, all sharing germs! And there's no way little kids can be expected to wear masks, cough into their elbows, etc. I just don't know what this is going to look like, and it makes me nervous.	6/26/2020 5:44 PM
2055	My children are a part of MVCS, we do not attend classes at the school. However, we do meet monthly with the Academic Advisors. With all of the uncertainty surrounding Covid, I would ask that we have the option to continue online meetings. I have a child that falls in the high risk category and want to ensure there is an option for non face to face meetings. Thank you in advance, Lisa	6/26/2020 5:42 PM
2056	No masks required for students doing in person learning in the fall please.	6/26/2020 5:41 PM
2057	I think online learning was okay, the teachers weren't able to get through all of their curriculum and so the kids are behind in their schooling. Also, we had some teachers never respond to emails and questions, so that ended up being frustrating. Communication is very important with parents as they are overseeing what's being accomplished at home. Some teachers had no interaction/instruction with the kids. Some of the remote learning needs to be planned better.	6/26/2020 5:40 PM
2058	No	6/26/2020 5:39 PM
2059	Please go back face to face! Our kids need the interaction!	6/26/2020 5:36 PM
2060	Homeschooling my kids was a horrible experience. My husband and I both work full time and it was an extremely difficult situation. I feel like the education they received at home was very poor quality (because of me) compared to what they get at school.	6/26/2020 5:33 PM
2061	Online learning was difficult because each teacher did something didn't & I would recommend the teachers to have a schedule because my student received assignments all throughout the day even some as late as 6pm	6/26/2020 5:33 PM
2062	We will not attend if masks are required.	6/26/2020 5:31 PM
2063	I feel like kids should go back to school. I am a teacher and a parent and know there is a significant difference between face to face learning and online learning. Many parents are back at work, which would leave many kids in daycare anyway. If kids went to school part of the time and online part of the time, they would probably be interacting with more kids because many would be attending daycare as well- on the days they are not in school.	6/26/2020 5:31 PM
2064	The social emotional impact distance learning has had and will continue to have on our children is my biggest concern about remote learning scenarios. The academics can be caught up and dealt with. The impact on their little hearts and minds, their overall wellbeing and emotional health is where I have heavy concerns about remote learning of any kind. They NEED to be with peers and educators not at home with mom or dad or whomever can teach them. It is also a huge impact on parents who must work and cant be off to be a teacher. Please, please attempt to send our kids back in person in the fall!	6/26/2020 5:30 PM
2065	We will support whatever decision is made. However, we are fortunate to be able to support remote learning or a hybrid model. I strongly believe that children need some in-person time, for social reasons, but mostly because school serves as such an important safety net for many children that might be abused or neglected or hungry or otherwise in need at home. Whatever measures need to be taken to allow for some in-person learning are well worth the effort!	6/26/2020 5:29 PM
2066	Please allow our children to attend school this 20/21 school year. They miss who they were before all of this covid 19.	6/26/2020 5:29 PM
2067	We Will not be attending if forced to wear a mask!	6/26/2020 5:28 PM

Fall Planning Survey 2020

2068	Our remote learning experience was not a reflection on the teacher.	6/26/2020 5:28 PM
2069	Sports were not discussed and I understand the barriers to returning to sports but I am desperately hoping that they will be able to play. Even if it is just local, even if the season needs take some postponement breaks. My sons mental health and school achievement are closely tied to sports.	6/26/2020 5:28 PM
2070	There was a big difference with Elementary vs Middle on line learning It was satisfactory for Elementary School for my daughter but if I am not working from home she can not be left to figure out steps on her own The teacher responses and implementation phases were more rigorous and intentional For MS it was very very difficult and not satisfactory Although my son worked extremely hard it was extremely anxiety provoking for him. I spent most of my time with him Explaining steps and directions The implementation was not clear and we had more challenges with schoology and teacher responses The Google meetings were very difficult and lacked structure and purpose I would rate our online experiences different for elementary vs middle school	6/26/2020 5:27 PM
2071	I will not be ok with my children wearing masks at school.	6/26/2020 5:27 PM
2072	Hope that safety comes before pressure to pack kids in. My son loves distance learning, so he's hopefully headed to Grand River. My daughter is a senior with terrible lung capacity, so we hope again, that the district takes into account not just the healthiest of its students when planning the school year.	6/26/2020 5:23 PM
2073	No	6/26/2020 5:23 PM
2074	Please return learning to NORMAL!! My kids HATED online school. Please let them socialize, have specials, and eat lunch like regular.	6/26/2020 5:22 PM
2075	I do not support the use of face coverings for our children if they are permitted to return to in-person instruction. It would be better to focus more on verifying outdoor air supply into the classrooms meets ASHRAE standards, and implementing 6-foot distancing, in lieu of face covering use.	6/26/2020 5:22 PM
2076	In regards to question 8, the public health does not have any bearing on the best way for my student to learn. While I believe that my student did best at remote learning, if schools reopened, he would go back. If there's an option of going back or remote learning, I would let him choose what he wanted to do.	6/26/2020 5:21 PM
2077	Please, please, please, do not move to remote learning.	6/26/2020 5:20 PM
2078	I believe my children would benefit from either 100% in school learning or 100% online learning. I believe the inconsistency of doing both would derail their learning. I do NOT believe not allowing recess is beneficial. Being outside will be better.for their health.	6/26/2020 5:20 PM
2079	Good luck. There is no right answer.	6/26/2020 5:19 PM
2080	If masks or social distancing is a requirement of children to return to school we will enroll our kids in a NON D51 school! This has been the most ridiculous crap ans I won't subject my kids to the stupidity of those who have no common sense!!!!	6/26/2020 5:19 PM
2081	Please keep in mind the families that are adhering to the Covid regulations due to at risk family members who may choose to do only remote learning due to risk of exposure.	6/26/2020 5:17 PM
2082	No	6/26/2020 5:17 PM
2083	no	6/26/2020 5:16 PM
2084	If everything is back to 100% normal I would love to send my kids back to school. I won't send them to school to social distance or wear a mask. If that is how it will be I will choose homeschooling.	6/26/2020 5:16 PM
2085	I would like the district admin to know that I believe you all will make the best possible decision. I do not envy you, as there is no way you will please everyone. I just appreciate that you put the health and safety of students and families first. Thank you.	6/26/2020 5:15 PM
2086	Thank you to all the D51 staff for doing their best during these unknown times. However from my experience my 3 children learned the bare minimum during the remote learning, if anything at all. It is so important for these wonderfully qualified teachers to let the students back in the classroom for face to face teaching. I believe from what I've seen and read that COVID 19 isn't	6/26/2020 5:15 PM

Fall Planning Survey 2020

too serious in healthy children and the majority have mild symptoms and make a full recovery. Again, thank you for all you've done, but it's time to return to normal and move forward.

2087	School is about learning to be social, not just education. If they cannot interact or play with each other there is no point to send them.	6/26/2020 5:14 PM
2088	Remote or online seems the safest option until we know more. The teachers at Redlands middle did an excellent job!	6/26/2020 5:11 PM
2089	If there is in person or hybrid learning, making optional mask wearing would be my feedback as both my children have health issues that prevents them wearing masks.	6/26/2020 5:11 PM
2090	No mask	6/26/2020 5:10 PM
2091	If remote learning is done, there needs to be actual classes to attend, not this assigning stuff and leaving the kids to do what they want.	6/26/2020 5:09 PM
2092	The remote learning wasn't perfect but it got better and did it's job. My child did better on some subjects at home from the one on one learning than trying to speak up over 20 other kids for help. I am hoping for the Hybrid schooling, half in person instruction and half at home.	6/26/2020 5:09 PM
2093	My kids will not graduate if school doesn't resume normally.	6/26/2020 5:08 PM
2094	No	6/26/2020 5:08 PM
2095	If 100% online school, we will pull out of D51 and home school.	6/26/2020 5:07 PM
2096	Online was a hard start, but the teachers stepped up and gave both my kids an excellent educational experience.	6/26/2020 5:07 PM
2097	Think we should have the option to go in of do remote learn.	6/26/2020 5:07 PM
2098	If a hybrid plan is needed, half day would be an issue. It would work better to do a 3 day week then 2 day week, or some variation that had them in school full days so that we are not trying to transport and find child care for partial days.	6/26/2020 5:07 PM
2099	Please open the schools for in student person to person learning without restrictions.	6/26/2020 5:06 PM
2100	My daughters dr wants her on an iep due to her adhd and all I have gotten is a run around. If I have to teach my children again during this next school year I expect to receive the money that their teachers would get for teaching my children. I pay my taxes and send my children to school because it is not my job to teach them. Since school is mandatory for my children it is mandatory that either the teacher does their job or they do not need to be paid	6/26/2020 5:06 PM
2101	Thoughts: it is very difficult to have 2 parents that are fortunate enough to work full-time and teach/help 3 children in different grades. If kids are not able to be in face to face school full-time do 50% student body (e.g. a-m going in morning and n-z afternoon) and flip flop morning and afternoons at the end of a quarter. The other part of the time the kids are not in school and doing remote learning kids get taught by via web their teacher(s) the other part and the teachers teach a subject during that time. Also kids on an IEP need help daily with work especially a kid on an iep moving from 5th into middle school.	6/26/2020 5:05 PM
2102	If it has to be remote learning, we would want the classes to be mandatory online class for a full class time. Not just assignments and certain times for help. Otherwise we would look into an established online schooling program.	6/26/2020 5:04 PM
2103	I would prefer to see the start date pushed back and resume school in-person rather than start the school year online, if it comes to that.	6/26/2020 5:04 PM
2104	We believe that children need to be back in person in school this fall with no restrictions. This would include not wearing masks and being able to go on recess and use the cafeteria and interact and engage with their peers.	6/26/2020 5:04 PM
2105	FACE TO FACE LEARNING HAS TO HAPPEN. WITHOUT MASKS. I WILL NOT SEND MY CHILDREN TO SCHOOL IN MASKS. EVER.	6/26/2020 5:04 PM
2106	Remote learning was not very effective for my youngest. She very much struggled. That said, I want them safe and we will make the best of whatever is to come.	6/26/2020 5:03 PM
2107	The needs of special education students need to be accommodated in-person. Requiring masks all day is not realistic. The efforts done by Laura Coulter and her staff in the spring were	6/26/2020 5:03 PM

Fall Planning Survey 2020

impressive and appreciated, but in-person learning and integration into the regular education classroom is needed.

2108	If Hybrid learning or online learning is going to take place there has to be a better structure. I would be more in support of this if I could actually hear from the school district on what they were planning and if I knew there was going to be a set structure and schedule.	6/26/2020 5:02 PM
2109	If our children are able to return in person, we would appreciate them being able to be near classmates. We do not want them to return if they have to be physically distanced during class time or recess time. Especially for younger children. Our children also want and need to see their teachers faces for continued oral speech development. Although we had a good experience with remote learning, it was a stressful time to try and facility for 3 students, one of which was a CHS graduate. Our children And the teachers need and deserve the best of care and the best learning environment possible. Thank you.	6/26/2020 5:01 PM
2110	I would like to see them go back to in person full time. The children need that interaction. My child is having issues with it not being innschool.	6/26/2020 5:01 PM
2111	No	6/26/2020 4:59 PM
2112	I don't want our kids in masks all day. My teens will attend depending on what opening looks like.	6/26/2020 4:58 PM
2113	We hope the state law limiting outdoor time for children will be reconsidered in these difficult times.	6/26/2020 4:58 PM
2114	It is important to me that children are not required to wear a mask. That's just a nightmare of concentrated contaminants.	6/26/2020 4:58 PM
2115	I am a health care worker and single mom. My daughter does best in the classroom not only due to her learning needs but also because I am not available to help her at home too much.	6/26/2020 4:56 PM
2116	I strongly feel my child will be extremely behind in learning what he should know if we are not 100% in person learning. I also feel that with both parents working full time during the class hours he will not have the help to succeed staying on top of his class work load.	6/26/2020 4:56 PM
2117	No	6/26/2020 4:56 PM
2118	I would like to say that I did not like the remote learning for my child o felt that as if they did not like it and did not want to do there work. They are better in a face to face setting . I felt they did not try there best.	6/26/2020 4:55 PM
2119	They need to go back 100% with no masks as they inhibit clear thinking and we lack emotional human contact while covering half our face.	6/26/2020 4:55 PM
2120	I am concerned that if we do go back to school as normal and it starts to get bad here the school district will not act quickly to assure everyone's safety. I am also wondering how students can social distance in middle and high school with changing of classes.	6/26/2020 4:55 PM
2121	n/a	6/26/2020 4:54 PM
2122	I am absolutely against any kind of online learning. I am a single parent and worked full time the whole time they were doing online learning. I can't do that again, it's way too stressful on myself and my children. The kids need to be in school, I don't feel my kids learned anything that will help or benefit them in the future the entire time they were online learning. It was a complete joke.	6/26/2020 4:53 PM
2123	Please think about the safety of whatever you implement. My wife and I are both teachers, so we are at 4 different schools. This is concerning to us because of all of the germs/interactions we will have each day. Our nephew is immune compromised so we are also worried about him	6/26/2020 4:52 PM
2124	No	6/26/2020 4:51 PM
2125	I am all for community safety, I wear a mask into the grocery store, but we have seen record lows of cases in our area and to require our children who are just entering school for the first time to wear masks for 8 hours a day seems ludicrous. I know you guys are facing a tough decision but keep the well-being of the children in mind.	6/26/2020 4:51 PM
2126	With our numbers jumping up the last few weeks I feel the children would be at high risk	6/26/2020 4:50 PM
2127	I have lots to say but will keep it to myself for now.	6/26/2020 4:49 PM

Fall Planning Survey 2020

2128	I am concerned mostly with restrictions children will be requested to follow. If Heth care guidelines restrict their ability to be children, to play, participate in PE, or not be able to build relationships, we will probably choose to homeschool moving forward. We are committed to the schools we are involved in, so please know we will support you, the schools, and their staff to best if our abilities.	6/26/2020 4:49 PM
2129	My child will not attend if masks or social distancing are required	6/26/2020 4:49 PM
2130	My children found that the actual academic portion of schooling was better online than in class instruction, however, did miss their friends. If there is a requirement for face masks and partitions, one way hallways, etc., I would not be sending the children back. All of my 3 high schoolers are involved with band, choir and sports that are critical to their future plans and those things have to be done in person, not online.	6/26/2020 4:48 PM
2131	Last year it was difficult to want to send her to school before this virus came along. The prek was closed due to illness multiple times. And she would get sick after sending her back a couple of days. I have a chronic lung disease I cant risk my children bringing something home.	6/26/2020 4:48 PM
2132	My children did really well with the remote learning, and we had a couple wonderful teachers which really helped! (As a side note, we also had a kindergarten teacher that consistently wore low-cut, spaghetti-strap, or workout, etc type of unprofessional clothing in videos which was not appreciated. Perhaps that could be addressed if hybrid or remote learning is chosen.) It was stressful at first and a big learning curve, but once we got it figured out, it we enjoyed the change of pace. We would prefer going back to school 100% if it is safe enough, but we're also open to a hybrid plan. My husband and I were able to rearrange our schedules so we work opposite shifts until school starts. We may have to look at daycare if school is not the typical 100% in classroom. I feel that a lot of parents worry about childcare. Thank you for the opportunity to give our opinion!	6/26/2020 4:48 PM
2133	My biggest concern is for my kindergartner who requires structure and loves letters and numbers right now. I'm not a teacher and I work 12 hour days so teaching him basic skills that he would normally learn in kindergarten Re: reading and numbers is not something I feel capable of teaching him through online learning. I strongly feel like any sort of online learning for him is going to set him up for failure. Not to mention the lack of social interaction necessary for development at his age. Also, I do feel most teachers did their best to adapt to online teaching however I felt the lessons provided weren't online friendly so if online learning becomes the way we proceed with this coming school year I would consider enrolling them in an actual online school with lessons designed for that purpose.	6/26/2020 4:48 PM
2134	My son tried reaching out to 3 different teachers at Palisade High, then my husband helped him email again, in attempt to get recovery work from his science class. They never responded and he ended up failing, after his special education teacher told me he needed that class to go to the Career Center class he got into for the upcoming year. He's going to be crushed if he misses out on it now because they completely dropped the ball and failed on helping him get the work to him from before school was closed. I also emailed and spoke with the principal prior to the school year starting to explain immediately we had no way to pay fees and needed help with school supplies - he said it wasn't a problem and because we receive free meals and are on SNAP they should be covered. About 2 weeks ago we got a letter not only saying he failed science, but owed over \$100! We've also desperately struggled with getting the help he needs on his IEP and are on the verge of seeking legal counsel.	6/26/2020 4:47 PM
2135	My husband and I both work full time, so it would be incredibly difficult to home school on top of working. I know that this time is unprecedented and evolves quickly, but that is our situation at home at this time.	6/26/2020 4:47 PM
2136	For two of our children 100 % in school learning is best. For one son, who has ADHD, we would prefer him to continue with career center and in person for his band classes etc. we were delighted to find he excelled with remote learning and grad point classes so much better than lecture classes. We would love for him to have this option to continue for his last year as a senior	6/26/2020 4:46 PM
2137	Nope	6/26/2020 4:46 PM
2138	No masks, let them be kids and build immunity!	6/26/2020 4:44 PM

Fall Planning Survey 2020

the same time. Also- need a better system if accountability for students. They are all very aware that if they don't do the work....they are still getting by. Especially those students with no parent support at home. I don't have an answer... just some of the concerns on my mind!

2140	I'm very unsteady about sending my children back to school, especially with all the new cases that are popping up everywhere. I will most likely keep them home and homeschool them.	6/26/2020 4:43 PM
2141	Under zero circumstances will I send my child back to school if they have to wear masks and under zero circumstances will I send my 6th grader if she cannot go from class to class for learning and is stuck with one teacher all day. Every teacher went to school and wanted to teach a SPECIFIC subject and all teachers cannot teach certain subjects as well as the ones that specialize in that area. It would be a great disservice to students if they could not learn because they don't have the best teacher to teach them.	6/26/2020 4:43 PM
2142	In person would be great but there is no way to get the students to adhere to social distancing and or masks.	6/26/2020 4:43 PM
2143	If masks, social distancing of any kind, or lack of sport options exist I will pull my kids from District 51 and enroll them in an option outside of District 51	6/26/2020 4:43 PM
2144	I felt that his teachers were hands off, had extremely reduced office hours. He has WCCC classes which the instructor was much more attentive. Knowing the district is well under financed my belief would be to start cutting salaries of teachers everybody else in the world Las salaries why aren't these teachers losing salaries as well? From the efforts that I saw the spring as far as instruction time and products that they were using to teach it was extremely poor. I know they have a program because my son did summer school the year before last which was much more engaging and difficult and supported much better by the summer school program then Fruita Monument HS this year with all of the spring efforts. If I had to grade theThe system that supported my son this year it would be a straight F!	6/26/2020 4:41 PM
2145	If schools aren't normal my children won't be attending. Add more recesses, advocate for smaller class sizes. Clean the building like you would for the flu or pink eye. Carry on as normal. No masks. Just hand washing.	6/26/2020 4:41 PM
2146	No	6/26/2020 4:40 PM
2147	No	6/26/2020 4:39 PM
2148	No restrictions! No face masks! It's time to resume normal life and school!	6/26/2020 4:39 PM
2149	If we do online schooling, it would be helpful to not do as many online platforms. It was challenging having to learn so many.	6/26/2020 4:39 PM
2150	I know you guys are doing the best you can based on the situation we have in front of us. I do strongly believe if you guys require the children to wear face masks they will not do it and it will make the teachers stressed for having to constantly tell kids to put their masks on. But again I understand you guys are doing the best you can with the situation you have.	6/26/2020 4:38 PM
2151	I realize no one had all of the answers during the end of the school when remote learning was put in place. We were essential workers during and still are so for me it didn't work. Especially when the elective classes were also required to be done! One class the teacher would never email us back for two months! So we paid them to be on an extended vacation! I believe we must think of the children and their education. If remote learning is the way we are heading with our school district my kids will not be attending I will find a home school program that will actually benefit them. I will not be paying the district to teach my kids when I am in fact the one doing it.	6/26/2020 4:38 PM
2152	No	6/26/2020 4:38 PM
2153	I think remote learning could be great if all the links got worked out. We struggled with help for my son who has accomadations on his EIP. Some teachers didn't even respond when we asked for help.	6/26/2020 4:38 PM
2154	Please let them go back!	6/26/2020 4:37 PM
2155	No face masks!!! School should return as normal with no restrictions, Including no restrictions on recess, lunch, and specials. If you are sick stay home, as per normal standards.	6/26/2020 4:36 PM
2156	If there is no 100% face to face learning, my incoming Senior will be graduating early do to the fact that he won't be able to experience a normal 12th grade year and he is currently 4.3 GPA	6/26/2020 4:36 PM

Fall Planning Survey 2020

student. My 7th grader is a good student and she did not do well at all with home based learning. She fell behind and lost confidence. She has a visual learning style which made it extremely hard to not see the teacher working problems on the board. BOTH OF MY KIDS HAVE ACUTE BRONCHIAL SPASMS AND I AM VERY CONCERNED IF THEY ARE FORCED TO WEAR A MASK TO SCHOOL VERSES THEM GETTING THE VIRUS.

2157	If they have to wear mask all day we will home school our child . You can't ask kids to wear them all day	6/26/2020 4:34 PM
2158	My son has an iep and remote learning was not at all a good experience.	6/26/2020 4:34 PM
2159	No	6/26/2020 4:34 PM
2160	Kids need to be back in school like before. This is an overblown situation. It needs to be treated like the seasonal Flu and nothing more. Please stop buying into the unneeded panic and fear.	6/26/2020 4:33 PM
2161	I will not be sending my children to a d51 school or affiliated homeschool if stipulations are out in place such as masks or social distancing	6/26/2020 4:32 PM
2162	Working parent would not give my children the education they need	6/26/2020 4:32 PM
2163	No	6/26/2020 4:31 PM
2164	Hybrid is inevitable	6/26/2020 4:31 PM
2165	If remote learning is needed again- It would be helpful for children to have a daily check list provided by teachers at the beginning of the week so the kids know what to expect throughout the week. It was really difficult when teachers added google meets late in the afternoon after the child had already finished work for the day. We missed a lot of "needed/required" meets because we did not know about them. Also it would be nice if teachers, even in higher grades, included parents on emails.	6/26/2020 4:30 PM
2166	PLEASE LET US COME BACK AS NORMAL!! THESE KIDS HAVE BEEN THROUGH ENOUGH ALREADY!	6/26/2020 4:30 PM
2167	It would have been nice if we could've checked the chromebooks out thru the summer to keep our students, who've already missed so much school, somewhat current with their learning.	6/26/2020 4:29 PM
2168	I do not want my children required to wear masks all day while they are in school	6/26/2020 4:29 PM
2169	As a single working parent, remote learning with a Kindergartener (last year) was a significant challenge. Lack of childcare resources in our community has already been a problem, with covid complicating access even more! While remote learning is not ideal, a blend of in-person and online would be satisfactory to reduce (although not eliminate) risk with fewer children in the building at one time. But if remote learning is done like it was in the spring, I would rather homeschool my child with the curriculum and style of my choice. If public health can allow for some in-person learning to best accommodate the most families in a blend of online and in-person, that would be a happy medium. Thank you for taking feedback!	6/26/2020 4:28 PM
2170	No	6/26/2020 4:28 PM
2171	My children will not return to public school if masks or social distancing are required	6/26/2020 4:28 PM
2172	My child felt there was a lot more school work given and teachers did not communicate with each other so most school work was due at the same time. This stressed her out and made her want to quit, which lead to stress of parents harping on her to get it done. When in school, she felt less stress, every assignment wasn't due on the same day. Being at school in person, if you didn't understand what the assignment was, you were able to speak with your teacher about it so they could demonstrate how it works. At home school it was very difficult to have that connection and understanding of the concept.	6/26/2020 4:28 PM
2173	No	6/26/2020 4:27 PM
2174	The remote learning was not at all conducive to active learning. It was mostly busywork and a huge inconvenience. Kids need more activity and face to face time in their lives, not more screen time!	6/26/2020 4:27 PM
2175	I believe it is important that if at all possible for students to be in the classroom learning from the amazing teachers and with their friends/peers.	6/26/2020 4:25 PM
2176	For online remote learning, we felt like it was a little too much screen time - it would be nice to	6/26/2020 4:24 PM

Fall Planning Survey 2020

be sent home with tangible worksheets/workbooks/assignments. Teamwork with projects together would be nice too, so they can have socialization at home as well.

2177	If the children are required to wear masks my child will not be returning to school. I will find a private homeschool.	6/26/2020 4:24 PM
2178	Masks would be hard for teachers and students. Online is hard to motivate and hard to stay focus. Perhaps do in person until November then online for final line many colleges accords the country.	6/26/2020 4:22 PM
2179	Please let children go back to school! I would sign a waiver for them to attend! They miss school and their friends and teachers. This situation does not affect them and they need their childhood back!	6/26/2020 4:22 PM
2180	As a full time student and working mom, I am really relying on in-person schooling for my Kindergartner. I also understand the seriousness of COVID-19 and trust you will make the right decision based on Public Health guidelines/protocols	6/26/2020 4:21 PM
2181	I feel face to face learning is essential for the younger students, but high school students should have a choice of learning in person or remote	6/26/2020 4:20 PM
2182	If my child has to wear a mask during school he will not be attending. If my child has to eat much 6 feet from his friends he will not be attending. If we do remote learning the teacher better be 10 time better than they were before! Also no GROUP project as my son failed it because no one helped him!	6/26/2020 4:20 PM
2183	How/will extended care be available for hybrid or remote learning? Will it be accessible if we go back to school as well?	6/26/2020 4:19 PM
2184	I want my son to attend school but we are going to wait until November or December when all the sickness tends to be the highest. CDC is stating that the COVID-19 will come into the schools. My son cannot get either form. It will send him to the hospital because of his health. There is 2 elderly people that live with my son. Masks and my son's breathing I cannot see it happening for any length of time.	6/26/2020 4:18 PM
2185	Kids really miss there friends and personal interaction with teachers.	6/26/2020 4:18 PM
2186	I know there are many unknowns but I would appreciate it if the district would make a plan and move forward. You need to make your decisions so we can make ours. My kids are hoping to go back to school in the fall but if this upcoming school year is modeled after last quarters curriculum I will pull them out of the district completely and choose a homeschooling curriculum that works with our lifestyle.	6/26/2020 4:18 PM
2187	So what's changed? If you mandate in person school and my child gets sick then our at risk family members will most likely be compromised. We can't realistically ask kids to distance and where masks all day. Until a more therapeutic treatment or vaccine is available I would hope D51 makes a good decision. One positive case in school and the year is over.	6/26/2020 4:18 PM
2188	My child will not be attending if they are required to wear masks. Only if they return to normal learning	6/26/2020 4:18 PM
2189	Social distancing for kids is awful and is going to cause more problems mentally. We will continue to homeschool.	6/26/2020 4:17 PM
2190	Requiring a vaccine or face-mask would be a deal killer. Not enough research to support either one at this point.	6/26/2020 4:17 PM
2191	Distance learning was not equal between all of my children. As parents we supported and all of my children succeeded, but not all teachers were able to offer equal education through distance learning. Some teachers offered a full curriculum, while others struggled to upload videos. Depending upon the reopening plans we will be considering Grand Rivers, an online only, or if the expectations on children allow for recess and a full classroom experience, on campus. Our decision really depends upon how reopening looks.	6/26/2020 4:17 PM
2192	No	6/26/2020 4:16 PM
2193	As a school employee with workdays required during even non-student days, having anything else than 100% in person would require my bringing my child to work and attempting to "teach" while working or paying for and relying on daycare or alternative care staff to teach her or would require her school days to start when my work days end to can teach her. I know health	6/26/2020 4:16 PM

Fall Planning Survey 2020

concerns are of the utmost importance, but learning needs have to also consider parents who are required to work in building even if their student isn't doing in-person learning.

2194	Children need interaction, they need the face to face learning. They are KIDS let me be kids and get back to school. Not going back to school will jeopardize their future of learning.	6/26/2020 4:16 PM
2195	If guidelines are implemented for returning to school (masks, social distancing) our decision will be home schooling. We will not have our children wear masks and have to distance themselves from their peers.	6/26/2020 4:15 PM
2196	I will not send my kids if they are required to wear masks or be social distanced.	6/26/2020 4:15 PM
2197	I really don't want my children to have to wear masks to school or sit six feet apart. Also if it's remote learning I would like an option with less screen time.	6/26/2020 4:15 PM
2198	If they are required to wear a mask they will do online learning.	6/26/2020 4:14 PM
2199	No	6/26/2020 4:14 PM
2200	No	6/26/2020 4:14 PM
2201	Thank you for asking parents for feedback on what works best for our children. My son did better doing online work while my daughter did not as much. This pandemic has shed light on the fact that every kid doesn't learn the same in the same environment. The current education environment is antiquated and my son has ALWAYS struggled with chaotic classrooms until he was able to do his work online and he got all As. Please consider a permanent alteration and more learning options to give our kids the best possible environment to thrive and succeed that will lead to mentally healthier and more confident young people.	6/26/2020 4:14 PM
2202	Curious as to how the hand washing stations, sanitizers, and plans for classrooms will look	6/26/2020 4:14 PM
2203	I will withdraw my student if district goes to distance learning until school is in-person again. His grades and abilities were greatly affected and dropped severely and we were extremely stressed out over technical issues with Schoology and online programs constantly crashing. Not worth the stress. He needs to be in the classroom to excel in school	6/26/2020 4:13 PM
2204	If there are any social restrictions or masks required I will pull my children from d51 and Pursue a gone based learning program.	6/26/2020 4:13 PM
2205	Public education is the backbone of our country and without it, I am terrified of what our country will become. Please take all available measures to ensure that we get back to normal as soon as possible. It will take years for the current crop of kids to recover from the missed instruction and time spent out of school. We as a community must minimize that impact.	6/26/2020 4:11 PM
2206	If we have to do remote learning again this coming school year, my children will not be participating. It had a very negative effect on them and I will not be putting them through that again.	6/26/2020 4:11 PM
2207	I personally don't like the set cdc rules for children with the covid. I understand the safety concerns but I can't let it effect my child's wellbeing more than it already has and not allowing them to interact with other child, have recess, lunch in a cafeteria and mostly wear the mask ALL day long will greatly effect them. I will be keeping my child home and we will do an online schooling	6/26/2020 4:10 PM
2208	really need to get all schools on the same system of remote learning instead of having to learn two different methods of instruction and communication.	6/26/2020 4:09 PM
2209	Na	6/26/2020 4:09 PM
2210	Please consider kids with separation anxiety who have been severely impacted by not being able to attend school and causing more mental health issues	6/26/2020 4:09 PM
2211	Hybrid model is going to be impossible for working parents and families with children multiple schools.	6/26/2020 4:09 PM
2212	Special education services is extremely hard during remote learning	6/26/2020 4:08 PM
2213	You all are doing so awesome with everything! Life is ever changing, we will adapt along with you so don't give up! :)	6/26/2020 4:08 PM
2214	If my kids can't do in-person learning, they won't return and we will homeschool instead.	6/26/2020 4:07 PM

Fall Planning Survey 2020

2215	Yes. My sons remote learning I rated poor as I felt almost all of his classes the teachers were not required to teach as three hours a day was not enough time. I feel that many teachers and students were not held accountable for pretty much anything. My son I made him get up and be online all day with the exception of PE and Weight lifting in which we tried to do on our own during the school day. He did have one teacher that was face timing every single day and I applaud her for that as even when only 4 students attended she never gave up and always gave 110%. I am very sad that others were not required to as they still received a paycheck. As far as grades our son does very well and has over a 4.0 GPA....I feel that he was not given enough direction in few classes and that he should have received a few higher grades as other students that were not even doing anything still get to pass with grades they had prior to spring break. Its been a eye opening experience as I know this time in our lives is scary. I hope that we all can stay strong and stay a community that leans on one another. I hope this helps with feed back. I understand this is all new for everyone. We still all need to be held accountable in our actions each and everyday.	6/26/2020 4:07 PM
2216	Please do not make our children miss out on social interaction by teaching remotely.	6/26/2020 4:07 PM
2217	Please consider the kids when deciding what to do. My daughter hated remote learning and will most likely fall behind if we have to do it again.	6/26/2020 4:07 PM
2218	As a teacher and a parent, I'm worried about hybrid learning. I wasn't able to support and get my own children to work in the spring because I was so busy trying to meet the needs of students and parents. I didn't have the expertise to help my own kids do what they needed to do.	6/26/2020 4:06 PM
2219	Thank you for you work to serve our kids. I do think children wearing a mask would not be good for the co2 levels they would breath all day and I also feel it's unlikely they would keep them on and not touch their face much. Thank you!	6/26/2020 4:06 PM
2220	It is important they attend real school. Although some of his teachers tried, he was much less successful learning without in person schooling. Grades suffered education suffered, development suffered.	6/26/2020 4:05 PM
2221	If my children are regulated to wear a mask they will not be attending in person and will choose to home school my children not through the district 51.	6/26/2020 4:04 PM
2222	This has been very disruptive with lack of data that masks help and/or social distancing helps. I am sensitive to those who are at risk and those who choose a different path but getting back to normality with caution is highly welcomed. please support but please also don't bring bad unwilling staff as they will not be teaching to their potential.. more rules and restrictions on kids is fine.. but let's get them back into real education.. the online virtual learning was a huge disappointment for us... thanks	6/26/2020 4:03 PM
2223	I would support a hybrid model as well. I am a teacher and it would be helpful to be on the same schedule as my child.	6/26/2020 4:03 PM
2224	If I am doing school at home with my kiddos I want the money the district gets for them, to pay for my time, supplies, utilities and room to do it. If I do not get this I expect to have them in school full time with no remote learning. I believe it's around \$8000 a child. If my child does not end up doing full time schooling with the district then they should not get that money for their education, I should.	6/26/2020 4:03 PM
2225	My children will not be enrolled if ANY restrictions are in place	6/26/2020 4:03 PM
2226	No	6/26/2020 4:02 PM

Health of our community is the most important priority, so balancing that with education will be paramount. Definitely open to a hybrid of case numbers continue to rise as they are. Thank you for all the hard work!!!!	6/26/2020 4:01 PM
2228	Remote learning will be next to impossible for our child next year with both parents working full time plus overtime in addition to the regular 40 hours. We tried to do remote learning during daycare but assignments were never finished	6/26/2020 4:01 PM
2229	no	6/26/2020 4:01 PM
2230	My daughter hopes she can attend high school.	6/26/2020 4:00 PM

Fall Planning Survey 2020

2231	I believe hand sanitizing station should be available in classrooms. Masks should be optional. Encourage good hygiene.	6/26/2020 4:00 PM
2232	Teachers are Awesome!	6/26/2020 3:59 PM
2233	No	6/26/2020 3:59 PM
2234	I like the idea of having parents sign something so our kids don't have to wear masks 8 hours a day.	6/26/2020 3:59 PM
2235	Not at this time. Thank you for ALL that you do and for your thoughtfulness in decision-making.	6/26/2020 3:58 PM
2236	Safety first but I feel our family would be comfortable with a hybrid program. Full online learning was difficult for my kid to adjust to because of his learning needs. More individual support will be needed to follow IEP. On the other had we have elderly high risk family in the home so our worry is both for our child and the family we care for everyone's health care needs. hybrid might provided support in both areas. The biggest request is that we have a plan in place before the week before school starts so we can adjust work schedules.	6/26/2020 3:58 PM
2237	My children struggled with remote learning and needed in-person instruction. I am not able to work and be a full-time teacher.	6/26/2020 3:58 PM
2238	If the district does remote learning I think it's a joke. Our kids did it for 7 weeks and got nothing but headaches, fights and frustration out of it to not even receive a grade from New Emerson. If we stay remote, my 11 year old will be a drop out and that is sad	6/26/2020 3:57 PM
2239	If face masks and social distancing is required my children will not return to your school district. They are not capable of wearing face masks for extended amounts of time. Also they need the social interaction more than the book education. If additional immunizations are required again, they will not attend any district 51 school.	6/26/2020 3:57 PM
2240	Some of the teachers were outstanding in the home learning environment. My kids were both very proactive and some classes particularly calculus they had to do a lot of research on their own. As much work as my kids put in we would have appreciated that to be reflected in their grades. Neither one of their grades went down but they worked hard to maintain that My oldest in particular had straight As so he had no opportunity to improve, he held those grades throughout the homeschool session	6/26/2020 3:56 PM
2241	I would prefer the schools do online & not all the online handled by GRA, students need to remain connected to their schools. Not having a choice for online other than GRA is extremely concerning & also short-sighted! If we are not going to stay with our schools online, we will shop for the best choice. If the district is making us choose to send our children's to school or go to a different school, we will choose what we want!	6/26/2020 3:56 PM
2242	I believe my children need to be in school. The teachers did an ok job considering the situation but they did not learn the amount of content they needed to. This is their future, they need to be in school.	6/26/2020 3:56 PM
2243	No masks please. They are silly	6/26/2020 3:55 PM
2244	Some teachers did amazing with remote learning. Some sent 1 assignment a week with no interaction. One didn't grade anything after remote learning started. I know it was very challenging for my friends who are teachers and they worked harder than ever. I am able to help my kids and keep on top of the work, but I know people who can't do it, and one person I talked to several weeks in didn't even know what classes their kids were taking. Health includes Mental health. Thanks for the hard work you are doing trying to meet the needs of all students.	6/26/2020 3:54 PM
2245	The end of last school year was handled wonderfully by both Broadway Elem and Redlands Middle. It was a rough uncertain time and Mrs. Fawn and Mrs Sophtstoff and teams went above and beyond. I know next year is uncertain but I know you will do your best again.	6/26/2020 3:54 PM
2246	I feel that there is no difference between in person learning and needing to put my child in child care if school remains remote. I'm a nurse so I work full time and my child is already slightly behind in reading/literacy. If its up to me to teach her, I feel she will continue to fall behind year after year.	6/26/2020 3:53 PM
2247	I think face-to-face learning is the best bet. As far as masks go my concern is my child has allergies and the face mask makes it worse. I am concerned that my child would be more at risk health wise.	6/26/2020 3:53 PM

Fall Planning Survey 2020

2248	if masks are required, we will seriously consider other options	6/26/2020 3:53 PM
2249	Thank you for all you do. Remote was great at the begining but them like with almost everything my 12 yr old started to lose interest, therefore I think if in person isn't possible hopefully hybrid can be done! ty!	6/26/2020 3:52 PM
2250	Please do whatever you can to ensure students are able to be in their school communities.	6/26/2020 3:52 PM
2251	Not at this time.	6/26/2020 3:51 PM
2252	No mask restrictions is an absolute must for children and teachers	6/26/2020 3:51 PM
2253	The remote learning was understandably cobbled together quickly. The biggest issue we had was the number of apps and programs our students was very difficult for our students and us to navigate. A more simplified approach with as much one on one would be ideal. Also, the workload was too large for 3rd graders and it was tough to manage as parents who both work full time.	6/26/2020 3:51 PM
2254	No	6/26/2020 3:50 PM
2255	I do hope the people making these decisions really sit back and think about the quality of learning the children would really get if they are asked to wear masks. I know my child would spend more time playing with the mask then actually listening. Also Please think of how hot it gets here. Now they have to wear a mask and run around playing is that a good health call? It's hard for an adult to be able to breath through them just walking around in the heat and our lungs are a lot stronger then that of a child. Also social distancing at schools are going to be another nightmare. My child is very excited to be able to play with her friends again. How would that go? Kids are only allowed to play in small groups? What if someone is left out and now doesn't get to play with their friends because the group is full. I completely understand safety is a priority in the district but please let's not give into the fear of this and make school miserable for our kids. Leave it up to the parents to decide if they want their kids to wear mask or if they even want to take their kid back to school. Why should my child be punished because of someone else's fear. I just know I CANNOT do remote learning again. I am not a teacher. I do not want to jeopardize my child's learning because I am not teaching her correctly or because I didn't have time to sit down and do school work with her on top of my already busy schedule. Not to mention if she only goes certain days who's going to watch my children while I am working. Also who's paying for that. Have any of you looked at how much child care is and if it's even available for older kids? Again, I just hope you all are looking at this from all angles. I know you can't make everyone happy but also you can leave it up to the parents to have their kids wear mask or not. Please please please don't make my child's school year miserable.	6/26/2020 3:50 PM
2256	Let the kids go back to in class learning!	6/26/2020 3:49 PM
2257	Hybrid would be ok if 100% face to face is not possible	6/26/2020 3:48 PM
2258	Remote was very difficult for my student...	6/26/2020 3:48 PM
2259	I would say overall - "Good Job" for making things happen in a short amount of time. A lot of teachers and administrative people had were required to focus on training in a totally different manner and also in a very short time. Now, I think the IT person has had plenty of time to reconfigure computer systems and options for better interactions. I know there were better options to help the teachers out with planning and thus communicating with the students and parents. If this person has not made any changes then you better get rid of that person fast and get a contingency plan in place. Again, I'm sure this is in place but if not then changes should be made because there were better options out there.	6/26/2020 3:47 PM
2260	Thank you for your hard work, commitment to our community, amazing job everyone did going with the flow. Please know, whatever you all decide to do next year, i stand with you, and support you. Thank you!	6/26/2020 3:46 PM
2261	The remote learning was ok given the situation but my kids NEED face to face learning	6/26/2020 3:46 PM
2262	Most family have both parents working and it was hard the end of the year to adjust to online learning and both parents at work from 7-5	6/26/2020 3:46 PM
2263	The teachers did an amazing job. Our children need the personal interaction that comes with in person teaching.	6/26/2020 3:46 PM
2264	If my kids have to wear masks and social distance I will homeschool.	6/26/2020 3:45 PM

Fall Planning Survey 2020

2265	N/A	6/26/2020 3:42 PM
2266	No	6/26/2020 3:42 PM
2267	Music education and marching band are very important to my daughter. We hope these programs get the support they deserve as they motivate a lot of kids to deal with all the strangeness of the world and their learning environment.	6/26/2020 3:42 PM
2268	I know if my children especially my youngest in 2nd grade is required to wear a mask he won't be able to do it and my oldest if required to do online learning she struggled greatly in math and I can't help her with this work...I work full time and don't have the time to learn the material to be able to teach it to her. I work 13 + hours a day as a nurse and don't have the time to learn the materials and the. Sit down and teach this to her	6/26/2020 3:41 PM
2269	School needs to be in session! These kids are not remote learners. I have two others outside the district as well.	6/26/2020 3:41 PM
2270	If they are required to wear a mask, I will home school. If you are thinking of doing the distant learning, I will look for other options. The online learning was a joke, half the kids didn't even do any work, but you still passed them. There was no accountability. Fortunately my daughter in the 5th grade had a great online experience. My other 2 were done in less than 2 hours a day. Sometimes there were no assignments, we didn't have internet capability to have 3 kids and 2 parents at home working and going to school, systems in place kicked out our kids several times, it was a joke.	6/26/2020 3:40 PM
2271	Children need to be in school. I work. My child would be at home alone doing school work. This is not what we want for 8 grade.	6/26/2020 3:39 PM
2272	I would like to be able to sign a waiver saying that my children can eat in the lunchroom. Also, thank you for all your efforts with graduation. Our family has a senior and we really appreciate all you have done to celebrate them!!!	6/26/2020 3:39 PM
2273	If masks were a requirement for in person school I would have no problem with that. I would prefer my students to be in person wearing a mask rather than home and in front of a monitor all day.	6/26/2020 3:38 PM
2274	No	6/26/2020 3:37 PM
2275	I know the remote system isn't perfect and it was spur of the moment, the teachers did the best they could. Lots was lost in translation though.	6/26/2020 3:37 PM
2276	Please don't make the kids wear masks! Split up the school days and have smaller sizes to do some social distancing or have half go morning and half afternoon utilizing a hybrid model.	6/26/2020 3:37 PM
2277	If the school does not fully open with zero restrictions and full sports my child will be enrolled in an on line school not related to D51. Therefore my child will not be a D 51 student.	6/26/2020 3:37 PM
2278	My children will NOT be attending D51 if remote learning is happening in any way. Said differently, if my children are not in school in person 100% of the time, my children will be home schooled.	6/26/2020 3:35 PM
2279	As a working parent I hope we can go to full in person, but I believe the district will do what is best for all children. As a district employee also, I worry about the workload of teachers in a hybrid situation.	6/26/2020 3:35 PM
2280	My oldest son went into a depression because he was not in school I don't want that for him this school year	6/26/2020 3:35 PM
2281	A normal school in person routine is what is best for our children after the terminal they endured at the end of last school year and so on. An on person normal class schedual is what is best for their mental health. In class 5 days a week should be offered to those who want it.	6/26/2020 3:34 PM
2282	I want my kids to go back to school, no masks...no partitons... just like it was before.	6/26/2020 3:34 PM
2283	No	6/26/2020 3:34 PM
2284	My child does best with 1-on-1 learning. He is also an only child, so the social/emotional benefits of being in a class with his peers is essential given his learning/developmental disabilities.	6/26/2020 3:34 PM
2285	My teens are anxious to get back to learning and to get back with their peers. My junior is set	6/26/2020 3:34 PM

Fall Planning Survey 2020

up for a load of AP classes that are super important for his college career. We need in person classroom instruction, just like it's always been.

2286	I like more education with my son because of special needs	6/26/2020 3:33 PM
2287	No masks!	6/26/2020 3:32 PM
2288	no	6/26/2020 3:32 PM
2289	Remote learning was rated poor because my children didn't learn new material. It wasn't their teachers' fault at all. The nature of remote learning as done by d51 didn't allow new learning because there wasn't equity for all students.	6/26/2020 3:31 PM
2290	Kids want to be at school. They don't mind forgoing the bus	6/26/2020 3:31 PM
2291	I would prefer either full face-to-face instruction or full online instruction. It would be very difficult to have my children only attend school 2 or 3 day a week, because of child care.	6/26/2020 3:31 PM
2292	If we are in hybrid model, can we look to have free/reduced students at school the entire time based on their high need? Thank you for all you do!	6/26/2020 3:31 PM
2293	D51 is doing a great job in my eyes	6/26/2020 3:30 PM
2294	The school board is tasked with the education of our children. If this decision is being made as the absolute BEST way to educate our children (socially and emotionally also) remote wouldn't even be considered. The school board is NOT responsible for the health or safety of grandma and grandpa or those at risk. Children are unaffected by Covid19 and there is also no data to support that children pass it to their family members. My child will not attend any D51 school if there is any possibility of masks or social distancing let alone hybrid learning.	6/26/2020 3:30 PM
2295	Special ed children had twice the work as the regular Ed kids. If you have to go to online sped teachers should take over the majority of assignments . And having Google classroom and the one for middle school was horrible . Stick to one platform I don't care how much it cost the district to do the middle School platform.	6/26/2020 3:30 PM
2296	We hope that we can at least start the school year being at school. For parents that work, it is near to impossible to do home instruction on top of our work schedules.	6/26/2020 3:30 PM
2297	I appreciate all teachers are doing and a hybrid model while good for families will be so hard on teachers and their families. Please remember teachers have children and the remote dynamic can be challenging for them.	6/26/2020 3:30 PM
2298	No mask my kids can't hear and wearing mask will make it that much harder.	6/26/2020 3:29 PM
2299	I am also a teacher in the district and want to be back with my students. No masks, as normal as possible. I think as a teacher I need to be sure I am disinfecting my classroom and keeping things clean and sanitary. If we all do that it will help.	6/26/2020 3:28 PM
2300	My son is not good at the remote learning and wouldn't do his work. We (his parents) work full time and can't sit at home and watch him do his school work.	6/26/2020 3:28 PM
2301	I would prefer 100% in person, even if that includes things likes masks. A hybrid would be better than 100% remote. 100% remote means no orchestra, no socialization, it's difficult for working parents who aren't there during the day to help with school etc.	6/26/2020 3:28 PM
2302	My children will not attend public school if the covid vaccine is required, masks are required, and they can't eat and play with other children like normal.	6/26/2020 3:28 PM
2303	My disabled child 100% got nothing out of remote learning. We need a different option for kids who require PT/OT Speech and SPED classrooms.	6/26/2020 3:28 PM

2305	Please do not require masks- I feel that this will create anxiety and a number of other problems for students.	6/26/2020 3:27 PM
2306	My children will not return to D51 with a mask or restrictions. I will find another method of education for them.	6/26/2020 3:27 PM
2307	I believe children need the social Interaction of other children their age in order to learn important social skills, ability to interact and make valuable friendships. This is some children	6/26/2020 3:27 PM

Fall Planning Survey 2020

	do not get from remote learning.	
2308	If the children do go back to school, I believe that they should have their lunch before recess, as having it after is more of a health risk, since they do not wash their hands after playing on the playground equipment before eating. I also have other health concerns due to all of the children not being able to wash their hands between other activities, children being able to stay home with any cold symptoms (due to parent's work schedules, grades, etc...).	6/26/2020 3:27 PM
2309	I find it best that my children attend school with face to face learning. Remote learning was not the best for us.	6/26/2020 3:26 PM
2310	no	6/26/2020 3:26 PM
2311	CDC warns young people are not 'somehow naturally immune' to coronavirus. Therefore, it only takes one individual to infect others and others to infect a whole community. How many deaths do you want to trace to District 51 opening?	6/26/2020 3:26 PM
2312	Make masks only to be worn in hallways.	6/26/2020 3:25 PM
2313	I am a RN who works full time. If my kid doesn't go back to school please let deadlines end on Sunday so we have more days to work on it please.	6/26/2020 3:25 PM
2314	My kids will only return to school if there are no restrictions. I believe social distancing will do more harm than good & masks would be a waste	6/26/2020 3:25 PM
2315	No	6/26/2020 3:24 PM
2316	I know my son, on an IEP for reading and writing, will not get the services he needs if we do remote learning. However, asking him to do more time/work to make up missed school time will not work. I asked them to hold off on all services until we are back at face to face learning and I will continue to do so. I would also like to say that our first job is to do what is best for kids and their families, even if the families do not like it. School is not a babysitting gig. Please do not rush a decision because so many parents have banded together to pull their kids out and threatened homeschooling. Let them homeschool. It is exactly what they say they don't want- kids isolated and alone trying to remote learn. We have to make the best decisions for all of our kids, all of their parents and all of their grandparents.	6/26/2020 3:24 PM
2317	Remote learning is really not effective as it has been carried out so far	6/26/2020 3:23 PM
2318	If health conditions and Covid cases are still under control and Mesa County is moving forward in returning to normal successfully, then I would most likely send my high school student to in person learning 100% of the time. I marked Hybrid since we are currently unsure of the situation we will be facing at the time school starts.	6/26/2020 3:23 PM
2319	Social distancing in a high school is impossible. Let's hold IN PERSON school for all who want to attend....WITHOUT masks.	6/26/2020 3:23 PM
2320	The data nationally, for the state, and for Mesa County does not support the notion of returning to full-time, in-person classes. As a parent, I am a vulnerable individual with life-long heart issues arising from a defect. I am concerned with two facts: a return to "school as normal" will create a situation of hundreds of kids - each with many points of contact in the world outside of the school - are in close proximity to each other; AND that studies are showing that children and young people are at just as high of infection and mortality rates. I recognize that child care is a concern for getting the economy going, but it seems reckless in the extreme to think schools can now go back to normal when there are still no effective treatments and no vaccine for a highly contagious, highly lethal disease.	6/26/2020 3:23 PM
2321	Since new emerson has such a small student population, I'm not sure my answers can speak for most parents. The risk of sending children to a much more populated school is certainly different than our situation at new emerson	6/26/2020 3:23 PM
2322	Our children need in person learning. Not all children can navigate the online classroom, nor do they all have the self drive and attention span to do online classwork. Some children learn better when they can have help to understand the classwork. Most parents are not equipped to teach their children because they do not understand themselves. Also mist parents are still essential and can not work 12 plus hour days then fight with their children about doing online school.	6/26/2020 3:22 PM
2323	Did not like distant learning for my children. Too much chatting with friends and not finishing	6/26/2020 3:22 PM

Fall Planning Survey 2020

work. If they have to do online again, I'll pull them out and do all subjects with them myself. Not a fan of distant learning for younger learners. Too many temptations.

2324	N/A	6/26/2020 3:21 PM
2325	We will homeschool if masks and social distancing are required.	6/26/2020 3:21 PM
2326	Thanks for working hard, ensuring the 20-21 school year will be a safe learning environment for our children.	6/26/2020 3:20 PM

2328	Remote learning was difficult to keep interest and the level of education was lowered. Kids need each other to learn how to be social and for their psychological health.	6/26/2020 3:20 PM
2329	My child will Not be getting Covid 19 Vaccine	6/26/2020 3:20 PM
2330	Thank you for this survey and addressing the childcare issue.	6/26/2020 3:19 PM
2331	HOMESCHOOLING IS NOT LISTED AND SHOULD BE.	6/26/2020 3:19 PM
2332	What is going on with the individual learning plans? Is the district moving forward with this or not?	6/26/2020 3:19 PM
2333	No	6/26/2020 3:19 PM
2334	no	6/26/2020 3:18 PM
2335	If students won't be required to wear masks then I feel that the schools should split the children into 2 groups. Group A going to school on certain days and group B going on different days. Both groups would alternate between in person learning and remote learning. Also need a plan for children that are immuno compromised	6/26/2020 3:17 PM
2336	Teachers actually teaching the kids rather than just doing homework if there is remote learning and teachers all required to do things alike in the same cores.	6/26/2020 3:16 PM
2337	It was very hard and frustrating using the online learning for my SPED child. Her teachers and staff did the best they could with what was at hand. If we have to go back to online learning away from the class room, I would strongly suggest taking into consideration the learning options for the children and families that have SPED children.	6/26/2020 3:15 PM
2338	I think given the quality of the online learning (which was not great and varied wildly between our 3 students), it would make sense to open up schools to in-person learning with social distancing guidelines in effect as much as possible.	6/26/2020 3:15 PM
2339	Remote learning has created financial struggle in our home as we suddenly had to enroll our kinder back into preschool and it is Very expensive with an infant in care as well! I'm fed up with working to pay daycare already! I am a healthcare worker and my children have attended daycare through all this and we have stayed healthy and COVID 19 free! My son had a very hard time with remote learning because we parents go to work early and come home after 6 at night and there was no time to do school work. This forced us to spend our weekends doing school work! Not ok!	6/26/2020 3:15 PM
2340	We go back to school with no masks and regular learning. No crazy restrictions	6/26/2020 3:15 PM
2341	I will not send my kids to school with a bunch of crazy restrictions. They need to be kids and go to normal school. If it comes down to online learning I would rather just homeschool since it's easier than trying to deal with a bunch of teachers with remote learning.	6/26/2020 3:15 PM
2342	If masks are required or if they do not get to have lunch and recess as usual, we will not send out kids back to school in the fall	6/26/2020 3:15 PM
2343	I am really worried about 100% in person classes. Our family's health is my biggest concern and with recent spikes in COVID cases, I am on the fence of allowing my child back at school due the lack of follow through kids have when they are told they must wear a mask. My concern is with others not taking this seriously. My first priority is keeping my family safe and healthy and the last thing I want is to expose my child and family who all have asthma and myself and youngst child who have a weak immune system. I appricate D51 allowing us to provide feedback. As much as I want my child to go to school, be social, and participate in sports, my guard is still up and dont feel comfortable with 100% in person schooling. Thank you for your time.	6/26/2020 3:15 PM

Fall Planning Survey 2020

2344	Would prefer 100% back to normal learning, but realize that it may have to be a hybrid and am ok with that.	6/26/2020 3:14 PM
2345	I want our children, and staff safe and healthy. It has been shown that not only does the elderly and existing conditions people are susceptible to this virus, but any and all the population are at risk.	6/26/2020 3:14 PM
2346	NA	6/26/2020 3:14 PM
2347	We are considering 100% home school if things don't go back to "normal".	6/26/2020 3:14 PM
2348	Good Luck!	6/26/2020 3:14 PM
2349	Thanks for all you do!	6/26/2020 3:12 PM

2351	My kids would be likely to return if social distancing is removed and they can be kids and play with their friends and if masks are not required.	6/26/2020 3:12 PM
2352	D51 needs to be evaluated separately from state and local areas we have had no surge and minimal positive cases	6/26/2020 3:11 PM
2353	Our experience with distance learning with my 1st grader was better than my 4th grader. But if the district decides to move forward with remote learning I will choose to homeschool instead. I absolutely LOVE Scenic Elementary but for my sanity I would rather know what they're doing for myself.	6/26/2020 3:11 PM
2354	For me I think these kids need to be in school. I think they learn better in thT setting. Wash your hands cover your mouth dont go to school if your sick.	6/26/2020 3:10 PM
2355	If masks and no lunch/recess and no sports are required to re open, I will remo e my child from D51 school district.	6/26/2020 3:10 PM
2356	If my child had to wear a mask, I would home school her. Or if she had in person and online learning, I would be highly tempted to homeschool her.	6/26/2020 3:09 PM
2357	Not only do we need to know what reopening looks like, as parents, we also need to understand what attendance guidelines will look like. By this, I mean, what will closures look life for 1 student/staff infected, 2 student/staff infected/ etc. Will there be periods where children will be jumping back and forth between in-person and online.	6/26/2020 3:09 PM
2358	As a d51 teacher and parent, I want to let you guys know you're doing a great job and I'll support our dictrect in any way. I really hope we go back to face to face full time. Remote learning is awful!!!!	6/26/2020 3:09 PM
2359	No but my kids are excited to get back to normal	6/26/2020 3:09 PM
2360	I think we should either be in school 100% or digital 100%. I do not think that a hybrid situation will work well for teachers, students, or parents.	6/26/2020 3:09 PM
2361	Our kids deserve normal!	6/26/2020 3:09 PM
2362	Masks are necessary to prevent spread - don't cave to the conspiracy theories. If public health believes masks will help - please follow the guidelines.	6/26/2020 3:08 PM
2363	Given the time frame SD51 had to implement online learning, I think they did ok however overall I felt the quality of learning was poor. Kids spent very little time working on assignments and class work. Bless the teacher's hard work however, for this to be effective moving forward there really needs to be more work put in to this program. If this is the "new normal" I am afraid lots of gets will get left behind.	6/26/2020 3:08 PM
2364	The teachers did a great job trying to still teach the children. My child did okay with remote learning but definitely thrives on classroom structure and needs the social piece. And for the stress and frustration it caused to only receive an "N" really frustrated me as a parent. Let the kiddos go back. No masks and yes recess! The mental toll on my kiddo has been hard to watch. They need their peers.	6/26/2020 3:08 PM
2365	My kids will not be attending any school where face masks are required, where they won't be	6/26/2020 3:08 PM

Fall Planning Survey 2020

able to eat in the cafeteria, where they won't have recess, where they'll be stuck in one classroom pretty much all day every day, or where they'll have plexi-glass partitions, etc.

2366	I do not want my kids wearing masks to school or missing out on the well-rounded education that allows them to experience music, art, PE, computers, and recess with their peers. If masks are going to be required we will most likely home school. I would happily sign a waiver stating that I won't hold the school or district liable if my children get COVID. We have to get back to normal. The spirit of the quarantine was never to prevent everyone from catching it. It was to reduce the impact on hospitals. Kids are not the one effected by this. Please fight for our kids to have normal school this fall.	6/26/2020 3:07 PM
2367	If a hybrid environment is chosen, educators will have difficulty affording care for their school aged children.	6/26/2020 3:07 PM
2368	You guys are doing a great job, thank you.	6/26/2020 3:07 PM
2369	In our case I think the remote learning was rough not because of the teacher, but because my child loves school and interacting with others, he just didn't have a desire to do work online and I chose to not fight with him over it so we did less of the work than normal, we did other hands on activities to compensate because that's what he enjoys. If we were to go back to just remote learning I would just home school with some of our friends.	6/26/2020 3:07 PM
2370	I want face to face	6/26/2020 3:06 PM
2371	If my children are required to wear a mask, I will be pulling them out of school.	6/26/2020 3:05 PM
2372	I plan on returning my children to school this coming year but depending on what the regulations will be. If my child has to wear a mask all day or refrain from socializing then no they probably wont' return to school.	6/26/2020 3:00 PM
2373	Safety of the students, staff, families, and the community are my number one priority at this time. I hope to be able to choose the safest option	6/26/2020 3:00 PM
2374	If cant attend in person completely would recommend half attend part time and the other students the other 2 x week at least in person	6/26/2020 3:00 PM

2377	I cannot imagine how GJHS could adhere to a socially distant experience with the current enrollment. I am hoping for a hybrid situation though at least first semester	6/26/2020 2:59 PM
2378	I am hopeful our kids will be able to return to full time face to face learning. As a single parent who works full time home schooling is not the best option for our family in addition to the extra cost of child care while I work. Thank you for your time and consideration.	6/26/2020 2:59 PM
2379	The safety of our kids should be the biggest concern.	6/26/2020 2:59 PM

2382	I will not send my children if masks are required	6/26/2020 2:59 PM
2383	Yes I believe considering the COVID-19 situation that it is irresponsible for the school system to have implemented summer sports considering when the MLB in NFL did that they both had cases of COVID-19 I also believe with the situation getting worse that having children in a school building even 6 feet apart they would still come in close contact in public areas and they have off-campus lunch most children would not elect to wear masks it puts Children and families at risk and those with no health conditions I know the children and all of us would like to have in person learning but I think it is a very bad idea and anyone that would consider it right now and put peoples wants above their health should be questioned at whether they should keep their Position with the school system everyone is aware children do not always wash their hands and I believe that people in a position of administration in the school system should make the right decision and not be swayed by the peoples desires because many people are irresponsible that is what you are put in the position for is to make the right decision I know	6/26/2020 2:59 PM

Fall Planning Survey 2020

pleasing people is part of it but it should not be the biggest part of it because if my child gets sick at school because she does not have another choice but to get an education and I feel the school system is to blame I am not the only one and district 51 could be set up for Advest bad publicity I guess go ahead but every single sick child will be on your conscience and their family members they get sick from them before they show any symptoms or if they do not at all and it would be a shame if A court found the school system responsible and negligent maybe instead of focusing so much on a political and social agenda you should be focused on the children in grand Junction's safety above all else without exception and as a footnote gathering for graduation is possibly the most irresponsible idea I can think of I understand the achievements and what it means to the students but if even one child gets sick that attends the event is it really worth it and I know the school system will fall back on it was their choice but most people don't always make the right choice that is why there are people in charge of Public institutions

2384	Let them go to school and learn in person. Interaction is part of learning!	6/26/2020 2:58 PM
2385	With precautions in place, I am fine having my students return to school in the Fall.	6/26/2020 2:58 PM
2386	I would like my children to be in fact to face learning as I believe it is important for them to develop social relationships. That being said I found with one of my children that the online learning helped to build her confidence. I found with my other child that he was manipulating his teachers into doing the work from him. I am also a new parent to my kids so I will be taking more of a hands on approach to their learning no mater what type it is.	6/26/2020 2:58 PM
2387	Just concerned about social distancing with kids and how that will look. I remember when they couldn't control the norovirus and had to shut the schools down. Also teachers do not let kids wash their hands and my student was told several times she couldn't go to the restroom and since they can not take backpacks into the class room they have to go to the lockers between passing periods and there is not enough time for both, let alone take the time to wash your hands.	6/26/2020 2:58 PM
2388	If my children are required to wear a mask all day long in order to attend a D51 school for an entire school day we that would be an unhealthy expectation for them. Wearing a mask for hours at a time, not being allowed recess, or PE all come with a variety of health risks mental and physical. Both of my children also require Special Education services that can not be adequately met at home via zoom meetings and online face timing chat forums. Both of my children also struggle with responding to social situations that they work on in SPED as well, how can they learn the proper response to situations or feelings when they either can't go to school so they have limited interactions or they can go to school but there is no group play and they can't respond to emotional cues because they can't see faces due to masks. How does my youngest who is in D51 PreK properly learn the ways to move and shape her lips to pronounce words when teachers are wearing masks or it's a zoom meeting with poor service that freezes. Mesa County has not had enough cases for the schools to either not open, or open under ridiculous expectations for children who require SPED resources. This seems like a direct violation of No Child Left Behind in a county that's been barely touched. Up your cleanliness and sanitization procedures, hire more staff to handle the upgraded cleanliness requirements, hire more teachers to keep classroom sizes smaller and continue on as if it were a normal school year. Teachers and kids should not be wearing masks all day long. It's unhealthy, hinders the effectiveness of their life's work, and hinders my children's ability to learn in a circumstance where they already struggle with delays. They don't need to struggle with anything additional and unnecessary. Also, the online learning last year took a very hard toll on my kids mentally. They need to socialize, see their teachers, make new friends, keep old ones, and feel comfortable not scared. I am embarrassed the District is even considering letting this drag out. The choices we as parents have been given are horrible. Send my kid to school in a mask, don't let them touch anything or anyone, don't let them do anything fun to burn off energy and retain classroom focus like recess or pe, and risk the physical and mental struggles this comes with. Or I can keep them home partially/completely and continue to grow the mental struggles and challenges that comes with. I have two kids in special education, I do all I can at home with them as a full time stay at home mom. They need the help of licensed professionals. They need to all feel as normal as possible.	6/26/2020 2:57 PM
2389	Understanding the care and caution that needs to be taken, children are in need of on person I reaction, it doesn't help them mentally and emotionally to be isolated. My child is managing well and I'm grateful for that. I will have no problem nor would she, if in person was restored	6/26/2020 2:57 PM
2390	No	6/26/2020 2:57 PM
2391	If the children go back to school having to wear masks and social distancing as in no	6/26/2020 2:57 PM

Fall Planning Survey 2020

	assemblies or PE or no eating in the cafeteria and then my child will not be returning back to school. I will be doing home school then.	
2392	Kids need in class and teacher interaction along with the social aspect with their peers.	6/26/2020 2:57 PM
2393	I would be in favor of half remote learning and half in school learning if school doesn't go back to 100% in school learning.	6/26/2020 2:57 PM
2394	My child greatly benefited from Google meets with the class and teachers. It also worked to offer the Google meet at two different times so that my child could focus more easily on what the teacher was presenting. It was easiest for me, as a parent, when a teacher provided an online checklist or calendar of the work assigned for each day of the week. It was difficult to keep up with classes when information was continuously emailed. I feel it would be best to keep track of when assignments for all classes are located in one place, i.g. Google classroom. Otherwise, I was impressed by the teachers' quick implementations.	6/26/2020 2:55 PM
2395	If we have to go remote either part time or 100%, it needs to be better done. For example more actual interaction on line at scheduled times to help kids keep to a schedule. Better training for teachers on how to send out and receive assignments etc. I know it's hard....you are doing so much with so little	6/26/2020 2:55 PM
2396	Nope	6/26/2020 2:55 PM
2397	I feel that in-person school is best for my kids because of the social interaction they get and their involvement in clubs, athletics and other school events. Online school was difficult for them academically, emotionally and mentally. They both struggled with the negative effects of lack of social interaction with teachers and other kids and suffered from depression and anxiety. I feel the the small risk of contracting COVID doesn't provide enough reason for them to continue with online school. It is just too hard on them mentally and emotionally.	6/26/2020 2:55 PM
2398	Na	6/26/2020 2:55 PM
2399	I feel if the district moves to either a hybrid or remote learning, expectations through the remote learning need to be higher. The kids were not challenged enough over the last couple of months without my husbands and I's input.	6/26/2020 2:55 PM
2400	With 2 other small children too young for school I am apprehensive to send my oldest back to a public setting to bring home illness to the rest of our family. I work from home. My suggestion is to possibly have those able to do remote learning for their children do so to help reduce in person numbers for those who must have their children in someone else's care during work hours.	6/26/2020 2:55 PM
2401	Wingate did great after week 2, Redlands was terrible. Not one teacher was on the same page. The amount of assigned reading taking place of in room lectures was terrible and we should be uploading heart rates to show the PE teacher they were active. Remote learning, most electives need to go away.	6/26/2020 2:54 PM
2402	I think the staff at FMHS did a great job last spring. My son had access to videos, live meetings with teachers/peers, access to his favorite Film Club at lunch, google classroom assignments. I hear a lot of negative, but that was not our experience.	6/26/2020 2:54 PM
2403	I know everyone is doing their best. Thank you.	6/26/2020 2:54 PM
2404	Give these teachers a raise, God knows they deserve it after having dealt with online learning!	6/26/2020 2:53 PM
2405	If this year is 100% remote learning I would appreciate extra help for my daughter that is behind in reading due to remote learning third quarter.	6/26/2020 2:52 PM
2406	If schools are open we are sending our oldest to private middle school. We don't want our child to get indoctrinated by liberal progressive thinking provided to kids by the Dept. of Education. We stand for the flag and put our trust and faith in God!	6/26/2020 2:52 PM
2407	Thank you to all teachers/administrators that are working so hard for all D51 families!	6/26/2020 2:52 PM

Of course we prefer face to face learning, but ALL the Wingate teachers worked really hard in a tough situation and we appreciate them!	6/26/2020 2:51 PM
2409	No reason to rush the process.	6/26/2020 2:51 PM

Fall Planning Survey 2020

2410	If the kids do not go back to school we will not be attending the District and homeschool	6/26/2020 2:51 PM
2411	All these answered questions still and will depend on what requirements the health department puts in place, if my kids have to wear mask or have to have a shield around them and are not aloud to interact with kids the they will not be going to in person school, I believe it would be more like a prison then a school and for my youngest first time in school I want him to enjoy it and make friends, but he can't do that if we have to do social distancing.	6/26/2020 2:51 PM
2412	No masks, reduced class sizes (regardless of covid), full in person learning, sports resume. If none of those, my son will finish early and head for bootcamp early. Remote learning destroyed his grades and drive.	6/26/2020 2:51 PM
2413	Remote learning is not appropriate for elementary kids. Might as well home school. The teachers did a great job but it was very frustrating and inconvenient, especially for kids with special needs and working parents.	6/26/2020 2:51 PM
2414	What would be the "social distancing regulations" for face to face learning? How would the hybrid of face to face and online learning work?	6/26/2020 2:51 PM
2415	I really hope that you have an option on remote learning. As we all know schools are already a high concern for sicknesses in the first place. I am hoping to hear if you are going to offer remote learning before it is too late for us to be able to sign the kids up for Grand River. I do feel as though with the increase of cases across the country and everyone starting to travel again, you never know who has come in contact with who. Just this week in my hometown in Idaho a sports coach tested positive for Covid and was in contact with many summer sports students. It takes one person to spread it to potentially the whole school who have kids in all grade levels, who could have high risk people at home. I think starting in person learning in August is not a good idea. Especially when the CDC keeps talking about this being the first wave and it been on going for months now. Please have an option for remote learning for those that want to keep their kiddos home. Thank you.	6/26/2020 2:51 PM
2416	I am happy to send my children back to school in person if it is safe from a health perspective. I am also in favor of face mask wearing as much as possible.	6/26/2020 2:50 PM
2417	I person leaning is best but my second choice would be 50/50 remote leaning. Thank you keeping is informed	6/26/2020 2:50 PM
2418	I will NOT send my children back to D51 if masks are required	6/26/2020 2:50 PM
2419	Nothing	6/26/2020 2:50 PM
2420	CHS teachers did a good job of switching to remote learning. Some teachers kept a structured class schedule with all students logging in, and this worked the best.	6/26/2020 2:49 PM
2421	I am a D51 staff member and my concern would be childcare if students do a hrybrid learning model. If kids only go 2-3 days a week but I work all 5 days I have 0 child care and I can't afford to pay anyone as a single Mom and sole provider for my kids. I can't have them do 100% remote learning either if I am required to be in the classroom because again no childcare options for me.	6/26/2020 2:49 PM
2422	I understand this is a very tricky call and I trust you all will take all facts into account when making the decision.	6/26/2020 2:49 PM
2423	I think my child got a good education distance learning because I was able to work with him one-on-one but he really suffered emotionally without the social interaction (he is also an only child). If things are so-so in the fall, I hope that there would be some way to integrate some in-person time, even if it were limited. I would also think you would need to find a really good way to introduce students to their new teachers, not just a class Google meet. Hopefully each student could have an individual in-person socially distanced introduction.	6/26/2020 2:49 PM
2424	Please bring school and normal life back to our children. Children with special needs are extremely dependent on school structure and teachers are trained to handle them. When not in school their learning, attitudes and therapies are compromised and parenting falls short. We need school back for all our sanity.	6/26/2020 2:49 PM
2425	Thank you for all of your hard work for our kids and for caring about keeping students, families, and staff safe. We are happy to wear masks, do some distance learning, or whichever system fits into the larger plan to support students academically and keep them healthy too. I know it is a moving target and thank you for all you do.	6/26/2020 2:49 PM

Fall Planning Survey 2020

2426	In person learning, sports and extra curricular activities are an extremely important part of maintaining the long term mental health of our youth. In fact the lack of these opportunities may be more detrimental to our youth than the risk of Covid 19 to our youth.	6/26/2020 2:49 PM
2427	If masks are required in school and my kids will not be going back. I hope to see them go back but has normal as possible	6/26/2020 2:49 PM
2428	If we end up having to do remote learning we would like to meet teachers since we don't know them.	6/26/2020 2:49 PM
2429	I feel like although my son's teach did an amazing job I feel like he will not be ready for the grade he is to be in next. I feel like kids motivate each other. Remote learning was difficult on all of us. Being a healthcare worker I had to find someone willing to help me with remote learning as well as care. I feel our children really lost out on their education.	6/26/2020 2:48 PM
2430	I would like to thank all the teachers and administrators for their patience and grace during the at-home learning and extend my gratitude and appreciation for the efforts of all the school staff, etc for keeping our kids safe, healthy, informed and engaged during a difficult and scary time.	6/26/2020 2:47 PM
2431	I am in favor of in-person school and adhering to the guidelines that will be in place. I know we may be restricted but I believe in-person school is far more beneficial for the students, including for their mental well being.	6/26/2020 2:47 PM
2432	In person learning, no masks and no social distance. The children need to interact with their peers and teachers and they thrive off social interaction and structure. If harsh restrictions are put in place I pull my children from D51 and homeschool them.	6/26/2020 2:46 PM
2433	Remote learning needs less subjects. Parents can't keep up when they're also working or struggling financially. School work should be optional during these times.	6/26/2020 2:46 PM
2434	na	6/26/2020 2:46 PM
2435	I will be extremely disappointed of kids do not go back to in person learning this fall. You have to know that when parents work full time and kids are in daycare all day the last think either will want to do after a long day is remote school. There has been almost 0 evidence that kids pass this to adults. And if they don't go back to school they will be in daycare across the valley with kids from all over. At least in their school most are from the same area. Also I imagine daycares well become overwhelmed leaving parents with no child care and having to choose between a job and child care.	6/26/2020 2:46 PM
2436	Please only reopen schools if there is a consensus among the scientific community that it is safe to do so. Please do not bow to pressures from parents or the business community at a risk to our children and families.	6/26/2020 2:45 PM
2437	I hope the district can act based on the best interest of the kids without CYA based thinking.	6/26/2020 2:45 PM
2438	Please don't hurt or youth. If it is safe to go to Walmart it is safe to go to school.	6/26/2020 2:45 PM
2439	Kids need to be in school, not remote learning. Please this is critical for our children	6/26/2020 2:45 PM
2440	Digital learning should be more rigorous at the high school level. Seemed like a lot of "busy work".	6/26/2020 2:44 PM
2441	Thank you for working so hard to figure out what is best for our kids' education during this unusual time. We really appreciate how much time and effort you are putting into everything!	6/26/2020 2:44 PM
2442	My son did not do well with the full remote learning. He is a very hands on learner. I really hope there is a solution that allows them to attend school atleast 3 days a week for instruction purposes.	6/26/2020 2:44 PM
2443	Please don't reopen fully if Covid cases are on the rise. It's better to be safe and learn from home.	6/26/2020 2:43 PM
2444	I hope kids will be able to attend a normal school atmosphere next year. Kids/families should feel comfortable to attend without being required to wear masks, or maintain separation among peers.	6/26/2020 2:43 PM
2445	We will not be attending any classes that require masks or other onerous rules and regulation.	6/26/2020 2:43 PM
2446	No	6/26/2020 2:43 PM

Fall Planning Survey 2020

2447	None	6/26/2020 2:42 PM
2448	I think masks should be mandatory. If people refuse to wear a mask or have their child wear a mask then they should not be allowed in the buildings.	6/26/2020 2:42 PM
2449	We will not send our children back to D51 If masks are required.	6/26/2020 2:42 PM
2450	Not at this time	6/26/2020 2:42 PM
2451	Thunder mountain and Central did an excellent job with my four kids (last year four with one graduate). It was hard on me but my kids did fine. If we can go back to normal that would be awesome!	6/26/2020 2:42 PM
2452	My survey feedback is based on schools upending without major restrictions such as face masks, 6 feet distancing in classrooms, no recess, lunch in classrooms, no PE - music etc. if there are heavy restrictions like these our children will not go back to face to face learning in the building.	6/26/2020 2:41 PM
2453	Please do not have remote learning. I am a single mom working 2 jobs and it was incredibly difficult for both of us.	6/26/2020 2:41 PM
2454	Remote learning was fun for us. It seems most parents want their children back in school because they don't ant to deal with them. I will support whatever the School district decides.	6/26/2020 2:41 PM
2455	Masks are too much for young children as is social distancing. I believe that this is causing anxiety issues with many. Please consider the anxiety of all the students and the staff	6/26/2020 2:41 PM
2456	Will not be sending my children to school if masks are required or would I affiliate their home schooling with a D51 online school.	6/26/2020 2:41 PM
2457	I'd prefer hybrid over masks and isolation .	6/26/2020 2:41 PM
2458	I don't foresee a way to safely reopen school at 100% please do hybrid or 100% remote learning, my kid will attend WCCC, that just about has to be in person but the rest can be done remotely.	6/26/2020 2:40 PM
2459	Thank you for all you do. If you were to do a hybrid, I would prefer half days instead of every other day or 2 days on/ 2 days off.	6/26/2020 2:40 PM
2460	Keep our children safe.	6/26/2020 2:40 PM
2461	Our kids have the most amazing teachers and for the most part did well during home school this past Spring. It was difficult for our 6th grader who was overwhelmed with the amount of work, but his incredible teachers helped him develop a plan to help him. For our 3rd grader, it was more difficult because he is on the autism spectrum and struggled with not having his learning routine be consistent, was anxious about if or if not school would return, as well as struggling with assignments because he didn't have his peers/teacher by his side. I am sure many students out there felt the same way. It will be a struggle for us if students have to go to school wearing face masks, etc. especially with our youngest. There would be a slight possibility of us looking into alternative options if the new school year would cause more anxieties than a normal year would. Thank you in advance for all that you are doing in working on a plan for this fall.	6/26/2020 2:40 PM
2462	I will not be sending my children to school if it will require them to wear masks, daily health checks, loss of recess and being treated like a walking germ. For the mental health of my kids I will not subject them to this. I know many other parents that feel the same way. My kids will homeschool if this is the case.	6/26/2020 2:40 PM
2463	Way to go D51 and teachers! You have had to learn to change on the fly and make the best out of the circumstances that have been given to you.	6/26/2020 2:39 PM
2464	My kids don't learn well from me. Remote learning was very hard in terms of not learning with their peers and teachers. And that was only with 2 of my kids. Now I will have three kids in school and my daughter going into kindergarten really NEEDS the face to face learning from someone other than me, her mom.	6/26/2020 2:39 PM
2465	No	6/26/2020 2:39 PM
2466	No	6/26/2020 2:39 PM
2467	We prefer in-person 100% learning, however, we are open to a hybrid option. Fortunately my	6/26/2020 2:38 PM

Fall Planning Survey 2020

work is flexible enough that I can manage having my kids (all of them) at home if necessary; having different kids home on different days will be challenging (we have two at Appleton in different grades and have a 7th grader at Redlands and 7th grader at East (challenge).

2468	Preferably keep the community safe and continue online education. This is the safest decision of all. My child deserves only the best.	6/26/2020 2:38 PM
2469	N/A	6/26/2020 2:38 PM
2470	If we do need to do remote learning the teachers really need to insure a more direct form of communication with what is expected of the kids (work wise) so that We know what to hold them accountable for. Because it will require the parents to so much more involved, We also need a way to see what has been done and not done according to the teacher so we can correct lack of work or if it is a technical issue.	6/26/2020 2:38 PM
2471	As both an employee and a parent, anything other than in-person learning will be a nightmare for our family. It will require my husband to potentially re-arrange his schedule and/or cut down on his work hours to stay home with our child on days she may not be able to attend school in a hybrid model. We cannot afford daycare. Online learning did not meet her academic needs and impacted her emotional stability.	6/26/2020 2:38 PM
2472	If D51 schools don't get back to in-person face-to-face learning. Why would I give my money to the district? There are other better qualified online schools available to enroll my kids in. I would rather they attend classes at CMU or enroll in a qualified program the give my money to the district for it to be wasted.	6/26/2020 2:37 PM
2473	Thanks for all the hard work planning for next year.	6/26/2020 2:37 PM
2474	Remote learning was terribly unsuccessful. Our children didn't learn anything. In addition I feel kids need consistency and social interaction. In addition taking away recess or physical education is not an answer. It is not good for the children and their emotional wellbeing.	6/26/2020 2:37 PM
2475	Let the kids be kids. Keep hand sanitizer available and wash stations for lunch. Other than that let them be kids. No masks no reduced number of groups	6/26/2020 2:37 PM
2476	Na	6/26/2020 2:37 PM
2477	If 100% remote learning in 2020-21, we will put our children in an organized home-school program with adequate teacher support and hard-copy materials. Otherwise, I feel my children will not have access to adequate instruction and will not be prepared for ongoing school learning/advancement.	6/26/2020 2:36 PM
2478	Remote learning was incredibly difficult for both my son and myself. He needs to be in school and held accountable daily for his work. The technology to submit assignments didn't work half the time and we wasted time resubmitting assignments all the time. However, I will not have my son wear a mask. I will participate in home school groups before I let the school require him to wear a mask. Let the non risk children back in school and those that are scared or at risk can chose remote learning. Stop treating this as a one size fits all approach.	6/26/2020 2:36 PM
2479	I am against the requirement of facemasks or covid 19 vaccines. Schools should continue as normal or I will be homeschooling.	6/26/2020 2:36 PM
2480	Do what's best for the children and teachers health. I prefer consistency over inconvenience. You guys are not baby sitters and a pandemic is serious business.	6/26/2020 2:35 PM
2481	I understand that we would like to accommodate everyone but in reality I wish we would just let everyone either come back or choose to be online. If you want to come to school face to face then sign a waiver and come to school. If you want your child to have online then they will be instructed that way. Everyone gets only one choice and then roll with school. I am a school administrator and trying to meet everyones needs there will always be a "what if" situation or scenario.	6/26/2020 2:35 PM
2482	My 4th grader wants face to face school, my 9th grader is ok with either.	6/26/2020 2:35 PM
2483	I would like the school times to change, Elementary to begin at 8 a.m. and high school to begin at 9 a.m. or even later. Its been shown that high schoolers stay up later doing homework and such and benefit from later start times.	6/26/2020 2:35 PM
2484	As the school year approaches I know that there is a lot that needs to be weighed. We love our Loma Elementary teachers and learning environment, but if we will need to adhere to mask	6/26/2020 2:34 PM

Fall Planning Survey 2020

wearing, strict social distancing, or little to no recess or extracurricular activities. I think I would prefer to homeschool my children.

2485	If preschooler cannot attend in person, would need some sort of group for him to interact with others his age as that is why he is in school	6/26/2020 2:34 PM
2486	How will teachers that are also parents manage the workload and be a parent if there is a hybrid model?	6/26/2020 2:34 PM
2487	I'm concerned with so much focus being placed on students of color that this is going to create a new set of issues for the other students.	6/26/2020 2:34 PM
2488	Pomona did an excellent job with remote learning. GJHS not so much. I recurred very little info from a GJHS which made it very difficult to support my high schoolers. I hope the communication is better from the GJHS teachers this year., yes I know they are high schoolers and should have more accountabilityresponsibility but the parents still need a general idea of what the students should be completing each week and when they should be meeting remotely with teachers. Also by the way teachers should NOT ask students to meet remotely outside of the normally scheduled class time. It is impossible for kids to be two places at once.	6/26/2020 2:33 PM
2489	I was not pleased with most of the on line learning for Fruita Monument High School. I thought Redlands Middle did a good job. I know it was hard for the teachers to get things going last minute but several high school teachers only gave assignments and were very unresponsive to emails. I had to do my job and help my 4 children with their online learning and I would have expected some of the high school teachers who were getting paid to do their job to teach and not just assign homework.	6/26/2020 2:33 PM
2490	I think it is very important for our children to get back into the in-person classroom.	6/26/2020 2:33 PM
2491	I will not send my children should masks be required. In addition, if major social distancing rules are in place (staying in the same room all day, no specials or lunchroom) I would also seriously consider pulling my kids.	6/26/2020 2:32 PM
2492	No	6/26/2020 2:28 PM
2493	I would love for my daughter to return to face to face learning. Social distancing is fine. I do not want her to be required to wear a mask all day.	6/26/2020 2:27 PM
2494	You did not list ANY of the charter schools. My second child attends Independence Academy Charter School...	6/26/2020 2:27 PM
2495	I am very concerned for the lack of social interaction with my children. I understand the risks and hope the kids can return to in person learning August 10th.	6/26/2020 2:27 PM
2496	With our employers expecting us to be back full time, any type of remote or hybrid program would be absolute chaos for our family. I feel they would be safer in our schools then daycare centers. Please allow our students to go back a develop responsible protocols for them to do so.	6/26/2020 2:26 PM
2497	I truly understand the importance of masks, but I do not think it's reasonable to ask people to wear them all day, every day. This is especially true when teachers are doing read alouds, or providing direct auditory instruction. It's difficult to hear anyone who's speaking with a mask - as was clearly evidenced at the Board meeting, when members were removing their masks while speaking. Obviously, if board members cannot get their message across and be easily heard - BY OTHER ADULTS - while wearing a mask, it will be difficult for students and teachers in classrooms. Please put careful consideration into this aspect.	6/26/2020 2:26 PM
2498	If remote learning is required, there must be higher standards required from both students and teachers.	6/26/2020 2:26 PM
2499	No	6/26/2020 2:26 PM
2500	No	6/26/2020 2:26 PM
2501	If masks are required we will probably look into online education	6/26/2020 2:26 PM
2502	Personally, I am most concerned for my son's social interaction, or lack of, if we are forced to do remote learning. Being that he is 7 years old, I feel that those skills are most learned in early elementary.	6/26/2020 2:26 PM

Fall Planning Survey 2020

2503	Remote learning does not work well for kids with IEP and 504 plans. It is setting them up for failure.	6/26/2020 2:26 PM
2504	There has been talk nation wide about Plexiglas (or something similar) between desks, masks being required all day, kids not able to eat in the cafeteria, not being able to interact and play on the playground...I think this is all ridiculous and not manageable. If that is what reopening looks like I will not send my child as school is not just for learning. It is for social interaction as well. All of these would remove social interaction and take away what fun school is for kids.	6/26/2020 2:26 PM
2505	I hope that our students are allowed to return to school - it is so important for their social-emotional development...they miss their friends, teachers, and their school!!	6/26/2020 2:26 PM
2506	no mask!	6/26/2020 2:26 PM
2507	Success with remote learning requires a huge time commitment from parents to be successful (based on the end of the spring 2020 semester). Being able to do that long term and have parents working full time would be difficult.	6/26/2020 2:25 PM
2508	I as well as my kids would love to go back to school normally. If they have to wear masks and social distance i believe it would be a very big distraction and would interfere with their learning.	6/26/2020 2:25 PM
2509	The health of my children is my top priority. We fully support whatever the district feels is safe. Thanks for all of the hard work. Broadway was wonderful during remote learning.	6/26/2020 2:25 PM
2510	None	6/26/2020 2:25 PM
2511	The principal at Central is an awesome person and so good looking	6/26/2020 2:25 PM
2512	I just want everyone to carefully consider the risks of bringing back all of these children. It is pretty hard to social distance in a classroom regardless. They all breath the same air for an hour or more.	6/26/2020 2:24 PM
2513	concerned about universal guidelines to keep everyone as healthy as possible	6/26/2020 2:24 PM
2514	We can not wait to get back to school!	6/26/2020 2:24 PM
2515	Wearing masks would cause more sickness than health. There are bound to be cases but we must move on. The most struggling learners need in person learning.	6/26/2020 2:24 PM
2516	They felt that the quality of in class instruction was better then what they got online.	6/26/2020 2:24 PM
2517	The online learning tools at grand River are fabulous way for integrated learning	6/26/2020 2:23 PM
2518	I will not allow my child to return to the school building if required to wear a mask. Ill remove all 3 and independently homschool.	6/26/2020 2:23 PM
2519	No masks My child and I love our teachers and staff! We want/need to be with them! Teachers did an amazing job with what they had do and I think it's asking to much of them to teach remotely..especially in lieu of not paying them enough!	6/26/2020 2:23 PM
2520	thank you for allowing our input	6/26/2020 2:23 PM
2521	Not at time	6/26/2020 2:23 PM
2522	Not all of my children excelled at remote learning. Another option on the table should be homeschooling credits. Our taxdollars need to be used effectively.	6/26/2020 2:22 PM
2523	If my children have to wear a mask all day long they will not be attending public school	6/26/2020 2:22 PM
2524	Children need school. They need social interaction. they need teachers!!!!!!!	6/26/2020 2:22 PM
2525	I feel until there is a known vaccine for COVID, our community is safest with 100% remote learning. My son wants to graduate a FMHS Wildcat, but I feel it is our family's best interest for him to work remotely, as we do have at-risk family.	6/26/2020 2:22 PM
2526	Where is Independence Academy Charter School on this survey? They are still a local district charter!!	6/26/2020 2:22 PM
2527	The safety and physical well being of my family and our community is my primary concern. As a parent of a D51 student, and as a D51 employee, I cannot imagine a safe enough reality inside of the grade school buildings for in person /indoors learning with the virus situation that we are in now. The poor choices that our local and regional citizens have made, have shaped what	6/26/2020 2:21 PM

Fall Planning Survey 2020

appears to be another curve-ball spike in numbers, and I shudder to think of how this infectious disease could spread through our schools, and our families, the outcome of which, could potentially be more emotionally negative than longer lockdowns could ever be. Schools should not be forced to parent the economic and educational responsibilities that are ultimately each parent and/or guardian's. Safety for everyone is the priority.

2528	The teacher and staff did an amazing job setting the kids up for remote learning! My child cannot handle remote learning! It is very hard for her to focus at home or even at extended hours when time was available. It was not a great environment at home trying to get her to do remote learning. I work full time and am a single mother so I have no other options.	6/26/2020 2:21 PM
2529	I am crossing all fingers not to go back to online learning. It was miserable. I also am hoping we do not have to require children to wear masks. My 5 year old is going to end up terrified of the outside life if this situation continues and unless someone else wants to pay for her emotional scarring and my sons issues caused by this as well i would suggest you guys allow them to come back to school as normal. This covid situation is going no where	6/26/2020 2:21 PM
2530	Both of my students suffered emotionally from the virtual learning environment. My student who was in seventh grade at Mount Garfield never Met with his math teacher in a Google meet. They were given websites to do math homework on he had no interaction with teachers or students in that class. They missed their friends they missed their teachers they missed the structure. It is imperative that our students return to normal even if we have to implement some type of health guideline.	6/26/2020 2:20 PM
2531	Our children need the social and physical interactions provided through attending school. The mental health of our young adults are at an all time high. Human connection goes far beyond learning protocols. Our children need to be in school	6/26/2020 2:20 PM
2532	No	6/26/2020 2:20 PM
2533	My student will be attending classes at WCCC as well. Thank you~	6/26/2020 2:20 PM
2534	My child excelled during the online learning experience, however for courses like PE or theater I feel in school is preferable. I am a proponent of moving to hybrid learning this coming fall. I hope that even if school is open full time there is a hybrid learning opportunity available.	6/26/2020 2:20 PM
2535	We hated the remote learning I feel like my kid took a step back in education	6/26/2020 2:20 PM
2536	Please do not force our children to wear masks	6/26/2020 2:20 PM
2537	My children struggle with remote learning. There are way to many teachers posting to many things. Stuff gets lost. Assignments due different times. If there is not somebody sitting there with them all day long, nothing will get done. Both my husband and I work so if they are not in school, they will not get work done. They NEED in classroom guidance from their teachers. Not just a recorded video telling them what to do and refer to a certain website to explain how to do their work. My kids very rarely got out for exercise due to the amount of work the teachers piled on them. It may not have taken as long for some kids to finish if the teacher was there in person explaining how to complete assignments. It is way to overwhelming for kids to try to keep up with.	6/26/2020 2:20 PM
2538	The facts speak for themselves. District 51 kids have a much higher chance of dying in an automobile accident, from cancer or physical abuse then they do contracting Covid. What about all the children that need an escape from their horrible home life? School is their only safe haven - who speaks for them?	6/26/2020 2:20 PM
2539	If my kids have to wear a mask to school, they will not be returning. We are currently looking at home school options in case that is what happens.	6/26/2020 2:19 PM
2540	My Child will definitely be attending in person school unless masks are required, plexiglass is around their desks. If this is required, then we will look at home schooling.	6/26/2020 2:19 PM
2541	I will NOT send my children to school if masks or social distancing are required. Masks for the entire school day as suggested at one point is a 100% deal breaker for our family and I will not subject my children to this practice or procedure.	6/26/2020 2:19 PM
2542	I have been so extremely impressed with the school district over the last several months. A lot was asked of you in a very short time and the quality and efficiency of communication and action has been so welcome and helpful. Obviously, as we all still struggle, I am aware that we may need to adapt to some new normal this fall. If remote learning is still part of the mix, I	6/26/2020 2:19 PM

Fall Planning Survey 2020

would like to see less reliance on technology for the completion of assignments. I do realize that it will be necessary to obtain and remit assignments through an online platform, but the use of Chromebooks for several hours per day was detrimental to my children. I could see my naturally active kids become less active and, in fact, withdrawn during that period. Thank you all for your hard work during this time. I cannot imagine the pressure of the delicate balancing act you are all performing right now!

2543	Remote learning was difficult to accommodate during the health crisis. My husband and myself were both essential employees and having to make sure our 4 kids got their home work done while we worked was a chore in and of it self. It was a very stressful situation. I hated not being able to be there to help with their learning, and they didn't like the online learning. My children prefer to be in school learning like normal.	6/26/2020 2:19 PM
2544	I know masks have been a topic largely discussed. I would send my kids even if they are required to wear masks, but my preference would be that they don't have to wear one or only during certain times of the day (passing periods).	6/26/2020 2:19 PM
2545	It is really hard to rate the remote learning time that happened in the spring. We had mixed great days and bad days. Staff did amazing considering the timeframe! For the fall, we would like to see 100% in person, but understand that it is unlikely to occur. We would prefer to have our kids attend in person at least 1 day per week. They recognize how vital the in person teaching is to their learning. Thank you for all you're doing for ALL of the students! I appreciate every one of you.	6/26/2020 2:19 PM
2546	If my children have to wear a mask they will not be going.	6/26/2020 2:19 PM
2547	If my child would be required to wear a mask at school, I would not be sending my child to a District 51 school.	6/26/2020 2:18 PM
2548	I am very concerned about my young children wearing a mask all day. I think it will be a distraction from their learning.	6/26/2020 2:18 PM
2549	If the district requires a COVID vaccine for kid's to attend school, I will not have my children receive the vaccine. Because the vaccine will be new and there is no information on how it will impact people.	6/26/2020 2:18 PM
2550	As a high risk member of the community, much of my decision making will depend on adherence to sanitation best practices and overall prevalence of infection here in Mesa County.	6/26/2020 2:18 PM
2551	I would prefer he not have to wear a mask, but social distance when possible and utilize good hygiene.	6/26/2020 2:18 PM
2552	If you implement social distancing, troubleshoot ideas for recess and lunches. (For example: social distancing games led by leaders (aides) and picnic style lunches outside to expand eating options) it is possible. We are doing it with churches and Youth groups across the valley. It is more effort but you have paras that could be utilized for this and it would help retain students in the district. Also, please give some information regarding what middle and high school will look like. They obviously can't social distance with that many students.	6/26/2020 2:18 PM
2553	More communication. Not just by email/text. Maybe putting news and such at strategic places in the community. Like grocery store, library, churches, etc. maybe even more pro active news through media outlets. Control the accuracy/dissemination of information instead of leaving it up for interpretation. And have common message from district. Each school varies drastically. It gets confusing.	6/26/2020 2:18 PM
2554	remote learning was horrible for children with delays in elementary grade level. Children with routine or structure needed in thier special ed programs was not taken in to consideration, that this affected there day to day life and impacted thier learning. Children with special programs in elementary grades on speech therapy struggled and will be more delayed as other iep or special ed students will be as well. The school/district really needs to consider chrildren of all categories. As well as those with physical issues such as asthma that would not allow them to follow some guidelines in state and local requirements of mask usages. In school learning is better for most families who are working or students on iep/special education. Implementing things such as evey 30 mins the class washes hands with teachers present. Or anyone with a cough or fever sent home. Please consider ALL types of students when evaluating what to do for the 20-21 school year.	6/26/2020 2:18 PM
2555	I want to keep my kids safe but I also want them to really learn and both my husband and I	6/26/2020 2:18 PM

Fall Planning Survey 2020

	have to continue to work.	
2556	We will not be sending our child to D51 schools should face masks be mandatory.	6/26/2020 2:18 PM
2557	No	6/26/2020 2:18 PM
2558	I dont understand why you guys are taking so long to come up with answers for this school year. Denver had many more cases than we did and they are returning to school. I think you dragging this out is disrespectful and harmful.	6/26/2020 2:17 PM
2559	Let them be back to a normal life make memories interact with each other this 7 hours mask situation i don't believe is fair and not being able to play with the friends	6/26/2020 2:17 PM
2560	Keeping our child safe is our #1 goal. While I trust our family to adhere to proper social distancing and hygiene requirements I don't have faith in everyone he may come into contact with. It only takes one student to infect many more, and given the lasting (occasionally lifetime) side effects of COVID, this is something to take into account.	6/26/2020 2:17 PM
2561	My daughter struggled in her classes during distance learning because she could not talk to her teachers face to face when she had questions	6/26/2020 2:17 PM
2562	If any restrictions are implemented (masks, social distancing, no recess, no electives, no cafeteria, etc.) we will withdrawal all 3 of our children from D51. We will only send our children to D51 schools if school resumes as usual with NO restrictions.	6/26/2020 2:17 PM
2563	My kids have really missed seeing all of their friends and teachers, but honestly speaking I am nervous having them go to in person learning, if this virus hasn't gone away by then.	6/26/2020 2:17 PM
2564	Thanks for the work you are doing to try and satisfy so many varying opinions.	6/26/2020 2:17 PM
2565	If the kids go back to school wearing masks should be mandatory, no exceptions. I suggest that teachers should not be made to increase their workload doing both online and in-person teaching. It would not be fair on them. May I also suggest that homework assignments should all be electronic to limit teacher exposure to materials handled by students. Please stagger lunch and recess, if at all possible, to limit the number of students in the cafeteria/halls at any one time. As parents, we appreciate all you are trying to do to keep kids safe in these exceptional times. We realize that everything we would want you to do is easier said than done. Thank you!	6/26/2020 2:16 PM
2566	No	6/26/2020 2:16 PM
2567	No	6/26/2020 2:16 PM
2568	We need more engagement than our children sitting on the computer doing dreambox and lexia from 8 to 3, 4 and 1/2 days a week, wheres the STEAM? The Art projects and the Science? Even though it's online learning my 2nd grader struggled with lack of other projects and only dreambox and lexia. We need more and expect better for our children.	6/26/2020 2:16 PM
2569	If schools will operate following a hybrid plan of in-person and remote learning, it would be beneficial for both children to attend school on the same days. Can we group learning at middle schools and learning at their feeder schools so that older siblings are home with younger? Also, I am a teacher in D51 at yet a third school (Chipeta). I'm not sure how my schedule will mesh with my children's schedules, but this is a large concern (I am the primary caregiver for my children). Finally, I am concerned about the equity of learning between children who need multiple wraparound supports and those who do not require them; I am confident that D51 will put significant effort into supporting higher-needs families.	6/26/2020 2:16 PM
2570	With the virus numbers rising once again and with the lack of compliance in Mesa county, I remain concerned for the health of my family.	6/26/2020 2:16 PM
2571	I just want a smart responsible way to do things. 3 kids 3 different schools! Health and safety are my #1.	6/26/2020 2:16 PM
2572	My kids going to school face to face will depend on new rules and regulations. Will they be stuck in the same classroom all day? Will they have recess? Will the cafeteria be closed? Etc.	6/26/2020 2:16 PM
2573	If remote learning needs to continue, for younger students it could be improved with more frequent video conferencing or personalized interaction between the teacher & child. Also, the volume of emails we received was overwhelming for a 7 year old that is not accustomed to receiving emails or direction in that manner.	6/26/2020 2:16 PM

Fall Planning Survey 2020

2574	If it is required to do online learning again I would just like to know that all teachers are on the same page. During the last semester my son had some classes were his remote learning assignments were considered in his grade and others were they were not. Which is really upsetting because some of those were his core classes and they did not include his remote learning assignments in his final grade	6/26/2020 2:16 PM
2575	No thank you. :)	6/26/2020 2:16 PM
2576	No	6/26/2020 2:15 PM
2577	The kids can't live in a bubble. They are suffering socially and emotionally which are essential parts of growth. Please do your best to protect them, yet be allowed to experience life. Include parents in all decisions and give options!	6/26/2020 2:15 PM
2578	I appreciate all the work and dedication you have done for our students	6/26/2020 2:15 PM
2579	I feel like opening fully in person at this point is not in the best interest of our kids. Looking at the way the numbers are going up now I can only imagine how it will be once school starts.	6/26/2020 2:15 PM
2580	My Children go to Independence Academy Charter School and that is not on the list.	6/26/2020 2:15 PM
2581	As my husband and I are both "essential" workers we we're not able to provide them the support they need to learn online. They both suffered from the quarter of online learning. This was semi impactful for my kiddo who is above grade level. For my dyslexic kid with anxiety remote learning was incredibly hard. She is already behind and not getting the support she needs. The time at home put her even further behind. If there is a hybrid model my kids will only have support on days they are in school. My employer will not allow me to work from home any longer which means they will need care and none of the care options provided computer access for learning.	6/26/2020 2:14 PM
2582	I don't know what to think. I work for the district and want to keep my job. I want to send my daughter for face to face learning, but not if it will risk her health or put any of our other family members at risk (including us, her sister, grandparents, and great grandparents). We are completely depending on public health officials and statistics to guide us right now! I don't want to send my elementary aged child to school with impossible to follow precautions either - but I don't want to risk health for convenience. I just don't know. Whatever you do, please give us optionw!, and consider allowing staff with children being able to drop to part time, job share for a year if needed.	6/26/2020 2:14 PM
2583	If any social distancing is necessary for the 20-21 school year, I plan to pull my kids from the district and go with a homeschool curriculum.	6/26/2020 2:14 PM
2584	There is no way my child will succeed if " remote leaning " is used! My child had a 3.5 to 4 GPA. After this short "remote learning" session she went down to a 1.5-2. Not due to lack of effort. Due to lack of internet working, schoology working and just difficulty understanding online learning. It will be a disgrace and totally unacceptable if "remote learning happens again! AND kids need to have socializing. Enough is enough!	6/26/2020 2:14 PM
2585	If D51 goes to 100% online learning in the fall, our children will not attend D51 schools. There was no instruction from teachers to my high school aged children when we went online last year. I would enroll my children in other schools (private or an accredited, established online program).	6/26/2020 2:14 PM
2586	My student is a graduate of FMHS in the 19-20 school year.	6/26/2020 2:14 PM
2587	No	6/26/2020 2:14 PM
2588	Though our teachers put their all into making sure that the students got the most they could out of remote learning, I am disheartened that my child did not have the opportunity to grow due to remote learning as he would have in his in-person class. Being a kindergartener, I know he lost out on many academatic skills as well as language acquisition skills learning Spanish at DIA and I felt entirely ill-equipped to "teach" from home (and I am a secondary teacher!) With everything going on in the world, and adding in lack of social opportunities with other children and his "old-normal", I believe that my child suffered socially and emotionally as a result. While I was working from home, I also had a two year old to contend with and it put great stress on our entire family. When school resumes, my husband and I will both be working full time. If our oldest is not in school, we will have to put him in daycare full time, and, with our income	6/26/2020 2:14 PM

Fall Planning Survey 2020

unchanging , that will put a financial burden on our family. I take COVID seriously, but in looking at what is best for my child, he needs to be in school.

2589	High school students need friend interactions and a variety in their schedule that only in person learning can so	6/26/2020 2:14 PM
2590	Nope. Pretty much covered it all:)	6/26/2020 2:14 PM
2591	As a full-time working parent not having in school learning is just not feasible. My daughter will be starting high school, an already stressful time, and trying to navigate that online with teachers she does not have the opportunity to really get to know would just be a nightmare. I am also concerned about limiting group activities such as games, clubs, dances etc. These are formative years and the mental impact can often outweigh the physical.	6/26/2020 2:13 PM
2592	COVID is still out there. We see how adults are acting in the world. It makes me worry about my children and their safety out of our home. Our boys are still in shelter in place.	6/26/2020 2:13 PM
2593	Let the kids go to school	6/26/2020 2:13 PM
2594	I really hope outdoor learning could be used/implemented and recesses kept as normal. I don't think elementary kids will do well with masks (distractions, mostly), but maybe older kids. Hope they can get to see their friends again!	6/26/2020 2:13 PM
2595	If unsafe conditions keep going & the COVID-19 keeps spreading at alarming rates & people in the valley keep ignoring wearing masks, I think kids are absolutely unsafe in schools this year or any other time until folks take this virus seriously & they also find a cure too this problem!	6/26/2020 2:13 PM
2596	My husband and I are both well-educated and middle/upper class. We gave remote learning our best shot but it was still a disaster for us. The model resulted in copious amounts of screen time and we are still unclear whether our kids learned anything. Since my husband and I both work full time, we were not available to homeschool our children and give them the oversight they needed. Face-to-face learning is the only option for the fall for our family. Not putting kids back in school would have far- teaching economic impact and profound social/emotional impact for low SEC kids in our District who depend upon the support they receive at school. Please do every thing in your power to get our kids back in school.	6/26/2020 2:13 PM
2597	Many teachers tried. A couple went AWOL (Art,Math). Students and teachers need to be accountable whatever the decision is.	6/26/2020 2:13 PM
2598	I would prefer all learning to be in person as I am single father. Grandparents helped my daughter out a lot with the remote learning as I work long hours and even though the remote was ok given the circumstances I believe they do better with the full days being able to interact in all subjects as well as interaction with their teachers and friends. That was probably the hardest thing for daughter was not being able to see her friends and being in first grade seeing them outside of school was not really an option.	6/26/2020 2:13 PM
2599	My child needs to be back in a classroom her mental health is what is affected by the online learning however I do not want her wearing a mask.	6/26/2020 2:13 PM
2600	If the virus is still spreading I am very concerned about kids in schools. Kids are typically not very responsible about keeping their germs to themselves.	6/26/2020 2:13 PM
2601	IF my children were to go back to D51, there would have to be no masks and no social distancing. Due to the deplorable behavior of D51's handling of the Covid PLAndemic not to mention irresponsible handling of and dismissive behavior towards what parents wanted, my children will no longer be attending D51 schools	6/26/2020 2:13 PM
2602	No	6/26/2020 2:12 PM
2603	I think hybrid is the best schedule for kids! Not only are children carriers no teachers need to get sick! Numbers are on the rise again!	6/26/2020 2:12 PM
2604	Hybrid is the hardest. If all at home then I can be there. If hybrid I would have to hire someone.	6/26/2020 2:12 PM
2605	Just want my kids safe but please take them back!!	6/26/2020 2:12 PM
2606	I would be open to them going back to school as long as masks were a requirement and they have access to hand sanitizer, or they could carry their own.	6/26/2020 2:12 PM
2607	In school learning is essential for the 20-21 school year	6/26/2020 2:12 PM

Fall Planning Survey 2020

2608	Please do all you can to remain "normal" I also know I will not make my kids wear a mask! But please at least start the year at school, as an employee this is instrumental in establishing a classroom	6/26/2020 2:12 PM
2609	School attendance should be 100% in person or 100% remote. Anything in between would be a complete compromise and in my opinion a cop out.	6/26/2020 2:11 PM
2610	Fully online education robbed my child off the social emotional learning needed as a kindergartner and the speech services required for development	6/26/2020 2:11 PM
2611	Go back to the way it always was. Keeping everyone apart weakens your immunity. But that just my opinion	6/26/2020 2:11 PM
2612	If masks and social distancing measures are enforced, my 2 children WILL NOT be attending. Figure it out and stop being a sheep to Polis. This is all political (November election) and has nothing to do with health.	6/26/2020 2:11 PM
2613	I would like to see the kids go back full time, in person learning. My children did not do well with remote learning. Block classes for high school kids might be helpful. 4 block classes a day instead of 7 or 8 classes would reduce the number of interactions our kids and teachers have with others.	6/26/2020 2:11 PM
2614	My child will not participate in wearing a mask or social distancing as they need socialization and interaction with peers for emotional an social growth	6/26/2020 2:11 PM
2615	Part of what makes this stressful is the unknown. As parents it's hard to plan for so many different contingencies. My vote would be to just make a decision for distant learning and give us the necessary time to make the necessary responses. If things are fine, then pull us back in after Christmas. I recognize there are so many unknowns, but it would help me lower my stress to start mobilizing towards a doable plan, and if the virus is the limiting factor, then taking it to the virus' limiting factor, which is social distance, then remote leaning just seems like the direction we need to move in.....swallow it and let us begin to deal with it. I'm afraid my friends are holding out, assuming school will return and they will freak out when that isn't an option. At least tell us to prepare for that, and then let us be presently surprised if things are different...just my feedback.	6/26/2020 2:11 PM
2616	My younger children struggle with face masks. They already have behavioral concerns and forcing them to wear a mask would likely end with them getting in trouble.	6/26/2020 2:11 PM
2617	My 7th grader is already high energy and being forced to wear a mask, with limited social interaction or movement is an environment he absolutely will not thrive in. My kids will not wear masks.	6/26/2020 2:11 PM
2618	I think school is a place to learn and enjoy time with friends, I don't think we should involve our CHILDREN in ADULT matters. I believe we should protect them by being realistic and by not allowing the media to manipulate ur or the growth and experience of our dear little ones.	6/26/2020 2:11 PM
2619	I don't know how I would do home learning for my son again. It was SO hard for both of us to try to teach him with also me working full time. I also think a hybrid model would be very difficult to manage in terms of trying to get my son different places each day and also paying or child card. I work full time and also have another child in daycare.	6/26/2020 2:10 PM
2620	I am a teacher in your school district and desire for my children, both my own kids and students, to return to face-to-face. But I also don't want them Or myself to get sick, so I am hoping return will still be done with pre-cautions.	6/26/2020 2:10 PM
2621	I will not send my kids back to in person learning if masks are required for students (and staff). I'll also be more likely to commit to remote learning (or a hybrid) if I know there is a plan in place for them to at least return back to school after winter break.I just don't know what I'll do if it is a full school year of remote learning. Really difficult for elementary ages.	6/26/2020 2:10 PM
2622	I understand the need to take health and safety seriously and that SD51 ultimately has to follow MCPH guidelines. However, my concern is that 100% remote learning is not possible to maintain with working parents. I'm concerned that my children may not thrive, academically, if that it is the chosen model because working parents and daycare providers may not be able to devote the time and attention needed to help students with daily remote learning. I'm especially concerned for this with my child starting Kindergarten as children of that age may have limited exposure to and understanding of the technology required to complete remote learning.	6/26/2020 2:10 PM

Fall Planning Survey 2020

2623	No	6/26/2020 2:10 PM
2624	Please allow our children to return to school in person! They miss socializing with friends and sports programs.	6/26/2020 2:10 PM
2625	Appleton staff did a great job of adapting to the remote learning needs. The staff are to be commended for their efforts. I gave a 3 on the remote learning experience because it was almost impossible for our family to have two parents working from home while trying to maintain learning. Despite our efforts, the kids weren't in learning mode at home; there were too many distractions. Thanks for all you do to support our students.	6/26/2020 2:10 PM
2626	I think that remote learning even though it has good intentions is very hard on the family as a whole. One of my children has ADD and one of my children has ADHD and at home remote learning is very difficult when a parent maybe isn't always able to help and maybe doesn't even understand exactly what they're learning not to mention Internet services chrome box and all the other things that go along with having to help that student do their work. A lot of parents work eight hour days and having to go home and sit with your child to help them for another four hours of work is just very overwhelming	6/26/2020 2:10 PM
2627	With decisions being left so last minute as to the planning what reopening will look like, there is a high probability we will move ahead with virtual/ homeschool so that we are not left the the possibility of being unprepared for the school year. Too many arrangements would need to be made including childcare, education plan, which days of the week or hours, etc. Leaving us a handful of days to try to figure out what to do with the options in front of us is not especially reasonable.	6/26/2020 2:10 PM
2628	Please do NOT require them to wear masks.	6/26/2020 2:10 PM
2629	I think all my kids are different. I would allow some to go remote cause they were very successful, elementary had more work than high school he would go back if there was t stipulated	6/26/2020 2:10 PM
2630	No	6/26/2020 2:10 PM
2631	I will not be sending my kid to school if there is requirements for masks or social distancing	6/26/2020 2:09 PM
2632	It is bast for my kids to do learning in person. With having both parents working full time. I feel I really let them down with the remote learning and the little one just seemed not to focus after 5pm. To her school should be over not taking over lunch and play time.	6/26/2020 2:09 PM
2633	Why isn't Juniper Ridge Community School offered as a choice for the D51 schools. I understand it is a charter school but it adheres to the district's guidelines and serves 350+ students in our community.	6/26/2020 2:09 PM
2634	No	6/26/2020 2:09 PM
2635	This has been a struggle for all involved, not just the students. Thank you for all you have done! GO TIGERS!	6/26/2020 2:09 PM
2636	We have two full time working adults and would rather our children attend in school without restrictions. If there are any restrictions that Denver is talking about only one of our children can handle not being able to leave a classroom and wearing a mask all day. We would rather have remote learning if this is the case.	6/26/2020 2:09 PM
2637	Masks should be required for everyone. Desks should be facing forward and distanced. The teacher should be behind plexiglass to protect them further.	6/26/2020 2:09 PM
2638	I would rather my children don't wear masks if they need to attend. I am flexible and willing to work with the regulations, but do not feel that masks are the best hygienic option. Also, I want to make sure my children will still be allowed outside playtime/exercise.	6/26/2020 2:09 PM
2639	No	6/26/2020 2:09 PM
2640	I would preferred a normal school year no masks.	6/26/2020 2:09 PM
2641	Since both of my children will be attending schools and systems new to them (6th & 9th), being able to at least start in person would be the best option for them. Building relationships and trust is so much better this way. They also greatly benefit from getting to know classmates and having social interactions. Missing out on these was so hard last quarter!	6/26/2020 2:09 PM

Fall Planning Survey 2020

2642	It's kinda pointless to send them I get parents needing to work but schools not daycare	6/26/2020 2:09 PM
2643	I would like to see the district adopt a similar plan to Poudre School District. Have 4 phases identified that can easily be changed base on current public health recommendations. Phase 4 - 100% in person Phase 3 - Hybrid Learning (group A - M/W, group B - T/Th in class, Friday-all students online learning Phase 2 - online learning with the exception of small class groups (<10 students) for specific group projects. Phase 1- 100% online learning. I anticipate the need to shift in and out of these phases based on rate of disease transmission in Mesa County.	6/26/2020 2:09 PM
2644	I feel like the teachers did a great job but distance learning is hard for a kindergartner.	6/26/2020 2:09 PM
2645	A lot of parents love that schools provide free daycare for their children but this needs to be about the safety of everyone including kids and teachers.	6/26/2020 2:09 PM
2646	There is no realistic way to require masks or social distancing for children. The infection rate is minuscule for most children. Please let them get back to life.	6/26/2020 2:08 PM
2647	Skip this year start next year, kids dont social distance	6/26/2020 2:08 PM
2648	My kids hated online schooling . I feel they did the work but didnt learn alot from it as they only did it cause i was at home to force them to do it .it put alot of stress on our relationship as a family and there was no teaching to the middle school students just work handed to them and a short video or instructions on what to do . I do not want to homeschool my kids thats why i have them in public school. Not a good experience at all for our family . When you have 4 kids at home and a baby its not possible	6/26/2020 2:08 PM
2649	I think D51 is doing a great job at handling situations as they suddenly come up.	6/26/2020 2:08 PM
2650	Would like to know up front what the plan is if in person learning resumes and positive tests start coming in not only for the student but if family of a student test positive what will the response be. A transparent and upfront plan that will be followed will go a long way to help families make safe decisions for themselves. Thank you for the opportunity and good luck with all of your planning.	6/26/2020 2:08 PM
2651	My oldest will be going to WCCC and GJHS. I'd like to see him do a hybrid of core classes at home and WCCC In person face to face learning	6/26/2020 2:08 PM
2652	Nope	6/26/2020 2:08 PM
2653	No	6/26/2020 2:08 PM
2654	The teachers did an amazing job with the online instruction; i had no issues with that. My boys need a classroom structure and online did not work for them because they need to be in a classroom environment. I am a single working parent; i don't have the time or patience to teach .	6/26/2020 2:08 PM
2655	I know some people are upset by all of this, I think 4th quarter ran the best it could given the circumstances. I am disheartened by some people's take on the situation. I would hope restrictions are put into place for students and staff in the fall. I also know, that we have to follow guidelines put forth by our health department. Please take into account parents not having many days to take off of their work of their children get sick, especially if they get Covid 19, that will put a huge strain on working families.	6/26/2020 2:08 PM
2656	We are not the eastern slope.....Jeff Kuhr needs to realize that. Remote learning was a disaster last spring so we're keeping fingers crossed that schools will fully open this fall.	6/26/2020 2:08 PM
2657	I think it will be impossible to make everyone happy. I do think that it will be too hard to keep kids wearing masks all day and/or keep them 6 feet apart. Because of this, I think it would be better to do partial school and partial home learning. I will be able to accept what the district decides because I have a flexible job.	6/26/2020 2:08 PM
2658	If my child is not in school due to guidelines, then she will have to be in childcare due to my schedule, which will go outside of guidelines and mitigate efforts to not have children together. If children are going to be forced to be in groups, with parental supervision, because of parents' schedules, then having them in their learning environment instead of a daycare would be more beneficial.	6/26/2020 2:08 PM
2659	No	6/26/2020 2:08 PM
2660	We will pull out and file a homeschool exemption if it is not 100% normal school	6/26/2020 2:08 PM

Fall Planning Survey 2020

2661	If children are not able to interact with their peers and benefit from social interactions remote learning should be implemented. If children will be required to wear a mask all day, sit/eat at their desk, and bus routes or schedules make it harder on working parents then the district needs to determine a model that will work for both in-person or online options. If children will not be able to play sports or safely have connections with their friends and teachers I personally will not send my children to in-person teaching as it feels like that is worse for their mental health than remote learning and interacting with their peers as parents deem fit. Thank you all for your hard work.	6/26/2020 2:08 PM
2662	I want in person learning with no masks or modifications	6/26/2020 2:07 PM
2663	I have 4 kids. One of them would do amazing online. She proved it with her grades. The others would not at all	6/26/2020 2:07 PM
2664	No masks - yes recess - this is no different than flu season - enough is enough!! NORMAL SCHOOL OR. NO SCHOOL!!	6/26/2020 2:07 PM
2665	My child became very lonely during the quarantine and remote learning. I am concerned over the lack of person to person interaction of last year. I feel the isolation of remote learning was bad for her mental health	6/26/2020 2:07 PM
2666	Thanks for all your hard work. My family will happily adhere to whatever precautions D51 & MCPH deem necessary for in person learning, including masks.	6/26/2020 2:07 PM
2667	I would prefer a mixture of online and in-person learning so that there could be smaller class sizes. I didn't feel like my daughter learned much with remote learning and had very little feedback. If remote learning was similar to how it was for the last quarter, I would look at alternatives including an online program that challenges her.	6/26/2020 2:06 PM
2668	Stay safe	6/26/2020 2:06 PM
2669	I will not be sending my child back in a mask	6/26/2020 2:06 PM
2670	I will only send my child to in persons school if no masks are required and as long as recess, specials and lunch I. The cafeteria with their peers remain in tact. If masks are required and extreme social distancing rules are implemented I will pull my children and enroll them in a non-D51 affiliates school	6/26/2020 2:06 PM
2671	Remote learning did not work well for our family. Please please do what you can to have in person learning and regular schooling. It's SO important for our little one!	6/26/2020 2:06 PM
2672	No	6/26/2020 2:06 PM
2673	Please let them be back in the classroom. Also, there should be parent-teacher conferences regardless of the situation, if necessary by Zoom.	6/26/2020 2:06 PM
2674	I remain concerned about the kiddos returning to school	6/26/2020 2:06 PM
2675	I think under the circumstances you are doing an amazing job! Please and Thank you for keeping remote learning a possible choice and supporting the parents input/decisions	6/26/2020 2:06 PM
2676	Thank you D51 for all you're doing to navigate through all this uncertainty. You are appreciated!	6/26/2020 2:06 PM
2677	I am uneasy about my child in a mask for 7+ hours a day. I am concerned about school not being an enjoyable experience due to loss of recess or cafeteria. Social aspects of school are many times more important than some of the learning done. I understand this is a crazy time but I am seriously considering a real online/homeschool option over d51schools remote option. According to an article I read the other night... The district is using a program the state doesn't approve of for reading already and then moving to online will put our students further behind.	6/26/2020 2:06 PM
2678	I support the district 100% Thank you for everything you have done thus far to keep our students safety and education the primary focus.	6/26/2020 2:06 PM
2679	Thank you for all you do!	6/26/2020 2:06 PM
2680	I would like to see kids in school face to face in the fall. I choice MAYBE as the choice of sending them back because I am worried there will be too many restrictions put in place. I am not ok sending them back if it feels too institutional. Thank you for getting a survey out.	6/26/2020 2:06 PM
2681	I hope that as decisions are being made by the school district that science and health are the	6/26/2020 2:05 PM

Fall Planning Survey 2020

	driving factors and not pressure from parents and/or the community.	
2682	Keep our children safe	6/26/2020 2:05 PM
2683	N/a	6/26/2020 2:05 PM
2684	The remote learning is a joke!!! I'm sorry but with work and taking care of my kids we barely had time for school. My sons teacher was awesome and we missed her. My son was very confused on why he couldn't go back to school. You guys might want to work on that next time you left a bunch of kids confused as heck.	6/26/2020 2:05 PM
2685	I appreciate all of your hard work, time, creativity and effort to insure learning continues during the pandemic. Thank you	6/26/2020 2:05 PM
2686	I really hope there is at least some in person instruction, the kids mental health needs it.	6/26/2020 2:05 PM
2687	I am a child care licensing specialist for Mesa County Public health and a previous preschool teacher for 12 years. The biggest difference in illness between preschool and "big school" is the hygiene practices and cleaning procedures for older grades. I hope this help open eyes to fact that having kids washbtheir hands before meals and after being outside (at the minimum) is best practice.	6/26/2020 2:05 PM
2688	As a teacher in the district, having a hybrid of remote learning and face-to-face instruction would be impossible. Our family needs all of one or the other.	6/26/2020 2:05 PM
2689	We want to return to school with normal teaching and student interactions. We would NOT want social distancing or face masks to be mandatory.	6/26/2020 2:05 PM
2690	My children will not be able to do remote learning again it was not successful they are too young and need in person education....remote learning may work for older children but not early elementary children.	6/26/2020 2:05 PM
2691	I need my child in school face to face or she will fail this grade and it causes multiple family issues at school.	6/26/2020 2:05 PM
2692	I am not willing to have my children sit in class with limited contact with teachers and students, nor will I allow my children to wear masks or get the Covid-19 immunization. If these things are not required, than I am more than willing to have my children go back to in-person schooling!	6/26/2020 2:04 PM
2693	I will not do remote learning again. I also have a four-year-old that I need to attend to and through remote learning was not easy teachers but not email you back and my daughter did not want to do it we are not good with the computer	6/26/2020 2:04 PM
2694	Teaching and parenting at the same time was HORRIBLE! I cannot teach children and help my own children do remote learning at the same time.	6/26/2020 2:04 PM
2695	My child will not attend if facemasks are required	6/26/2020 2:04 PM
2696	My children need to be in school. They need the structure, education and encouragement that theY receive in class with teachers and their peers. Remote learning was incredibly challenging for 2 of my 3 children.	6/26/2020 2:04 PM
2697	my students will not be returning if mask are required.	6/26/2020 2:04 PM
2698	No	6/26/2020 2:04 PM
2699	None	6/26/2020 2:04 PM
2700	I don't think we can return safely because people refuse to wear masks. It's ridiculous to expect kids to do things that their parents aren't doing.	6/26/2020 2:04 PM
2701	I want my kids to be safe and if that means remote learning until a vaccine, I'm ok with that.	6/26/2020 2:04 PM
2702	I want my kids to go back to school in the fall, but really worry if they will have to wear a mask for 7 hours, i just can't have them doing that.	6/26/2020 2:03 PM
2703	I do not believe 100% in person attendance is safe, realistic or should even be an option.	6/26/2020 2:03 PM
2704	N/A	6/26/2020 2:03 PM
2705	our children will NOT wear masks all day at school. We will absolutely NOT send them with one and nor will we be okay with school officials requiring them to have one on.	6/26/2020 2:03 PM

Fall Planning Survey 2020

2706	N/A	6/26/2020 2:03 PM
2707	With the extra help our daughter needs for reading and writing. Remote learning was much harder for her.	6/26/2020 2:03 PM
2708	I just want to see the kids start school. I want to see sports back and let them be kids. I want to know my kid doesn't need to wear a mask 100% of the day and be exposed to lung issues.	6/26/2020 2:03 PM
2709	A hybrid Schedule would be horrible for our family because both parents work full time. I would rather be fully remote or fully in person	6/26/2020 2:03 PM
